1 Introduction

Papua New Guinea (PNG) has some of the richest biodiversity in the world and likely has more species of plants and animals than Australia, a landmass that is more than 16 times larger. Much of Papua New Guinea is covered in rain forest and most of the biodiversity is found within these forests, but the rugged topography also supports a variety of other vegetation types, including woodland savanna, montane scrub, and alpine grassland, which contain a significant fraction of the country's overall biodiversity.

Papua New Guinea has the world's third largest expanse of intact lowland rain forest (after Amazonia and the Congo) (Brooks *et al.*, 2006) and a vertebrate biota of 2146 species. The higher, mainly terrestrial, vertebrates comprises around 5% of the

world total (Table 1). However, the rainforests of Papua New Guinea are rapidly disappearing due mainly to logging and subsistence agriculture (Shearman *et al.*, 2010). Although there are 53 protected areas in the country, comprising an overall land area of 17,199 km² (Papua New Guinea Forest Stewardship Council and WWF, 2006), the loss of the forest within these areas exceeds that of the overall forest estate (Shearman *et al.*, 2010). The government of Papua New Guinea has recognized the need to develop a more robust network of protected areas and with support from the Global Environment Facility (GEF) has focused initially on two potential regions: New Britain and the general area that includes the Kokoda Track. This report focuses on the latter.

Table 1. Species Richness of Papua New Guinea and World Higher Vertebrates

Birds	10560	813	7.7
Mammals	5416	298	5.5
TOTAL	33455	1798	5.3

2 Physical and Cultural Setting

The overall region under consideration is a rectangular area of 105,610 km² designated as the Kokoda Outer Area of Interest (Kokoda Initiative, 2013) (Figure 1). It includes all of Central and Oro provinces, parts of southern Morobe Province, and parts of eastern and northeastern Milne Bay Province. This area encloses the Inner Area of Interest, a 19,023 km² rectangle that is

entirely contained within Central and Oro provinces and extends from the coast just south of Bereina, east nearly to Popondetta, and then 90 km south to the crest of the Owen Stanley Mountains east of Oram. The Inner Area of Interest contains the Interim Protection Zone (IPZ), a roughly oval polygon of 2378 km² that largely contains the Kokoda Track. The boundaries of the

IPZ roughly coincide with the northern and southern drainage basins along the Kokoda Track. In addition we added the Kokoda

Track itself, buffered by 10 km on either side, an overall area of 1673 km².

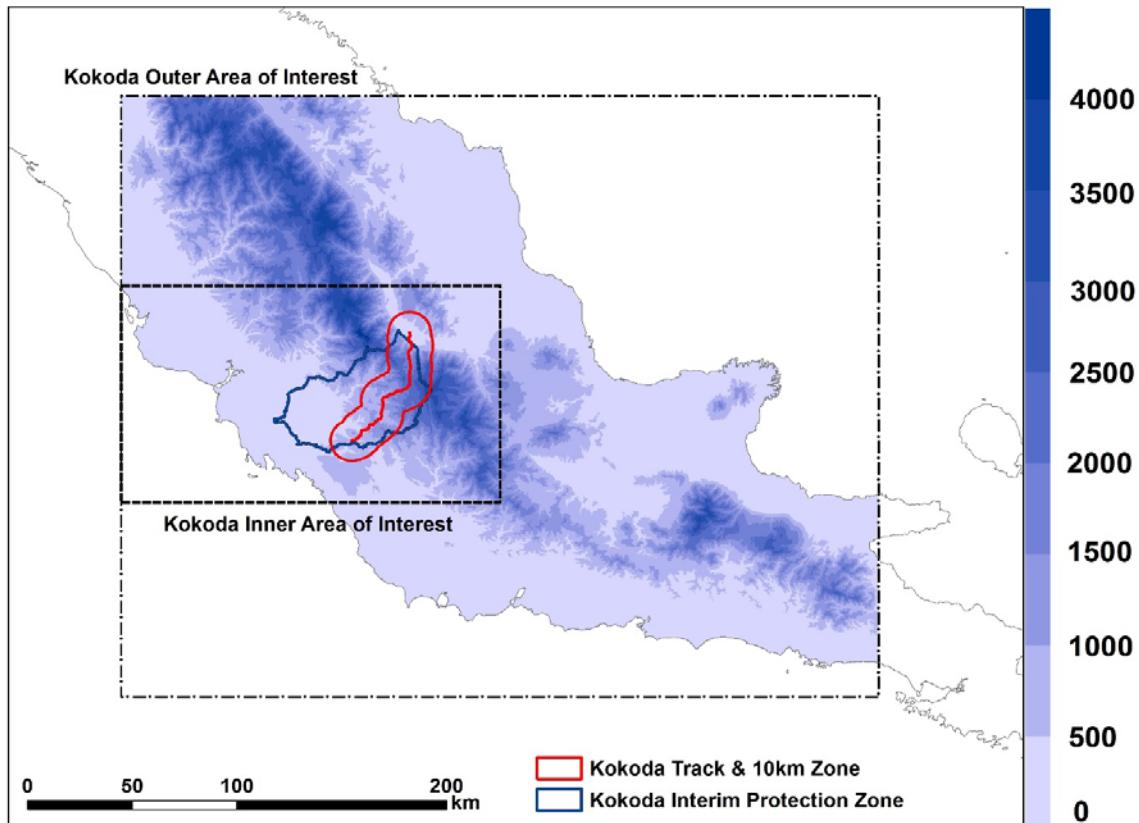

Figure 01. – Kokoda Areas of Interest (elevation is represented in 500 m bands).

The Inner and Outer areas of interest both include most of the major vegetation associations of Papua New Guinea, including mangrove and swamp forests, various types of rain forest, montane scrub, and alpine grassland. The Interim Protection

Zone lacks mangrove forest but includes all of the other major vegetation associations found in the Outer Area of Interest. It also includes significant areas of the north and south coast lowlands and the high peaks of the Owen Stanley Range that separate them (Figure 2).

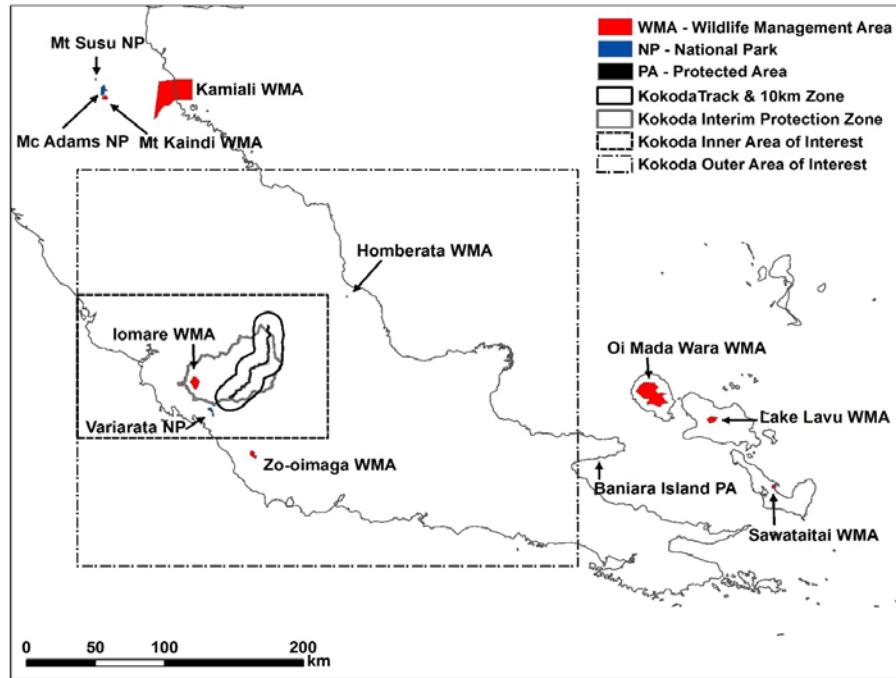

Figure 02. Protected Areas of Papua New Guinea.

The Owen Stanley Range is recognized as an important biogeographic barrier and a primary driver of evolutionary diversification between the north and south coast biotas, which are distinctly different from one another (Deiner *et al.*, 2011). In addition, the higher peaks of the Owen Stanley Range are inhabited by a distinctive montane assemblage of species (Archbold and Rand, 1935; Bell, 1971). Since the IPZ

includes all three assemblages, it is especially diverse and includes nearly half of the 1498 species of amphibians, reptiles, birds, and mammals found on mainland Papua New Guinea and associated satellite islands. The Outer Area of Interest has 897 vertebrate species, about 60% of the mainland Papua New Guinea total.

3 Protected Areas within the Kokoda Areas of Interest

There are four protected areas within the Kokoda areas of interest (Table 2; Figure 2), with a total land area of 6530.5 ha (63.4 km²). Two of these, Iomare Wildlife Management Area (WMA) and Variarata National Park, are located with the Kokoda

Inner Area of Interest and one, Iomare, occurs within the Interim Protection Zone. These protected areas overall comprise less than one percent of the land area of the Outer Area of Interest. The Iomare WMA comprises about 1.5% of the land area of the Interim Protection Zone.

Table 2. Protected Areas within the Kokoda Areas of Interest

Name	Area (ha)	Type
Iomare	3827.5	Wildlife Management Area
Homberata	130	Wildlife Management Area
Varirata	1063	National Park
Zo-Iomage	1510	Wildlife Management Area

4 Scientific Work

4.1 History of Biological Field Survey Work in Southeastern New Guinea and along the Kokoda Track

Much of the early history of biological exploration in Papua New Guinea involved European voyages of discovery that mapped coastal areas. The earliest expedition to reach southern Papua New Guinea was that of Luis Vaez de Torres, who in 1610 navigated the strait between Australia and New Guinea that now bears his name (Hilder, 1980). A number of subsequent voyages of discovery passed through the Torres Strait in the late 1700s and early 1800s, including James Cook in 1770 during the first of his three voyages to the Pacific, but most explorers took no specific interest in southern New Guinea and didn't make landfall there (Brosse, 1983).

In mid-1793 Joseph-Antoine Bruny d'Entrecasteaux, in command of the *Researche* and *Esperance* and in search of the lost expedition of La Perouse, reached the Solomon Islands and continued to the Louisiades. D'Entrecasteaux continued up the north coast of what is now Papua New Guinea, passing by the archipelago that now bears his name, to the Huon Gulf (which he named after Jean-Michel Huon de Kermadec, who commanded the *Esperance* until his death shortly before the expedition

reached the Solomon Islands) (Entrecasteaux, 1808). Three subsequent expeditions, also searching for La Perouse, Freycinet (*Urania*, 1817-1820), Duperrey (*Coquille*, 1822-1825) and D'Urville (*Astrolabe*, 1826-1829), and generally known as the scientific voyages of the Restoration and July Monarchy, mapped parts of the Papuan region but did not make landfall in eastern New Guinea.

Dumont d'Urville, in command of a second expedition (*Astrolabe* and *Zélée*, 1837-1840) that focused mostly on Antarctica, passed through the Louisiades and through the Torres Strait on his way back to France. Although he didn't make landfall on New Guinea, he named a few geographic features, including the Astrolabe Range, a prominent escarpment due east of present-day Port Moresby and visible from there (Brosse, 1983).

In 1842 the H.M.S. *Fly*, under the command of Francis Price Blackwood, charted the islands of the Torres Strait and the New Guinea coast along the western edge of the Gulf of Papua (Jukes, 1847). This was the first European expedition to find the Fly River, which they named after the survey vessel. Afterwards the expedition returned to

Australia, but four years later, one of the expedition's ships, the H.M.S. *Bramble*, under the command of Charles Bampfield Yule, continued the coastal survey of the New Guinea coast, reaching Redscar Bay, which they named. Nearby Yule Island is named after Yule, as is Mt. Yule, a prominent high peak located in the northern end of Central Province. The naturalists from this expedition, Joseph B. Jukes and John MacGillivray, made important early natural history collections along the coast (Jukes, 1847).

Three years later in 1849 the H.M.S. *Rattlesnake*, under the command of Owen Stanley, with two naturalists on board, Thomas Huxley and John MacGillivray (who was on the Fly Expedition), surveyed part of the southeastern coast of New Guinea, reaching the Louisiade Archipelago in early 1850 (Stanley *et al.*, 1851; MacGillivray *et al.*, 1852). Owen Stanley named the highest peak visible during the passage after himself. Although his expedition took place during the reign of Queen Victoria, he was operating under instructions from the Admiralty, at her request, not to name geographic features after her. However, once eastern New Guinea became a British Protectorate in 1884, the first European to climb the peak (1889), William MacGregor (then the Administrator), renamed it after Queen Victoria (MacGregor, 1890). The entire mountain range was named after Owen Stanley. Mt. Victoria, which straddles the Kokoda Track, is, at 4038 m, the highest mountain in the Owen Stanley Range and the sixth highest mountain in Papua New Guinea.

Other high peaks in the Owen Stanley Range were named after officers on the *Rattlesnake*, including, from east to west, Mt. Simpson, Mt. Dayman, Mt. Suckling, and Mt. Obree. Huxley and MacGillivray made important early collections, particularly in the Louisiade Archipelago. MacGillivray (1852) published an extensive account of the expedition.

In 1872–1873 Captain John Moresby, in command of H.M.S. *Basilisk*, charted the last remaining unmapped portion of the SE New Guinea coast. The H.M.S. *Basilisk* was a paddle-swoop, essentially a fully rigged sloop fitted with a steam-driven paddle wheel. With this means of propulsion Moresby was able to work close to the coastline, penetrating inlets and passages, to produce remarkably detailed charts. He was the first European to discover Port Moresby, naming the inner reaches of the harbor "Fairfax Harbour" and the outer reaches Port Moresby, both after his father, Sir Fairfax Moresby, a British admiral of the fleet with a long and distinguished record.

Moresby's initial surveys concluded with mapping the chains of islands and passages at the eastern end of New Guinea. He returned to the area in 1874 and continued westward from there, mapping the d'Entrecasteaux Archipelago and the entire northeastern coast of New Guinea up to the Huon Peninsula. Although he didn't undertake any natural history studies, the charts that he produced helped to bring early settlers to eastern New Guinea and to open interior New Guinea to scientific exploration.

From 1872–1877 Luigi Maria d'Albertis, an Italian naturalist, made several trips to New

Guinea. A gifted naturalist and by any standard a curmudgeon, he began working in the Vogelkop of western New Guinea but later explored the Fly River in a steam launch called the *Neva*. He also lived and collected on Yule Island in 1874. He later memorialized his exploits in a remarkable two-volume publication entitled *New Guinea: What I Did and What I Saw* (1880), with horrific details of interactions with local people.

A rather more staid natural history expedition commenced in 1875 when the arrival in New Guinea of the *Chevert*, a barque outfitted for scientific study by William Macleay, “a prominent politician, pastoralist and patron of science” (Hoare and Ruttledge, 1974), who funded and directed the expedition. Because of inclement weather and dissension among the scientists, the expedition was not able to ascend the Fly River but made important zoological collections from Katow (= Mawata) at the mouth of the Binaturi River. These were reported on in a series of herpetological publications by Macleay (1977a-e), but relatively little else resulted from the expedition. Macleay was heavily criticized in the press as something of a scientific dilettante and did not undertake further field work but did continue to support science in Australia. A memorial volume that was published following his death in 1891 included a wide range of publications but none arising from the Chevert expedition (Fletcher, 1893).

European settlers began arriving in small numbers following the establishment of a missionary settlement at Port Moresby by John Lawes of the London Missionary Society (LMS) in 1874. He was joined by an

LMS colleague, James Chalmers, in 1877. Chalmers quickly took an interest in exploration and traveled extensively along the SE coast and to the mountainous interior north of Port Moresby, recounting his adventures in a series of influential books and papers (e.g., Chalmers, 1880, 1885, 1887, 1895; Chalmers and Gill, 1885).

At around the same time, Andrew Goldie, a Scotsman, arrived in Port Moresby in March 1876 to collect plants for a London nurseryman. He briefly explored areas in back of Port Moresby but was forced to return to Sydney in December because of poor health (Mullins and Bellamy, 2012). He returned to Port Moresby in mid-1877, eager to explore the island to follow up on Macleay’s suggestion that it held “vegetable productions of great value” (Mullins and Bellamy, 2012). He was accompanied by two collectors, Alexander Morton and William Blunden, through an arrangement with the Australian Museum, Sydney. Accompanied by a surveyor, James Shaw, they extensively explored the Astrolabe Range and foothills of the Owen Stanley Mountains. Their discoveries included a large river that Goldie named after himself, and many important specimens of plants and animals. In December Moreton left for Sydney and the others began exploring other parts of the SE coast, concluding this exploration in early 1878 when Shaw and Blunden returned to Sydney. In the meantime Goldie established a trading store near Hanubada.

Assays of gold samples that Shaw and Blunden had obtained from the Laloki River soon produced a gold rush and in mid-1879 Goldie brought a small group of miners to his old camp on the Laloki River, returning

to his Hanubada store several months later. Government action eventually forced him to close that store. He relocated to Port Moresby, building its first trade store in 1887 (Gibbney, 1972). He remained a merchant there until he died in late 1891.

During his long residency in New Guinea, Goldie made many important discoveries and assembled important collections of natural history specimens and ethnographic objects (Mullins and Bellamy, 2012).

Although he originally saw himself as a botanical collector, he soon learned how to prepare bird and mammal study skins and preserve other animal specimens.

Entrepreneurial at heart, he was particularly interested in the commercial value of his collections. Many of his specimens were sold to museums – the bird specimens in particular went to The Natural History Museum, London, but also to museums in Australia. He also sold specimens, particularly birds of paradise, to private collectors.

Goldie is known to have maintained a network of collectors but he was also very active in the field. Nevertheless, his interest in the commercial value of his collections made him unpopular among scientists, with some accusing him of taking credit for discoveries made by others, particular his associate Carl Hunstein (Gibbney, 1972).

Hunstein, originally from Homburg, Germany and trained as a house painter, immigrated to the United States in the 1850s to join the gold rush in California. He continued from there to New Zealand to join the Thames Goldfield on the Hauraki Gulf in the late 1850s. Finding no success there he continued to Queensland, eventually

joining one of the early groups of miners to New Guinea. After failing to find payable gold, he began collecting natural history specimens.

During his first expedition in 1878 he reached mid-montane regions in the upper Goldie River drainage, obtaining a number of important bird specimens. For the next several years he worked for Andrew Goldie. He is generally credited with collecting most of the bird specimens that Goldie sent to Australia and England during this period. He is also the first biologist to have reached the mountains north of the Sogeri Plateau in the upper Goldie/Kemp Welch rivers drainage basin. In 1882 he accompanied Otto Finsch on an expedition to the Laloki River.

During the 1870s and 1880s there was growing German interest in the southwestern Pacific, with major trading firms such as Goddefroy and Sohn trading and recruiting plantation labor in the region. There was also growing recognition within the Australian colonies that New Guinea was potentially rich in minerals and other resources. For these and other reasons there was growing interest within the colonies of Australia, particularly Queensland, in favor of annexing New Guinea.

In 1883 the government agent from Thursday Island, H.M. Chester, annexed eastern New Guinea on behalf of the Queensland Colonial Government. Although this was quickly rescinded by the British Government, it led to discussions with Germany and in 1884 the British annexed SE New Guinea and the Germans annexed NE New Guinea, the Admiralty and Bismarck archipelagos, and parts of the Solomon Islands. The eastern border between the colonies was established along

the 8° S parallel (roughly in the vicinity of the Waria River). This had important implications for the Kokoda Track – then known as the Buna Road – because the entire track was within the political boundaries of what eventually became British New Guinea.

Carl Hustein, who had been working for Andrew Goldie, left in late 1883 to become an independent collector, returning to the upper Goldie/Kemp Welch where he succeeded in reaching mountains at around 1500 m, a much higher elevation than he reached in 1878. This resulted in the discovery of a number of new species of birds, including three species of birds of paradise (Finsch and Meyer, 1885, 1886). With the annexation of German New Guinea, Hunstein left to work for the New Guinea Company, initially accompanying Otto von Finsch to explore the north coast.

The proclamation of the British Protectorate was followed with considerable public interest within the colonies of Australia. This soon led to increased exploration of New Guinea from the Australian colonies, as well as from Britain. In 1884 two newspapers in Melbourne, the *Age* and *Argus*, funded competing expeditions to New Guinea. The leader of the *Age* Expedition, George Morrison, treated the local people poorly, with the disastrous result that he was shot with arrows in the headwaters of the Goldie River. He miraculously survived after a harrowing escape and was able to obtain medical treatment in Australia. With the help of a ghost writer he produced a short series of articles, but later destroyed all his notes out of disgust with the experience.

The Argus Expedition, led by William E. Armit, was much more successful, exploring the Astrolabe Range and Owen Stanley mountains towards Mt. Obree (Souter, 1963; Frodin, 2007).

The first trained scientist to work extensively on the Sogeri Plateau and the Owen Stanley Range in what is today the southern terminus of the Kokoda Track, was a Scotsman, Henry Ogg Forbes. After spending six years studying non-human primates and collecting scientific specimens in the East Indies (Forbes, 1885; Ellen, 1978), he obtained support from the British Society for the Advancement of Science and the Royal Geographical Society for an expedition to New Guinea.

Forbes arrived in Cooktown in August, 1885 with a team of Malay collectors. He fortuitously met up with Peter Scratchley, who late the preceding year had been appointed as the special commissioner for the British Protectorate of New Guinea. Forbes accompanied Scratchley to Port Moresby and then established a camp on the Sogeri Plateau in late September. Later in the year he accompanied Scratchley on an expedition to the north coast in which Scratchley contracted malaria and later died.

Scratchley had been very supportive of Forbes' work and had apparently promised some financial support. However, with nothing in writing, Forbes was unable to obtain funding through the new commissioner, John Douglas. Although short of money, he was able to arrange an expedition to Mt. Owen Stanley (=Mt. Victoria) in April with James Chalmers, but that ended disastrously when carriers deserted and he was unable to continue. He

returned to Cooktown in May, where he paid off his workers. Douglas promised some support if matched from other sources, and in the meantime offered Forbes a position as acting government agent on Dinner Island (=Samarai) at the eastern tip of New Guinea. Forbes served as government agent until March 1887, when he returned to Port Moresby to organize another expedition.

When funding failed to materialize, Douglas appointed him as meteorologist and later instructed him to explore the Goldie River basin and Owen Stanley Mountains. This expedition got underway in late 1887. Unfortunately, his carriers again deserted and ransacked his camp. Forbes returned to Port Moresby in early November and left for England in February 1888.

At the time Forbes was criticized for achieving little. Although he produced only a few publications from his work in New Guinea, he did document his itinerary and published an important map of the interior (Forbes, 1888). Although this too was later criticized as unreliable (MacGregor, 1890), many of the prominent geographic features, such as mountain summits around the Sogeri Plateau, are roughly in their correct positions. His collections of plants and animals, which were deposited mainly in The Natural History Museum, led to the descriptions of dozens of new species of plants and animals (e.g., Boulenger, 1888; White, 1923).

The special commissioner, John Douglas, was succeeded in September 1888 by William MacGregor, who was appointed as the administrator (and later lieutenant-governor) of British New Guinea. He served until 1898 and during his tenure led

numerous exploration expeditions to various parts of the country. His discoveries, often accompanied by maps, were published in the Annual Report to British New Guinea. MacGregor was often accompanied by natural history collectors and many important early specimens were obtained during his expeditions.

Inasmuch as Port Moresby provided relatively easy access to the Owen Stanley Range, a considerable amount of early exploration took place in the areas pioneered by Hunstein and Forbes. In 1893 an Italian ethnologist, Lamberto Loria, made extensive natural history collections in the mountains around the Sogeri Plateau. His collections led to dozens of publications describing new species of insects, amphibians, reptiles, birds, and mammals, mostly published in *Annali del Museo Civico di Storia Naturale di Storia Naturale "Giacomo Doria"* (see Poggi, 2010).

In the late 1890s, a little known collector, Alearce Savery Anthony, made a number of important collections of vertebrates, mainly birds, from various parts of the Owen Stanley Range, including an important collection from Mt. Victoria that included the first specimens of montane amphibians and reptiles from New Guinea. Anthony, who was originally from Mauritius, may have served as Macgregor's taxidermist (Papuan Courier, 1920; Lewis, 1996). He later guided Colin Simpson across the Buna Road, today's Kokoda Track (Simpson, 1942).

Other important collectors visiting British Protectorate included Emil Weiske, a German national. He immigrated to California in 1890, and, after collecting in

various parts of the Pacific, reached Queensland in 1895, and traveled to New Guinea in 1897. He remained there until returning to Germany in 1900. Weiske collected primarily in what is today Papua New Guinea's Central Province, including the Aroa River and Brown River drainages, obtaining mostly insects and birds.

There was comparatively little collecting on the northern side of the Kokoda Track until the late 1890s, when that region was brought under government control. The first significant scientist to visit the area was probably F.M. Bailey, the colonial botanist of Queensland, who accompanied Lord Lamington, the governor of Queensland, on an inspection tour of the region from the Mambare to Musa river valleys.

The region was later brought under full government control with the appointment of C.A.W. Monckton as resident magistrate for the northeastern division in 1900 (Souter, 1963). In 1903 his responsibilities were expanded to include the adjacent northern division. A larger-than-life character, Monckton soon established control over much of what is today Oro Province. During his tenure, which lasted until 1907, he conducted two major exploring expeditions. The first, in May-June 1906, was the ascent of Mt. Albert Edward. In late 1906 he undertook an even more ambitious expedition, walking from his headquarters in Mambare Valley to the Waria Valley (which was part of German New Guinea) and across the northern Owen Stanley Mountains to the Lakekamu River and the Papuan Gulf. He was reprimanded for this expedition, which had been justified as a border survey to deal with the intrusion of miners from German

New Guinea, and left the service (Monckton, 1921; Souter, 1963).

The first experienced zoological collectors to visit the northern region around the Kokoda Track were Albert S. Meek and the Eichhorn brothers, George and Albert, who worked in the Mambare Valley from January to April 1906. Several years earlier they had collected around the Aroa River on the southern side of the Owen Stanley Mountains (Heron, 1975).

During his 1906 expedition Meek collected extensively around a place he called Biagi at 5000 ft (1524 m) in the headwaters of the Mambare River. One of his most noteworthy discoveries was *Ornithoptera alexandreae*, the world's largest butterfly (Rothschild, 1907; Meek, 1913:161; Parsons, 1992). It is now endangered and is known only from a small area around Popondetta and from the nearby Managalase Plateau. Both localities are within the Kokoda Inner Area of Interest, but are outside the boundary of the Interim Protection Zone (Williams *et al.*, 2007). Although the precise location of the type locality remains unknown, it may be within the IPZ (see section 8.0).

Relatively little collecting activity took place in the years leading up to the First World War but increased towards the end of the war. In 1918, C.T. White, the colonial botanist of Queensland, accompanied the government geologist for Papua, Evan Stanley, on an extensive tour of the upper Laloki and Kemp Welch drainage basins.

From 1922 to 1924 the Commonwealth Inspector of Forests, C.E. Lane Poole, made a series of expeditions to New Guinea, collecting in the lowlands around Port

Moresby north to the Aroa River (Lane-Poole, 1925). He later collected in the lowlands in what is today Oro Province at the north end of the Kokoda Track, but also ascended into the interior along the track, making collections from “The Gap” (the highest pass along the track) in August 1922. In February 1923 he collected around Menari in the southern watershed along the track. Overall he made around 400 collections in Papua, including the first significant collections along the Kokoda Track.

Lane Poole was followed in 1925–1926 by a Queensland botanist, L.J. Brass, who collected extensively in the Kemp Welch drainage and other areas of Papua for the Arnold Arboretum of Harvard University.

Brass later joined the American Museum of Natural History’s Archbold Expeditions. Funded by Richard Archbold, and involving large teams of scientists, the first expedition collected along a transect extending from Yule Island on the coast to the summit of Mt. Albert Edward. The second expedition was to the Fly River but also included work at Rona on the Laloki River. The five subsequent New Guinea expeditions focused on places outside of the Kokoda region. The results of the Archbold Expeditions were reported in hundreds of papers and books and did much to advance our understanding of the biota of New Guinea. Brass’s field notes are deposited in the Queensland Herbarium, Brisbane.

In early 1933 Evelyn Cheesman, an entomologist associated with British Museum (The Natural History Museum), arrived in Port Moresby to arrange field work (Cheesman, 1935). This was during

the early days of air travel in New Guinea and she was eventually able to arrange for a flight to Kokoda, where she spent several months, ascending the Kokoda Track as far as Isurava. She then returned to Port Moresby by boat and continued on to Yule Island, where she briefly worked with the First Archbold Expedition. She went on to visit the Owen Stanley Mountains, collecting in the Angabanga drainage basin at the edge of what is now the Kokoda Outer Area of Interest. Cheesman, who did not have a paid position at the British Museum, supported herself and funded her expeditions by writing travel books. On the basis of where she went and what she accomplished, she is truly one of the giants of New Guinea biological exploration.

To this day the most prolific botanical collector to visit the Kokoda Track – then something of a network of tracks across the Owen Stanley Mountains – was C.E. Carr. Born in New Zealand, Carr spent most of his early years in Malaya, eventually managing rubber plantations there. In 1933 he joined the Kew Herbarium, leaving at the end of 1934 to conduct an ambitious expedition to New Guinea. From 1935 to 1936, sponsored in part by the British Museum, he collected in the lowlands around Port Moresby, eventually working his way to progressively higher elevations along the Kokoda Track (then known as the Buna Road) to “The Gap.” From there he worked the lower slopes of Mt. Victoria, reaching at least 2500 m, before descending to the north coast lowlands, where he made extensive collections. He returned to Port Moresby over the Kokoda Track but came down with blackwater fever (malaria) and died there on 3 June 1933. Carr made enormous and particularly thorough collections along the

track, including large collections of orchids (a group of particular interest to him) with many duplicates, obtaining upwards of 7,000 collections overall.

There was relatively little significant collecting activity in the Owen Stanley Range along the track in the years leading up to the Second World War. Surprisingly, there were some collections of plants, insects, and vertebrates made in the northern lowlands immediately following the cessation of hostilities there. In particular, an American, Phillip Darlington, who later published a classic book on zoogeography, collected insects and a few vertebrates around Dobudura (Wilson, 1991).

In the post-war period botanical work along the track noticeably increased, particularly after the construction of the Papua New Guinea National Herbarium in 1965, with at least 69 botanical collectors making collections within the Interim Protection Zone (Table 3).

The high mountains of the Owen Stanley Range continued to get significant attention, with more than ten collectors and collecting teams working on Mt. Albert Edward. P. van Royen, together with A.N. Gillison and J. Budreus, collected on the summit of Albert Edward and nearby Mt. Biota in January 1965. They were followed in August 1968 by C.E. Risdale, P. Woods, and M. Black – the latter two orchid specialists, but making many general collections. They were followed by D. Forman in July 1969. K. Paijmans followed a year later in August 1970 to study the vegetation and obtain collections as part of the Commonwealth Scientific and Industrial Research Organisation (CSIRO) Land Research

Surveys. J.R. Croft, L. Craven, and G. Hope worked on the summit of Albert Edward in June 1974, where Hope obtained material for his studies on vegetation change in New Guinea over time. A team of Japanese scientists under the leadership of S. Kurokawa collected mainly bryophytes in October 1975. P. Kores, a rhododendron and orchid specialist, made collections in April 1976. Tom Reeve, an orchid specialist, collected from the summit area in July 1979, followed a few years later by J.R. Croft, who returned to the summit to collect in December 1981.

There was also a fair amount of work on Mt. Victoria, with two major expeditions in the 1970s. J.R. Croft and L. Craven collected extensively from the summit and adjacent areas in 1973–1974. A few years later P. van Royen of Bishop Museum led an expedition to the summit region. Both expeditions made extensive collections in the alpine zone. Croft also collected extensively around Myola and on the slopes of nearby Mt. Kenevi.

Surprisingly, during recent decades there has been far less zoological work on the high mountains of the Owen Stanley Range. As already mentioned, the Archbold Expedition worked along a transect that essentially stretched from the coast near Yule Island to the summit region of Albert Edward in 1933. Harold Cogger of the Australian Museum collected amphibians and reptiles from the Murray Pass area in 1963, as did James Menzies of the University of Papua New Guinea in 1971. An ornithologist, H.L. Bell documented the avifauna of the area (Bell, 1971). The Department of Environment and Conservation conducted an expedition to Mt. Scratchley in the 1980s

or early 1990s, but there is no published report of their findings. G.E. Clapp (1984) spent 10 days studying the birds on Mt. Scratchley, listing 22 species. B. Beehler studied *Macgregoria pulchra* on English Peak in the late 1980s.

Most collections from the actual Kokoda Track are from areas at either end, which are accessible by vehicle, or the middle, which is accessible by plane. G.H. Tate, did,

however, collect mammals along the track from Ower's Corner to Kagi in 1937 (Archbold and Rand, 1940). In 2014 a team of scientists associated with the Bishop Museum, the PNG National Museum, and the Department of Environment and Conservation –A. Allison, O. Tallowin, B. Iova, T. Pratt, S. Kókay, and A. Kaiye – studied exotic pest species, amphibians, reptiles, and birds along the full extent of the Track.

4.2 Other Scientific Work in the Kokoda Track areas

From 1952 until 1977 the CSIRO conducted a series of comprehensive land studies in Australia and Papua New Guinea. Each study involved a team of scientists who focused on the climate, geology,

geomorphology, soils, vegetation, and land use potential of broad areas. These studies were published in series called CSIRO Land Research Surveys. The following reports are relevant to the Kokoda Areas of Interest:

- No. 10 – Buna-Kokoda Area (Haantjens *et al.*, 1964)
- No. 12 – Wanigela-Cape Vogel Area (Haantjens *et al.*, 1964)
- No. 14 – Port Moresby-Kairuku Area (Mabbutt *et al.*, 1965)
- No. 17 – Safia-Pongani Area (Ruxton *et al.*, 1967)
- No. 23 – Kerema-Vailala Area (Ruxton *et al.*, 1969)
- No. 32 – Land-form types and Vegetation in eastern Papua (Blake *et al.*, 1973)
- No. 33 – Explanatory Notes to the Geomorphological Map of Papua New Guinea (Löffler, 1974)
- No. 35 – Explanatory Notes to the Vegetation Map of Papua New Guinea (Paijmans, 1975)

4.3 Popular Publications on the Kokoda Track and Associated Areas of Papua New Guinea

There is a growing list of popular publications on the Kokoda Campaign and on the Kokoda Track. Some of the more recent titles include:

- Anderson, N.A. 2014. To Kokoda. Army History Unit, Canberra. 236 pp.
- Brune, P. 2003. A Bastard of a Place: The Australians in Papua : Kokoda, Milne Bay, Gona, Buna, Sanananda. Allen & Unwin, Crows Nest, NSW. ix+691 pp.
- Campbell, J. 2007. The Ghost Mountain Boys. Crown Publishers, New York. 378 pp.
- Collie, C., and H. Marutani. 2012. The Path of Infinite Sorrow: The Japanese on the Kokoda Track. Allen & Unwin, Crows Nest, N.S.W. 324 pp.
- Fitzsimons, P. 2010. Kokoda. Hachette Australia, Sydney. xviii+506 pp.

- Ham, P. 2005. Kokoda. HarperCollins, Pymble, N.S.W. xvii+602 pp.
- Happell, C. 2009. The Bone Man of Kokoda: The Extraordinary Story of Kokichi Nishimura and the Kokoda Track. Pan, Sydney. xiii+272 pp.
- Hawthorne, S. 2003. The Kokoda Trail: A History. Central Queensland University Press, Queensland. xiv+269 pp.
- James, B. 2012. Field Guide to the Kokoda Track: An Historical Guide to the Lost Battlefields. Third Edition. Kokoda Press, Lane Cove, N.S.W. xii+516 pp.
- Kienzle, R. 2011. The Architect of Kokoda: Bert Kienzle, the Man Who Made the Kokoda Trail. Hachette Australia, Sydney. xiv+338 pp.
- Ramage, S.P. 2014. Kokoda Secret: Ian Hutchison: Australian hero. Eora Press, Wahroonga, New South Wales, Australia. xxiii+359 pp.
- Williams, P. 2012. The Kokoda Campaign 1942 : Myth and Reality. Cambridge University Press, Port Melbourne, Vic. xvii+304 pp.

Ian Stuart produced a highly readable history of Port Moresby (Stuart, 1973). Stuart Hawthorne, who published a comprehensive history of the Kokoda track (2003, see above) also has recently

published a history of Port Moresby: Hawthorne, 2011. Port Moresby: Taim Bipo. Boolarong Press, Moorooka, Qld. x+310 pp. Addition works are listed in the bibliography.

5 Specimen Collections

5.1 Vascular Plants

To assess vascular plant diversity in the Kokoda Track areas we obtained a copy of the PNGplants database from Barry Conn of the Royal Botanic Gardens, Sydney, who directs the PNGplants Project. The database was assembled beginning in 2004 by obtaining all digital PNG specimen records from Australian herbaria and adding, through an on-going effort, all additional specimen data available in the PNG National Herbarium at Lae. Bishop Museum formally joined the collaboration in 2010 and has contributed some 31,000 PNG specimen records. Staff from the Lae herbarium are adding around 7500 records per year. PNGplants included 187,969 records as of 27 February 2015.

PNGplants is the world's largest and most comprehensive assemblage of plant specimen data from PNG. As such it is an enormously useful resource. However,

because the individual plant records are from a variety of different sources, the data vary in quality. We used GIS to extract all records from Papua New Guinea that had latitude and longitude coordinates that plotted to PNG, a total of 122,946 records. Approximately 28,200 records lack latitude/longitude coordinates and another 36,800 come from localities within Papua New Guinea but plot to areas outside the land boundaries of the country.

It is relatively straightforward to georeference Papua New Guinea plant specimens. We have compiled an electronic gazetteer with more than 240,000 place names from the Papuan region and have a large set of historical maps, maps extracted from a variety of publications together with the current 100K and 250K topographic maps for Papua New Guinea. In addition,

there are web-accessible resources such as the Cyclopaedia of Malesian Collectors compiled by M.J. van Steenis Kruseman (<http://www.nationaalherbarium.nl/FMCollectors/>). However, it takes around five minutes on average to georeference a single locality. The roughly 65,000 records that require review comprise a total of 27,389 unique localities. Resolving these would require about a year of one person working full time. We have developed protocols that greatly reduce this time by semi-automatically georeferencing localities to the nearest named place, but even that would require at least a month of full time work.

The size of the vascular plant flora of Papua New Guinea has been variously estimated to consist of 10,000 to 25,000 species. Shelley James of Bishop Museum is nearing completion of a checklist of valid Papua New Guinea plant species. Her checklist currently includes 10,313 species. This number is roughly compatible with figures that we tabulated from Höft's (1992) dictionary to the genera and species of plants from Papuasia: 1860 genera and 13,643 species. Heywood and Davis (1995) credit the World Conservation Monitoring Centre with an estimate of 15-20,000 species of vascular plants for the island of New Guinea. Roos *et al.* (2004) credit this to R.J. Johns, who in that same year (1995) published an estimate of 20-25,000 species of New Guinea vascular plants. Earlier he had suggested that there were 15-20,000 species of vascular plants in Papua New Guinea (Johns, 1993). Conservation International's report on the 1997 Irian Jaya Conservation Priority-Setting Workshop (Supriatna *et al.*, 1999) estimated that there were 20-25,000 species of vascular plants in Indonesian New Guinea. Govaerts (2001)

estimated that there were 16,203 seed plants in Papuasia (New Guinea to the Solomon Islands). In his guide to floras of the world, Frodin (2001) suggested that there were 15-17,000 species of vascular plants in New Guinea. Based on publication trends in Flora Malesiana, Roos *et al.* (2004) estimated that New Guinea had only 14,000 species of vascular plants. Some of these estimates, such as that of Govaerts (2001), include only currently recognized species of seed plants, while the estimates for Johns (1995) and Frodin (2001) included undescribed species of vascular plants. Estimates and compilations clearly vary rather widely.

Govaerts (2001) has asserted that there are at least 400,000 seed plants in the world, based on figures that he prepared for countries and regions while helping to compile world checklists of various plant groups. This suggests that the vascular plant flora of Papua New Guinea, assuming a figure of around 10,000 species, comprises only 2.5% of the world total. This contrasts rather sharply with the patterns for Papua New Guinea vertebrates, which comprise around 5% of the world total (Table 1). Myers *et al.* (2000), however, showed that in general there is no correlation between plant and animal diversity within tropical biodiversity hotspots.

In order to assess the quality of the data that we are using from PNGplants, we refined the data by updating and correcting family group names so that all records for flowering plants matched the families recognized by APG III (2009). We used a similar approach for ferns, based on a checklist assembled from Smith *et al.* (2006) and Rothfels *et al.* (2012). As part of the process we excluded all records of non-

vascular plants (e.g., bryophytes, algae). This produced a total of 13,010 vascular plant species for Papua New Guinea, comprising a total 2866 genera. This is considerably higher than the figure obtained from Höft (1992), suggesting that our dataset includes a large number of generic synonyms; Höft (1992) alludes to this problem.

Complete resolution of this issue will eventually require a critical re-examination of all taxa known from Papua New Guinea together with a thorough review and, where required, redetermination of the specimens housed in the PNG National herbarium. This is a massive undertaking. In the meantime we believe that the dataset of georeferenced specimens from the PNGplants database can provide useful insights into gaps in collecting coverage and to document relative patterns of species richness for the various Kokoda Areas of Interest.

In order to determine species richness for each area we assumed that each unique combination of genus and species comprised a species. This is a rather generous assumption. About 10% of the specimens have been identified only to genus. Without examining the individual herbarium sheets, we have no way of knowing whether these specimens represent species already present in the dataset or not. However, a significant fraction of them involve genera not otherwise represented in the dataset. In other words, if we left them out, we would potentially be excluding taxa that definitely occur in Papua New Guinea. On the other hand, by including them we are almost certainly over-estimating species richness because it is likely that at least some of these

“species” are already represented in the dataset.

It is also important to note that spelling errors, however minor, will also tend to inflate measures of species richness. Although it is relatively straightforward to check species names against authoritative sources, there is no available single authoritative source of valid plant species names for the world. This make validating species names something of a time-consuming task. In order to determine how best to proceed we listed the taxa by family, genus, and species in alphabetical order and manually inspected the listings to detect duplications due to spelling differences. The problem appears to be relatively minor compared to other sources of errors.

It is difficult to determine the proportion of specimens in the Lae Herbarium that are represented in the PNGPlants database. There is some evidence that certain groups, e.g., orchids, are under-represented in the database. This will decrease apparent species richness. Surprisingly, there are only 93 of Cedric Carr's specimens from the Interim Protection Zone represented in the PNGplants database (Table 3).

Papua New Guinea has had a long-standing requirement that the first set of all plant collections must be deposited in the Lae Herbarium. This would make Lae the world's largest repository of PNG plant specimens. Its holdings have been variously estimated to include 200,000 to 400,000 specimens. Some of these may be duplicates or from areas outside of Papua New Guinea. Although there is some duplication of specimens in the PNGplants database (e.g., data for the same collection held in different

herbaria), it appears to include most of the specimen records collected by herbarium staff since the new herbarium was opened in 1965, together with many earlier collections (Takeuchi and Golman, 2001).

After assessing the various issues mentioned above, we concluded that there was no obvious geographic bias to data quality that would preclude use of the data to compile relative measures of plant diversity and distribution in the Kokoda Areas of Interest.

In order to further assess the quality of our data, we examined the roughly 65,000 records in PNGplants that have not been georeferenced or have faulty latitude and longitude data. This group includes 9178 records from Central and Oro provinces representing 3751 unique localities. The number of unique localities was determined

using database techniques. This tends to overstate the total because all minor variants of a locality are included in the total. After inspecting the data we determined that it would be desirable to georeference these specimens to better characterize the flora of the Kokoda Areas of Interest, but that this is unlikely to change the rough measures of richness that we are able to obtain from the large number of usable records. There appears to be more than enough existing data to determine gaps in collecting coverage.

Plant collecting intensity in Papua New Guinea is shown in Figure 3. An expanded view of plant collecting activity in the Kokoda Areas of Interest is shown in Figure 4. The numbers of vascular plant specimens from the different areas is shown in Table 4.

Table 4. Collecting Intensity - Kokoda Areas (Kokoda Track includes buffer of 10 km)

Area of Interest	Area (km ²)	Total Specimens	Specimens/100 km ²
Outer	105610	15045	14.2
Inner	19023	7932	41.7
Interim Protection Zone	2378	3449	145.0
Kokoda Track	1673	3932	235.0

Stevens (1989) asserted that areas in the equatorial regions with at least 50 collections per 100 km² could be considered “well collected.” He emphasized that this was not a hard and fast rule but was a reasonable working standard for poorly known tropical areas. By this standard the Outer and Inner Areas of Interest are poorly collected but the Interim Protection Zone and the Kokoda Track have been well collected.

It is clear, however, from the maps of collecting intensity (Figures 3 & 4) that coverage within the Interim Protection Zone and along the Track – fundamentally the same area – is quite clumped, with large numbers of collections from both ends of the Track, which are accessible by vehicle, and the middle of the track, which is accessible by air. A large expanse of intervening area is effectively uncollected. This may be misleading. There is strong altitudinal stratification of the New Guinea biota (Diamond, 1973) and a better method for

assessing collecting gaps is to examine patterns of collecting intensity by altitudinal band. Using GIS and the 90 m SRTM (<http://www.cgiar-csi.org/data/srtm-90m-digital-elevation-database-v4-1>) digital

elevation model, we assessed plant collecting intensity by 500 m altitudinal zones. The figures for the Outer Area of Interest are shown in Table 5.

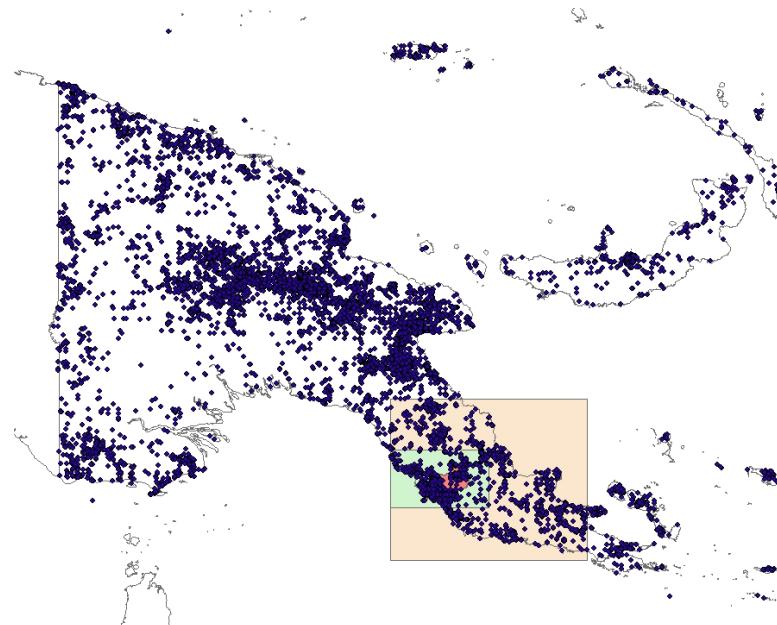

Figure 03. Distribution of plant specimen localities in Papua New Guinea based on all georeferenced specimens in the PNG Plants Database.

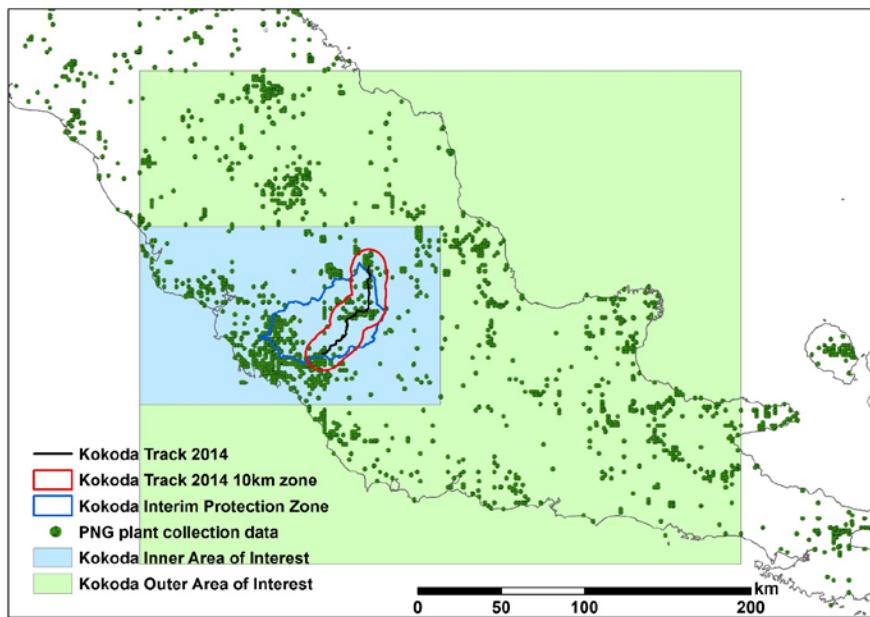

Figure 04. Plant collecting localities – Kokoda Areas of Interest.

Table 5. Plant collecting intensity in the Outer Area of Interest by Altitudinal Zone

Elevational Zone (m)	Area (km ²)	Area (% of Total)	Plant Collections	Plant Collections (% of Total)
0-500	29524	52.5	10622	47.8
501-1000	10781	19.2	3568	16.0
1001-1500	5889	10.5	1398	6.3
1501-2000	3894	6.9	1383	6.2
2001-2500	2946	5.25	2168	9.8
2501-3000	2072	3.7	1601	7.2
3001-3500	989	1.6	1203	5.4
3501-4000	107	0.2	260	1.2
4000+	13	< 0.01	0	0
Total	56124		22023	

Compared to many parts of New Guinea, collecting effort in the various altitudinal zones within the Outer Area of Interest are roughly proportional to land area, although as is true in other parts of Papua New Guinea the mid-elevational areas are not, as a proportion of area, as well collected as the higher areas.

The patterns of collecting intensity for the Inner Area of Interest is similar to that of the Outer Area of Interest, with collecting intensity in the lowlands roughly proportional to land area, but the mid-elevation areas underrepresented in collections and the high elevations overrepresented (Table 6).

Table 6. Plant collecting intensity in the Inner Area of Interest by Altitudinal Zone

Elevational Zone (m)	Area (km ²)	Area (% of Total)	Plant Collections	Plant Collections (% of Total)
0-500	6679	45.3	10622	57.0
501-1000	2993	20.3	3568	20.2
1001-1500	1795	12.2	1398	3.1
1501-2000	1262	8.6	1383	1.1
2001-2500	1015	6.9	2168	8.9
2501-3000	658	4.5	1601	7.8
3001-3500	294	2.0	1203	1.2
3501-4000	25	0.2	260	0.7
4000+	13	0.1	0	0
Total	14734		9745	

The patterns for the Interim Protection Zone (Table 7) and the Kokoda Track (Table 8) buffered by 10 km on either side are similar to one another, as would be expected because they cover essentially the same area, but they differ somewhat from the Outer and Inner areas, with the lowlands and

the 2501-3000 m zone over-represented and the mid-elevations and upper elevations under-represented. It is clear from these figures that large collections from Myola, "The Gap," and other areas at the crest of the Owen Stanley Range are distorting the totals.

Table 7. Plant collecting intensity in the Interim Protection Zone by Altitudinal Zone

Elevational Zone (m)	Area (km ²)	Area (% of Total)	Plant Collections	Plant Collections (% of Total)
0-500	810	34.1	1491	46.8
501-1000	597	25.1	473	14.8
1001-1500	401	16.9	290	9.1
1501-2000	260	10.9	88	2.8
2001-2500	228	9.6	816	25.6
2501-3000	68	2.9	29	0.9
3001-3500	14	0.6	0	0

5.2 Insects

The Kokoda Track essentially remains un-surveyed for insects. There are substantial collections from lowlands in the north and south, but essentially none from the track itself except for those collected by Evelyn

Cheesman in 1933, who reached as high as Isurava (ca. 1400 m) on the north side of the ranges during her extended stay at Kokoda. However, there are reasonably large collections from high elevations on Mt.

Albert Edward (probably the best surveyed mountain in the Owen Stanley Range), as well as the lower slopes. It is likely that

many of the same species occur at comparable elevations along the Kokoda Track.

5.3 Vertebrates

Our knowledge of the land vertebrates of Papua New Guinea is uneven. Birds, which are relatively conspicuous and have a large scientific and public following, tend to be discovered and named much more rapidly than are the other groups of land vertebrates (Figure 5). Mammals and reptiles generally

tend to have the same rates of discovery but greatly lag birds. It is likely that the number of reptiles and mammals will increase by at least 25% when all species have been discovered and named.

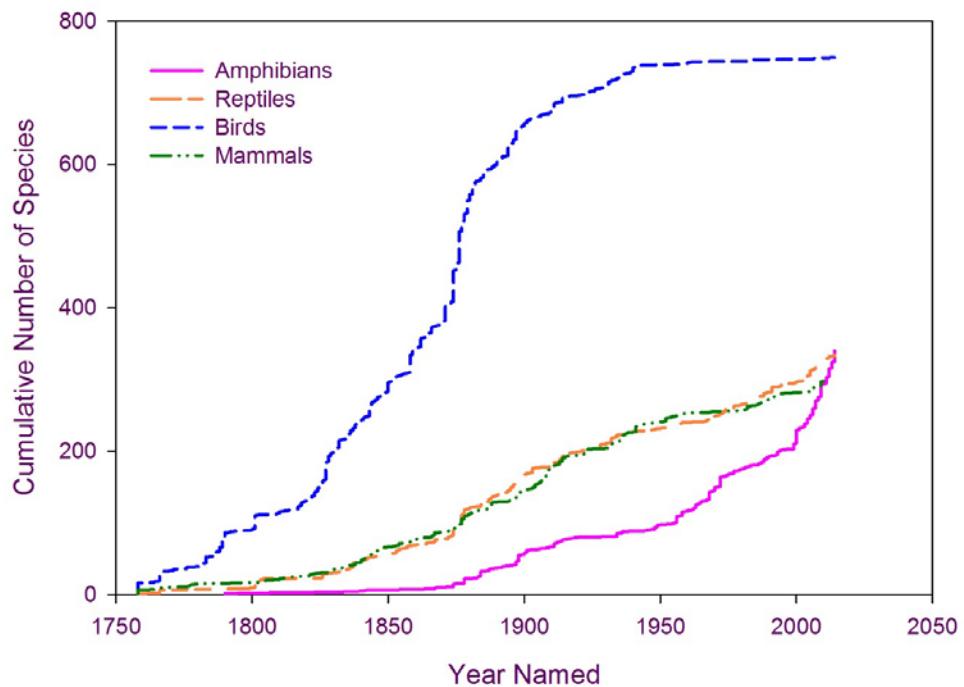

Figure 05. Rates of Discovery of Papua New Guinea Land Vertebrates.

In Papua New Guinea the amphibians, all frogs, are relatively poor dispersers and therefore tend to have much smaller geographic ranges than do the other species of vertebrates. Papua New Guinea frogs, for example, tend to have mean geographic range sizes at least ten-times smaller than do

the birds. However, it has become clear during the past two decades of field survey work that there are many undiscovered species. It is likely that the number of species known from Papua New Guinea will exceed 600 when all species have been discovered and named.

5.3.1 Amphibians and Reptiles

There are large collections of amphibians and reptiles from the Port Moresby area, including significant collections from the Sogeri Plateau, around Ower's Corner and at the beginning of the Kokoda Track. D. Black and J. Menzies made small collections from Efogi in 1982, and in 1985 Fred Parker and Richard Zweifel made an important collection from around the Myola Guest House (Zweifel and Parker, 1989). Peter Room made a small collection of amphibians and reptiles from around Popondetta and published a species checklist (1974). The joint Bishop Museum/PNG National Museum herpetological field survey expeditions to the Managalse Plateau and Simbium Mountains in Oro Province, in

2009 and 2013, respectively, obtained around 1500 specimens. Similarly, two joint Bishop Museum/PNG National Museum expeditions to the foothills of the Owen Stanley Range in the upper Kemp Welch drainage obtained around 1500 specimens. The 2014 Bishop Museum/PNG National Museum herpetological field survey along the Kokoda Track produced around 800 specimens from a wide range of elevations and localities along the track. As a result of earlier work at both ends of the track and the recent work by Bishop Museum and PNG National Museum, herpetological collecting intensity along the Kokoda Track is reasonably good (Figures 6-8).

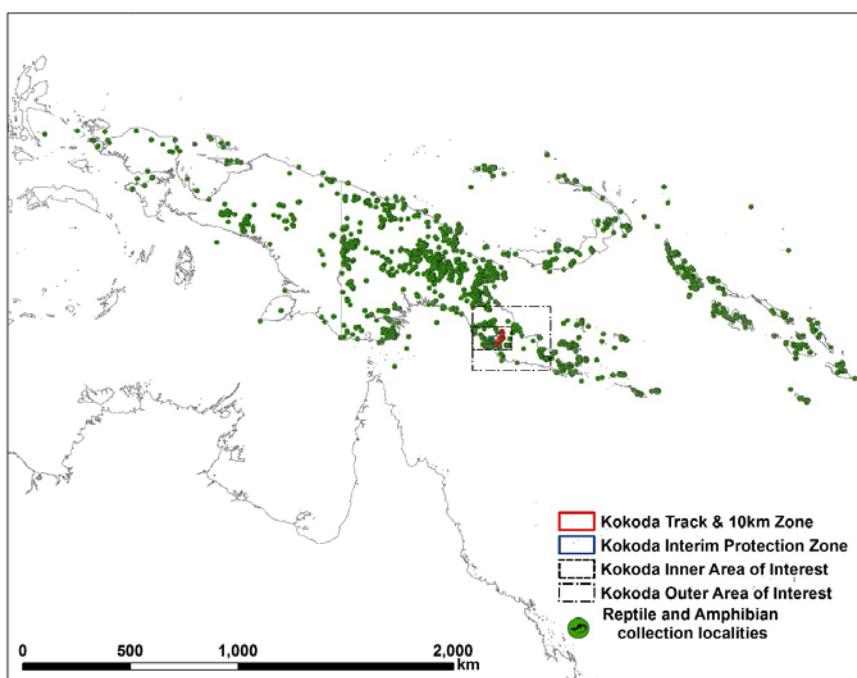

Figure 06. Collection Sites of Amphibians and Reptiles from the Papuan Region.

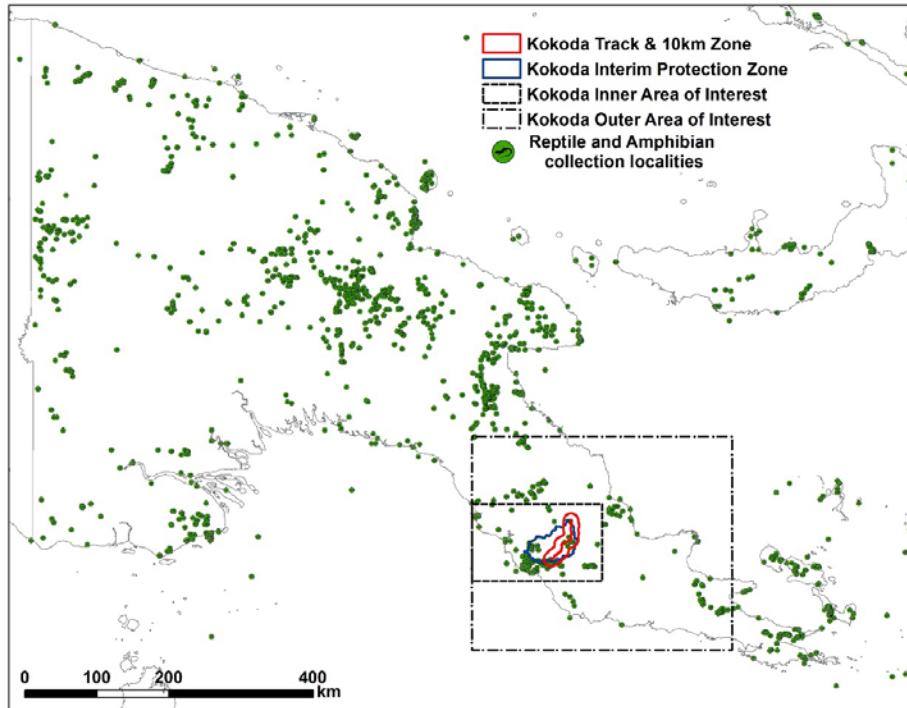

Figure 07. Collection Sites of Amphibians and Reptiles from mainland Papua New Guinea.

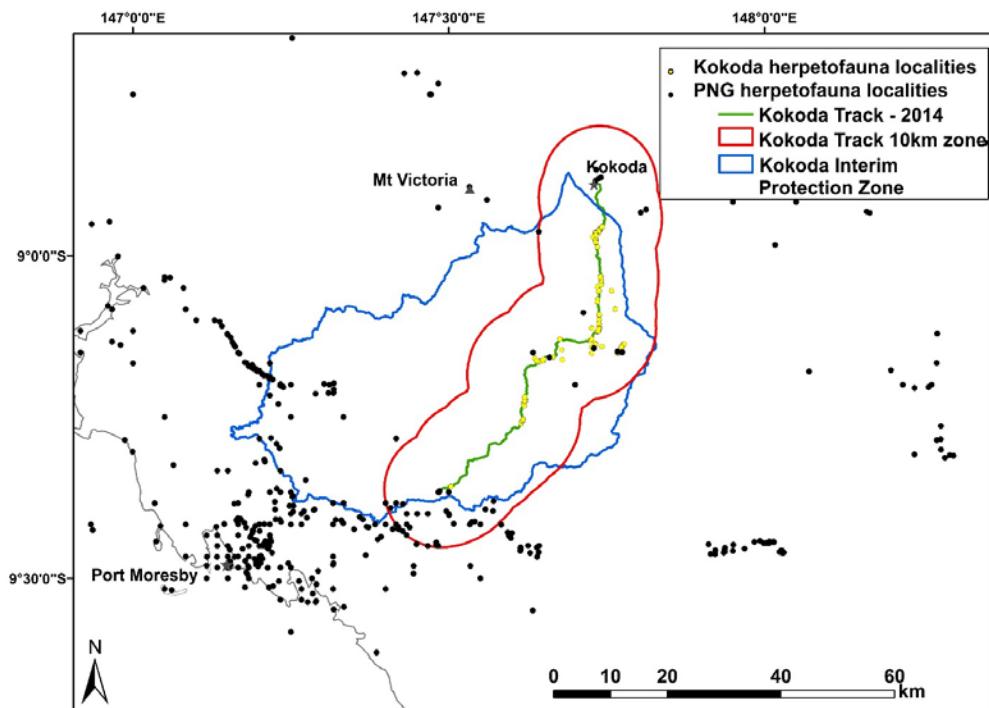

Figure 08. Amphibian and Reptile Collecting Sites in the Kokoda Areas of Interest.

5.3.2 Birds

Surprisingly, there has been little ornithological collecting work along the Kokoda Track. Although the different trekking companies publicize the opportunity to observe birds along the track, there are apparently no comprehensive published lists of birds from along the track. There are, however, a wealth of observations.

The Papua New Guinea Bird Society (PNGBS) often conducted field outings to Ower's Corner, sometimes descending along the Kokoda track to the Goldie River. The birds seen were reported in the Newsletter of the PNGBS. These include trips made on 10 July 1966 (43 species observed; page 9/2); 12 August 1973 (~50 spp.; 90/1-90/2); 9 February 1975 (at least 6 spp.; 106/2); Gary Opit – December 1974: Ower's Corner to Naoro (56 spp; 115/4 – 115/6); 10 October 1976 (78 spp; 126/7-126/9). Geoff Smith (127/12) reported on 11 species new to his life list observed along the Kokoda Track from Uberi to Kagi on 23-24 September 1976.

Varirata National Park, which is only around 15 km from Ower's Corner, is one of the best known areas for birds in Papua New Guinea, with around 200 species known (Hopkins, 1994).

The PNGBS also made a number of trips to Myola and Efogi, which were both accessible by air. These included an outing from 11-13 January 1969 to Efogi (34 spp;

39/3-39/4); Brian Finch *et al.*, 6-9 September 1979 – Myola (105 spp; 160/2-160/16); Jim Vandaman *et al.*, 9 June 1984 – Efogi (62 spp.; 210/3); Peter Storer *et al.*, 29 March – 3 April 1986 – Myola (59 spp. 220/3-220/5).

In mid-January 1969, Dick Donaghey and Carol Lawrence, two of the PNGBS participants on the Efogi trip, walked from Manumu to the Summit of Mt. Victoria, observing birds along the way. They report on the species seen in the various forest associations (39/4-39/5). Roy MacKay also reported on four species of birds that he and Diane Martin observed in June 1976 (126/9-126/10).

In 1986 the PNGBS began publishing a journal, *Muruk*, which includes a number of reports from bird-watching groups who visited Myola, Kagi, and other villages along the track that are or were accessible by plane (Hicks, 1988a-c; Hopkins and Storer, 1988; Dumbacher, 1991; Hopkins, 1992; Gregory, 1995).

The north end of the Kokoda Track is less often visited by bird-watching groups, although a PNGBS group visited the area in April 1972 and reported observing 138 species (74/2-74/6). A.S. Meek and the Eichhorn brothers made large bird collections in the upper Mambare drainage basin in 1906 (Rothschild, 1908; Meek, 1913).

5.3.3 Mammals

Mammals have been reasonably well surveyed in the Kokoda Areas of Interest and along the track. As with other groups, there are large collections from both ends of the track. The area around Kokoda in particular has been well collected. The Sogeri Plateau, lower Brown River, Laloki basin, and lower Goldie River drainage have also been relatively well collected.

Following completion of an extensive expedition to the Fly River by the Second Archbold Expedition, G.H. Tate, the mammologist on that expedition, established a camp at Rona Falls in the Laloki Basin in late January 1936 (Archbold and Rand, 1940). From there he proceeded north,

spending much of February collecting on the Sogeri Plateau. In early March he proceeded up the Kokoda Track, collecting at several localities on his way to Kagi, which he reached on 8 March. He remained there until 12 March, when he re-traced his steps, returning to Sogeri on 18 March. He later incorporated these and previous Archbold collections in a comprehensive monograph of the rodents from Australia and New Guinea (Tate, 1951). As would be expected, many of the species that were obtained by the First Archbold Expedition along an altitudinal transect to the summit of Mt. Albert Edward were found to occur at comparable elevations along the Kokoda track.

6 Patterns of Species Richness – Vascular Plants and Vertebrates

As outlined in section 5.1, we used GIS analysis to extract plant specimen details from the PNGplants Database for each of the Kokoda Areas of Interest. We then used database techniques to obtain a rough estimate of the number of species represented in each area.

For vertebrates, we obtained range maps as shape files for all species mapped by BirdLife International (birds) or through our participation in IUCN Red List Working Groups (amphibians, reptiles and mammals). We adjusted all maps to reflect current taxonomic concepts and produced additional maps for all subsequently described taxa.

There are at least four major credible world checklists for birds. They differ from one another by upwards of fifty species for Papua New Guinea. In addition, Thane Pratt

and Bruce Beehler have recently published a revision to their field guide, Birds of New Guinea (2014). They generally follow the International Ornithological Congress (IOC) World Bird List (<http://www.worldbirdnames.org/>), but differ from that list by more than 60 species. We anticipate that the IOC will eventually adopt many of the taxonomic changes that they have recognized (based mostly on recent molecular work). Inasmuch as their field guide is the definitive source for identifying birds in mainland Papua New Guinea, we based our checklist on their treatment. This required adjustments in a number of the BirdLife maps.

We used GIS analysis to identify all species that occur in the various Kokoda Areas of Interest. Those details are presented in Table 9.

Table 9. Total number of species if vascular plants and vertebrates occurring the Kokoda Areas of Interest

6.1 Patterns of Species Richness – Vascular Plants

The total number of vascular plants known from Papua New Guinea is not accurately known, but includes at least 10,313 valid taxa based on work in progress by Shelley James of Bishop Museum. Our estimate, based on the occurrence of unique combinations of genus and species represented in the PNGplants Database, is 11,117 taxa. Inasmuch as many groups are

poorly known and in need of taxonomic revision, these two estimates are amazingly close.

We estimate that the Outer Area of Interest has 4726 vascular plant species (Table 9). This suggests that that area is inhabited by 42% of the plant taxa that are known from Papua New Guinea. Inasmuch as a

significant number of Papua New Guinea's plant species are endemic to the Islands Region (Admiralty and Bismarck archipelagoes + Bougainville and Buka islands), it is likely that the flora of the Outer Area of Interest exceeds 50% of the mainland Papua New Guinea total.

The Kokoda Inner Area of Interest has 2945 plant species. This area is roughly a fifth the size of the Outer Area, but its flora includes 62% of the species known from the Outer Area. Similarly, the Interim Protection Zone has 1366 species. These represent about 45% of the species found in the Inner Area of Interest, which has an overall area nearly eight times larger. The statistics for the Kokoda Track (buffered on either side by 10 km) are similar.

Overall, the Interim Protection Zone has around 12% of Papua New Guinea's flora. If we exclude an estimated 2000 species that are endemic to the Islands Region, this figure rises to around 15% of the mainland Papua New Guinea flora. This is impressive diversity given that the Interim Protection Zone constitutes less than one percent of the land area of Papua New Guinea.

The decline in species richness with area is much more dramatic for plants than for vertebrates (see below), suggesting that there is a high degree of restricted-range endemism in the Papua New Guinea flora or, alternatively, that it is too poorly known to infer patterns from existing data. Although it is beyond the scope of this report to analyze patterns of distribution and diversity of the Papua New Guinea flora, we did examine patterns of endemism in order to explain the differences between plants and vertebrates. To simplify analysis, we

determined the number of quarter-degree grid cells occupied by each species (Table 10.).

Table 10. The total number of vascular plant species of Papua New Guinea by the maximum number of quarter-degree grid cells in which they are known

Number of Grid Cells Occupied	Total Species
1	5595
2	1878
3	1149
4	724
5	535
6	452
7	319
8	296
9	236
10	194
11-20	1025
21-30	308
31-40	148
41-50	60
>50	91
TOTAL	13010

This demonstrated that 43% of Papua New Guinea's plant species are restricted to a single grid cell and that 58% of the flora occupies no more than two grid cells. There are a total of 534 grid cells covering Papua New Guinea, each with dimensions of around 25 x 25 km. Less than one percent of the species appear to be truly widespread. We suspect that restricted-range endemism is indeed high but probably not as high as these figures suggest. In order to take this analysis further we feel that it is important to georeference the additional ~60,000 specimens in the PNGPlants database that lack accurate latitude and longitude coordinates.

6.2 Patterns of Species Richness – Amphibians

There are 352 species of amphibians (all frogs) known from Papua New Guinea. A total of 97 of these are known from the Kokoda Outer Area of Interest, representing around 28% of the Papua New Guinea total. Only 53 species are currently known from along the Kokoda Track. Many species of New Guinea frogs have extremely restricted ranges and it is likely that the number of species known from the Kokoda areas will increase significantly with future field work. For example, we discovered at least four new species of frogs during our recent survey of amphibians and reptiles along the Kokoda Track (Tallowin and Allison, in prep.). Those species are not included in the totals, as they have not yet been named.

The overall distribution of frog species richness in Papua New Guinea is shown in Figure 9. Relatively depauperate, mainly coastal regions have a relatively small number of species, with some areas having as few as 11 species. The Kokoda region has an elevated level of species richness with 30-35 species per grid cell. This is noticeably less rich than the pockets of high diversity in Papua New Guinea that include the Bewani Mountains, Star Mountains, and areas in the Central Highlands. All of these areas are far better known than the Kokoda Areas and the fact that they have high species richness tends, at least in part, reflect our level of knowledge about these areas.

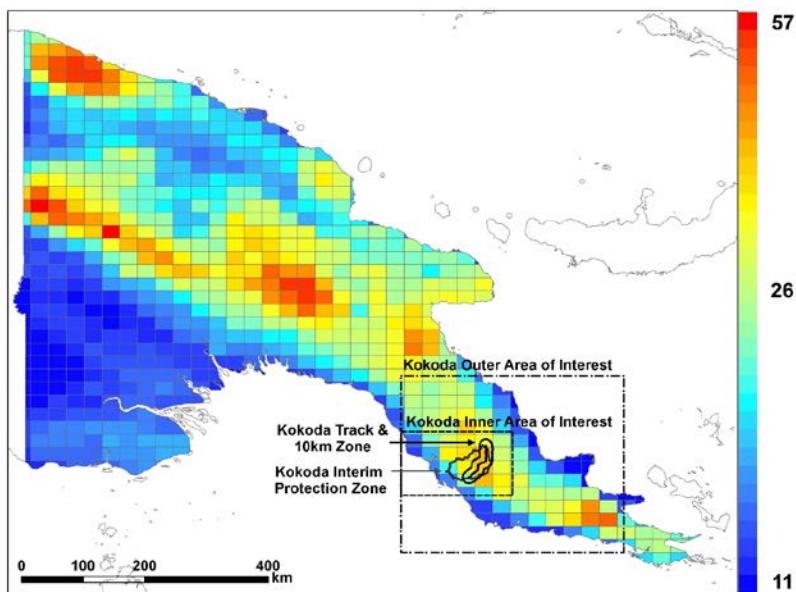

Figure 09. Species Richness of Papua New Guinea Amphibians (Frogs).

6.3 Patterns of Species Richness – Reptiles

The Outer Area of Interest has a total of 130 species of reptiles. This includes four species of freshwater turtles, two species of crocodiles, 47 species of snakes, and 83 species of lizards. This assemblage represents 38% of the reptile species found in Papua New Guinea. Reptiles, particularly snakes, tend to have far larger distributions than do frogs. This is reflected in the fact that the Inner Area of Interest, which is around a fifth the size of the outer Area, has only seven fewer species. Similarly, the area along the Kokoda Track has 88 species; which represents more than 2/3 of the species found in the Outer Area of interest, an area that is more than 63 times larger. The principal difference between the reptile fauna of the Interim Protection Zone and along the Track compared to that of the

Outer and Inner areas is that estuarine and coastal species drop out.

Reptile richness tends to be highest in lowland areas and hill forest, tapering off to just a few species above 3000 m (Figure 10). The highest areas of richness in Papua New Guinea are the savanna areas of Western Province and Central Province, together with coastal regions along the Huon Gulf (Tallowin *et al.*, *in press*). Richness in the Interim Protection Zone and along the Kokoda Track tends to reflect the general pattern in Papua New Guinea, with high species richness at the south end of the Track, lowered richness at the middle where the Track crosses the Owen Stanley Range, and high species richness in the hill forest and lowlands around Kokoda at the north end of the Track.

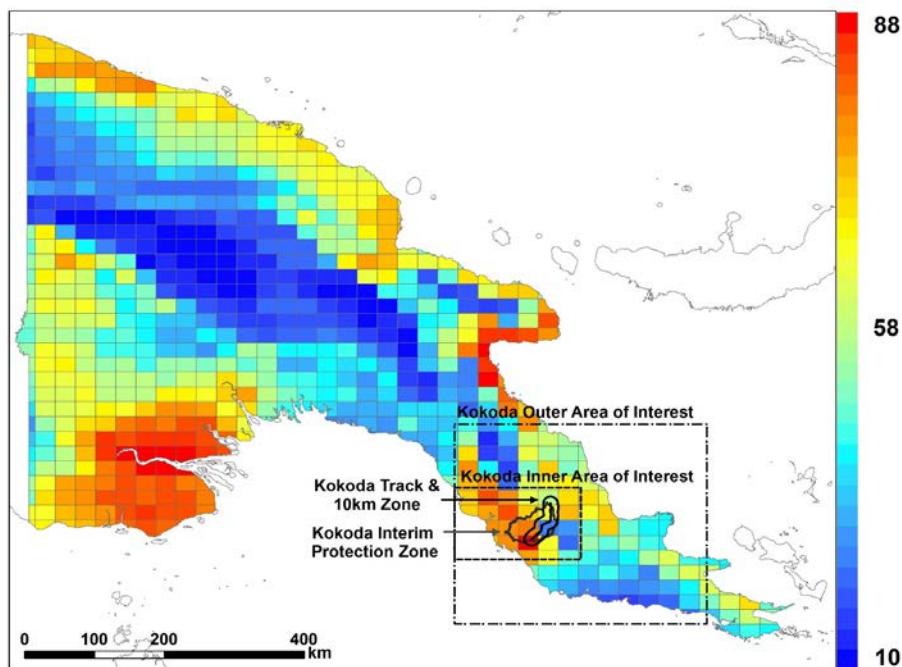

Figure 10. Species Richness of Papua New Guinea Reptiles.

6.4 Patterns of Species Richness – Birds

There are 520 species of birds known from the Outer Area of Interest. This represents nearly 64% of the 813 species of birds recorded for Papua New Guinea. If we limit the comparison only to birds found on mainland New Guinea (692 species), the number of species from the Outer Area of Interest increases to 75 % of the total. Because most birds can fly and are therefore highly mobile, they tend to have large distributional ranges. As with reptiles, the total number of species drops slightly (to 509) in the Inner Area of Interest, a decrease of only 11 species despite a five-fold decrease in area. Similarly, there are 436 species along the Kokoda Track, a decrease of only 84 species from the Outer Area of Interest total despite a more than 60-fold

decrease in area. The species that drop out tend to be largely coastal and mangrove taxa.

The southeast peninsula of Papua New Guinea tends to have the highest levels of species richness in the country (Figure 11). The Kokoda areas are located right in the middle of the southeast peninsula and are clearly a hotspot for birds. In spite of this high richness, however, regional endemism is low, with only four of the bird species confined to the southeast peninsula (Brown-headed Paradise-Kingfisher, *Tanysiptera danae*; Streaked Bowerbird, *Amblyornis subalaris*; Eastern Parotia, *Parotia heleneae*; and Eastern Alpine Mannikin, *Lonchura monticola*).

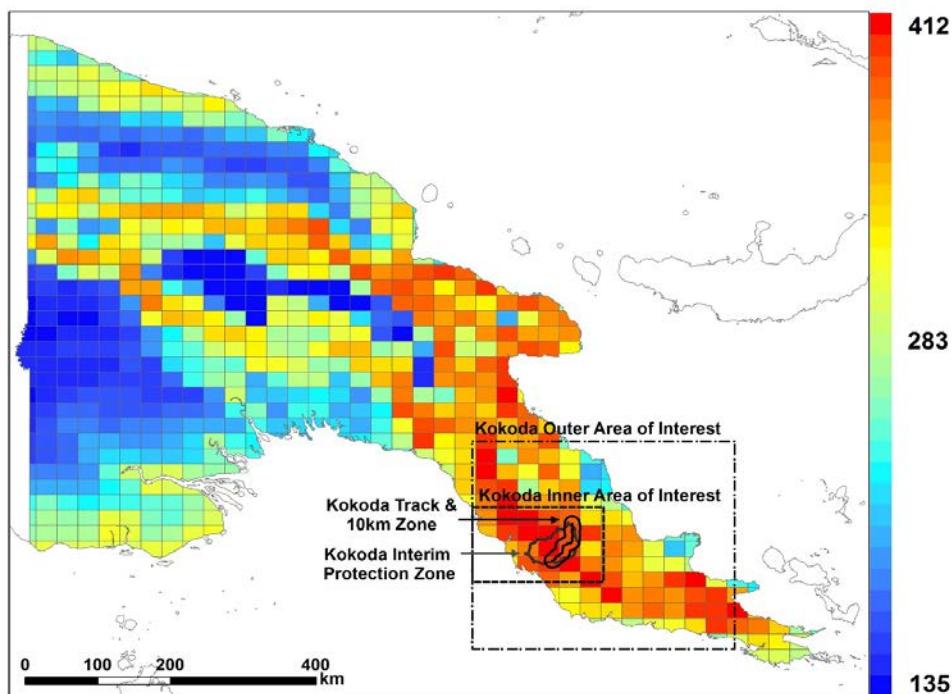

Figure 11. Species Richness of Papua New Guinea Birds.

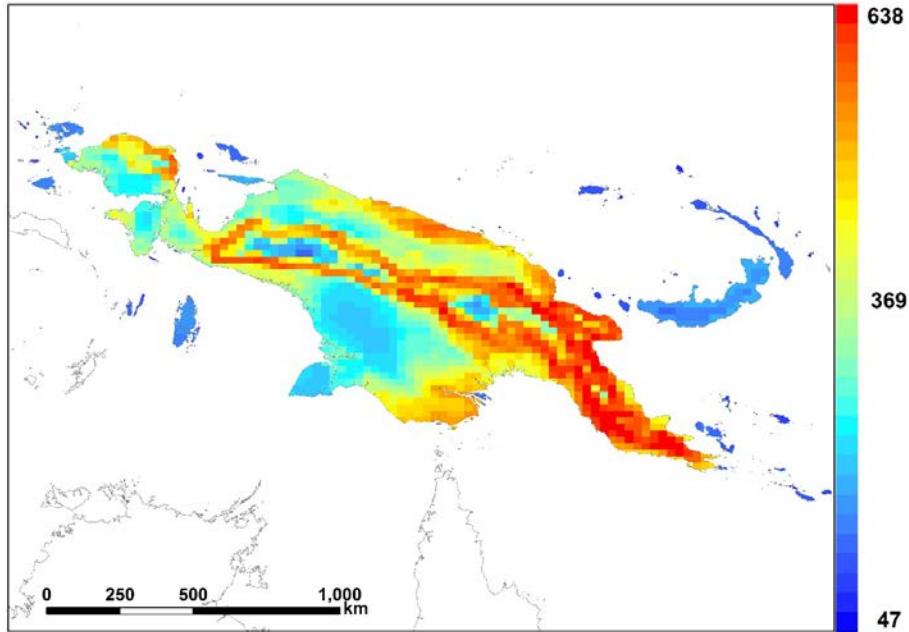

Figure 12. Species Richness of Papua New Guinea Vertebrates.

The southeast peninsula is also noticeably rich compared to the rest of New Guinea (Figure 12).

The senior author of the recently published Guide to New Guinea Birds, Dr. Thane Pratt, surveyed birds along the track during our recent expedition to the Kokoda Track. He spent roughly a month in the field and recorded a total of 216 species of birds (Appendix 32).

Bird populations along the Track appeared to be healthy and robust. For example, the New Guinea vulturine parrot (*Psittrichas fulgidus*) (Figure 13) is relatively uncommon but widespread in the lower montane zone of New Guinea (Pratt and Beehler, 2014). It has, however, been extirpated from many areas because of over-hunting. There was a small flock of vulturine parrots in the Isurava area, suggesting that hunting pressure is low.

Figure 13. *Psittrichas fulgidus*, New Guinea vulturine parrot.

Similarly we observed the chestnut-shouldered goshawk (*Erythrotriorchis buergersi*) (Figure 14) along the Track. Although this species is widely distributed in New Guinea, primarily in eastern New Guinea, and isn't hunted, it is relatively uncommon to rare throughout its range (Pratt and Beehler, 2014). We also observed 13 species of birds of paradise, including *Parotia helena* (Figure 15), which is

endemic to the eastern peninsula of Papua New Guinea.

Figure 14. *Erythrotriorchis buergersi*, a rather rare species of hawk that we saw along the Kokoda Track. Photo: Szabolcs Kókay.

Figure 15. *Parotia heleneae* is one of only four species of birds that are endemic to the eastern peninsula of Papua New Guinea. This one is feeding in a fig tree near Isurava. Photo: Szabolcs Kókay.

6.5 Patterns of Species Richness – Mammals

The Outer Area of Interest is thought to be inhabited by 147 species of mammals. This represents around half the 293 species of mammals known from Papua New Guinea. As with birds and reptiles, mammals tend to have large geographic distributions. As with those groups, a high proportion of the species found in the Outer Area also occur in the Inner Area and along the track, with 133 and 121 species respectively, in spite of the vast disparity in land area between these areas.

Mammal species richness tends to reach its highest levels in Papua New Guinea along the hill forests and mid-montane forests of the main ranges (Figure 16). This is reflected in the Interim Protection Zone and along the Kokoda Track, where richness is high along the south end of the track, lower in the mountains, and high along the northern end of the Track.

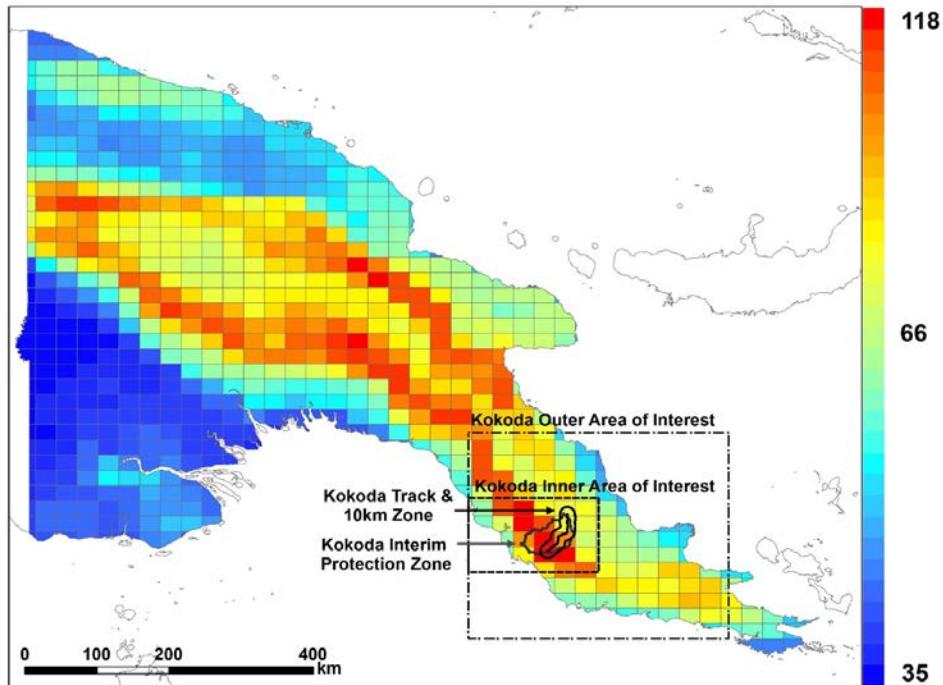

Figure 16. Species Richness of Papua New Guinea Mammals.

7 Conservation Status of the Kokoda Biota

The most objective way to assess the conservation status of the biota of Papua New Guinea is to use IUCN criteria (<http://www.iucnredlist.org/>). However, most species of plants have not been

consistently assessed by IUCN working groups and the distributions of many species remain poorly known. However, all of the terrestrial vertebrates have been assessed within the past decade.

7.1 Conservation Status – Vascular Plants

The most current version of the IUCN Red List, v3.1, is available online (see above). The website lists 144 species of vascular plants from Papua New Guinea as vulnerable, endangered, or critically endangered. Of these, 117 are listed as

vulnerable, 12 as endangered, and 15 as critically endangered. Of those in the last two categories, only four species are known from the Kokoda Areas of Interest (Table 11).

Table 11. List of endangered plants in the Kokoda Areas of Interest

Species	Family	IUCN Red List Assessment	Criteria
<i>Bruguiera hainesii</i>	Rhizophoraceae	Critically Endangered	C1
<i>Flindersia pimenteliana</i>	Rutaceae	Endangered	C2a
<i>Guioa grandifoliola</i>	Sapindaceae	Endangered	B1+2c
<i>Santalum macgregorii</i>	Santalaceae	Endangered	A1cd, C1

Of these, only sandalwood (*Santalum macgregorii*) is widespread through the Kokoda Areas of Interest, where it is known from all four areas. Paul (1990) reviews the status of sandalwood in Papua New Guinea. Although less valuable than Indian sandalwood (*S. album*), it was heavily harvested in the late 1800s and early 1900s and there were fears in the 1970s that it could be harvested to extinction. However, it grows in discontinuous stands (Paul, 1990) and seems to be making something of a comeback.

Only a few Papua New Guinea plant families have been assessed by IUCN working groups, and most of those assessments are out of date. It is important to note that orchids, which are listed in CITES Appendix II and require a special permit for export from Papua New Guinea, have not been assessed. Most orchids have relatively small flowers and are of little interest to the nursery industry, but a number of species have large, showy flowers and are sought after by collectors. One of the most valuable such species, *Paphiopedilum violascens*, occurs in the Kokoda Outer Area of Interest, but is apparently not known from the Inner Area of Interest.

7.2 Conservation Status - Vertebrates

The IUCN Red List includes 31 Papua New Guinea land vertebrates that are regarded as near threatened, vulnerable, endangered, or critically endangered. These are listed in Table 12.

None of the amphibians known from the Kokoda Areas are of elevated conservation concern. The only reptiles of concern are two turtles, both of which are south coast, primarily lowland species. Both are regarded as vulnerable.

There are 13 species of birds of elevated conservation concern. At least five of these are migratory species that winter in Papua New Guinea but are not facing any particularly serious threats there. Another three species are large raptors that have large home ranges and large geographical distributions. They too don't appear to be facing any specific threats in the Kokoda Areas.

There is only one parrot on the list, the vulturine or Pesquet's parrot, *Psittirichas fulgidus*. This large, showy and noisy species is hunted for its bright red feathers and has been hunted to extinction in many

places in Papua New Guinea. During our 2014 field survey we observed a small flock

around Isurava, suggesting that the species is doing well in that area.

Thylogale calabyi	Endangered	B1ab(iii,v)+2ab(iii,v)			X
Zaglossus bartoni	Critically Endangered	A2acd	X	X	X

There are sixteen species of mammals found in the Kokoda Areas of Interest that have been assessed as vulnerable or worse by IUCN Red List working groups. Two of these are listed as critically endangered: *Pharotis imogene*, a lowland species of bat known from the Kemp Welch drainage; and *Zaglossus bartoni*, a monotreme (egg-laying mammal) that is rapidly hunted out of inhabited areas. In August 2015 we documented its occurrence on the upper slopes of Mt. Victoria and is probably found in montane regions throughout the Kokoda Areas of Interest.

An additional five species of mammals are listed as endangered. These include Goodfellow's tree kangaroo, *Dendrolagus goodfellowi*, which was first discovered in Astrolabe Range. This species is susceptible to over-hunting. A wallaby, *Thylogale calabyi*, is known only from the alpine grasslands of Mt. Giluwe in the southern highlands and Mt. Albert Edward in the Owen Stanley Range. (Mt. Albert Edward is

located within the Kokoda Outer Area of Interest but is outside the Inner Area of Interest). During an expedition to the upper slopes of Mt. Victoria in August 2015 we saw a juvenile wallaby, presumed to be *T. calabyi*, in the alpine grasslands of Mt. Victoria.

A rat, *Rattus vandeuseni*, is also known in the Kokoda Area only from the Outer Area of Interest. It appears to occupy a small geographic range in mid-montane regions of the eastern Owen Stanley Mountains. Another rat, *Paramelomys gressitti*, also has a small geographic range in the mountains of eastern Morobe Province and adjacent areas of Oro Province. In the Kokoda Areas it too is known only from the Outer Area of Interest. The last species, a large bandicoot, *Peroryctes broadbenti*, which occurs in the lowlands of the SE coast. It is thought to occur within mesic and gallery forest up to 1000 m elevation on the south side of Owen Stanley Range and occurs in parts of all four Kokoda Areas.

8 GAP Analysis

Traditional gap analysis is a process for ensuring that protected areas adequately protect a taxonomic or other group of conservation concern. This analysis typically requires knowing the distribution of species under consideration, their habitat requirements, conservation needs and other life history features, the extent to which their ranges overlap with protected areas, and whether this is adequate to prevent their extinction. If not, appropriate mitigative measures are proposed, such as the designation of new protected areas. Gap analysis generally focuses on taxa that are of elevated conservation concern, typically threatened and endangered species.

Gap analysis is fundamental to the protection of plants and animals under the Endangered Species Act in the United States, the Endangered Species Protection Act in Australia, or similar legislation in many countries. The designation of a species as threatened or endangered is generally a very rigorous process that requires the identification of critical habitat and other needs to ensure that viable populations of the species are protected.

Although Papua New Guinea has a network of protected areas, including Conservation Areas, Wildlife Management Areas, and National Parks, these areas were generally established for a variety of reasons other than the conservation of specific taxa. Most of the areas lack financial support and it is hardly surprising that the loss of forests within the protected areas exceeds that of the general forest estate (Shearman *et al.*, 2008).

Although various schemes have been proposed for the designation of a national network of protected areas for Papua New Guinea, such as the Conservation Needs Assessment (Alcorn, 1993; Beehler, 1993), BioRap (Nik *et al.*, 1999; Faith *et al.* 2001), and PoWPA (Lipsett-Moore *et al.*, 2010), little on-the-ground conservation has resulted from these efforts. The Conservation Needs Assessment (CNA) arguably had the greatest impact, largely because it was the first effort to comprehensively identify the broad-scale patterns of distribution and diversity of the Papua New Guinea biota. The CNA in particular helped focus attention on specific areas of biodiversity importance. For example, the designation of the Kamiali Wildlife Management Area (47,000 ha) in Morobe Province and the more recent establishment of the Kamiali Biological Station is a direct result of the CNA.

The BioRap scheme, which was based on biodiversity surrogates, recommended a network of protected areas – many of them very small. This scheme looked great on paper but was totally unrealistic to implement because of Papua New Guinea's complex system of land tenure. PoWPA had many of the same shortcomings.

We are taking a different approach. The Interim Protection Zone is an obvious conservation target inasmuch as it is important to providing for future water and power needs of Port Moresby. We have therefore focused on evaluating its conservation value relative to the rest of PNG and in particular on the extent to which

the IPZ would protect important elements of the Owen Stanley biota and the overall PNG biota. In our analysis important elements that occur in the Owen Stanley Range but not in the IPZ would constitute gaps. Although we specifically evaluate the conservation needs of species of elevated conservation concern, because of limited knowledge of most taxa, we focus primarily on the overall biota.

It is important to emphasize that gap analysis is most commonly used as a tool to address the specific conservation needs of taxa of elevated conservation concern. Papua New Guinea is fortunate, compared to many parts of the tropical world, in retaining most of its old growth forest and having relatively few truly endangered species. We therefore have a large number of choices in the selection of protected areas. At this point in time the overarching question that Papua New Guinea needs to address is: which areas should we protect now to make the greatest future difference?

Papua New Guinea does not have a scientifically robust system for designating species of conservation concern. Although a large number of species have been declared protected under the Fauna (Protection and Control) Act, which loosely follows the Convention in Trade in Endangered Species (CITES), some of the protected taxa are exceedingly common, such as many of the species of birds of paradise, many of the snakes, and most of the monitor lizards; other taxa, such as some restricted-range species of frogs and fishes, that may truly be under conservation threat, are not listed under the Fauna Act (see Table 6.2 in Sekhwan and Miller, 1994).

The most current and comprehensive information on the conservation status of Papua New Guinea vertebrates is available from the IUCN Red List, at least for vertebrates and selected taxa of invertebrates and plants. Although there are many limitations to the IUCN data, due mainly to incomplete knowledge of the taxa, the Red List evaluation process does focus on conservation threats.

There are 31 species of vertebrates categorized as “Vulnerable” or worse on the IUCN Red List that occur within the Kokoda Outer Area of Interest (Table 12). Two of these are turtles that generally inhabit coastal lowlands. Only one of these occurs in the IPZ, which accounts for a very small fraction of its range. The greatest threats facing the freshwater turtles of Papua New Guinea are over-harvesting of eggs. Inasmuch as most species occur in the southern lowlands where there are fairly dense human populations, their protection is likely to depend on measures to limit over-harvesting of eggs regardless of whether their habitat is included in a protected area or not.

There are 13 species of birds of elevated conservation concern that occur in the Kokoda Areas of Interest. Four of these are migratory shorebirds or coastal species with enormous geographic ranges. They winter in Papua New Guinea. They are mostly threatened by loss of wetlands and land reclamation elsewhere; designation of protected areas in Papua New Guinea are unlikely to have much impact on their populations.

An additional species, the beach thicknee (*Esacus magnirostris*), is a widespread Indo-

Pacific shorebird that appears to be declining throughout its range due to human disturbance and predation by introduced mammals. It is limited to beaches and is therefore absent from the IPZ.

The remaining eight species are all native to Papua New Guinea, but only one of them, *Goura sheepmakeri*, is endemic to Papua New Guinea. It inhabits the southern lowlands of Gulf Province and, disjunctly, the lowlands of eastern Central and Milne Bay provinces. It has apparently been extirpated from the Port Moresby area. It does not occur in the IPZ.

The other seven species are either widespread New Guinea endemics or Indo-Papuan endemics. They are all found in the IPZ but this would constitute a very small fraction of their overall range.

There are sixteen species of mammals known from the Kokoda Areas of Interest. One is a lowland bat, *Pharotis imogene*, known from the Kemp Welch drainage; it does not occur in the IPZ. Similarly, an Australian bat, *Taphozous australis*, is also known from the Papuan lowlands but does not occur in the IPZ. Two species of rats, *Paramelomys gressitti* and *Rattus vandeuseni*, have small parts of their ranges in the Kokoda Outer Area of Interest. Both are regarded as endangered but are poorly known. The 12 remaining species include 11 marsupials and a monotreme, *Zaglossus bartoni*. Of these, a wallaby, *Thylogale browni*, is a widespread lowland species (originally named from the Bismarck Archipelago); it is apparently absent from the IPZ.

Ten species of marsupials and the monotreme, *Zaglossus bartoni*, are present in the IPZ. Although the IPZ generally accounts for a small fraction of their range, they would certainly benefit from its designation as a protected area, although this would need, in most cases, to also include management interventions to limit over-hunting.

In summary, the IPZ is inhabited by 21 of the 31 species of vertebrates of elevated conservation concern in Papua New Guinea. The other ten species are mostly lowland forms, but both species of rats, *Paramelomys gressitti* and *Rattus vandeuseni*, are mid-montane to montane species found in the Owen Stanley Range to the west, and east, respectively, of the IPZ.

The Kokoda Areas, as compared to many parts of Papua New Guinea, are reasonably well known. The southern regions, which are easily accessible from Port Moresby, are scientifically among the best known regions of Papua New Guinea. Similarly, the areas around Kokoda Station are also relatively well studied. The Station was established early in the colonial history of Papua New Guinea to help support government oversight of the nearby Yodda goldfields and was accessible by air beginning in the early 1930s.

Plant collecting density in the Interim Protection Zone and along the Kokoda Track is among the highest in Papua New Guinea. However, collecting effort is uneven in the various elevational zones represented in the Kokoda Areas. The alpine summits are well collected, as is the zone from around 2000 to 2500 m. There is

relatively little effort in the 2500 to 3500 m zone.

Our analysis of plant collecting effort is based primarily on the 122,946 georeferenced specimen records we were able to obtain from the PNGplants database. There are an additional 65,000 records that require georeferencing. Although many of these likely duplicate collections already represented in the PNGplants database, our analysis suggests that adding these data would significantly strengthen the dataset.

Figure 17. *Aphantophryne sabini*. This is AA 23423 from Myola. It is known only from that area. This individual is 16 mm long.

The amphibians of Papua New Guinea tend to have relatively small geographic ranges. There are at least three species (*Aphantophryne sabini* [Figure 17], *Cophixalus verecundus*, and *Nyctimystes myolae*) of frogs that are known only from within the Interim Protection Zone. Allison and Tallowin (in prep) discovered at least four additional species during the 2014 Bishop Museum/PNG National Museum biological survey along the track. The number of species known or thought to occur along the Track is conspicuously low and it is likely that future field surveys will turn up additional species.

Reptiles tend to have fairly large geographic ranges in Papua New Guinea. The areas at both ends of the Track have been well sampled and it is likely that most of the species occurring in those areas are known. Many of the interior areas along the track have not been well collected for reptiles, but during our 2014 field survey we mostly encountered species that we had predicted would occur along the track or that we turned up in our earlier surveys in the mountains of the upper Kemp Welch drainage basin. We did, however, find some interesting new species of lizards at higher elevations along the Track and at Myola.

Birds are the best known group of vertebrates in Papua New Guinea. Although the number of species documented to occur in Papua New Guinea increased considerably between the publication of *Birds of New Guinea* by Beehler and Pratt in 1986 and the publication of the second edition by Pratt and Beehler in late 2014, this is mostly the result of elevating subspecies to full species as a result of molecular studies. In other words, the increase is not the result of the discovery of new taxa in the field.

It is clear that bird diversity is high on the SE Peninsula of Papua New Guinea. Surprisingly, endemism is low, with only four species being limited to this area. As best we could judge during our field survey along the Track, bird abundance is high along most of the track. We easily saw 12 species of birds of paradise, many of which are quite elusive in other parts of Papua New Guinea. Importantly, there was a flock of vulturine parrots in the Isurava area. The presence of this species in an area tends to indicate that hunting pressure is low.

Various bird watching groups have documented the avifauna at upper elevations in areas around the middle of the track, and both ends of the track are well-surveyed for birds. The elevational ranges of most species are reasonably well known. It would certainly be useful to survey birds along the track during different seasons, but in general we have sufficient knowledge to predict the occurrence of most species in unsurveyed areas along the Track.

In summary, the vertebrate biota of the IPZ is relatively well known. It includes an impressive fraction of the reptiles, birds, and mammals of Papua New Guinea (see section 6.0) and a number of the large mammals that are threatened with habitat loss and over-hunting in other parts of Papua New Guinea. The amphibian diversity in the IPZ is unimpressive but does include three endemic species: *Aphantophryne sabini*, *A. minuta*, and *Cophixalus verecundus*, all microhylids. The amphibians are clearly under-sampled and it is likely that the number of species known from the IPZ will increase significantly with further field

work. As already mentioned, we documented at least four new species during our 2014 field survey along the Track, in particular a microfrog in the genus *Paedophryne* (Figure 18) that includes the world's smallest frog currently known only from the Rigo area (Rittmeyer *et al.*, 2012).

Figure 18. This is likely a new species of *Cophixalus* from Brigade Hill along the Kokoda Track.

Vertebrates, mainly birds, tend to constitute much of the “charismatic megafauna” that attracts funding to drive conservation. With this in mind, we feel that the overall vertebrate biota of the IPZ is sufficiently impressive to merit conservation attention.

9 Identification of Potential Protected Areas

The Kokoda Outer Area of Interest includes most of the Owen Stanley Range, and as such includes at least a third and upwards of half the biodiversity in Papua New Guinea, depending on the taxonomic group. A high proportion of this biodiversity is found within the Interim Protection Zone and within 10 km of the Kokoda Track.

The forests along the Track are in relatively good shape except for some of the more

densely populated areas around the middle of the Track, such as Kagi and Efogi. Inasmuch as the Track is of high historic interest because of the WWII Kokoda Campaign, it draws large numbers of tourists to the area. This has, under the overall management of the Kokoda Track Authority, produced a significant revenue stream that supports development along the Track.

It is increasingly clear that protected areas must have some sort of revenue stream if they are to be successful. This is a significant factor to be considered when evaluating the feasibility of bringing parcels along the Kokoda Track within a formal protected area.

It was clear during our 2014 field survey that the Kokoda Track, in addition to its rich military history, also offers outstanding opportunities for ecotourism. This, in addition to historical tourism (trekking), could become an important source of revenue to local landowners and encourage them to preserve the biodiversity along the track. This, together with the impressive biodiversity along the track, makes the IPZ a high value conservation target.

Although this is something of a broad generalization, the vertebrate biota of the Owen Stanley Range is mostly homogeneous. For example, most of the reptiles, birds, and mammals that occur in the IPZ are widespread throughout the Owen Stanley Range. In other words, there are no obvious pockets of vertebrate restricted-range endemism in other parts of the range.

However, most of the IPZ is no higher than 2200 m elevation. The Albert Edward – Mt. Victoria Massif to the north includes huge areas of alpine scrub and grassland above 3000 m elevation, as does the Mt. Kenevi Massif to the east. Since there are many conservation advantages to designation of large, diverse protected areas compared to a geographically dispersed network of smaller areas inhabited by the same biota, we evaluated some obvious conservation options that would add value to the protection of the IPZ.

To facilitate analysis we divided the IPZ into two subregions, the southern watershed and northern watersheds. We also arbitrarily designated a large part of the uplands to the north as the Victoria – Albert Edward Massif. Similarly, we designated upland areas to the east as the Kenevi Massif (Figure 19). Using GIS overlay analysis we determined the composition of the vertebrate biota of each of these areas, and starting with the South Versant of the IPZ determined what additional species would be included as we added areas.

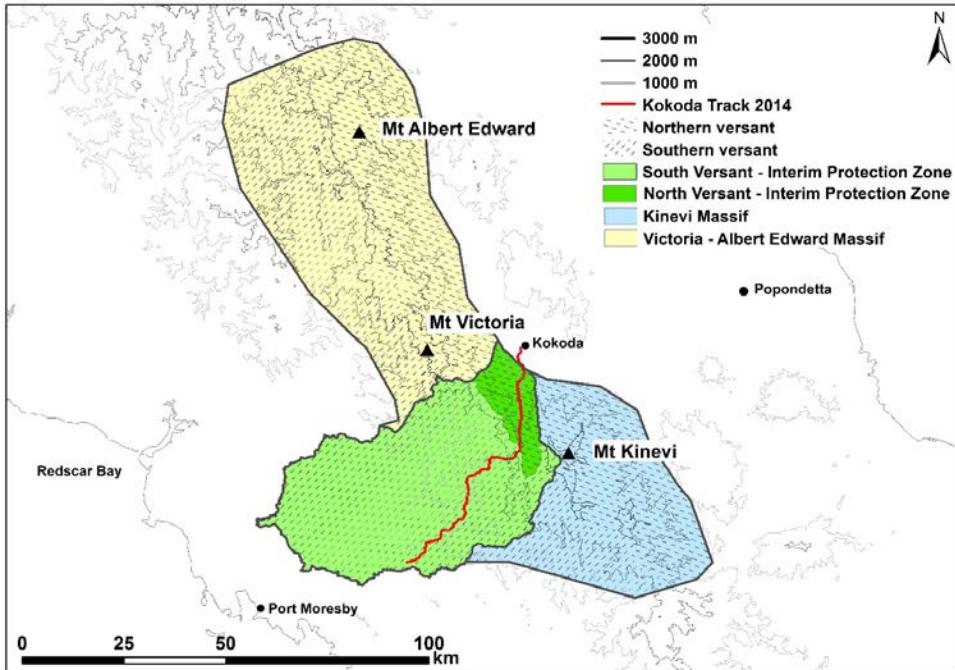

Figure 19. Proposed Protected Areas for the Kokoda Areas of Interest.

The southern versant of the IPZ, which constitutes 86% of the overall IPZ, has a total of 758 species of terrestrial vertebrate species. Adding the northern versant adds two species of frogs, 12 species of reptiles, three species of birds, and one species of mammal, for a total of 18 vertebrate species (Appendix 31). The main additions are lowland and hill forest species endemic to

the north coast of New Guinea; most of which are relatively widespread.

If we extended the northern versant somewhat we would certainly pick up a number of additional lowland species. For example, one of the species that occurs in the northern lowlands (and has more recently been documented to occur on the Managalase Plateau) is the Alexandra birdwing butterfly, *Ornithoptera alexandreae* (Figure 20).

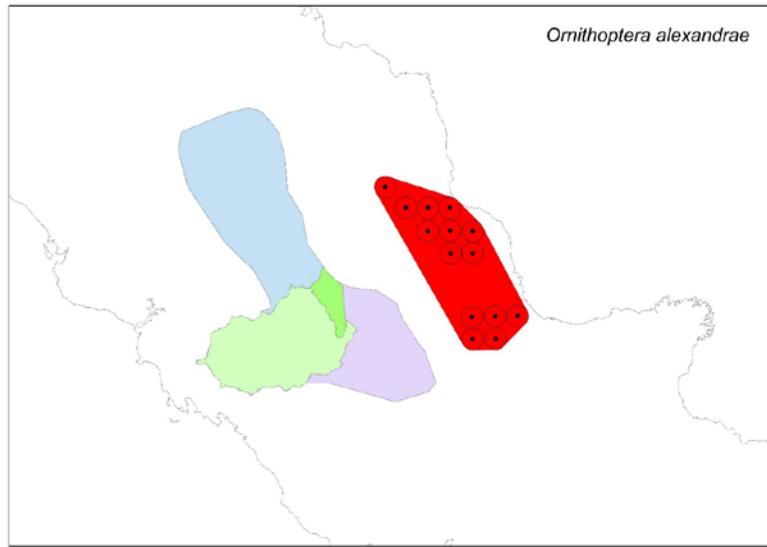

Figure 20. Distribution of the Queen Alexandra Birdwing Butterfly (*Ornithoptera alexandreae*) in red. Proposed protected area within the Kokoda Areas of Interest shown in other colors (see Figure 12 for details).

This is the largest butterfly in the world and certainly a taxon that would qualify as part of PNG's "charismatic megafauna." It was described in 1907 by Albert Meek, who said that he collected it in the headwaters of the Mambare River at an altitude of around 5000 feet (Meek, 2013). All confirmed subsequent sightings or specimen collections have been from lower elevations (Parsons, 1993). Williams *et al.* (2007) evaluate various conservation options. It is clear that designation of large protected areas with the range of *Ornithoptera alexandreae* is probably unrealistic; it might be possible, however, to adjust the boundaries of the IPZ to offer some protection in specific areas.

The addition of the Albert Edward – Victoria Massif adds an additional six species of amphibians, two species of reptiles, three species of birds, and eight species of mammals, for a total of 19 species of vertebrates. Importantly, it would add a wallaby of conservation concern, *Thylogale*

calabyi, and an interesting and charismatic species of bird, *Macgregoria pulchra* (Figure 21).

Figure 21. *Macgregoria pulchra*. Photo: Bruce Beehler.

Although this latter species is listed as occurring in the IPZ, this is only because a sliver of its range extends into the IPZ (Figure 22). This is probably a GIS artifact.

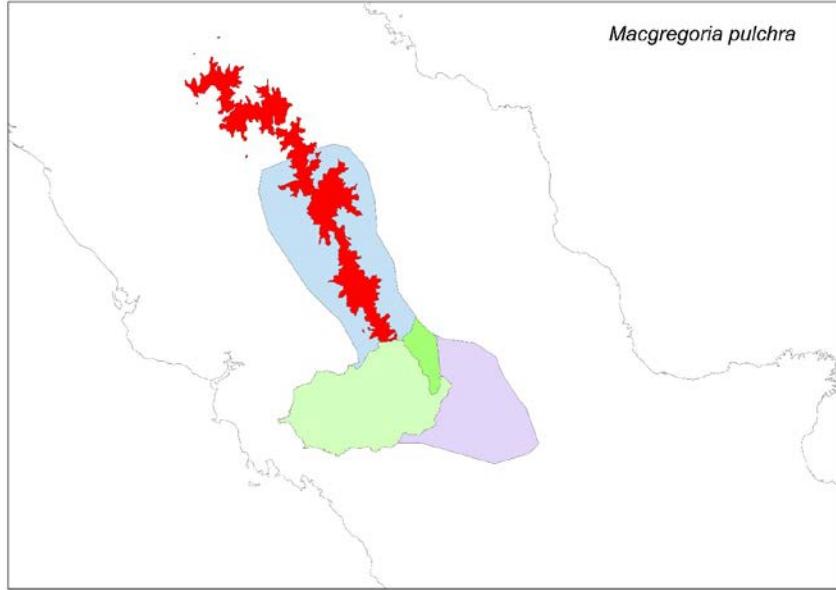

Figure 22. Distribution of the Ochre-winged Honeyeater (*Macgregoria pulchra*) in red. The proposed protected area within the Kokoda Areas of interest shown in other colors (see Figure 12 for details).

Although this species has a fairly wide range, and in addition to occurring on the Albert Edward – Victoria massif is also known from the Star Mountains and from some of the alpine regions of Indonesian New Guinea, protection of the Albert Edward – Victoria Massif would help ensure the survival of the species. Similarly, such action would help to protect the endangered montane wallaby, *Thylogale callabyi*. This species apparently once occurred on two of the high mountains in the Highlands of PNG (Mt. Giluwe and Mt. Wilhelm), but may have been extirpated from that region.

The inclusion of the Albert Edward – Victoria Massif would add 47 species of montane plant species that are not known from the IPZ.

The actual number of species it would add is probably significantly higher than we have been able to document, primarily because there has been relatively little biological field work between 2000 and 3000 m elevations on Mt. Victoria.

The addition of the Kenevi Massif would add three species of amphibians and a mammal that are not otherwise represented in the combined IPZ and Albert Edward – Victoria Massif. This low number of species likely is an artifact that reflects incomplete knowledge of the Kenevi biota and not its biodiversity value. The Kokoda Track runs through a gap in the Owen Stanley Range and it is likely that some of the high elevation species found in the eastern Owen Stanley Range may have reached Mt. Kenevi but have not have been able to cross that gap and are absent from the Albert Edward – Victoria massif.

10 Recommendations

10.1 Additional data needs:

Although we were able to mobilize a significant amount of data to guide and inform efforts to evaluate the conservation value of the Kokoda Areas of Interest, there are a number of information gaps.

Although the Kokoda Areas are well known compared to other parts of Papua New Guinea, we were not able to use all available plant data because it has not been fully georeferenced. Upwards of a third of the specimens are known only to genus. We recommend that:

10.1.1 Fully georeference PNG Plants Database

All specimens in the PNGplants database be reviewed to ensure that latitude and longitude are correctly assigned, or georeferenced if no coordinates have been assigned. Although we have developed semi-automated techniques to do this, this

is still a labor-intensive undertaking that will require significant resources. However, enhancing the data from these species would be far, far less costly than collecting additional specimens or fully databasing additional specimens.

10.1.2 Review and update plant specimen identifications

All plant specimen identifications should be checked and confirmed. This is a potentially enormous effort. There are ways to reduce this cost by developing an integrated work flow

that matches specimen identifications across institutions. This requires careful control over collector name and number to ensure that the same specimen numbers can easily be matched across institutions.

10.1.3 Continue databasing the PNG National Herbarium through the PNGPlants Database

Inasmuch as the PNG National Herbarium at Lae has the world's largest assemblage of Papua New Guinea plant specimens, it is important that those collections be fully databased and available for conservation planning. The director

of the PNGplants database, Dr. Barry Conn, has made good use of specimens that have been databased in Australian herbaria and at Bishop Museum. Together with staff at the PNG Forest Research Institute, he oversees ongoing data entry efforts.

However, he needs additional support to assess how much additional material at LAE has yet to be databased and to database this material. The PNGPlants database is the world's single most useful source

of plant specimen data for Papua New Guinea. It is crucial to future efforts to incorporate information on the distribution and diversity of plants into conservation planning.

10.2 Conservation Action and Field Surveys

10.2.1 Formally designate the Interim Protection Zone and adjacent regions as protected areas

We believe that designating the Interim Protection Zone as a protected area has high scientific merit. The Owen Stanley Range has some of the richest biodiversity in Papua New Guinea, and the Interim Zone of Protection is in the heart of the Owen Stanley Range. This would help protect the Brown River Catchment, which has been designated as crucial to providing for future water and power needs of Port Moresby. However, we believe that the Interim Zone of Protection should be expanded to include the

high peaks of the Owen Stanley Range, such as English Peaks, Mt. Scratchley, Mt. Albert Edward and Mt. Victoria to the north. This would add considerably to the biodiversity value of the IPZ, based on the data that we have been able to mobilize. However, as pointed out earlier, the intermediate elevations of Mt. Victoria - i.e., those areas adjacent to the IPZ and Kokoda Track, remain poorly known. We strongly recommend that a biological field survey be conducted:

10.2.1.1 Undertake field surveys on the intermediate slopes of Mt. Victoria

We recommend that field surveys be conducted along the slopes of Mt. Victoria from Manumu or Milei (ca. 600 m elevation) to the summit (4038 m). This area is virtually

uninhabited and essentially unexplored. The field survey should focus on the slopes of Mt. Victoria starting from Manumu or Milei to at least 3000 m elevation.

10.2.1.2 Undertake fields surveys of Mt. Kenevi

It is also likely that Mt. Kenevi would add significant biodiversity value to the IPZ. This is impossible to know without additional field work. Although close to Port

Moresby, Mt. Kenevi is very poorly known and we strongly recommend further field work be conducted to survey the biota of this area – along the slopes of Mt Kenevi from Myola

to the summit of Mt. Kenevi. This area is virtually unexplored, is essentially uninhabited, and could have high biodiversity value. There are three species of frogs endemic to the Myola area and at least two species of lizards that may be new to

science from that and nearby areas. This at the very least suggests that it could be productive to conduct a field survey expedition to that area and nearby Mt. Kenevi.

11 Acknowledgements

This project was funded by a grant from the Papua New Guinea Conservation and Environmental Protection Authority (CEPA). Many people contributed in many ways to this study. In particular we thank Bulisa Iova, Jimmy Anamiato, and Peter Joseph of the Papua New Guinea National Museum for assistance in the field, and Pumehana Imada, Nicholas Griffith, Molly Hagemann, and Shelley James of Bishop Museum for assistance in the lab. We also thank Tracie Mackenzie for her outstanding administrative support and Neal Evenhuis for helping us resolve various nomenclatural issues. Andrew Taplin provided crucial assistance and guidance in the initial development of this project. Thane Pratt and Bruce Beehler made advanced drafts of their *Birds of New Guinea* available to us and this was critical to compiling accurate bird species checklists. Similarly Mike Hammer, Helen Larson, and Gerry Allen helped with the compilation of the freshwater fish checklist. Barry Conn provided access to the PNGPlants database and made many useful

suggestions. Alu Kaiye kindly commented on an earlier draft of this report and made many valuable suggestions that we have incorporated into the report. Kath Sale and Mark Nizette of the Department of Environment, Australia assisted us in many ways with information and advice, as did Kay Kalim, James Sabi, Alu Kaiye, Elton Kaitokai, Malcolm Keako, Barnabas Wilmont of the PNG Conservation and Environmental Protection Authority (CEPA). Thomas Waika and Agnes Bevi of CEPA provided tremendous administrative support. Emily Fajardo and Maureen Ewai of the United Nations Development Program (UNDP) were both extraordinarily helpful to the development and implementation of this study. Phil Shearman assisted us with GIS layer and interpretation of the data. Clyde Imada brought his outstanding editorial skills to the report and helped bring it into final form. We also thank Georgiana Kaipo for facilitating research visas and for arranging accommodation at the National Research Institute. Finally we thank Isabella Forster for her tremendous moral support.

13 Appendices

13.1 Appendix 01 - Vascular Plant Taxa of the Kokoda Outer Area of Interest (4408 spp.)

LYCOPODIACEAE	
<i>Huperzia archboldiana</i>	<i>Marattia coronata</i>
<i>Huperzia australiana</i>	<i>Marattia fraxinea</i>
<i>Huperzia ledermannii</i>	<i>Marattia novoguineensis</i>
<i>Huperzia macgregorii</i>	<i>Marattia salicina</i>
<i>Huperzia nummulariifolia</i>	<i>Marattia sp.</i>
<i>Huperzia phlegmaria</i>	<i>Marattia tafaensis</i>
<i>Huperzia phylantha</i>	<i>Marattia wernerii</i>
<i>Huperzia pinifolia</i>	
<i>Huperzia selago</i>	OSMUNDACEAE
<i>Huperzia serrata</i>	<i>Todea papuana</i>
<i>Huperzia squarrosa</i>	
<i>Huperzia whartoniensis</i>	HYMENOPHYLLACEAE
<i>Lycopodiella cernua</i>	<i>Cephalomanes acrosorum</i>
<i>Lycopodium angustiramosum</i>	<i>Cephalomanes atrovirens</i>
<i>Lycopodium clavatum</i>	<i>Cephalomanes densinervium</i>
<i>Lycopodium pritzelii</i>	<i>Cephalomanes javanicum</i>
<i>Lycopodium scariosum</i>	<i>Cephalomanes obscurum</i>
<i>Lycopodium sp.</i>	<i>Cephalomanes sp.</i>
<i>Lycopodium terrae-gulielmi</i>	<i>Crepidomanes aphlebioides</i>
<i>Lycopodium volubile</i>	<i>Crepidomanes bipunctatum</i>
<i>Lycopodium wightianum</i>	<i>Crepidomanes humile</i>
<i>Urostachys brassii</i>	<i>Crepidomanes maximum</i>
	<i>Crepidomanes pallidum</i>
ISOETACEAE	<i>Crepidomanes proliferum</i>
<i>Isoetes neoguineensis</i>	<i>Gonocormus novoguineensis</i>
	<i>Hymenophyllum archboldii</i>
SELAGINELLACEAE	<i>Hymenophyllum badium</i>
<i>Selaginella angustiramea</i>	<i>Hymenophyllum bamlerianum</i>
<i>Selaginella behrmanniana</i>	<i>Hymenophyllum brassii</i>
<i>Selaginella hieronymiana</i>	<i>Hymenophyllum bryophilum</i>
<i>Selaginella opaca</i>	<i>Hymenophyllum denticulatum</i>
	<i>Hymenophyllum dilatatum</i>
EQUISETACEAE	<i>Hymenophyllum foersteri</i>
<i>Equisetum debile</i>	<i>Hymenophyllum holochilum</i>
	<i>Hymenophyllum imbricatum</i>
OPHIOGLOSSACEAE	<i>Hymenophyllum javanicum</i>
<i>Helminthostachys zeylanica</i>	<i>Hymenophyllum ooides</i>
<i>Ophioglossum pendulum</i>	<i>Hymenophyllum ovatum</i>
<i>Ophioglossum reticulatum</i>	<i>Hymenophyllum pachydermicum</i>
<i>Ophioglossum sp.</i>	<i>Hymenophyllum polyanthon</i>
	<i>Hymenophyllum polyodon</i>
PSILOTACEAE	<i>Hymenophyllum productum</i>
<i>Psilotum complanatum</i>	<i>Hymenophyllum reinwardtii</i>
<i>Psilotum nudum</i>	<i>Hymenophyllum rubellum</i>
	<i>Hymenophyllum serrulatum</i>
MARATTIACEAE	<i>Hymenophyllum sp.</i>
<i>Angiopteris evanidostriata</i>	
<i>Angiopteris evecta</i>	
<i>Angiopteris naumannii</i>	

HYMENOPHYLLACEAE (cont.)	
<i>Hymenophyllum theridium</i>	<i>Cyathea atrox</i>
<i>Hymenophyllum treubii</i>	<i>Cyathea auriculifera</i>
<i>Macroglena meifolia</i>	<i>Cyathea catillifera</i>
<i>Nesopteris intermedia</i>	<i>Cyathea contaminans</i>
<i>Pleuromanes album</i>	<i>Cyathea dicksonioides</i>
<i>Trichomanes meifolium</i>	<i>Cyathea felina</i>
<i>Trichomanes obscurum</i>	<i>Cyathea foersteri</i>
<i>Trichomanes wernerii</i>	<i>Cyathea geluensis</i>
<i>Vandenboschia maxima</i>	<i>Cyathea gleichenioides</i>
GLEICHENIACEAE	<i>Cyathea hornei</i>
<i>Dicranopteris linearis</i>	<i>Cyathea inaequalis</i>
<i>Gleichenia bolanica</i>	<i>Cyathea macgillivrayi</i>
<i>Gleichenia brassii</i>	<i>Cyathea macgregorii</i>
<i>Gleichenia dicarpa</i>	<i>Cyathea macrophylla</i>
<i>Gleichenia erecta</i>	<i>Cyathea magna</i>
<i>Gleichenia hirta</i>	<i>Cyathea mesosora</i>
<i>Gleichenia hooglandii</i>	<i>Cyathea microphyloides</i>
<i>Gleichenia novoguineensis</i>	<i>Cyathea percrassa</i>
<i>Gleichenia reflexipinnula</i>	<i>Cyathea pilulifera</i>
<i>Gleichenia sp.</i>	<i>Cyathea rigens</i>
<i>Gleichenia truncata</i>	<i>Cyathea rubella</i>
<i>Gleichenia vulcanica</i>	<i>Cyathea sangirensis</i>
<i>Sticherus bolanicus</i>	<i>Cyathea semiamplexens</i>
<i>Sticherus erectus</i>	<i>Cyathea wernerii</i>
<i>Sticherus hirtus</i>	DICKSONIACEAE
<i>Sticherus sp.</i>	<i>Calochlaena straminea</i>
DIPTERIDACEAE	<i>Calochlaena villosa</i>
<i>Dipteris conjugata</i>	<i>Dicksonia hieronymii</i>
<i>Dipteris novoguineensis</i>	<i>Dicksonia lanigera</i>
<i>Dipteris sp.</i>	<i>Dicksonia sciurus</i>
LYGODIACEAE	<i>Dicksonia sp.</i>
<i>Lygodium dimorphum</i>	SACCOLOMATAEAE
<i>Lygodium flexuosum</i>	<i>Ithycaulon tenuisectum</i>
<i>Lygodium sp.</i>	<i>Saccoloma sp.</i>
SCHIZAEACEAE	CYSTODIACEAE
<i>Actinostachys digitata</i>	<i>Cystodium sorbifolium</i>
<i>Schizaea dichotoma</i>	LINDSAEACEAE
<i>Schizaea sp.</i>	<i>Lindsaea bakeri</i>
MARSILEACEAE	<i>Lindsaea ensifolia</i>
<i>Marsilea crenata</i>	<i>Lindsaea lucida</i>
SALVINIACEAE	<i>Lindsaea obtusa</i>
<i>Salvinia molesta</i>	<i>Lindsaea pulchella</i>
PLAGIOGYRIACEAE	<i>Lindsaea repens</i>
<i>Plagiogyria egenolfioides</i>	<i>Lindsaea rosenstockii</i>
<i>Plagiogyria glauca</i>	<i>Lindsaea tenuifolia</i>
<i>Plagiogyria tuberculata</i>	<i>Sphenomeris chinensis</i>
CYATHEACEAE	<i>Sphenomeris retusa</i>
<i>Cyathea aeneifolia</i>	<i>Sphenomeris sp.</i>
<i>Cyathea albidosquamata</i>	<i>Tapeinidium novoguineense</i>
<i>Cyathea angiensis</i>	<i>Tapeinidium sp.</i>
<i>Cyathea archboldii</i>	DENNSTAEDIACEAE
	<i>Dennstaedtia glabrata</i>

DENNSTAEDTIACEAE (cont.)	
<i>Dennstaedtia mathewsii</i>	<i>Pteris excelsa</i>
<i>Dennstaedtia penicillifera</i>	<i>Pteris grassii</i>
<i>Dennstaedtia scandens</i>	<i>Pteris keysseri</i>
<i>Dennstaedtia</i> sp.	<i>Pteris moluccana</i>
<i>Histiopteris caudata</i>	<i>Pteris pacifica</i>
<i>Histiopteris incisa</i>	<i>Pteris</i> sp.
<i>Histiopteris</i> sp.	<i>Pteris tripartita</i>
<i>Hypolepis alpina</i>	<i>Pteris warburgii</i>
<i>Hypolepis archboldii</i>	<i>Pteris wernerii</i>
<i>Hypolepis bamleriana</i>	<i>Syngramma quinata</i>
<i>Hypolepis</i> sp.	<i>Syngramma schlechteri</i>
<i>Microlepia pseudohirta</i>	<i>Taenitis blechnoides</i>
<i>Microlepia speluncae</i>	<i>Taenitis hookeri</i>
<i>Paesia radula</i>	<i>Taenitis pinnata</i>
<i>Paesia</i> sp.	<i>Vaginularia acrocarpa</i>
<i>Pteridium esculentum</i>	<i>Vaginularia emarginata</i>
<i>Pteridium revolutum</i>	<i>Vaginularia</i> sp.
<i>Pteridium x semihastatum</i>	<i>Vaginularia trichoidea</i>
<i>Pteridium</i> sp.	<i>Vittaria angustifolia</i>
PTERIDACEAE	<i>Vittaria elongata</i>
<i>Acrostichum speciosum</i>	<i>Vittaria exigua</i>
<i>Adiantum aculeolatum</i>	<i>Vittaria latissima</i>
<i>Adiantum caudatum</i>	<i>Vittaria ledermannii</i>
<i>Adiantum christii</i>	<i>Vittaria nymani</i>
<i>Adiantum diaphanum</i>	<i>Vittaria rubens</i>
<i>Adiantum philippense</i>	<i>Vittaria semipellucida</i>
<i>Adiantum zollingeri</i>	<i>Vittaria</i> sp.
<i>Antrophyum callifolium</i>	<i>Vittaria squamosipes</i>
<i>Antrophyum ledermannii</i>	ASPLENIACEAE
<i>Antrophyum parvulum</i>	<i>Asplenium acrobryum</i>
<i>Antrophyum plantagineum</i>	<i>Asplenium affine</i>
<i>Antrophyum reticulatum</i>	<i>Asplenium amboinense</i>
<i>Antrophyum semicostatum</i>	<i>Asplenium baileyanum</i>
<i>Antrophyum</i> sp.	<i>Asplenium bipinnatifidum</i>
<i>Calciphilopteris papuana</i>	<i>Asplenium brassii</i>
<i>Ceratopteris</i> sp.	<i>Asplenium caudatum</i>
<i>Ceratopteris thalictroides</i>	<i>Asplenium cromwellianum</i>
<i>Cheilanthes hirsuta</i>	<i>Asplenium cuneatum</i>
<i>Cheilanthes</i> sp.	<i>Asplenium gracilifolium</i>
<i>Cheilanthes tenuifolia</i>	<i>Asplenium hapalophyllum</i>
<i>Coniogramme fraxinea</i>	<i>Asplenium incisodentatum</i>
<i>Coniogramme intermedia</i>	<i>Asplenium keyserianum</i>
<i>Coniogramme macrophylla</i>	<i>Asplenium laserpitifolium</i>
<i>Doryopteris concolor</i>	<i>Asplenium ledermannii</i>
<i>Doryopteris ludens</i>	<i>Asplenium macrophyllum</i>
<i>Monogramma dareicarpa</i>	<i>Asplenium nidus</i>
<i>Monogramma</i> sp.	<i>Asplenium normale</i>
<i>Onychium siliculosum</i>	<i>Asplenium novoguineense</i>
<i>Pityrogramma calomelanos</i>	<i>Asplenium nutans</i>
<i>Pteris brassii</i>	<i>Asplenium paleaceum</i>
<i>Pteris cretica</i>	<i>Asplenium parvum</i>
	<i>Asplenium polyodon</i>

ASPLENIACEAE (cont.)	
Asplenium regis	BLECHNACEAE
Asplenium sanctichristofori	<i>Blechnum dilatatum</i>
Asplenium setisectum	<i>Blechnum egregium</i>
Asplenium subemarginatum	<i>Blechnum fluitatile</i>
Asplenium subpinnatifidum	<i>Blechnum hieronymi</i>
Asplenium tafanum	<i>Blechnum keysseri</i>
Asplenium tenerum	<i>Blechnum orientale</i>
Asplenium trichomanes	<i>Blechnum patersonii</i>
Asplenium unilaterale	<i>Blechnum revolutum</i>
Diplora d'urvillaei	<i>Blechnum vittatum</i>
Diplora longifolia	<i>Blechnum vulcanicum</i>
Diplora schizocarpa	<i>Doodia media</i>
THELYPTERIDACEAE	<i>Doodia sp.</i>
Amphineuron immersum	<i>Stenochlaena areolaris</i>
Amphineuron logavensis	<i>Stenochlaena palustris</i>
Amphineuron opulentum	ATHYRIACEAE
Amphineuron terminans	<i>Athyrium acrocarpum</i>
Christella hispidula	<i>Athyrium setiferum</i>
Christella sp.	<i>Athyrium sp.</i>
Coryphopteris fasciculata	<i>Callipteris prolifera</i>
Coryphopteris sp.	<i>Diplazium acrocarpum</i>
Cyclosorus interruptus	<i>Diplazium cordifolium</i>
Cyclosorus sp.	<i>Diplazium cyatheifolium</i>
Macrothelypteris polypodioides	<i>Diplazium sp.</i>
Mesophlebion crassifolium	HYPODEMATIACEAE
Parathelypteris beddomei	<i>Didymochlaena truncatula</i>
Parathelypteris sp.	<i>Leucostegia pallida</i>
Plesioneuron dryopteroideum	DRYOPTERIDACEAE
Plesioneuron wariense	<i>Arachniodes aristata</i>
Pneumatopteris nephrolepioides	<i>Arachniodes sp.</i>
Pneumatopteris sogerensis	<i>Ctenitis sp.</i>
Pneumatopteris sp.	<i>Diacalpe aspidioides</i>
Pronephrium asperum	<i>Dryopteris phaeostigma</i>
Pronephrium sp.	<i>Dryopteris hirtipes</i>
Pronephrium triphyllum	<i>Dryopteris sp.</i>
Sphaerostephanos acrostichoides	<i>Dryopteris sparsa</i>
Sphaerostephanos alatellus	<i>Dryopteris wallichiana</i>
Sphaerostephanos atasripii	<i>Elaphoglossum novoguineense</i>
Sphaerostephanos cataractorum	<i>Elaphoglossum sp.</i>
Sphaerostephanos confertus	<i>Lastreopsis novoguineensis</i>
Sphaerostephanos dichrotrichus	<i>Polystichum aculeatum</i>
Sphaerostephanos elatior	<i>Polystichum archboldii</i>
Sphaerostephanos heterocarpus	<i>Polystichum bamlerianum</i>
Sphaerostephanos invitus	<i>Polystichum keyserianum</i>
Sphaerostephanos polycarpus	<i>Polystichum lineare</i>
Sphaerostephanos sp.	<i>Polystichum moluccense</i>
Sphaerostephanos unijuga	<i>Polystichum papuanum</i>
Sphaerostephanos unitus	<i>Polystichum sp.</i>
Thelypteris beddornei	<i>Rumohra adiantiformis</i>
Thelypteris sp.	<i>Stenolepia tristis</i>
	NEPHROLEPIDACEAE
	<i>Nephrolepis acuminata</i>

NEPHROLEPIDACEAE (cont.)	
<i>Nephrolepis cordifolia</i>	<i>Ctenopteris bipinnatifida</i>
<i>Nephrolepis hirsutula</i>	<i>Ctenopteris denticulata</i>
<i>Nephrolepis lauterbachii</i>	<i>Ctenopteris ledermannii</i>
TECTARIACEAE	<i>Ctenopteris leysii</i>
<i>Pleocnemia dimidiolobata</i>	<i>Ctenopteris millefolia</i>
<i>Pleocnemia irregularis</i>	<i>Ctenopteris pubipes</i>
<i>Stenosemia aurita</i>	<i>Ctenopteris sp.</i>
<i>Tectaria decurrens</i>	<i>Ctenopteris subsecundodissecta</i>
<i>Tectaria menyanthidis</i>	<i>Ctenopteris taxodioides</i>
<i>Tectaria papuana</i>	<i>Ctenopteris undosa</i>
<i>Tectaria pubescens</i>	<i>Dendroglossa sp.</i>
<i>Tectaria siifolia</i>	<i>Drymoglossum sp.</i>
<i>Tectaria sp.</i>	<i>Drynaria quercifolia</i>
<i>Tectaria subtriphylla</i>	<i>Drynaria rigidula</i>
<i>Tectaria weinlandii</i>	<i>Drynaria sparsisora</i>
OLEANDRACEAE	<i>Goniophlebium demersum</i>
<i>Oleandra gracilis</i>	<i>Goniophlebium percussum</i>
<i>Oleandra neriformis</i>	<i>Goniophlebium persicifolium</i>
<i>Oleandra sp.</i>	<i>Goniophlebium serratifolium</i>
<i>Oleandra wernerii</i>	<i>Goniophlebium subauriculatum</i>
DAVALLIACEAE	<i>Grammitis archboldii</i>
<i>Davallia denticulata</i>	<i>Grammitis clemensiae</i>
<i>Davallia divaricata</i>	<i>Grammitis frigida</i>
<i>Davallia solida</i>	<i>Grammitis graminifolia</i>
<i>Davalloides novoguineensis</i>	<i>Grammitis scabristipes</i>
<i>Humata deltoidea</i>	<i>Grammitis sp.</i>
<i>Humata kinabaluensis</i>	<i>Grammitis sumatrana</i>
<i>Humata neoguineensis</i>	<i>Grammitis trichopoda</i>
<i>Humata parvula</i>	<i>Lecanopteris mirabilis</i>
<i>Humata pectinata</i>	<i>Lecanopteris sinuosa</i>
<i>Humata sp.</i>	<i>Lecanopteris sp.</i>
<i>Humata tenuis</i>	<i>Lemmaphyllum accedens</i>
<i>Humata wernerii</i>	<i>Lemmaphyllum damuense</i>
<i>Scyphularia pentaphylla</i>	<i>Lemmaphyllum novoguineense</i>
POLYPODIACEAE	<i>Leptochilus sp.</i>
<i>Aglaomorpha heraclea</i>	<i>Loxogramme avenia</i>
<i>Aglaomorpha hieronymi</i>	<i>Loxogramme paltonioides</i>
<i>Aglaomorpha novoguineensis</i>	<i>Loxogramme scolopendrina</i>
<i>Aglaomorpha parkinsonii</i>	<i>Loxogramme sp.</i>
<i>Belvisia mucronata</i>	<i>Loxogramme subselliguea</i>
<i>Belvisia sp.</i>	<i>Microsorum bamlerianum</i>
<i>Belvisia validinervis</i>	<i>Microsorum brassii</i>
<i>Calymmodon atrichus</i>	<i>Microsorum commutatum</i>
<i>Calymmodon cucullatus</i>	<i>Microsorum glossipes</i>
<i>Calymmodon pergracillimus</i>	<i>Microsorum linguiforme</i>
<i>Calymmodon sp.</i>	<i>Microsorum membranifolium</i>
<i>Chrysogrammitis musgraviana</i>	<i>Microsorum multijugatum</i>
<i>Crypsinus albidosquamatus</i>	<i>Microsorum punctatum</i>
<i>Crypsinus enervis</i>	<i>Microsorum scolopendria</i>
<i>Crypsinus senescens</i>	<i>Microsorum sp.</i>
<i>Crypsinus sp.</i>	<i>Platycerium wandae</i>
	<i>Polypodium balteiforme</i>

POLYPODIACEAE (cont.)	
<i>Prosaptia capillipes</i>	<i>Sundacarpus amarus</i>
<i>Prosaptia circumvallata</i>	
<i>Prosaptia contigua</i>	GNETACEAE
<i>Prosaptia davalliacea</i>	<i>Gnetum costatum</i>
<i>Prosaptia geluensis</i>	<i>Gnetum gnemon</i>
<i>Pyrrosia angustata</i>	<i>Gnetum gnemonoides</i>
<i>Pyrrosia longifolia</i>	<i>Gnetum latifolium</i>
<i>Pyrrosia sp.</i>	
<i>Selliguea crassisora</i>	NYMPHAEACEAE
<i>Selliguea sp.</i>	<i>Nymphaea pubescens</i>
<i>Themelium tenuisectum</i>	
<i>Xiphopteris glandulosopilosa</i>	TRIMENIACEAE
<i>Xiphopteris sp.</i>	<i>Trimenia papuana</i>
CYCADACEAE	
<i>Cycas media</i>	CHLORANTHACEAE
<i>Cycas scratchleyana</i>	<i>Ascarina philippinensis</i>
ARAUCARIACEAE	<i>Chloranthus elatior</i>
<i>Agathis alba</i>	<i>Chloranthus officinalis</i>
<i>Agathis robusta</i>	<i>Chloranthus sp.</i>
<i>Agathis spathulata</i>	
<i>Araucaria cunninghamii</i>	ANNONACEAE
<i>Araucaria hunsteinii</i>	<i>Cananga odorata</i>
CUPRESSACEAE	<i>Cyathocalyx brevipetalus</i>
<i>Callitris rhomboidea</i>	<i>Cyathocalyx novoguineensis</i>
<i>Libocedrus papuana</i>	<i>Cyathocalyx polycarpa</i>
<i>Papuacedrus papuana</i>	<i>Cyathocalyx sp.</i>
<i>Papuacedrus sp.</i>	<i>Goniothalamus sp.</i>
PODOCARPACEAE	<i>Haplostichanthus longirostris</i>
<i>Dacrycarpus cinctus</i>	<i>Haplostichanthus sp.</i>
<i>Dacrycarpus compactus</i>	<i>Melodorum leichhardtii</i>
<i>Dacrycarpus imbricatus</i>	<i>Mitrella sp.</i>
<i>Dacrycarpus steuppii</i>	<i>Mitrephora diversifolia</i>
<i>Dacrydium nidulum</i>	<i>Oncodostigma sp.</i>
<i>Dacrydium sp.</i>	<i>Papualthia auriculata</i>
<i>Decussocarpus wallichianus</i>	<i>Petalolophus sp.</i>
<i>Falcifolium papuanum</i>	<i>Polyalthia discolor</i>
<i>Nageia wallichiana</i>	<i>Polyalthia forbesii</i>
<i>Phyllocladus hypophyllus</i>	<i>Polyalthia glauca</i>
<i>Phyllocladus prostratus</i>	<i>Polyalthia oblongifolia</i>
<i>Phyllocladus sp.</i>	<i>Polyalthia sp.</i>
<i>Podocarpus archboldii</i>	<i>Popowia polytricha</i>
<i>Podocarpus bracteatus</i>	<i>Popowia sp.</i>
<i>Podocarpus brassii</i>	<i>Pseuduvaria acerosa</i>
<i>Podocarpus cinctus</i>	<i>Pseuduvaria grandifolia</i>
<i>Podocarpus irriictus</i>	<i>Pseuduvaria megalopus</i>
<i>Podocarpus ledermanii</i>	<i>Pseuduvaria nova-guineensis</i>
<i>Podocarpus nerifolius</i>	<i>Pseuduvaria sp.</i>
<i>Podocarpus papuanus</i>	<i>Pseuduvaria versteegii</i>
<i>Podocarpus pilgeri</i>	<i>Rauwenhoffia sp.</i>
<i>Podocarpus rumphii</i>	<i>Uvaria branderhorstii</i>
<i>Podocarpus sp.</i>	<i>Uvaria grandiflora</i>
	<i>Xylopia papuana</i>
	<i>Xylopia sp.</i>
	HIMANTANDRACEAE
	<i>Galbulimima belgraveana</i>
	<i>Galbulimima sp.</i>

MAGNOLIACEAE	
<i>Elmerrillia tsiampacca</i>	
MYRISTICACEAE	
<i>Gymnacranthera farquhariana</i>	
<i>Gymnacranthera sp.</i>	
<i>Gymnacranthera zippeliana</i>	
<i>Horsfieldia australiana</i>	
<i>Horsfieldia corrugata</i>	
<i>Horsfieldia coryandra</i>	
<i>Horsfieldia erubescens</i>	
<i>Horsfieldia hellwigii</i>	
<i>Horsfieldia irya</i>	
<i>Horsfieldia laevigata</i>	
<i>Horsfieldia macrocoma</i>	
<i>Horsfieldia pachycarpa</i>	
<i>Horsfieldia sinclairii</i>	
<i>Horsfieldia sp.</i>	
<i>Horsfieldia spicata</i>	
<i>Horsfieldia subtilis</i>	
<i>Horsfieldia sylvestris</i>	
<i>Myristica brevistipes</i>	
<i>Myristica buchneriana</i>	
<i>Myristica carrii</i>	
<i>Myristica chrysophylla</i>	
<i>Myristica concinna</i>	
<i>Myristica crassipes</i>	
<i>Myristica cucullata</i>	
<i>Myristica fatua</i>	
<i>Myristica flosculosa</i>	
<i>Myristica globosa</i>	
<i>Myristica hollrungii</i>	
<i>Myristica hooglandii</i>	
<i>Myristica insipida</i>	
<i>Myristica inutilis</i>	
<i>Myristica lancifolia</i>	
<i>Myristica longipes</i>	
<i>Myristica nana</i>	
<i>Myristica olivacea</i>	
<i>Myristica pilosella</i>	
<i>Myristica pumila</i>	
<i>Myristica quercicarpa</i>	
<i>Myristica sogeriensis</i>	
<i>Myristica sp.</i>	
<i>Myristica sphaerosperma</i>	
<i>Myristica subalulata</i>	
<i>Myristica sulcata</i>	
<i>Myristica tenuivenia</i>	
<i>Myristica tristis</i>	
<i>Myristica tubiflora</i>	
<i>Myristica umbrosa</i>	
<i>Myristica warburgii</i>	
ATHEROSPERMATACEAE	
<i>Dryadodaphne novoguineensis</i>	
<i>Dryadodaphne pterandrica</i>	
HERNANDIACEAE	
<i>Hernandia ovigera</i>	
<i>Hernandia sp.</i>	
LAURACEAE	
<i>Actinodaphne nitida</i>	
<i>Beilschmiedia brassii</i>	
<i>Beilschmiedia sp.</i>	
<i>Cassytha filiformis</i>	
<i>Cinnamomum eugenoliferum</i>	
<i>Cinnamomum frodinii</i>	
<i>Cinnamomum longepedicellatum</i>	
<i>Cinnamomum massoia</i>	
<i>Cinnamomum sp.</i>	
<i>Cryptocarya albida</i>	
<i>Cryptocarya alleniana</i>	
<i>Cryptocarya apamaefolia</i>	
<i>Cryptocarya camptodroma</i>	
<i>Cryptocarya fagifolia</i>	
<i>Cryptocarya forbesii</i>	
<i>Cryptocarya massoy</i>	
<i>Cryptocarya minutifolia</i>	
<i>Cryptocarya myrcioides</i>

MONIMIACEAE	
<i>Kibara inamoena</i>	
<i>Kibara katikii</i>	
<i>Kibara leachii</i>	
<i>Kibara papuana</i>	
<i>Kibara sp.</i>	
<i>Levieria beccariana</i>	
<i>Levieria montana</i>	

MONIMIACEAE (cont.)	
Levieria nitens	<i>Piper caninum</i>
Levieria sp.	<i>Piper celtidiforme</i>
Levieria squarrosa	<i>Piper interruptum</i>
Matthaea sp.	<i>Piper lessertianum</i>
Palmeria arfakiana	<i>Piper macropiper</i>
Palmeria montana	<i>Piper mestonii</i>
Palmeria sp.	<i>Piper plagiophyllum</i>
Steganthera oblongifolia	<i>Piper rodatzii</i>
Steganthera sp.	<i>Piper sp.</i>
Wilkiea foremanii	<i>Piper stenocarpum</i>
WINTERACEAE	<i>Piper subbullatum</i>
Bubbia argentea	<i>Piper subvirosum</i>
Bubbia calothyrsa	<i>Piper triangulare</i>
Bubbia clemensis	<i>Piper trombek</i>
Bubbia haplopus	<i>Piper umbellatum</i>
Bubbia polyneura	<i>Piper wabagense</i>
Bubbia sororia	<i>Piper wichmannii</i>
Drimys versteegii	<i>Pothomorphe sp.</i>
Tasmannia buxifolia	ARACEAE
Tasmannia cyclopum	<i>Alocasia aequiloba</i>
Tasmannia hatamensis	<i>Alocasia lancifolia</i>
Tasmannia macrantha	<i>Alocasia monticola</i>
Tasmannia piperita	<i>Alocasia sp.</i>
Tasmannia sp.	<i>Amydrium magnificum</i>
Zygogynum calothyrsrum	<i>Amydrium zippelianum</i>
Zygogynum haplopus	<i>Cyrtosperma macrotum</i>
Zygogynum sp.	<i>Cyrtosperma sp.</i>
ARISTOLOCHIACEAE	<i>Epipremnum sp.</i>
Aristolochia goliathiana	<i>Holochlamys beccarii</i>
Par aristolochia gracilifolia	<i>Holochlamys sp.</i>
Par aristolochia meridionaliana	<i>Homalomena davidiana</i>
PIPERACEAE	<i>Homalomena schlechteri</i>
Peperomia blanda	<i>Homalomena sp.</i>
Peperomia brassii	<i>Lasia spinosa</i>
Peperomia elmeri	<i>Pistia stratiotes</i>
Peperomia gemella	<i>Pothos hellwigii</i>
Peperomia gurakorana	<i>Pothos sp.</i>
Peperomia laevifolia	<i>Pothos zippelii</i>
Peperomia marivelesana	<i>Rhaphidophora kokodensis</i>
Peperomia microstachya	HYDROCHARITACEAE
Peperomia muscicola	<i>Blyxa aubertii</i>
Peperomia pellucida	<i>Enhalus acoroides</i>
Peperomia pupurea	<i>Hydrilla verticillata</i>
Peperomia saxatilis	<i>Ottelia alismoides</i>
Peperomia tetraphylla	<i>Vallisneria sp.</i>
Piper abbreviatum	BURMANNIACEAE
Piper aduncum	<i>Burmannia longifolia</i>
Piper arfakianum	DIOSCOREACEAE
Piper arfakiensis	<i>Dioscorea bulbifera</i>
Piper betle	<i>Tacca sp.</i>
Piper bolanicum	PANDANACEAE
	<i>Freycinetia angustissima</i>

PANDANACEAE (cont.)	
<i>Freycinetia bicolor</i>	
<i>Freycinetia excelsa</i>	
<i>Freycinetia fibrosa</i>	
<i>Freycinetia funicularis</i>	
<i>Freycinetia inermis</i>	
<i>Freycinetia linearis</i>	
<i>Freycinetia marantifolia</i>	
<i>Freycinetia scandens</i>	
<i>Freycinetia spiralis</i>	
<i>Freycinetia stenodonta</i>	
<i>Freycinetia tafaensis</i>	
<i>Pandanus adinobotrys</i>	
<i>Pandanus archboldianus</i>	
<i>Pandanus balenii</i>	
<i>Pandanus beccarii</i>	
<i>Pandanus brassii</i>

	<i>Hetaeria oblongifolia</i>

ORCHIDACEAE (cont.)	
Hetaeria sp.	Phreatia elongata
Hippeophyllum macranthum	Phreatia laxa
Hylophila gracilis	Phreatia sp.
Hylophila sp.	Phreatia valida
Lepidogyne minor	Physurus bicalcaratus
Lepidogyne sp.	Plocoglottis atroviridis
Liparis sp.	Plocoglottis maculata
Macodes sp.	Plocoglottis sp.
Malaxis fissa	Poaephylum sp.
Malaxis graminifolia	Podochilus bimaculatus
Malaxis sp.	Podochilus sp.
Mediocalcar agathodaemonis	Pomatocalpa macphersonii
Mediocalcar crenulatum	Pseuderia sp.
Mediocalcar decoratum	Pseudovanilla sp.
Mediocalcar pygmaeum	Pterostylis acuminata
Mediocalcar sp.	Pterostylis papuana
Mediocalcar stevenscoodei	Pterostylis sp.
Micropera fasciculata	Renanthera sp.
Microtorchis sp.	Robiquetia hamata
Mischobulbum cordifolium	Spathoglottis lanepoolei
Nervilia sp.	Spathoglottis papuana
Neuwiedia veratrifolia	Spathoglottis plicata
Oberonia diura	Spathoglottis sp.
Oberonia imbricata	Spathoglottis wariana
Oberonia oblonga	Spiranthes sinensis
Oberonia sp.	Taeniophyllum malianum
Octarrhena cordata	Taeniophyllum sp.
Octarrhena filiformis	Tainia sp.
Octarrhena sp.	Thelasis carinata
Octarrhena tenuis	Thelasis sp.
Oeceoclades pulchra	Thelymitra papuana
Osyricera ovata	Thelymitra sp.
Oxystophyllum govidjoae	Thrixspermum amplexicaule
Paphiopedilum violascens	Thrixspermum platystarhys
Pedilochilus alpinum	Thrixspermum sp.
Pedilochilus sp.	Trachoma stellata
Pedilonum auroroseum	Trachyrhizum sp.
Pedilonum caliculi-mentum	Trichotosia bracteata
Pedilonum lawesii	Trichotosia sp.
Pedilonum macrogenion	Tropidia disticha
Pedilonum roseipes	Tropidia sp.
Pedilonum smillieae	Vandopsis wariana
Pedilonum uncinatum	Vrydagzynea sp.
Pedilonum verruculosum	XANTHORRHOEACEAE
Peristylus affinis	Dianella caerulea
Peristylus maingayi	Dianella ensifolia
Peristylus papuanus	Geitonoplesium cymosum
Phaius sp.	Tricoryne sp.
Phalaenopsis amabilis	ARECACEAE
Pholidota carnea	Areca rostrata
Pholidota imbricata	Areca sp.
	Arenga gracilicaulis

ARECACEAE (cont.)	
<i>Arenga microcarpa</i>	<i>Bulbostylis densa</i>
<i>Arenga sp.</i>	<i>Bulbostylis sp.</i>

<i>Phrynum pedunculatum</i>	<i>Ranunculus montis-wilhelmi</i>
<i>Phrynum sp.</i>	<i>Ranunculus papuanus</i>
MUSACEAE	<i>Ranunculus pseudolowii</i>
<i>Musa macayi</i>	<i>Ranunculus saruwagedicus</i>
<i>Musa schizocarpa</i>	<i>Ranunculus schoddei</i>
	<i>Ranunculus sp.</i>

RANUNCULACEAE (cont.)

Ranunculus wahgiensis

PROTEACEAE

Finschia chloroxantha

Finschia ferruginiflora

Finschia rufa

Finschia sp.

Grevillea baileyan

Grevillea carrii

Grevillea glauca

Grevillea papuana

Grevillea pinnatifida

Grevillea sp.

Helicia albiflora

Helicia amplifolia

Helicia archboldiana

Helicia arguta

Helicia biformis

Helicia cameronii

Helicia carrii

Helicia commutata

Helicia finisterrae

Helicia forbesiana

Helicia insculpta

Helicia latifolia

Helicia macrostachya

Helicia microneura

Helicia odorata

Helicia olivacea

Helicia oreadum

Helicia peltata

Helicia retevenia

Helicia retusa

Helicia sp.

Stenocarpus moorei

SABIACEAE

Meliosma pinnata

Meliosma sp.

Sabia pauciflora

Sabia sp.

GUNNERACEAE

Gunnera macrophylla

DILLENIACEAE

Dillenia nalagi

Dillenia papuana

Dillenia puana

Dillenia quercifolia

Dillenia schlechteri

Hibbertia scandens

Tetracera nordtiana

DAPHNIPHYLLACEAE

Daphniphyllum papuanum

HALORAGACEAE

Gonocarpus micranthus

Gonocarpus sanguineus

Haloragis halconensis

Haloragis sp.

Myriophyllum pedunculatum

Myriophyllum pygmaeum

Myriophyllum sp.

HAMAMELIDACEAE

Sycopsis dunnii

VITACEAE

Cayratia acris

Cayratia japonica

Cayratia schumanniana

Cayratia sp.

Cayratia trifolia

Cissus aristata

Cissus javana

Cissus repens

Cissus sp.

Leea coryphantha

Leea guineensis

Leea papuana

Leea rubra

Leea simplicifolia

Leea sp.

Leea zippeliana

Parthenocissus sp.

Tetrastigma dichotomum

Tetrastigma lauterbachianum

Tetrastigma maluense

Tetrastigma pilosum

Tetrastigma pergamaceum

Tetrastigma pisicarpum

Tetrastigma sp.

ZYGOPHYLLACEAE

Tribulus terrestris

CELASTRACEAE

Celastrus emarginata

Celastrus monospermoides

Celastrus novoguineensis

Celastrus sp.

Loeseneriella sogerensis

Lophopetalum torricellense

Maytenus emarginata

Perrottetia alpestris

Siphonodon celastrineus

Siphonodon sp.

Stackhousia viminea

CUNONIACEAE

Acsmithia pulleana

Acsmithia reticulata

CUNONIACEAE (cont.)	
<i>Aistopetalum multiflorum</i>	<i>Elaeocarpus michaelii</i>
<i>Caldcluvia brassii</i>	<i>Elaeocarpusmiegei</i>
<i>Caldcluvia celebica</i>	<i>Elaeocarpus multisectus</i>
<i>Caldcluvia fulva</i>	<i>Elaeocarpus murukkai</i>
<i>Caldcluvia multiflorum</i>	<i>Elaeocarpus myrtoides</i>

SAPINDACEAE (cont.)	
Guioa contracta	Hopea forbesii
Guioa grandifoliola	Hopea iriana
Guioa rigidiuscula	Hopea papuana
Guioa sp.	Hopea parviflora
Guioa subsericea	Hopea parvifolia
Guioa unguiculata	Hopea similis
Harpullia aeruginosa	Hopea sp.
Harpullia arborea	Shorea sp.
Harpullia campagneura	Vatica rassak
Harpullia carrii	MALVACEAE
Harpullia crustacea	Abelmoschus manihot
Harpullia cupanioides	Abelmoschus moschatus
Harpullia leptococca	Abroma augustum
Harpullia longipetala	Abroma sp.
Harpullia petiolaris	Abutilon auritum
Harpullia ramiflora	Althoffia sp.
Harpullia sp.	Althoffia tetrapyxix
Jagera javanica	Althoffia tripyxis
Jagera macrophylla	Berrya javanica
Jagera sp.	Berrya papuana
Lepidopetalum hebecladum	Berrya sp.
Lepidopetalum subdichotomum	Bombax ceiba
Lepidopetalum xylocarpum	Brachychiton carruthersii
Lepisanthes senegalensis	Brachychiton discolor
Mischocarpus lachnocarpus	Brachychiton velutinosus
Mischocarpus paradoxus	Brownlowia sp.
Mischocarpus sp.	Colona aequilateralis
Mischocarpus sundaicus	Colona discolor
Pometia coriacea	Colona scabra
Pometia pinnata	Colona sp.
Pometia sp.	Commersonia bartramia
Rhysotoechia obtusa	Commersonia reticulata
Sapindus saponaria	Commersonia sp.
Sarcopteryx holconeura	Corchorus aestuans
Sarcopteryx sp.	Corchorus capsularis
Sarcopteryx squamosa	Corchorus sp.
Sarcotoechia planitiei	Firmiana papuana
Toechima erythrocarpum	Grewia acuminata
Toechima livescens	Grewia aspera
Toechima sp.	Grewia bifida
Trigonachras acuta	Grewia brassii
Tristiropsis acutangula	Grewia glabra
SIMAROUBACEAE	Grewia laevigata
Picrasma javanica	Grewia oxyphylla
BIXACEAE	Grewia sp.
Bixa orellana	Heritiera littoralis
DIPTEROCARPACEAE	Heritiera trifoliolata
Anisoptera kostermansiana	Hibiscus archboldianus
Anisoptera polyandra	Hibiscus carrii
Anisoptera sp.	Hibiscus d'albertisii
Anisoptera thurifera	Hibiscus micans
	Hibiscus pulvinulifer

MALVACEAE (cont.)

Hibiscus sciadolepidus
Hibiscus sp.
Hibiscus tiliaceus
Hibiscus vitifolius
Kleinhowia hospita
Kosteletzkya sp.
Malachra capitata
Melhania incana
Melhania oblongifolia
Melochia corchorifolia
Melochia odorata
Melochia umbellata

Trichospermum pleiostigma
Trichospermum sp.
Triumfetta annua
Triumfetta pilosa
Triumfetta rhomboidea
Triumfetta semitriloba
Triumfetta sp.
Urena lobata

THYMELAEACEAE

Drapetes ericoides
Gonystylus macrophyllus
Kelleria papuana
Kelleria patula
Kelleria sp.
Phaleria coccinea
Phaleria macrocarpa
Phaleria nisidai
Phaleria octandra
Phaleria perrottetiana
Phaleria sogerensis
Phaleria sp.
Phaleria subcaudata
Pimelea cornucopiae
Pimelea sp.
Thecanthes cornucopiae
Wikstroemia androsaemifolia
Wikstroemia indica
Wikstroemia sp.
Wikstroemia venosa

BRASSICACEAE

Cardamine africana
Cardamine altigena
Cardamine papuana
Cardamine sp.
Rorippa palustris

CAPPARACEAE

Capparis lanceolaris
Capparis lucida
Capparis quiniflora
Capparis sepiaria
Capparis zippeliana
Crateva religiosa

CLEOMACEAE

Cleome aculeata
Cleome viscosa

LORANTHACEAE

Amyema artensis
Amyema caudiciflora
Amyema clavipes
Amyema corniculatum
Amyema friesianum
Amyema pachypus
Amyema queenslandica
Amyema seemeniana
Amyema strongylophyllum
Amyema tetraflora
Cyne papuana
Dactyliophora novae-guineae
Dactyliophora verticillata
Decaisnina hollrungii

LORANTHACEAE (cont.)	
Decaisnina longipes	Deeringia arborescens
Decaisnina pedicellata	Deeringia polysperma
Decaisnina triflora	Gomphrena celosioides
Dendrophthoe curvata	Iresine herbstii
Dendrophthoe gjellerupii	Tecticornia australasica
Dendrophthoe sp.	
Dendrophthoe trichanthera	
Distrianthes molliflora	CARYOPHYLLACEAE
Loranthus sp.	Cerastium papuanum
Macrosolen geminatus	Drymaria cordata
Sogerianthe ferruginea	Drymaria sp.
Sogerianthe sessiliflora	Polycarphaea corymbosa
Sogerianthe sogerensis	Sagina donatioides
Sogerianthe sp.	Sagina papuana
SANTALACEAE	Sagina rupestris
Cladomyza acrosclera	Sagina sp.
Cladomyza cuneata	Scleranthus singuliflorus
Cladomyza densa	Stellaria sp.
Cladomyza trinervia	MOLLUGINACEAE
Dendromyza ledermannii	Mollugo pentaphylla
Dendromyza reinwardtiana	NEPENTHACEAE
Dendromyza sp.	Nepenthes mirabilis
Exocarpos latifolius	Nepenthes neoguineensis
Exocarpos longifolius	NYCTAGINACEAE
Exocarpos micranthus	Boerhavia burbridgeana
Exocarpos pullei	Boerhavia dominii
Exocarpos sp.	Boerhavia erecta
Korthalsella papuana	Boerhavia mutabilis
Notothixos leiophyllus	Ceodes sp.
Notothixos subaureus	Ceodes umbellifera
Santalum fusanus	Pisonia aculeata
Santalum lanceolatum	Pisonia diandra
Santalum macgregorii	Pisonia longirostris
Santalum sp.	Pisonia muelleriana
Santalum yasi	Pisonia sp.
Scleropyrum aurantiacum	Pisonia umbellifera
Scleropyrum brevistachyum	PLUMBAGINACEAE
Scleropyrum sp.	Plumbago zeylanica
Viscum katikianum	POLYGONACEAE
Viscum orientale	Muehlenbeckia monticola
Viscum ovalifolium	Muehlenbeckia platyclada
Viscum sp.	Persicaria strigosa
AIZOACEAE	Polygonum barbatum
Trianthema portulacastrum	Polygonum chinense
AMARANTHACEAE	Polygonum minus
Alternanthera bettzichiana	Polygonum nepalense
Alternanthera ficoidea	Polygonum runcinatum
Alternanthera sessilis	Polygonum sp.
Celosia argentea	Polygonum strigosum
Cyathula prostrata	Rumex brownii
Deeringia amaranthoides	PORTULACACEAE
	Portulaca oleracea
	Portulaca pilosa

CORNACEAE	
<i>Alangium villosum</i>	<i>Dimorphanthera amplifolia</i>
<i>Mastixia kaniensis</i>	<i>Dimorphanthera anchorifera</i>
<i>Mastixia</i> sp.	<i>Dimorphanthera brassii</i>
HYDRANGEACEAE	<i>Dimorphanthera brevipes</i>
<i>Dichroa febrifuga</i>	<i>Dimorphanthera calodon</i>
ACTINIDIACEAE	<i>Dimorphanthera denticulifera</i>
<i>Saurauia brassii</i>	<i>Dimorphanthera dryophila</i>
<i>Saurauia capitulata</i>	<i>Dimorphanthera fissiflora</i>
<i>Saurauia collina</i>	<i>Dimorphanthera forbesii</i>
<i>Saurauia conferta</i>	<i>Dimorphanthera ingens</i>
<i>Saurauia dielsiana</i>	<i>Dimorphanthera inopinata</i>
<i>Saurauia dufaurii</i>	<i>Dimorphanthera kempteriana</i>
<i>Saurauia eburnea</i>	<i>Dimorphanthera keysseri</i>
<i>Saurauia plurilocularis</i>	<i>Dimorphanthera longistyla</i>
<i>Saurauia poolei</i>	<i>Dimorphanthera macbainii</i>
<i>Saurauia purgans</i>	<i>Dimorphanthera</i> sp.
<i>Saurauia rubrisquamata</i>	<i>Gaultheria mundula</i>
<i>Saurauia schumanniana</i>	<i>Gaultheria pullei</i>
<i>Saurauia tafana</i>	<i>Gaultheria</i> sp.
<i>Saurauia trugul</i>	<i>Leptecophylla brassii</i>
<i>Saurauia vallium</i>	<i>Leucopogon suaveolens</i>
<i>Saurauia xiphophylla</i>	<i>Rhododendron alticola</i>
BALSAMINACEAE	<i>Rhododendron alticolum</i>
<i>Impatiens hawkeri</i>	<i>Rhododendron armitii</i>
<i>Impatiens klossii</i>	<i>Rhododendron aurigeranum</i>
<i>Impatiens schlechteri</i>	<i>Rhododendron beyerinckianum</i>
EBENACEAE	<i>Rhododendron carrii</i>
<i>Diospyros cordatooblonga</i>	<i>Rhododendron carringtoniae</i>
<i>Diospyros ferrea</i>	<i>Rhododendron christi</i>
<i>Diospyros hebecarpa</i>	<i>Rhododendron comptum</i>
<i>Diospyros littorea</i>	<i>Rhododendron culminicolum</i>
<i>Diospyros novoguineensis</i>	<i>Rhododendron detznerianum</i>
<i>Diospyros papuana</i>	<i>Rhododendron hartleyi</i>
<i>Diospyros peekelii</i>	<i>Rhododendron hyacinthosmum</i>
<i>Diospyros sopheriensis</i>	<i>Rhododendron inconspicuum</i>
<i>Diospyros villosiuscula</i>	<i>Rhododendron leptanthum</i>
ERICACEAE	<i>Rhododendron luteosquamatum</i>
<i>Acrothamnus suaveolens</i>	<i>Rhododendron macgregoriae</i>
<i>Agapetes albertieduardi</i>	<i>Rhododendron nummatum</i>
<i>Agapetes brassii</i>	<i>Rhododendron phaeochitum</i>
<i>Agapetes carrii</i>	<i>Rhododendron pseudonitens</i>
<i>Agapetes costata</i>	<i>Rhododendron rhodoleucum</i>
<i>Agapetes filicicola</i>	<i>Rhododendron rubellum</i>
<i>Agapetes helenae</i>	<i>Rhododendron sp.</i>
<i>Agapetes kudukii</i>	<i>Rhododendron spondylophyllum</i>
<i>Agapetes sclerophylla</i>	<i>Rhododendron truncicolum</i>
<i>Agapetes sleumeriana</i>	<i>Rhododendron tuba</i>
<i>Agapetes</i> sp.	<i>Rhododendron wrightianum</i>
<i>Agapetes stenantha</i>	<i>Rhododendron yelliotii</i>
<i>Decatoca spenceri</i>	<i>Rhododendron zoelleri</i>
<i>Dimorphanthera amblyornidis</i>	<i>Styphelia brassii</i>
	<i>Styphelia</i> sp.

ERICACEAE (cont.)	
<i>Trochocarpa decockii</i>	<i>Eurya brassii</i>
<i>Trochocarpa dispersa</i>	<i>Eurya greenmaniana</i>
<i>Trochocarpa nubicola</i>	<i>Eurya hellwigii</i>
<i>Trochocarpa papuana</i>	<i>Eurya merrilliana</i>
<i>Trochocarpa</i> sp.	<i>Eurya rehderiana</i>
<i>Vaccinium acrobracteatum</i>	<i>Ternstroemia carinata</i>
<i>Vaccinium acutissimum</i>	<i>Ternstroemia cherryi</i>
<i>Vaccinium albicans</i>	<i>Ternstroemia megacarpa</i>
<i>Vaccinium amblyandrum</i>	<i>Ternstroemia merrilliana</i>
<i>Vaccinium amphoteronum</i>	<i>Ternstroemia rehderiana</i>
<i>Vaccinium apiculatum</i>	<i>Ternstroemia</i> sp.
<i>Vaccinium brassii</i>	PRIMULACEAE
<i>Vaccinium carneolum</i>	<i>Ardisia forbesii</i>
<i>Vaccinium cornigerum</i>	<i>Ardisia</i> sp.
<i>Vaccinium cruentum</i>	<i>Ardisia squarrosa</i>
<i>Vaccinium finisterrae</i>	<i>Ardisia tristanioides</i>
<i>Vaccinium hellwigianum</i>	<i>Conandrium polyanthum</i>
<i>Vaccinium horizontale</i>	<i>Conandrium</i> sp.
<i>Vaccinium ingens</i>	<i>Discocalyx</i> sp.
<i>Vaccinium macbainii</i>	<i>Embelia australiana</i>
<i>Vaccinium malacothrix</i>	<i>Embelia brassii</i>
<i>Vaccinium minusculum</i>	<i>Embelia caulialata</i>
<i>Vaccinium molissimum</i>	<i>Embelia cotinoides</i>
<i>Vaccinium molle</i>	<i>Embelia philippinensis</i>
<i>Vaccinium parvulifolium</i>	<i>Embelia pullenii</i>
<i>Vaccinium prostratum</i>	<i>Embelia</i> sp.
<i>Vaccinium</i> sp.	<i>Fittingia tubiflora</i>
<i>Vaccinium sparsum</i>	<i>Maesa bismarckiana</i>
<i>Vaccinium stabilipes</i>	<i>Maesa edulis</i>
<i>Vaccinium striicaule</i>	<i>Maesa gracilis</i>
<i>Vaccinium summifaucis</i>	<i>Maesa haplobotrys</i>
LECYTHIDACEAE	<i>Maesa montis-wilhelmi</i>
<i>Barringtonia apiculata</i>	<i>Maesa protracta</i>
<i>Barringtonia asiatica</i>	<i>Maesa rufovillosa</i>
<i>Barringtonia boridensis</i>	<i>Maesa</i> sp.
<i>Barringtonia calyprata</i>	<i>Maesa spectabilis</i>
<i>Barringtonia calyptrocalyx</i>	<i>Maesa tetrandra</i>

<i>Premna membranacea</i>	<i>Bacopa procumbens</i>
<i>Premna obtusifolia</i>	<i>Callitriche papuana</i>
<i>Premna odorata</i>	<i>Callitriche</i> sp.
<i>Premna serratifolia</i>	<i>Callitriche versa</i>
<i>Premna</i> sp.	<i>Ellisiophyllum</i> sp.
<i>Scutellaria javanica</i>	<i>Hebe rubra</i>
<i>Scutellaria</i> sp.	<i>Hebe</i> sp.
<i>Solenostemon scutellarioides</i>	<i>Hebe thymelaeoides</i>
<i>Teijsmanniodendron aherianum</i>	<i>Limnophila rugosa</i>
<i>Teijsmanniodendron bogoriense</i>	<i>Limnophila</i> sp.
<i>Teijsmanniodendron hollrungii</i>	<i>Parahebe diosmoides</i>
<i>Teijsmanniodendron</i> sp.	<i>Parahebe ledenfeldii</i>
<i>Vitex cofassus</i>	<i>Parahebe rubra</i>
<i>Vitex</i> sp.	<i>Parahebe</i> sp.
<i>Viticipremna tomentosa</i>	<i>Parahebe tenuis</i>
LENTIBULARIACEAE	<i>Plantago aundensis</i>
<i>Utricularia bifida</i>	<i>Plantago papuana</i>
<i>Utricularia caerulea</i>	<i>Plantago polita</i>
<i>Utricularia striatula</i>	<i>Plantago</i> sp.
LINDERNIACEAE	<i>Plantago stenophylla</i>
<i>Lindernia aromatica</i>	<i>Plantago trichophora</i>
<i>Lindernia crustacea</i>	<i>Scoparia dulcis</i>
<i>Lindernia</i> sp.	<i>Veronica archboldii</i>
MAZACEAE	<i>Veronica diosmoides</i>
<i>Mazus pumilus</i>	SCROPHULARIACEAE
OLEACEAE	<i>Buddleja asiatica</i>
<i>Chionanthus ramiflorus</i>	<i>Myoporum acuminatum</i>
<i>Chionanthus riparius</i>	<i>Myoporum montanum</i>
<i>Chionanthus rupiculus</i>	<i>Myoporum papuanum</i>
<i>Jasminum aemulum</i>	VERBENACEAE
<i>Jasminum didymum</i>	<i>Phyla nodiflora</i>
<i>Jasminum domatiigerum</i>	<i>Stachytarpheta cayennensis</i>
<i>Jasminum elongatum</i>	<i>Stachytarpheta jamaicensis</i>
<i>Jasminum gilgianum</i>	<i>Stachytarpheta mutabilis</i>

VERBENACEAE (cont.)	
<i>Stachytarpheta</i> sp.	<i>Elephantopus mollis</i>
<i>Stachytarpheta urticifolia</i>	<i>Eleutheranthera ruderalis</i>
<i>Verbena</i> sp.	<i>Emilia sonchifolia</i>
AQUIFOLIACEAE	<i>Erechtites valerianifolia</i>
<i>Ilex archboldiana</i>	<i>Ethulia conyzoides</i>
<i>Ilex forbesii</i>	<i>Euchiton brassii</i>
<i>Ilex glomerata</i>	<i>Euchiton breviscapus</i>
CARDIOPTERIDACEAE	<i>Euchiton involucratus</i>
<i>Citronella</i> sp.	<i>Euchiton japonicus</i>
<i>Gonocaryum litorale</i>	<i>Euchiton sp.</i>
<i>Gonocaryum pyriforme</i>	<i>Euchiton sphaericus</i>
<i>Gonocaryum</i> sp.	<i>Gnaphalium brassii</i>
<i>Pseudobotrys</i> sp.	<i>Gnaphalium clemensiae</i>
STEMONURACEAE	<i>Gnaphalium</i> sp.
<i>Gomphandra montana</i>	<i>Gynura procumbens</i>
<i>Medusanthera laxiflora</i>	<i>Ischnea elachoglossa</i>
<i>Medusanthera</i> sp.	<i>Ischnea</i> sp.
<i>Stemonurus</i> sp.	<i>Keysseria bellidiformis</i>
<i>Urandra umbellata</i>	<i>Keysseria gibbsiae</i>
ASTERACEAE	<i>Keysseria radicans</i>
<i>Acmella grandiflora</i>	<i>Keysseria tomentella</i>
<i>Acmella</i> sp.	<i>Lactuca laevigata</i>
<i>Adenostemma lavenia</i>	<i>Lactuca</i> sp.
<i>Adenostemma macrophyllum</i>	<i>Lagenophora lanata</i>
<i>Ageratum conyzoides</i>	<i>Lagenophora stipitata</i>
<i>Anaphalioides mariae</i>	<i>Leptinella leptoloba</i>
<i>Anaphalis hellwigii</i>	<i>Leptinella</i> sp.
<i>Anaphalis lorentzii</i>	<i>Microglossa pyrifolia</i>
<i>Anaphalis mariae</i>	<i>Mikania cordata</i>
<i>Arrhenechthites dolichophylla</i>	<i>Mikania micrantha</i>
<i>Arrhenechthites haplogyna</i>	<i>Myriactis cabrerae</i>
<i>Bidens pilosa</i>	<i>Olearia heterolepis</i>
<i>Blumea arnakidophora</i>	<i>Olearia heterotricha</i>
<i>Blumea lacera</i>	<i>Olearia kernotii</i>
<i>Blumea papuana</i>	<i>Olearia lepidota</i>
<i>Blumea riparia</i>	<i>Olearia leptocephala</i>
<i>Blumea</i> sp.	<i>Olearia monticola</i>
<i>Brachyscome elegans</i>	<i>Olearia pachycephala</i>
<i>Camptacra gracilis</i>	<i>Olearia</i> sp.
<i>Conyza aegyptiaca</i>	<i>Olearia vernonioides</i>
<i>Conyza albida</i>	<i>Pluchea indica</i>
<i>Conyza sumatrensis</i>	<i>Pterocaulon sphacelatum</i>
<i>Cosmos caudatus</i>	<i>Senecio brassii</i>
<i>Cotula leptoloba</i>	<i>Senecio papuanus</i>
<i>Cotula sarawakatensis</i>	<i>Senecio</i> sp.
<i>Cotula</i> sp.	<i>Sigesbeckia orientalis</i>
<i>Crassocephalum crepidioides</i>	<i>Sonchus asper</i>
<i>Cyanthillium cinereum</i>	<i>Synedrella nodiflora</i>
<i>Dichrocephala bicolor</i>	<i>Tagetes minuta</i>
<i>Eclipta prostrata</i>	<i>Tetramolopium alinae</i>
<i>Eclipta</i> sp.	<i>Tetramolopium cinereum</i>
	<i>Tetramolopium flaccidum</i>

ASTERACEAE (cont.)	
<i>Tetramolopium macrum</i>	<i>Oreomyrrhis papuana</i>
<i>Tetramolopium pumilum</i>	<i>Oreomyrrhis plicata</i>
<i>Tetramolopium spathulatum</i>	<i>Oreomyrrhis pumila</i>
<i>Tithonia diversifolia</i>	<i>Oreomyrrhis sp.</i>
<i>Tridax procumbens</i>	ARALIACEAE
<i>Vernonia arborea</i>	<i>Arthropodium macranthum</i>
<i>Vernonia cuneata</i>	<i>Gastonia spectabilis</i>
<i>Vernonia lanceolata</i>	<i>Harmsiopanax harmsii</i>
<i>Vernonia sp.</i>	<i>Harmsiopanax ingens</i>
<i>Wedelia longipes</i>	<i>Hydrocotyle javanica</i>
<i>Wedelia spilanthesoides</i>	<i>Hydrocotyle sibthorpioides</i>
<i>Wollastonia biflora</i>	<i>Meryta colorata</i>
<i>Xanthium occidentale</i>	<i>Osmoxylon insidiator</i>
<i>Youngia japonica</i>	<i>Osmoxylon micranthum</i>
CAMPANULACEAE	<i>Osmoxylon novoguineense</i>
<i>Isotoma fluviatilis</i>	<i>Osmoxylon sp.</i>
<i>Lobelia angulata</i>	<i>Plerandra stahliana</i>
<i>Lobelia archboldiana</i>	<i>Polyscias federmannii</i>
<i>Lobelia conferta</i>	<i>Polyscias macgillivrayi</i>
<i>Lobelia donanensis</i>	<i>Polyscias schultzei</i>
<i>Lobelia zeylanica</i>	<i>Polyscias scutellaria</i>
<i>Peracarpa carnosa</i>	<i>Schefflera actinophylla</i>
<i>Wahlenbergia confusa</i>	<i>Schefflera barbata</i>
<i>Wahlenbergia gracilis</i>	<i>Schefflera boridiana</i>
<i>Wahlenbergia marginata</i>	<i>Schefflera carrii</i>
<i>Wahlenbergia papuana</i>	<i>Schefflera elliptica</i>
GOODENIACEAE	<i>Schefflera oreopola</i>
<i>Scaevola sericea</i>	<i>Schefflera sp.</i>
<i>Scaevola taccada</i>	<i>Schefflera stahliana</i>
ROUSSEACEAE	<i>Schefflera thaumasiantha</i>
<i>Carpodetus arboreus</i>	<i>Schefflera versteegii</i>
<i>Carpodetus fuscus</i>	<i>Schefflera wariana</i>
<i>Carpodetus major</i>	<i>Trachymene adenodes</i>
<i>Carpodetus montanus</i>	<i>Trachymene rosulans</i>
<i>Carpodetus sp.</i>	<i>Trachymene saniculifolia</i>
ESCALLONIACEAE	<i>Trachymene sp.</i>
<i>Polyosma brachyantha</i>	<i>Trachymene tripartita</i>
<i>Polyosma integrifolia</i>	PITTOSPORACEAE
<i>Polyosma mucronata</i>	<i>Pittosporum berberidoides</i>
<i>Polyosma occulta</i>	<i>Pittosporum ferrugineum</i>
<i>Polyosma sp.</i>	<i>Pittosporum praeditum</i>
<i>Polyosma subalpina</i>	<i>Pittosporum pullifolium</i>
APIACEAE	<i>Pittosporum pumilum</i>
<i>Chaerophyllum buwaldianum</i>	<i>Pittosporum ramiflorum</i>
<i>Chaerophyllum lineare</i>	<i>Pittosporum resiniferum</i>
<i>Mackinlaya celebica</i>	<i>Pittosporum sinuatum</i>
<i>Mackinlaya sp.</i>	<i>Pittosporum sp.</i>
<i>Oenanthe javanica</i>	PARACRYPHIACEAE
<i>Oreomyrrhis andicola</i>	<i>Quintinia rigida</i>
<i>Oreomyrrhis azorellacea</i>	<i>Sphenostemon aquifolium</i>
<i>Oreomyrrhis linearis</i>	<i>Sphenostemon papuanum</i>
	<i>Sphenostemon sp.</i>

13.2 Appendix 02 - Vascular Plants of the Kokoda Inner Area of Interest (2723 spp.)

LYCOPODIACEAE	Hymenophyllum sp. Hymenophyllum treubii Macroglena meifolia Nesopteris intermedia Vandenboschia maxima
<i>Huperzia macgregorii</i>	
<i>Huperzia pinifolia</i>	
<i>Huperzia selago</i>	
<i>Huperzia sp.</i>	
<i>Huperzia squarrosa</i>	
<i>Lycopodiella cernua</i>	
<i>Lycopodium angustiramosum</i>	
<i>Lycopodium clavatum</i>	
<i>Lycopodium scariosum</i>	
<i>Lycopodium sp.</i>	
<i>Lycopodium terrae-gulielmi</i>	
<i>Urostachys brassii</i>	
SELAGINELLACEAE	
<i>Selaginella angustiramea</i>	
<i>Selaginella behrmanniana</i>	
<i>Selaginella sp.</i>	
EQUISETACEAE	
<i>Equisetum debile</i>	
OPHIOGLOSSACEAE	
<i>Helminthostachys zeylanica</i>	
<i>Ophioglossum pendulum</i>	
<i>Ophioglossum reticulatum</i>	
<i>Ophioglossum sp.</i>	
PSILOTACEAE	
<i>Psilotum complanatum</i>	
<i>Psilotum nudum</i>	
MARATTIACEAE	
<i>Angiopteris evanidostriata</i>	
<i>Angiopteris evecta</i>	
<i>Marattia fraxinea</i>	
<i>Marattia salicina</i>	
<i>Marattia sp.</i>	
HYMENOPHYLLACEAE	
<i>Cephalomanes acrosorum</i>	
<i>Cephalomanes atrovirens</i>	
<i>Cephalomanes densinervium</i>	
<i>Crepidomanes bipunctatum</i>	
<i>Crepidomanes proliferum</i>	
<i>Hymenophyllum archboldii</i>	
<i>Hymenophyllum bamlerianum</i>	
<i>Hymenophyllum brassii</i>	
<i>Hymenophyllum bryophilum</i>	
<i>Hymenophyllum holochilum</i>	
<i>Hymenophyllum ooides</i>	
<i>Hymenophyllum pachydermicum</i>	
<i>Hymenophyllum polyodon</i>	
<i>Hymenophyllum productum</i>	
<i>Hymenophyllum rubellum</i>	
GLEICHENIACEAE	
<i>Dicranopteris linearis</i>	
<i>Gleichenia bolanica</i>	
<i>Gleichenia erecta</i>	
<i>Gleichenia hooglandii</i>	
<i>Gleichenia sp.</i>	
<i>Gleichenia truncata</i>	
<i>Gleichenia vulcanica</i>	
<i>Sticherus bolanicus</i>	
<i>Sticherus erectus</i>	
<i>Sticherus sp.</i>	
LYGODIACEAE	
<i>Lygodium flexuosum</i>	
<i>Lygodium sp.</i>	
SCHIZAEACEAE	
<i>Schizaea dichotoma</i>	
MARSILEACEAE	
<i>Marsilea crenata</i>	
SALVINIACEAE	
<i>Salvinia molesta</i>	
PLAGIOGYRIACEAE	
<i>Plagiogyria egenolfioides</i>	
<i>Plagiogyria glauca</i>	
<i>Plagiogyria tuberculata</i>	
CYATHEACEAE	
<i>Cyathea archboldii</i>	
<i>Cyathea atrox</i>	
<i>Cyathea catillifera</i>	
<i>Cyathea contaminans</i>	
<i>Cyathea felina</i>	
<i>Cyathea foersteri</i>	
<i>Cyathea gleichenioides</i>	
<i>Cyathea macgregorii</i>	
<i>Cyathea macrophylla</i>	
<i>Cyathea mesosora</i>	
<i>Cyathea sangirensis</i>	
<i>Cyathea semiamplectens</i>	
<i>Cyathea wernerii</i>	
DICKSONIACEAE	
<i>Calochlaena villosa</i>	
<i>Dicksonia hieronymii</i>	
<i>Dicksonia lanigera</i>	
SACCOLOMATACEAE	
<i>Ithycaulon tenuisectum</i>	

SACCOLOMATAEAE (cont.)	
<i>Saccoloma</i> sp.	
CYSTODIACEAE	
<i>Cystodium sorbifolium</i>	
LINDSAEACEAE	
<i>Lindsaea ensifolia</i>	
<i>Lindsaea lucida</i>	
<i>Lindsaea obtusa</i>	
<i>Lindsaea repens</i>	
<i>Lindsaea rosenstockii</i>	
<i>Lindsaea tenuifolia</i>	
<i>Sphenomeris retusa</i>	
<i>Sphenomeris</i> sp.	
<i>Tapeinidium novoguineense</i>	
DENNSTAEDTIACEAE	
<i>Dennstaedtia mathewsii</i>	
<i>Dennstaedtia penicillifera</i>	
<i>Dennstaedtia scandens</i>	
<i>Dennstaedtia</i> sp.	
<i>Histiopteris incisa</i>	
<i>Histiopteris</i> sp.	
<i>Hypolepis alpina</i>	
<i>Hypolepis</i> sp.	
<i>Microlepia pseudohirta</i>	
<i>Microlepia speluncae</i>	
<i>Paesia radula</i>	
<i>Paesia</i> sp.	
<i>Pteridium esculentum</i>	
<i>Pteridium revolutum</i>	
<i>Pteridium x semihastatum</i>	
PTERIDACEAE	
<i>Acrostichum speciosum</i>	
<i>Adiantum caudatum</i>	
<i>Adiantum diaphanum</i>	
<i>Adiantum philippense</i>	
<i>Adiantum zollingeri</i>	
<i>Antrophyum callifolium</i>	
<i>Antrophyum ledermannii</i>	
<i>Antrophyum parvulum</i>	
<i>Antrophyum plantagineum</i>	
<i>Antrophyum reticulatum</i>	
<i>Antrophyum</i> sp.	
<i>Calciphilopteris papuana</i>	
<i>Ceratopteris thalictroides</i>	
<i>Cheilanthes</i> sp.	
<i>Cheilanthes tenuifolia</i>	
<i>Doryopteris concolor</i>	
<i>Doryopteris ludens</i>	
<i>Onychium siliculosum</i>	
<i>Pityrogramma calomelanos</i>	
<i>Pteris excelsa</i>	
<i>Pteris grassii</i>	
	<i>Pteris moluccana</i>
	<i>Syngramma schlechteri</i>
	<i>Taenitis hookeri</i>
	<i>Taenitis pinnata</i>
	<i>Vaginularia acrocarpa</i>
	<i>Vittaria angustifolia</i>
	<i>Vittaria elongata</i>
	<i>Vittaria exigua</i>
	<i>Vittaria rubens</i>
	<i>Vittaria semipellucida</i>
	<i>Vittaria</i> sp.
	ASPLENIACEAE
	<i>Asplenium acrobryum</i>
	<i>Asplenium baileyanum</i>
	<i>Asplenium bipinnatifidum</i>
	<i>Asplenium caudatum</i>
	<i>Asplenium cuneatum</i>
	<i>Asplenium gracilifolium</i>
	<i>Asplenium laserpitifolium</i>
	<i>Asplenium macrophyllum</i>
	<i>Asplenium nidus</i>
	<i>Asplenium normale</i>
	<i>Asplenium nutans</i>
	<i>Asplenium paleaceum</i>
	<i>Asplenium parvum</i>
	<i>Asplenium polyodon</i>
	<i>Asplenium sanctchristofori</i>
	<i>Asplenium subemarginatum</i>
	<i>Asplenium subpinnatifidum</i>
	<i>Asplenium tenerum</i>
	<i>Asplenium unilaterale</i>
	<i>Diplora d'urvillaei</i>
	<i>Diplora longifolia</i>
	THELYPTERIDACEAE
	<i>Amphineuron immersum</i>
	<i>Amphineuron opulentum</i>
	<i>Amphineuron terminans</i>
	<i>Christella hispidula</i>
	<i>Christella</i> sp.
	<i>Cyclosorus interruptus</i>
	<i>Cyclosorus</i> sp.
	<i>Macrothelypteris polypodioides</i>
	<i>Mesophlebion crassifolium</i>
	<i>Pneumatopteris nephrolepioides</i>
	<i>Pneumatopteris sogerensis</i>
	<i>Pronephrium asperum</i>
	<i>Pronephrium</i> sp.
	<i>Pronephrium triphyllum</i>
	<i>Sphaerostephanos acrostichoides</i>
	<i>Sphaerostephanos alatellus</i>
	<i>Sphaerostephanos atasripii</i>
	<i>Sphaerostephanos confertus</i>

THELYPTERIDACEAE (cont.)	
<i>Sphaerostephanos heterocarpus</i>	<i>Belvisia mucronata</i>
<i>Sphaerostephanos invisus</i>	<i>Belvisia sp.</i>
<i>Sphaerostephanos polycarpus</i>	<i>Belvisia validinervis</i>
<i>Sphaerostephanos unijuga</i>	<i>Crypsinus enervis</i>
<i>Sphaerostephanos unitus</i>	<i>Crypsinus senescens</i>
<i>Thelypteris sp.</i>	<i>Crypsinus sp.</i>
BLECHNACEAE	<i>Ctenopteris bipinnatifida</i>
<i>Blechnum hieronymi</i>	<i>Ctenopteris denticulata</i>
<i>Blechnum orientale</i>	<i>Ctenopteris sp.</i>
<i>Blechnum revolutum</i>	<i>Drymoglossum sp.</i>
<i>Blechnum vulcanicum</i>	<i>Drynaria quercifolia</i>
<i>Stenochlaena palustris</i>	<i>Drynaria rigidula</i>
ATHYRIACEAE	<i>Drynaria sparsisora</i>
<i>Diplazium cordifolium</i>	<i>Goniophlebium percussum</i>
<i>Diplazium cyatheifolium</i>	<i>Goniophlebium subauriculatum</i>
HYPODEMATIACEAE	<i>Grammitis archboldii</i>
<i>Leucostegia pallida</i>	<i>Grammitis clemensiae</i>
DRYOPTERIDACEAE	<i>Grammitis sp.</i>
<i>Arachniodes aristata</i>	<i>Lecanopteris sinuosa</i>
<i>Dryopteris sp.</i>	<i>Lemmaphyllum accedens</i>
<i>Polystichum archboldii</i>	<i>Lemmaphyllum damuense</i>
<i>Polystichum lineare</i>	<i>Loxogramme paltonioides</i>
<i>Rumohra adiantiformis</i>	<i>Loxogramme scolopendrina</i>
NEPHROLEPIDACEAE	<i>Loxogramme subselliguea</i>
<i>Nephrolepis cordifolia</i>	<i>Microsorum commutatum</i>
<i>Nephrolepis lauterbachii</i>	<i>Microsorum glossipes</i>
TECTARIACEAE	<i>Microsorum linguiforme</i>
<i>Pleocnemia irregularis</i>	<i>Microsorum membranifolium</i>
<i>Stenosemia aurita</i>	<i>Microsorum multijugatum</i>
<i>Tectaria decurrens</i>	<i>Microsorum punctatum</i>
<i>Tectaria papuana</i>	<i>Microsorum scolopendria</i>
<i>Tectaria siifolia</i>	<i>Microsorum sp.</i>
<i>Tectaria subtriphylla</i>	<i>Prosaptia capillipes</i>
<i>Tectaria weinlandii</i>	<i>Prosaptia contigua</i>
OLEANDRACEAE	<i>Prosaptia davalliaeae</i>
<i>Oleandra neriiformis</i>	<i>Pyrrosia longifolia</i>
<i>Oleandra sp.</i>	<i>Pyrrosia sp.</i>
<i>Oleandra wernerii</i>	<i>Selliguea crassisora</i>
DAVALLIACEAE	<i>Selliguea sp.</i>
<i>Davallia denticulata</i>	CYCADACEAE
<i>Davallia divaricata</i>	<i>Cycas media</i>
<i>Davallia solida</i>	<i>Cycas scratchleyana</i>
<i>Humata deltoidea</i>	ARAUCARIACEAE
<i>Humata neoguineensis</i>	<i>Agathis alba</i>
<i>Humata parvula</i>	<i>Agathis robusta</i>
<i>Humata pectinata</i>	<i>Agathis spathulata</i>
<i>Humata sp.</i>	<i>Araucaria cunninghamii</i>
<i>Humata tenuis</i>	CUPRESSACEAE
<i>Scyphularia pentaphylla</i>	<i>Papuacedrus papuana</i>
POLYPODIACEAE	<i>Papuacedrus sp.</i>
<i>Aglaomorpha parkinsonii</i>	PODOCARPACEAE
	<i>Dacrycarpus compactus</i>

PODOCARPACEAE (cont.)	
<i>Dacrydium nidulum</i>	<i>Horsfieldia erubescens</i>
<i>Decussocarpus wallichianus</i>	<i>Horsfieldia hellwigii</i>
<i>Falcatifolium papuanum</i>	<i>Horsfieldia pachycarpa</i>
<i>Phyllocladus hypophyllus</i>	<i>Horsfieldia sp.</i>
<i>Phyllocladus sp.</i>	<i>Horsfieldia spicata</i>
<i>Podocarpus brassii</i>	<i>Horsfieldia subtilis</i>
<i>Podocarpus irriktus</i>	<i>Horsfieldia sylvestris</i>
<i>Podocarpus nerifolius</i>	<i>Myristica buchneriana</i>
<i>Podocarpus pilgeri</i>	<i>Myristica carrii</i>
<i>Podocarpus rumphii</i>	<i>Myristica chrysophylla</i>
<i>Podocarpus sp.</i>	<i>Myristica flosculosa</i>
<i>Sundacarpus amarus</i>	<i>Myristica globosa</i>
GNETACEAE	<i>Myristica hooglandii</i>
<i>Gnetum costatum</i>	<i>Myristica insipida</i>
<i>Gnetum gnemon</i>	<i>Myristica lancifolia</i>
<i>Gnetum gnemonoides</i>	<i>Myristica longipes</i>
NYMPHAEACEAE	<i>Myristica nana</i>
<i>Nymphaea pubescens</i>	<i>Myristica pumila</i>
CHLORANTHACEAE	<i>Myristica sogeriensis</i>
<i>Chloranthus officinalis</i>	<i>Myristica sp.</i>
ANNONACEAE	<i>Myristica subalulata</i>
<i>Cyathocalyx novoguineensis</i>	<i>Myristica tubiflora</i>
<i>Goniothalamus sp.</i>	<i>Myristica umbrosa</i>
<i>Haplostichanthus longirostris</i>	ATHEROSPERMACEAE
<i>Haplostichanthus sp.</i>	<i>Dryadodaphne pterandrica</i>
<i>Melodorum leichhardtii</i>	HERNANDIACEAE
<i>Mitrella sp.</i>	<i>Hernandia sp.</i>
<i>Mitrepheora diversifolia</i>	LAURACEAE
<i>Papualthia auriculata</i>	<i>Beilschmiedia brassii</i>
<i>Polyalthia discolor</i>	<i>Beilschmiedia sp.</i>
<i>Polyalthia oblongifolia</i>	<i>Cassytha filiformis</i>
<i>Polyalthia sp.</i>	<i>Cinnamomum eugenoliferum</i>
<i>Popowia polytricha</i>	<i>Cinnamomum massoia</i>
<i>Popowia sp.</i>	<i>Cinnamomum sp.</i>
<i>Pseuduvaria acerosa</i>	<i>Cryptocarya albida</i>
<i>Pseuduvaria grandifolia</i>	<i>Cryptocarya apamaefolia</i>
<i>Pseuduvaria megalopus</i>	<i>Cryptocarya camptodroma</i>
<i>Pseuduvaria nova-guineensis</i>	<i>Cryptocarya fagifolia</i>
<i>Pseuduvaria sp.</i>	<i>Cryptocarya forbesii</i>
<i>Uvaria grandiflora</i>	<i>Cryptocarya massoy</i>
<i>Xylopia papuana</i>	<i>Cryptocarya myrcioides</i>
<i>Xylopia sp.</i>	<i>Cryptocarya parallelinervia</i>
HIMANTANDRACEAE	<i>Cryptocarya sp.</i>
<i>Galbulimima belgraveana</i>	<i>Dehaasia sp.</i>
<i>Galbulimima sp.</i>	<i>Endiandra archboldiana</i>
MAGNOLIACEAE	<i>Endiandra invasiorum</i>
<i>Elmerrillia tsiampacca</i>	<i>Endiandra macrostemon</i>
MYRISTICACEAE	<i>Endiandra sp.</i>
<i>Gymnacranthera farquhariana</i>	<i>Litsea domarensis</i>
<i>Gymnacranthera zippeliania</i>	<i>Litsea mafuluensis</i>
<i>Horsfieldia corrugata</i>	<i>Litsea perlucida</i>
	<i>Litsea sp.</i>

MONIMIACEAE	Pothos hellwigii
Kibara papuana	Rhaphidophora kokodensis
Kibara sp.	HYDROCHARITACEAE
Levieria beccariana	Enhalus acoroides
Levieria nitens	Hydrilla verticillata
Matthaea sp.	Vallisneria sp.
Palmeria sp.	DIOSCOREACEAE
Steganthera oblongifolia	Dioscorea bulbifera
Steganthera sp.	Dioscorea sp.
WINTERACEAE	Tacca sp.
Bubbia calothyrsa	PANDANACEAE
Bubbia polyneura	Freycinetia angustissima
Drimys versteegii	Freycinetia bicolor
Tasmannia cyclopum	Freycinetia excelsa
Tasmannia hatamensis	Freycinetia fibrosa
Tasmannia piperita	Freycinetia funicularis
Zygogynum calothyrum	Freycinetia inermis
Zygogynum haplopus	Freycinetia linearis
Zygogynum sp.	Freycinetia marantifolia
ARISTOLOCHIACEAE	Freycinetia spiralis
Paristolochia gracilifolia	Freycinetia stenodonta
PIPERACEAE	Pandanus archboldianus
Peperomia blanda	Pandanus balenii
Peperomia brassii	Pandanus beccarii
Peperomia gemella	Pandanus brassii
Peperomia marivelesana	Pandanus cernuifolius
Peperomia pupurea	Pandanus danckelmannianus
Peperomia saxatilis	Pandanus ihuanus
Peperomia tetraphylla	Pandanus julianettii
Piper abbreviatum	Pandanus krauelianus
Piper betle	Pandanus meniscostigma
Piper bolanicum	Pandanus papuanus
Piper caninum	Pandanus sp.
Piper celtidiforme	Pandanus tectorius
Piper macropiper	TRIURIDACEAE
Piper mertonii	Sciaphila tenella
Piper sp.	CORSIACEAE
Piper stenocarpum	Corsia papuana
Piper subbulatum	SMILACACEAE
Piper umbellatum	Smilax australis
Pothomorphe sp.	Smilax calophylla
ARACEAE	Smilax corbularia
Alocasia aequiloba	Smilax glyciphylla
Alocasia lancifolia	Smilax leucophylla
Amydrium magnificum	ASPARAGACEAE
Amydrium zippelianum	Cordyline fruticosa
Holochlamys beccarii	Cordyline murchisoniae
Homalomena davidiana	Pleomele angustifolia
Homalomena schlechteri	HYPOXIDACEAE
Homalomena sp.	Molineria capitulata
Lasia spinosa	ORCHIDACEAE
Pistia stratiotes	Acanthephippium papuanum

ORCHIDACEAE (cont.)	
<i>Agrostophyllum carinoides</i>	<i>Dendrobium subclausum</i>
<i>Agrostophyllum elongatum</i>	<i>Dendrobium vexillarius</i>
<i>Agrostophyllum sp.</i>	<i>Dendrobium williamsianum</i>
<i>Agrostophyllum superpositum</i>	<i>Diplocaulobium pulvilliferum</i>
<i>Agrostophyllum ventricosum</i>	<i>Diplocaulobium sp.</i>
<i>Appendicula dendrobioides</i>	<i>Epiblastus tuberculatus</i>
<i>Appendicula gnemophila</i>	<i>Eria imbricata</i>
<i>Arachnis muelleri</i>	<i>Eria sp.</i>
<i>Bulbophyllum blumei</i>	<i>Geodorum densiflorum</i>
<i>Bulbophyllum chloranthum</i>	<i>Glomera sp.</i>
<i>Bulbophyllum desmotrichoides</i>	<i>Glossorhyncha sp.</i>
<i>Bulbophyllum ebulbe</i>	<i>Habenaria bauerlenii</i>
<i>Bulbophyllum emiliorum</i>	<i>Hetaeria sp.</i>
<i>Bulbophyllum fractiflexum</i>	<i>Liparis sp.</i>
<i>Bulbophyllum globiceps</i>	<i>Malaxis fissa</i>
<i>Bulbophyllum hymenobracteum</i>	<i>Mediocalcar crenulatum</i>
<i>Bulbophyllum macranthoides</i>	<i>Mediocalcar pygmaeum</i>
<i>Bulbophyllum manobulbum</i>	<i>Mediocalcar sp.</i>
<i>Bulbophyllum melanoxanthum</i>	<i>Mischobulbum cordifolium</i>
<i>Bulbophyllum muscicola</i>	<i>Neuwiedia veratrifolia</i>
<i>Bulbophyllum nasica</i>	<i>Oberonia oblonga</i>
<i>Bulbophyllum sp.</i>	<i>Octarrhena filiformis</i>
<i>Bulbophyllum teysmannii</i>	<i>Pedilochilus alpinum</i>
<i>Bulbophyllum wernerii</i>	<i>Pedilonum auroroseum</i>
<i>Cadetia sp.</i>	<i>Pedilonum lawesii</i>
<i>Calanthe engleriana</i>	<i>Pedilonum smilliae</i>
<i>Calanthe flabelliformis</i>	<i>Peristylus affinis</i>
<i>Calanthe latissimifolia</i>	<i>Phreatia sp.</i>
<i>Ceratostylis calciformis</i>	<i>Phreatia valida</i>
<i>Ceratostylis sp.</i>	<i>Plocoglottis maculata</i>
<i>Cheirostylis ovata</i>	<i>Plocoglottis sp.</i>
<i>Chrysoglossum ornatum</i>	<i>Podochilus bimaculatus</i>
<i>Coelogyne carinata</i>	<i>Podochilus sp.</i>
<i>Coelogyne fragrans</i>	<i>Pseudovanilla sp.</i>
<i>Dendrobium acianthum</i>	<i>Pterostylis papuana</i>
<i>Dendrobium antennatum</i>	<i>Pterostylis sp.</i>
<i>Dendrobium aurantiroseum</i>	<i>Spathoglottis plicata</i>
<i>Dendrobium caliculimentum</i>	<i>Spathoglottis sp.</i>
<i>Dendrobium crassilabium</i>	<i>Spiranthes sinensis</i>
<i>Dendrobium cuthbertsonii</i>	<i>Taeniophyllum sp.</i>

<i>Cyperus haspan</i>	<i>Scleria sp.</i>
<i>Cyperus kernianus</i>	<i>Scleria terrestris</i>
	<i>Uncinia compacta</i>

CYPERACEAE (cont.)	
Uncinia riparia	Chionochloa sp.
Uncinia sp.	Chloris inflata
ERIOCAULACEAE	Chloris virgata
Eriocaulon cinereum	Chrysopogon aciculatus
Eriocaulon montanum	Coix lacryma-jobi
Eriocaulon novoguineense	Cymbopogon globosus
Eriocaulon papuanum	Cynodon dactylon
JUNCACEAE	Cyrtococcum accrescens
Juncus decipiens	Cyrtococcum oxyphyllum
Juncus effusus	Cyrtococcum patens
Juncus prismatocarpus	Cyrtococcum trigonum
Juncus sandwithii	Dactyloctenium aegyptium
Juncus wallichianus	Deschampsia klossii
Luzula campestris	Deyeuxia macgregorii
POACEAE	Deyeuxia sp.
Agrostis infirma	Deyeuxia suizanensis
Alloteropsis semialata	Dichanthium annulatum
Ancistragrostis uncinioides	Dichanthium aristatum
Anthoxanthum horsfieldii	Dichanthium fecundum
Anthoxanthum redolens	Dichanthium sericeum
Apluda mutica	Dichanthium sp.
Aristida adscensionis	Dichelachne sp.
Aristida utilis	Digitaria abortiva
Arthraxon hispidus	Digitaria bicornis
Arundinella furva	Digitaria ciliaris
Arundinella setosa	Digitaria nuda
Austrodanthonia penicillata	Digitaria ramularis
Bambusa forbesii	Digitaria setigera
Bambusa fruticosa	Digitaria tararensis
Bambusa microcephala	Dimeria dipteros
Bambusa sp.	Dimeria ornithopoda
Bothriochloa bladhii	Echinochloa colona
Bothriochloa decipiens	Echinochloa picta
Bothriochloa ischaemum	Echinochloa praestans
Bothriochloa pertusa	Echinopogon ovatus
Brachiaria distachya	Eleusine indica
Brachiaria fusiformis	Elionurus citreus
Brachiaria piligera	Enneapogon pallidus
Brachiaria reptans	Eragrostis brownii
Brachiaria sp.	Eragrostis spartinoides
Brachiaria subquadripara	Eragrostis tenella
Brachiaria villosa	Eriachne squarrosa
Brachyachne ambigua	Eriochloa crebra
Brachypodium sp.	Eriochloa procera
Capillipedium parviflorum	Eulalia leptostachys
Capillipedium spicigerum	Eulalia trispicata
Cenchrus brownii	Garnotia stricta
Cenchrus echinatus	Heteropogon contortus
Centotheca lappacea	Hymenachne acutigluma
Chionachne macrophylla	Ichnanthus pallens
Chionochloa archboldii	Imperata conferta
	Imperata cylindrica

POACEAE (cont.)	
<i>Isachne albomarginata</i>	<i>Pennisetum purpureum</i>
<i>Isachne globosa</i>	<i>Perotis indica</i>
<i>Isachne myosotis</i>	<i>Perotis rara</i>
<i>Isachne pauciflora</i>	<i>Phragmites karka</i>
<i>Isachne villosa</i>	<i>Phragmites sp.</i>

<i>Paspalum scrobiculatum</i>	
<i>Pennisetum macrostachys</i>	
	XYRIDACEAE
	<i>Xyris complanata</i>
	<i>Xyris oligantha</i>
	<i>Xyris sp.</i>

COMMELINACEAE	
Aneilema sp.	<i>Clematis pickeringii</i>
<i>Commelina benghalensis</i>	<i>Ranunculus amerophyllus</i>
<i>Commelina diffusa</i>	<i>Ranunculus heterotrichus</i>
<i>Cyanotis moluccana</i>	<i>Ranunculus sp.</i>
<i>Cyanotis sp.</i>	<i>Ranunculus wahgiensis</i>
<i>Floscopia scandens</i>	PROTEACEAE
<i>Murdannia cryptantha</i>	<i>Finschia chloroxantha</i>
<i>Murdannia gigantea</i>	<i>Finschia ferruginiflora</i>
<i>Murdannia nudiflora</i>	<i>Finschia rufa</i>
<i>Pollia secundiflora</i>	<i>Finschia sp.</i>
<i>Pollia sp.</i>	<i>Grevillea baileyana</i>
COSTACEAE	<i>Grevillea carrii</i>
<i>Costus speciosus</i>	<i>Grevillea glauca</i>
<i>Tapeinochilos acaulis</i>	<i>Grevillea papuana</i>
<i>Tapeinochilos brassii</i>	<i>Grevillea pinnatifida</i>
<i>Tapeinochilos takeuchii</i>	<i>Grevillea sp.</i>
MARANTACEAE	<i>Helicia amplifolia</i>
<i>Cominsia gigantea</i>	<i>Helicia cameronii</i>
<i>Cominsia sp.</i>	<i>Helicia commutata</i>
<i>Donax canniformis</i>	<i>Helicia finisterrae</i>
<i>Macrophrynium sp.</i>	<i>Helicia forbesiana</i>
<i>Phacelophrynium sp.</i>	<i>Helicia insculpta</i>
<i>Phrynum pedunculatum</i>	<i>Helicia olivacea</i>
<i>Phrynum sp.</i>	<i>Helicia oreadum</i>
ZINGIBERACEAE	<i>Helicia peltata</i>
<i>Amomum aculeatum</i>	<i>Helicia retevenia</i>
<i>Amomum sp.</i>	<i>Helicia sp.</i>
<i>Curcuma australasica</i>	<i>Stenocarpus moorei</i>
<i>Curcuma longa</i>	SABIACEAE
<i>Eriolopha ovalifolia</i>	<i>Sabia sp.</i>
<i>Etlingera sp.</i>	DILLENIACEAE
<i>Globba sp.</i>	<i>Dillenia schlechteri</i>
<i>Hornstedtia lycostoma</i>	<i>Hibbertia scandens</i>
<i>Hornstedtia sp.</i>	<i>Tetracera nordtiana</i>
<i>Plagiostachys sp.</i>	DAPHNIPHYLLOACEAE
<i>Pleuranthodium sp.</i>	<i>Daphniphyllum papuanum</i>
<i>Riedelia geluensis</i>	HALORAGACEAE
<i>Riedelia monticola</i>	<i>Gonocarpus micranthus</i>
<i>Riedelia sp.</i>	<i>Haloragis halconensis</i>
<i>Zingiber officinale</i>	<i>Myriophyllum pedunculatum</i>
MENISPERMACEAE	VITACEAE
<i>Arcangelisia sp.</i>	<i>Cayratia japonica</i>
<i>Pycnarrena sp.</i>	<i>Cayratia sp.</i>
<i>Stephania japonica</i>	<i>Cissus aristata</i>
<i>Stephania zippeliana</i>	<i>Cissus javana</i>
<i>Tinomiscium phytocrenoides</i>	<i>Cissus sp.</i>
RANUNCULACEAE	<i>Leea guineensis</i>
<i>Clematis crutwellii</i>	<i>Leea papuana</i>
<i>Clematis javana</i>	<i>Leea rubra</i>
<i>Clematis papuasica</i>	<i>Leea sp.</i>
<i>Clematis phanerophlebia</i>	<i>Tetrastigma maluense</i>
	<i>Tetrastigma pisicarpum</i>

VITACEAE (cont.)	
Tetrastigma sp.	<i>Sloanea nymanii</i>
ZYGOPHYLLACEAE	<i>Sloanea paradisearum</i>
<i>Tribulus terrestris</i>	<i>Sloanea sogerensis</i>
CELASTRACEAE	<i>Sloanea tieghemii</i>
<i>Celastrus emarginata</i>	OXALIDACEAE
<i>Celastrus monospermooides</i>	<i>Oxalis barrelieri</i>
<i>Celastrus sp.</i>	<i>Oxalis corniculata</i>
<i>Perrottetia alpestris</i>	ACHARIACEAE
<i>Siphonodon sp.</i>	<i>Erythrospermum candidum</i>
CUNONIACEAE	<i>Pangium edule</i>
<i>Caldcluvia nymanii</i>	<i>Ryparosa calotricha</i>
<i>Caldcluvia papuana</i>	<i>Ryparosa maculata</i>
<i>Caldcluvia rufa</i>	<i>Ryparosa sp.</i>
<i>Schizomeria carrii</i>	<i>Trichadenia philippinensis</i>
<i>Schizomeria ilicina</i>	CALOPHYLLACEAE
<i>Schizomeria parvifolia</i>	<i>Calophyllum soulattrie</i>
<i>Schizomeria serrata</i>	<i>Calophyllum trachycarpe</i>
<i>Schizomeria sp.</i>	<i>Mammea veimauriensis</i>
ELAECARPACEAE	CHYSOBALANACEAE
<i>Aceratium pittosporoides</i>	<i>Hunga papuana</i>
<i>Aceratium sphaerocarpum</i>	<i>Licania papuana</i>

<i>Cypholophus macrocephalus</i>	<i>Begonia randiana</i>
<i>Cypholophus sp.</i>	<i>Symbegonia sp.</i>
<i>Dendrocnide corallodesme</i>	CORYNOCARPACEAE
<i>Dendrocnide cordata</i>	<i>Corynocarpus similis</i>
<i>Dendrocnide peltata</i>	CUCURBITACEAE
<i>Dendrocnide sp.</i>	<i>Gynostemma pentaphyllum</i>
	<i>Luffa cylindrica</i>

CUCURBITACEAE (cont.)	
Melothria sp.	Lagerstroemia archeriana
Momordica charantia	Lagerstroemia cristata
Mukia maderaspatana	Lagerstroemia piriformis
Neoalsomitra clavigera	Lagerstroemia sp.
Neoalsomitra sp.	Rotala mexicana
Trichosanthes dieniensis	Sonneratia alba
Trichosanthes edulis	Sonneratia caseolaris
Trichosanthes laeoica	MELASTOMATACEAE
Trichosanthes ovigera	Astronia hollrungii
Zehneria sp.	Astronia novoguineensis
DATISCACEAE	Astroniidium glabratum
Octomeles sumatrana	Astroniidium sp.
Tetrameles nudiflora	Bamlera tenuifolia
CASUARINACEAE	Medinilla crassinervia
Gymnostoma rumphianum	Medinilla hollungiana
Gymnostoma sumatranum	Medinilla maluensis
FAGACEAE	Medinilla markgrafii
Lithocarpus brassii	Medinilla novoguineensis
Lithocarpus celebicus	Medinilla plumosa
Lithocarpus imperialis	Medinilla radicans
Lithocarpus lauterbachii	Medinilla sp.
Lithocarpus megacarpus	Medinilla tenuipedicellata
Lithocarpus rufovillosum	Melastoma cyanoides
Lithocarpus sogerensis	Melastoma malabathricum
Lithocarpus sp.	Melastoma sp.
Lithocarpus vinkii	Osbeckia chinensis
Quercus sp.	Otanthera sp.
JUGLANDACEAE	Poikilogyne cordifolia
Engelhardtia lepidota	Poikilogyne setosa
Engelhardtia rigida	Poikilogyne sp.
COMBRETACEAE	Pternandra coerulescens
Combretum goldieanum	Pternandra tuberculata
Lumnitzera littorea	MYRTACEAE
Lumnitzera racemosa	Acmena acuminatissima
Terminalia archboldiana	Corymbia confertiflora
Terminalia catappa	Corymbia disjuncta
Terminalia catappoides	Corymbia disjuncta x papuana
Terminalia complanata	Corymbia papuana
Terminalia copelandii	Decaspermum exiguum
Terminalia eddowesii	Decaspermum lorentzii
Terminalia impediens	Decaspermum neurophyllum
Terminalia kaernbachii	Decaspermum paniculatum
Terminalia longespicata	Decaspermum salomonense
Terminalia megalocarpa	Decaspermum sp.
Terminalia microcarpa	Eucalyptopsis papuana
Terminalia sogerensis	Eucalyptopsis sp.
Terminalia solomonensis	Eucalyptus alba
Terminalia sp.	Eucalyptus bigalerita
Terminalia steenisiana	Eucalyptus brassiana
LYTHRACEAE	Eucalyptus confertiflora
Ammannia multiflora	Eucalyptus deglupta
	Eucalyptus papuana

MYRTACEAE (cont.)

<i>Eucalyptus platyphylla</i> x <i>tereticornis</i>	<i>Syzygium fibrosum</i>
<i>Eucalyptus polycsiada</i>	<i>Syzygium furfuraceum</i>
<i>Eucalyptus primiglaucia</i>	<i>Syzygium gonathanthum</i>
<i>Eucalyptus tereticornis</i>	<i>Syzygium goniocalyx</i>
<i>Eugenia bibracteata</i>	<i>Syzygium homichlophilum</i>
<i>Eugenia buettneriana</i>	<i>Syzygium hylochare</i>
<i>Eugenia coalita</i>	<i>Syzygium lagerstroemioides</i>
<i>Eugenia geniocalyx</i>	<i>Syzygium lauterbachianum</i>
<i>Eugenia leptoneurum</i>	<i>Syzygium leptoneurum</i>
<i>Eugenia longipes</i>	<i>Syzygium longipes</i>
<i>Eugenia malaccensis</i>	<i>Syzygium malaccense</i>
<i>Eugenia nutans</i>	<i>Syzygium naiadum</i>
<i>Eugenia sargentiana</i>	<i>Syzygium pergamaceum</i>
<i>Eugenia</i> sp.	<i>Syzygium porphyrocarpum</i>
<i>Eugenia stipularis</i>	<i>Syzygium puberulum</i>
<i>Gossia randiana</i>	<i>Syzygium pyrocarpum</i>
<i>Kania eugenoides</i>	<i>Syzygium racemoides</i>
<i>Kania</i> sp.	<i>Syzygium richardsonianum</i>
<i>Melaleuca cajuputi</i>	<i>Syzygium schumannianum</i>
<i>Melaleuca dealbata</i>	<i>Syzygium sogerense</i>
<i>Melaleuca leucadendra</i>	<i>Syzygium sp.</i>
<i>Melaleuca quinquenervia</i>	<i>Syzygium stipulare</i>
<i>Melaleuca</i> sp.	<i>Syzygium subalatum</i>

Melodinus australis
Melodinus grandiflorus
Melodinus sp.
Ochrosia citrodora
Ochrosia coccinea
Ochrosia ficifolia
Papuechites aambe
Parsonia burnensis
Parsonia curvisepala
Parsonia lata
Parsonia oligantha
Parsonia sanguinea
Parsonia schoddei
Parsonia velutina
Parsonia warenensis
Rejoua sp.
Secamone elliptica
Secamone sp.
Tabernaemontana aurantiaca
Tabernaemontana montana
Tabernaemontana orientalis
Tabernaemontana pandacaqui
Tabernaemontana sp.
Urceola javanica
Voacanga grandifolia
Voacanga sp.
Wrightia laevis
Wrightia pubescens

GENTIANACEAE

Fagraea berteroana
Fagraea ceilanica
Fagraea elliptica
Fagraea racemosa
Fagraea salticola
Fagraea sp.
Gentiana cinereifolia
Gentiana ettingshausenii
Gentiana papuana
Gentiana sp.

LOGANIACEAE

Geniostoma antherotrichum
Geniostoma randianum
Geniostoma rupestre
Mitrasacme elata
Neuburgia corynocarpa
Neuburgia kochii
Strychnos minor
Strychnos sp.

RUBIACEAE

Airosperma psychotrioides
Amaracarpus brachypus
Amaracarpus brassii
Amaracarpus sp.
Anthirhea megacarpa
Anthocephalus chinensis
Anthorrhiza mitis
Antirhea sp.
Argostemma sp.
Atractocarpus decorus
Atractocarpus macarthurii
Borreria baileyanus
Borreria laevis
Borreria sp.
Caelospermum salomonensis
Canthium aurantiacum
Canthium sp.
Canthium suborbiculare
Coprosma brassii
Coprosma divergens
Coprosma papuensis
Coprosma sp.
Coptosapelta carrii
Coptosapelta hameliiblasta
Cowiea sp.
Diodia ocytifolia
Dolianthus archboldianus
Dolianthus buxifolius
Dolianthus subalpinus
Dolianthus trichanthus
Dolianthus vaccinioides
Dolicholobium forbesii
Dolicholobium gertrudis
Dolicholobium sp.
Galium aculeatum
Galium grandiflrum
Galium maneaense
Galium novoguineense
Galium papillatum
Galium rotundifolium
Galium sp.
Galium subtrifidum

RUBIACEAE (cont.)	
<i>Galium umbrosum</i>	<i>Nauclea orientalis</i>
<i>Gardenia gjellerupii</i>	<i>Neanotis</i> sp.
<i>Gardenia hansemannii</i>	<i>Neolamarckia cadamba</i>
<i>Gardenia lamingtonii</i>	<i>Neonauclea brassii</i>
<i>Gardenia</i> sp.	<i>Neonauclea chalmersii</i>
<i>Geophila</i> sp.	<i>Neonauclea glabra</i>
<i>Guettarda speciosa</i>	<i>Neonauclea gordoniiana</i>
<i>Hedyotis auricularia</i>	<i>Neonauclea lanceolata</i>
<i>Hedyotis glomerulata</i>	<i>Neonauclea perspicuinervia</i>
<i>Hedyotis herbacea</i>	<i>Neonauclea</i> sp.
<i>Hedyotis pubescens</i>	<i>Nertera granadensis</i>
<i>Hedyotis radicans</i>	<i>Nertera nigricarpa</i>
<i>Hedyotis</i> sp.	<i>Nertera</i> sp.
<i>Hedyotis trichoclada</i>	<i>Oldenlandia biflora</i>
<i>Hydnophytum moseleyanum</i>	<i>Oldenlandia subulata</i>
<i>Hydnophytum</i> sp.	<i>Oldenlandia tenelliflora</i>
<i>Hydnophytum tortuosum</i>	<i>Oldenlandia tenuifolia</i>
<i>Ixora apoda</i>	<i>Ophiorrhiza decipiens</i>
<i>Ixora ensifolia</i>	<i>Ophiorrhiza</i> sp.
<i>Ixora</i> sp.	<i>Pavetta platyclada</i>
<i>Ixora timorensis</i>	<i>Pavetta</i> sp.
<i>Ixora whitei</i>	<i>Porterandia anisophylloides</i>
<i>Knoxia corymbosa</i>	<i>Psilanthes brassii</i>
<i>Knoxia sumatrensis</i>	<i>Psilanthes</i> sp.
<i>Lasianthus canephroides</i>	<i>Psychotria aundensis</i>
<i>Lasianthus chlorocarpus</i>	<i>Psychotria beccarii</i>
<i>Lasianthus chrysotrichus</i>	<i>Psychotria beccariooides</i>
<i>Lasianthus cyanocarpoides</i>	<i>Psychotria bracteosa</i>
<i>Lasianthus cyanocarpus</i>	<i>Psychotria decorifolia</i>
<i>Lasianthus inaequalis</i>	<i>Psychotria dieniensis</i>
<i>Lasianthus</i> sp.	<i>Psychotria direpta</i>
<i>Lasianthus strigosus</i>	<i>Psychotria dolichosepala</i>
<i>Lucinaea</i> sp.	<i>Psychotria hollandiae</i>
<i>Mastixodendron pachyclados</i>	<i>Psychotria karemaensis</i>
<i>Mitracarpus hirtus</i>	<i>Psychotria leiophloea</i>
<i>Mitragyna</i> sp.	<i>Psychotria leonardii</i>
<i>Mitragyna speciosa</i>	<i>Psychotria leptothyrsa</i>
<i>Morinda citrifolia</i>	<i>Psychotria leucococca</i>
<i>Morinda</i> sp.	<i>Psychotria lolokiensis</i>
<i>Mussaenda aestuariai</i>	<i>Psychotria luteola</i>
<i>Mussaenda ferruginea</i>	<i>Psychotria mafuluensis</i>
<i>Mussaenda frondosa</i>	<i>Psychotria membranifolia</i>
<i>Mussaenda procera</i>	<i>Psychotria micralabastra</i>
<i>Mussaenda scratchleyi</i>	<i>Psychotria micrococca</i>
<i>Mussaenda</i> sp.	<i>Psychotria multicostoides</i>
<i>Mussaenda whitei</i>	<i>Psychotria olivacea</i>
<i>Mycetia javanica</i>	<i>Psychotria paludicola</i>
<i>Myrmecodia albertisii</i>	<i>Psychotria randiana</i>
<i>Myrmecodia schlechteri</i>	<i>Psychotria resurrecta</i>
<i>Myrmecodia</i> sp.	<i>Psychotria reticulatissima</i>
<i>Nauclea coadunata</i>	<i>Psychotria</i> sp.
	<i>Psychotria sphaerothyrsa</i>

RUBIACEAE (cont.)	
Psydrax suborbicularis	<i>Solanum dunalianum</i>
Randia ixoraeflora	<i>Solanum erianthum</i>
Randia sp.	<i>Solanum ferox</i>
Randia spicata	<i>Solanum incanoalabastrum</i>
Richardia brasiliensis	<i>Solanum lasiocarpum</i>
Saprosma subrepandum	<i>Solanum leptacanthum</i>
Spermacoce latifolia	<i>Solanum nigrum</i>
Spermacoce sp.	<i>Solanum opacum</i>
Tarennia buruensis	<i>Solanum papuanum</i>
Tarennia dallachiana	<i>Solanum rostellatum</i>
Tarennia sp.	<i>Solanum sp.</i>
Timonius carrii	<i>Solanum torvoideum</i>
Timonius koikokoensis	<i>Solanum torvum</i>
Timonius meridionalis	<i>Solanum trichostylum</i>
Timonius merokensis	BORAGINACEAE
Timonius pubistipulus	<i>Cordia subcordata</i>
Timonius sp.	<i>Cynoglossum javanicum</i>
Timonius sylvestris	<i>Ehretia acuminata</i>
Timonius timon	<i>Ehretia microphylla</i>
Uncaria cordata	<i>Ehretia sp.</i>
Uncaria lanosa	<i>Myosotis saruwagedica</i>
Uncaria schlenckerae	<i>Tournefortia sarmentosa</i>
Uncaria sclerophylla	<i>Tournefortia sp.</i>
Uncaria sp.	<i>Trigonotis haackei</i>
Urophyllum britannicum	<i>Trigonotis papuana</i>
Urophyllum sp.	<i>Trigonotis procumbens</i>
Versteegia sp.	<i>Trigonotis robusta</i>
Wendlandia buddleacea	<i>Trigonotis sp.</i>
Wendlandia paniculata	ACANTHACEAE
Wendlandia sp.	<i>Avicennia marina</i>
CONVOLVULACEAE	<i>Avicennia officinalis</i>
Evolvulus alsinoides	<i>Calophanoides sp.</i>
Ipomoea aquatica	<i>Calophanoides zollingeriana</i>
Ipomoea graminea	<i>Calycacanthus magnusianus</i>
Ipomoea nil	<i>Calycacanthus sp.</i>
Ipomoea pes-caprae	<i>Dicliptera papuana</i>
Ipomoea sp.	<i>Graptophyllum gilligani</i>
Jacquemontia paniculata	<i>Graptophyllum pictum</i>
Lepistemon urceolatus	<i>Graptophyllum pubiflorum</i>
Merremia dissecta	<i>Graptophyllum sp.</i>
Merremia gemella	<i>Graptophyllum spinigerum</i>
Merremia hirta	<i>Hemigraphis reptans</i>
Merremia peltata	<i>Hemigraphis sp.</i>
Merremia quinquefolia	<i>Hygrophila saxatilis</i>
Merremia sp.	<i>Hypoestes merrillii</i>
Merremia umbellata	<i>Jadunia sp.</i>
SOLANACEAE	<i>Justicia chalmersi</i>
Physalis minima	<i>Justicia sp.</i>
Solanum americanum	<i>Lepidagathis incurva</i>
Solanum anfractum	<i>Lepidagathis sp.</i>
Solanum biflorum	<i>Polytrema sp.</i>
	<i>Pseuderanthemum variable</i>

ACANTHACEAE (cont.)	
<i>Rhaphidospora cavernarum</i>	
<i>Rungia klossii</i>	
<i>Thunbergia arnhemica</i>	
<i>Thunbergia fragrans</i>	
BIGNONIACEAE	
<i>Deplanchea tetraphylla</i>	
<i>Pandorea pandorana</i>	
<i>Tecomanthe dendrophila</i>	
GESNERIACEAE	
<i>Aeschynanthus discorensis</i>	
<i>Aeschynanthus nummularius</i>	
<i>Boea lanuginosa</i>	
<i>Boea sp.</i>	
<i>Cyrtandra quenifolia</i>	
<i>Cyrtandra sp.</i>	
<i>Trichosporum sp.</i>	
LAMIACEAE	
<i>Callicarpa arborea</i>	
<i>Callicarpa caudata</i>	
<i>Callicarpa cumingiana</i>	
<i>Callicarpa longifolia</i>	
<i>Callicarpa pentandra</i>	
<i>Clerodendrum buruanum</i>	
<i>Clerodendrum floribundum</i>	
<i>Clerodendrum magnificum</i>	
<i>Clerodendrum phyllomega</i>	
<i>Clerodendrum porphyrocalyx</i>	
<i>Clerodendrum sp.</i>	
<i>Coleus scutellarioides</i>	
<i>Coleus sp.</i>	
<i>Faradaya splendida</i>	
<i>Glossocarya hemiderma</i>	
<i>Gmelina moluccana</i>	
<i>Gmelina schlechteri</i>	
<i>Gmelina sessilis</i>	
<i>Gmelina smithii</i>	
<i>Hyptis sp.</i>	
<i>Hyptis suaveolens</i>	
<i>Orthosiphon aristatus</i>	
<i>Petraeovitex multiflora</i>	
<i>Plectranthus congestus</i>	
<i>Plectranthus klossii</i>	
<i>Plectranthus scutellarioides</i>	
<i>Plectranthus sp.</i>	
<i>Pogostemon stellatus</i>	
<i>Premna herbacea</i>	
<i>Premna membranacea</i>	
<i>Premna obtusifolia</i>	
<i>Premna odorata</i>	
<i>Premna serratifolia</i>	
<i>Scutellaria sp.</i>	
Solenostemon scutellarioides	
Teijsmanniodendron bogoriense	
Vitex cofassus	
Vitex sp.	
Viticipremna tomentosa	
LENTIBULARIACEAE	
<i>Utricularia bifida</i>	
<i>Utricularia caerulea</i>	
<i>Utricularia striatula</i>	
LINDERNIACEAE	
<i>Lindernia aromatica</i>	
<i>Lindernia crustacea</i>	
<i>Lindernia sp.</i>	
MAZACEAE	
<i>Mazus pumilus</i>	
OLEACEAE	
<i>Chionanthus ramiflorus</i>	
<i>Jasminum aemulum</i>	
<i>Jasminum didymum</i>	
<i>Jasminum domatiigerum</i>	
<i>Jasminum elongatum</i>	
<i>Jasminum longipetalum</i>	
<i>Jasminum turneri</i>	
<i>Ligustrum glomeratum</i>	
OROBANCHACEAE	
<i>Buchnera linearis</i>	
<i>Buchnera urticifolia</i>	
<i>Centranthera cochinchinensis</i>	
<i>Euphrasia papuana</i>	
<i>Sopubia trifida</i>	
PLANTAGINACEAE	
<i>Bacopa procumbens</i>	
<i>Limnophila rugosa</i>	
<i>Limnophila sp.</i>	
<i>Parahebe diosmoides</i>	
<i>Parahebe ledenefeldii</i>	
<i>Parahebe rubra</i>	
<i>Parahebe tenuis</i>	
<i>Plantago aundensis</i>	
<i>Plantago papuana</i>	
<i>Plantago polita</i>	
<i>Plantago sp.</i>	
<i>Plantago trichophora</i>	
<i>Scoparia dulcis</i>	
SCROPHULARIACEAE	
<i>Buddleja asiatica</i>	
<i>Myoporum acuminatum</i>	
<i>Myoporum montanum</i>	
<i>Myoporum papuanum</i>	
VERBENACEAE	
<i>Phyla nodiflora</i>	
<i>Stachytarpheta jamaicensis</i>	

VERBENACEAE (cont.)	
<i>Stachytarpheta mutabilis</i>	<i>Keysseria radicans</i>
<i>Stachytarpheta</i> sp.	<i>Lactuca laevigata</i>
<i>Verbena</i> sp.	<i>Lactuca</i> sp.
AQUIFOLIACEAE	<i>Lagenophora lanata</i>
<i>Ilex archboldiana</i>	<i>Lagenophora stipitata</i>
<i>Ilex forbesii</i>	<i>Leptinella</i> sp.
<i>Ilex glomerata</i>	<i>Microglossa pyrifolia</i>
CARDIOPTERIDACEAE	<i>Mikania cordata</i>
<i>Gonocaryum litorale</i>	<i>Mikania micrantha</i>
<i>Gonocaryum pyriforme</i>	<i>Olearia kernotii</i>
<i>Gonocaryum</i> sp.	<i>Olearia monticola</i>
<i>Pseudobotrys</i> sp.	<i>Olearia</i> sp.
STEMONURACEAE	<i>Olearia vernonioides</i>
<i>Medusanthera laxiflora</i>	<i>Pluchea indica</i>
<i>Medusanthera</i> sp.	<i>Pterocaulon sphacelatum</i>
ASTERACEAE	<i>Senecio brassii</i>
<i>Acmella grandiflora</i>	<i>Senecio papuanus</i>
<i>Adenostemma lavenia</i>	<i>Sigesbeckia orientalis</i>
<i>Adenostemma macrophyllum</i>	<i>Sonchus asper</i>
<i>Ageratum conyzoides</i>	<i>Synedrella nodiflora</i>
<i>Anaphalioides mariae</i>	<i>Tetramolopium alinae</i>
<i>Anaphalis hellwigii</i>	<i>Tetramolopium macrum</i>
<i>Anaphalis lorentzii</i>	<i>Tetramolopium pumilum</i>
<i>Anaphalis mariae</i>	<i>Tithonia diversifolia</i>
<i>Arrhenechthites haplogyna</i>	<i>Tridax procumbens</i>
<i>Bidens pilosa</i>	<i>Vernonia arborea</i>
<i>Blumea arnakiophora</i>	<i>Vernonia lanceolata</i>
<i>Blumea lacera</i>	<i>Wedelia spilanthoides</i>
<i>Blumea riparia</i>	<i>Wollastonia biflora</i>
<i>Blumea</i> sp.	<i>Xanthium occidentale</i>
<i>Camptacra gracilis</i>	<i>Youngia japonica</i>
<i>Conyza albida</i>	CAMPANULACEAE
<i>Conyza sumatrensis</i>	<i>Lobelia angulata</i>
<i>Crassocephalum crepidioides</i>	<i>Lobelia donanensis</i>
<i>Cyanthillium cinereum</i>	<i>Lobelia zeylanica</i>
<i>Eclipta prostrata</i>	<i>Peracarpa carnosa</i>
<i>Eclipta</i> sp.	<i>Wahlenbergia gracilis</i>
<i>Elephantopus mollis</i>	<i>Wahlenbergia marginata</i>
<i>Eleutheranthera ruderalis</i>	<i>Wahlenbergia papuana</i>
<i>Emilia sonchifolia</i>	PENTAPHRAGMATACEAE
<i>Ethulia conyzoides</i>	<i>Pentaphragma</i> sp.
<i>Euchiton brassii</i>	STYLDIACEAE
<i>Euchiton breviscapus</i>	<i>Stylium javanicum</i>
<i>Euchiton involucratus</i>	ESCALLONIACEAE
<i>Euchiton japonicus</i>	<i>Polyosma brachyantha</i>
<i>Euchiton</i> sp.	APIACEAE
<i>Gnaphalium brassii</i>	<i>Chaerophyllum lineare</i>
<i>Gynura procumbens</i>	<i>Mackinlaya celebica</i>
<i>Ischnea elachoglossa</i>	<i>Mackinlaya</i> sp.
<i>Keysseria bellidiformis</i>	<i>Oenanthe javanica</i>
<i>Keysseria gibbsiae</i>	<i>Oreomyrrhis azorellacea</i>
	<i>Oreomyrrhis linearis</i>

Oreomyrrhis pumila	Schefflera thaumasiantha
ARALIACEAE	Schefflera versteegii
Gastonia spectabilis	Trachymene adenodes
Harmsiopanax harmsii	Trachymene rosulans
Harmsiopanax ingens	Trachymene saniculifolia
Hydrocotyle sibthorpioides	PITTOSPORACEAE
Osmoxylon micranthum	Pittosporum berberidoides
Osmoxylon novoguineense	Pittosporum ferrugineum
Osmoxylon sp.	Pittosporum pullifolium
Plerandra stahliana	Pittosporum pumilum
Polyscias ledermannii	Pittosporum ramiflorum
Polyscias schultzei	Pittosporum sinuatum
Schefflera actinophylla	
Schefflera carrii	
Schefflera sp.	

13.3 Appendix 03 - Vascular Plants of the Kokoda Interim Protection Zone (1211 spp.)

LYCOPIDIACEAE	Hypolepis sp.
<i>Huperzia macgregorii</i>	<i>Microlepia speluncae</i>
<i>Huperzia pinifolia</i>	<i>Paesia</i> sp.
<i>Lycopodiella cernua</i>	PTERIDACEAE
<i>Lycopodium angustiramosum</i>	<i>Cheilanthes tenuifolia</i>
<i>Lycopodium clavatum</i>	<i>Doryopteris concolor</i>
<i>Lycopodium scariosum</i>	<i>Onychium siliculosum</i>
<i>Lycopodium sp.</i>	<i>Pteris excelsa</i>
<i>Lycopodium terrae-gulielmi</i>	<i>Pteris grassii</i>
EQUISETACEAE	<i>Taenitis hookeri</i>
<i>Equisetum debile</i>	<i>Taenitis pinnata</i>
<i>Equisetum</i> sp.	<i>Vittaria elongata</i>
OPHIOGLOSSACEAE	<i>Vittaria exigua</i>
<i>Helminthostachys zeylanica</i>	<i>Vittaria</i> sp.
<i>Ophioglossum</i> sp.	ASPLENIACEAE
PSILOTACEAE	<i>Asplenium acrobryum</i>
<i>Psilotum nudum</i>	<i>Asplenium cuneatum</i>
MARATTIACEAE	<i>Asplenium normale</i>
<i>Marattia fraxinea</i>	<i>Asplenium nutans</i>
<i>Marattia salicina</i>	<i>Asplenium parvum</i>
<i>Marattia</i> sp.	<i>Asplenium sanctichristofori</i>
HYMENOPHYLLACEAE	<i>Asplenium tenerum</i>
<i>Hymenophyllum bamlerianum</i>	<i>Diplora longifolia</i>
<i>Hymenophyllum ooides</i>	THELYPTERIDACEAE
<i>Hymenophyllum productum</i>	<i>Amphineuron opulentum</i>
<i>Hymenophyllum rubellum</i>	<i>Amphineuron terminans</i>
GLEICHENIACEAE	<i>Cyclosorus</i> sp.
<i>Gleichenia bolanica</i>	<i>Pronephrium</i> sp.
<i>Gleichenia erecta</i>	<i>Pronephrium triphyllum</i>
<i>Gleichenia vulcanica</i>	<i>Sphaerostephanos invisus</i>
<i>Sticherus</i> sp.	<i>Sphaerostephanos polycarpus</i>
MARSILEACEAE	<i>Sphaerostephanos unijuga</i>
<i>Marsilea crenata</i>	<i>Sphaerostephanos unitus</i>
<i>Marsilea</i> sp.	<i>Thelypteris</i> sp.
PLAGIogyriaceae	BLECHNACEAE
<i>Plagiogyria glauca</i>	<i>Blechnum fluitatile</i>
<i>Plagiogyria</i> sp.	<i>Blechnum hieronymi</i>
<i>Plagiogyria tuberculata</i>	<i>Blechnum vulcanicum</i>
CYATHEACEAE	<i>Stenochlaena palustris</i>
<i>Cyathea archboldii</i>	DRYOPTERIDACEAE
<i>Cyathea atrox</i>	<i>Dryopteris</i> sp.
<i>Cyathea gleichenioides</i>	<i>Rumohra adiantiformis</i>
<i>Cyathea mesosora</i>	NEPHROLEPIDACEAE
<i>Cyathea semiamplexens</i>	<i>Nephrolepis cordifolia</i>
DICKSONIACEAE	<i>Nephrolepis lauterbachii</i>
<i>Dicksonia lanigera</i>	TECTARIACEAE
DENNSTAEDTIACEAE	<i>Tectaria decurrens</i>
<i>Dennstaedtia</i> sp.	DAVALLIACEAE
<i>Histiopteris</i> sp.	<i>Humata deltoidea</i>

DAVALLIACEAE (cont.)	
<i>Humata neoguineensis</i>	<i>Horsfieldia corrugata</i>
<i>Scyphularia pentaphylla</i>	<i>Horsfieldia</i> sp.
POLYPODIACEAE	<i>Horsfieldia spicata</i>
<i>Belvisia mucronata</i>	<i>Horsfieldia subtilis</i>
<i>Belvisia validinervis</i>	<i>Horsfieldia sylvestris</i>
<i>Crypsinus</i> sp.	<i>Myristica chrysophylla</i>
<i>Ctenopteris bipinnatifida</i>	<i>Myristica globosa</i>
<i>Ctenopteris denticulata</i>	<i>Myristica insipida</i>
<i>Ctenopteris</i> sp.	<i>Myristica longipes</i>
<i>Drynaria quercifolia</i>	<i>Myristica</i> sp.
<i>Drynaria rigidula</i>	<i>Myristica subalulata</i>
<i>Goniophlebium subauriculatum</i>	LAURACEAE
<i>Grammitis</i> sp.	<i>Actinodaphne</i> sp.
<i>Lemmaphyllum accedens</i>	<i>Beilschmiedia</i> sp.
<i>Loxogramme paltonioides</i>	<i>Cinnamomum</i> sp.
<i>Microsorum</i> sp.	<i>Cryptocarya albida</i>
<i>Prosaptia contigua</i>	<i>Cryptocarya</i> sp.
<i>Prosaptia davalliaeae</i>	<i>Dehaasia</i> sp.
<i>Pyrrosia</i> sp.	<i>Endiandra invasiorum</i>
<i>Selliguea</i> sp.	<i>Endiandra macrostemon</i>
CYCADACEAE	<i>Endiandra</i> sp.
<i>Cycas scratchleyana</i>	<i>Litsea domarensis</i>
CUPRESSACEAE	<i>Litsea</i> sp.
<i>Papuacedrus papuana</i>	MONIMIACEAE
PODOCARPACEAE	<i>Levieria beccariana</i>
<i>Dacrycarpus compactus</i>	<i>Levieria nitens</i>
<i>Phyllocladus hypophyllus</i>	<i>Matthaea</i> sp.
<i>Phyllocladus</i> sp.	<i>Palmeria</i> sp.
<i>Podocarpus irriktus</i>	<i>Steganthera</i> sp.
<i>Podocarpus pilgeri</i>	WINTERACEAE
<i>Podocarpus</i> sp.	<i>Bubbia calothyrsa</i>
<i>Sundacarpus amarus</i>	<i>Tasmannia piperita</i>
GNETACEAE	<i>Zygogynum calothyrsrum</i>
<i>Gnetum gnemon</i>	<i>Zygogynum haplopus</i>
CHLORANTHACEAE	<i>Zygogynum</i> sp.
<i>Chloranthus officinalis</i>	PIPERACEAE
ANNONACEAE	<i>Peperomia brassii</i>
<i>Haplostichanthus longirostris</i>	<i>Peperomia gemella</i>
<i>Haplostichanthus</i> sp.	<i>Peperomia marivelesana</i>
<i>Mitrella</i> sp.	<i>Peperomia pupurea</i>
<i>Papualthia auriculata</i>	<i>Peperomia saxatilis</i>
<i>Polyalthia oblongifolia</i>	<i>Peperomia tetraphylla</i>
<i>Polyalthia</i> sp.	<i>Piper caninum</i>
<i>Popowia</i> sp.	<i>Piper celtidiforme</i>
<i>Pseuduvaria</i> sp.	<i>Piper macropiper</i>
<i>Uvaria grandiflora</i>	<i>Piper mestonii</i>
HIMANTANDRACEAE	<i>Piper</i> sp.
<i>Galbulimima belgraveana</i>	ARACEAE
MYRISTICACEAE	<i>Amydrium zippelianum</i>
<i>Gymnacranthera farquhariana</i>	<i>Pothos hellwigii</i>
<i>Gymnacranthera zippelianum</i>	<i>Rhaphidophora kokodensis</i>

DIOSCOREACEAE	
<i>Tacca</i> sp.	ARECACEAE
PANDANACEAE	<i>Calamus</i> sp.
<i>Freycinetia funicularis</i>	<i>Calamus warburgii</i>
<i>Pandanus</i> sp.	<i>Calyptrocalyx albertisianus</i>
SMILACACEAE	<i>Calyptrocalyx</i> sp.
<i>Smilax australis</i>	<i>Heterospatha</i> sp.
<i>Smilax calophylla</i>	<i>Licuala linearis</i>
<i>Smilax corbularia</i>	<i>Licuala</i> sp.
<i>Smilax glyciphylla</i>	<i>Livistona benthamii</i>
<i>Smilax</i> sp.	<i>Ptychosperma</i> sp.
ASPARAGACEAE	CYPERACEAE
<i>Cordyline fruticosa</i>	<i>Bulbostylis densa</i>
<i>Cordyline</i> sp.	<i>Carex euphlebia</i>
IRIDACEAE	<i>Carex gaudichaudiana</i>
<i>Libertia pulchella</i>	<i>Carex indica</i>
ORCHIDACEAE	<i>Carex</i> sp.
<i>Agrostophyllum carinoides</i>	<i>Cyperus brevifolius</i>
<i>Agrostophyllum ventricosum</i>	<i>Cyperus difformis</i>
<i>Bulbophyllum macranthoides</i>	<i>Cyperus kernianus</i>
<i>Bulbophyllum melanoxanthum</i>	<i>Cyperus kyllingia</i>
<i>Bulbophyllum muscicola</i>	<i>Cyperus neoguineensis</i>
<i>Bulbophyllum</i> sp.	<i>Cyperus nervulosus</i>
<i>Cadetia</i> sp.	<i>Cyperus pedunculosus</i>
<i>Ceratostylis</i> sp.	<i>Cyperus sanguinolentus</i>
<i>Coelogyne fragrans</i>	<i>Cyperus</i> sp.
<i>Dendrobium aurantiroseum</i>	<i>Cyperus tenuiculmis</i>
<i>Dendrobium discolor</i>	<i>Cyperus unioloides</i>
<i>Dendrobium erectilobum</i> ined.	<i>Eleocharis nuda</i>
<i>Dendrobium</i> sp.	<i>Eleocharis tetraquetra</i>
<i>Dendrobium williamsianum</i>	<i>Fimbristylis dichotoma</i>
<i>Diplocaulobium</i> sp.	<i>Fimbristylis pycnocephala</i>
<i>Eria imbricata</i>	<i>Fimbristylis salbundia</i>
<i>Glomera</i> sp.	<i>Fimbristylis</i> sp.
<i>Liparis</i> sp.	<i>Fimbristylis tristachya</i>
<i>Mediocalcar crenulatum</i>	<i>Gahnia</i> sp.
<i>Mediocalcar pygmaeum</i>	<i>Isolepis crassiuscula</i>
<i>Mediocalcar</i> sp.	<i>Lipocarpha microcephala</i>
<i>Pedilonum lawesii</i>	<i>Rhynchospora rubra</i>
<i>Phreatia</i> sp.	<i>Rhynchospora rugosa</i>
<i>Phreatia valida</i>	<i>Schoenus curvulus</i>
<i>Plocoglottis</i> sp.	<i>Schoenus</i> sp.
<i>Podochilus</i> sp.	<i>Scirpus juncoides</i>
<i>Pseudovanilla</i> sp.	<i>Scirpus</i> sp.
<i>Pterostylis papuana</i>	<i>Scleria</i> levis
<i>Spiranthes sinensis</i>	<i>Scleria</i> sp.
<i>Tainia</i> sp.	<i>Scleria terrestris</i>
<i>Thelymitra papuana</i>	<i>Uncinia</i> sp.
<i>Thelymitra</i> sp.	ERIOCAULACEAE
XANTHORRHOEACEAE	<i>Eriocaulon cinereum</i>
<i>Dianella ensifolia</i>	<i>Eriocaulon papuanum</i>
<i>Geitonoplesium cymosum</i>	JUNCACEAE
	<i>Juncus decipiens</i>

JUNCACEAE (cont.)	
<i>Juncus effusus</i>	<i>Nastus</i> sp.
<i>Juncus prismatocarpus</i>	<i>Ophiuros exaltatus</i>
<i>Juncus wallichianus</i>	<i>Oplismenus</i> sp.
POACEAE	<i>Oplismenus undulatifolius</i>
<i>Alloteropsis semialata</i>	<i>Ottochloa nodosa</i>
<i>Anthoxanthum horsfieldii</i>	<i>Panicum effusum</i>
<i>Anthoxanthum redolens</i>	<i>Panicum maximum</i>
<i>Apluda mutica</i>	<i>Panicum sarmentosum</i>
<i>Aristida utilis</i>	<i>Panicum seminudum</i>
<i>Arthraxon hispidus</i>	<i>Panicum</i> sp.
<i>Arundinella furva</i>	<i>Paspalum longifolium</i>
<i>Arundinella setosa</i>	<i>Paspalum paniculatum</i>
<i>Austrodanthonia penicillata</i>	<i>Paspalum scrobiculatum</i>
<i>Bambusa fruticosa</i>	<i>Pennisetum purpureum</i>
<i>Bothriochloa bladhii</i>	<i>Phragmites</i> sp.
<i>Brachypodium</i> sp.	<i>Poa languidior</i>
<i>Capillipedium parviflorum</i>	<i>Poa papuana</i>
<i>Centotheча lappacea</i>	<i>Pogonatherum crinitum</i>
<i>Chionochloa archboldii</i>	<i>Pseudechinolaena polystachya</i>
<i>Chloris inflata</i>	<i>Pseudopogonatherum irritans</i>
<i>Chrysopogon aciculatus</i>	<i>Rytidosperma oreoboloides</i>
<i>Cymbopogon globosus</i>	<i>Sacciolepis indica</i>
<i>Cyrtococcum oxyphyllum</i>	<i>Schizachyrium pseudoeulalia</i>
<i>Cyrtococcum patens</i>	<i>Schizostachyum lima</i>
<i>Deschampsia klossii</i>	<i>Setaria montana</i>
<i>Deyeuxia</i> sp.	<i>Setaria parviflora</i>
<i>Deyeuxia suizanensis</i>	<i>Sorghum laxiflorum</i>
<i>Dichelachne</i> sp.	<i>Sorghum nitidum</i>
<i>Digitaria tararensis</i>	<i>Themeda intermedia</i>
<i>Dimeria dipteros</i>	<i>Themeda novoguineensis</i>
<i>Echinochloa colona</i>	<i>Thysanolaena maxima</i>
<i>Echinopogon ovatus</i>	<i>Vacoparis laxiflorum</i>
<i>Eragrostis brownii</i>	XYRIDACEAE
<i>Eriachne squarrosa</i>	<i>Xyris complanata</i>
<i>Eulalia leptostachys</i>	<i>Xyris oligantha</i>
<i>Ichnanthus pallens</i>	<i>Xyris</i> sp.
<i>Imperata cylindrica</i>	COMMELINACEAE
<i>Isachne albomarginata</i>	<i>Murdannia cryptantha</i>
<i>Isachne globosa</i>	<i>Pollia secundiflora</i>
<i>Isachne myosotis</i>	<i>Pollia</i> sp.
<i>Isachne villosa</i>	COSTACEAE
<i>Ischaemum fragile</i>	<i>Costus speciosus</i>
<i>Lachnagrostis filiformis</i>	MARANTACEAE
<i>Leptochloa virgata</i>	<i>Cominsia gigantea</i>
<i>Lophatherum gracile</i>	<i>Donax canniformis</i>
<i>Microlaena giulianettii</i>	RANUNCULACEAE
<i>Misanthus floridulus</i>	<i>Clematis crutwellii</i>
<i>Mnesithea formosa</i>	<i>Clematis javana</i>
<i>Mnesithea granularis</i>	<i>Clematis phanerophlebia</i>
<i>Mnesithea rottboellioides</i>	<i>Clematis pickeringii</i>
<i>Nastus productus</i>	<i>Ranunculus</i> sp.
	<i>Ranunculus wahgiensis</i>

PROTEACEAE	
<i>Finschia chloroxantha</i>	
<i>Finschia ferruginiflora</i>	
<i>Finschia rufa</i>	
<i>Finschia</i> sp.	
<i>Grevillea baileyana</i>	
<i>Grevillea glauca</i>	
<i>Grevillea papuana</i>	
<i>Grevillea pinnatifida</i>	
<i>Helicia cameronii</i>	
<i>Helicia commutata</i>	
<i>Helicia finisterrae</i>	
<i>Helicia insculpta</i>	
<i>Helicia</i> sp.	
SABIACEAE	
<i>Sabia</i> sp.	
DILLENIACEAE	
<i>Tetracera nordtiana</i>	
DAPHNIPHYLLACEAE	
<i>Daphniphyllum papuanum</i>	
HALORAGACEAE	
<i>Haloragis halconensis</i>	
VITACEAE	
<i>Cissus javana</i>	
<i>Leea guineensis</i>	
<i>Tetrastrigma pisicarpum</i>	
<i>Tetrastrigma</i> sp.	
<i>Perrottetia alpestris</i>	
<i>Siphonodon</i> sp.	
ZYGOPHYLLACEAE	
<i>Tribulus terrestris</i>	
CELASTRACEAE	
<i>Celastrus monospermoides</i>	
<i>Celastrus</i> sp.	
CUNONIACEAE	
<i>Caldcluvia papuana</i>	
<i>Caldcluvia rufa</i>	
<i>Schizomeria carrii</i>	
<i>Schizomeria parvifolia</i>	
<i>Schizomeria</i> sp.	
ELAECARPACEAE	
<i>Dubouzetia</i> sp.	
<i>Elaeocarpus amplifolius</i>	
<i>Elaeocarpus angustifolius</i>	
<i>Elaeocarpus arnemicus</i>	
<i>Elaeocarpus culminicola</i>	
<i>Elaeocarpus dasycarpus</i>	
<i>Elaeocarpus fuscoides</i>	
<i>Elaeocarpus michaelii</i>	
<i>Elaeocarpus murukkai</i>	
<i>Elaeocarpus polydactylus</i>	
<i>Elaeocarpus sayeri</i>	
	<i>Elaeocarpus schoddei</i>
	<i>Elaeocarpus</i> sp.
	<i>Elaeocarpus trichophyllus</i>
	<i>Sloanea forbesii</i>
	<i>Sloanea nymanii</i>
	<i>Sloanea sogerensis</i>
	<i>Sloanea tieghemii</i>
ACHARIACEAE	
	<i>Erythrospermum candidum</i>
	<i>Pangium edule</i>
CHRYSOBALANACEAE	
	<i>Maranthes corymbosa</i>
CLUSIACEAE	
	<i>Garcinia</i> sp.
	<i>Garcinia warburgiana</i>
	<i>Tripetalum</i> sp.
DICHAPETALACEAE	
	<i>Dichapetalum papuanum</i>
	<i>Dichapetalum timorense</i>
EUPHORBIACEAE	
	<i>Acalypha</i> sp.
	<i>Chamaesyce hirta</i>
	<i>Chamaesyce</i> sp.
	<i>Chamaesyce vachellii</i>
	<i>Claoxylon salomonense</i>
	<i>Claoxylon</i> sp.
	<i>Codiaeum variegatum</i>
	<i>Endospermum myrmecophilum</i>
	<i>Euphorbia euonymoclada</i>
	<i>Homalanthus novoguineensis</i>
	<i>Macaranga albescens</i>
	<i>Macaranga aleuritoides</i>
	<i>Macaranga carrii</i>
	<i>Macaranga clavata</i>
	<i>Macaranga haplostachya</i>
	<i>Macaranga pleiostemon</i>
	<i>Macaranga</i> sp.
	<i>Mallotus attenuatus</i>
	<i>Mallotus didymochryseus</i>
	<i>Mallotus mollissimus</i>
	<i>Mallotus philippensis</i>
	<i>Mallotus</i> sp.
	<i>Melanolepis multiglandulosa</i>
	<i>Pimelodendron amboinicum</i>
	<i>Spathiostemon javensis</i>
HYPERICACEAE	
	<i>Hypericum macgregorii</i>
	<i>Hypericum</i> sp.
MALPIGHIACEAE	
	<i>Rhysopterys timorensis</i>
PASSIFLORACEAE	
	<i>Passiflora aurantia</i>

PASSIFLORACEAE (cont.)	
Passiflora edulis	Caesalpinia sumatrana
Passiflora foetida	Cajanus reticulatus
Passiflora invisa	Calopogonium mucunoides
Passiflora sp.	Canavalia papuana
PHYLLANTHACEAE	Cathormion umbellatum
Antidesma excavatum	Chamaecrista absus
Antidesma ghaesembilla	Codariocalyx gyroides
Aporusa sp.	Crotalaria ferruginea
Bridelia insulana	Crotalaria micans
Bridelia macrocarpa	Dalbergia densa
Cleistanthus inglorius	Derris elegans
Cleistanthus myrianthus	Derris sp.
Glochidion chlamydogyne	Desmodium microphyllum
Glochidion lobocarpum	Desmodium rhytidophyllum
Glochidion philippicum	Desmodium sp.
Glochidion sp.	Desmodium velutinum
Phyllanthus aphanostylus	Erythrina sp.
Phyllanthus praelongipes	Flemingia sp.
Phyllanthus sp.	Hanslia adhaerens
Phyllanthus tabularis	Hylodesmum repandum
Phyllanthus urinaria	Indigofera linifolia
Phyllanthus virgatus	Indigofera linnaei
PODOSTEMACEAE	Indigofera sp.
Torrenticola queenslandica	Indigofera trifoliata
RHIZOPHORACEAE	Inocarpus sp.
Rhizophora lamarckii	Kingiodendron alternifolium
Rhizophora stylosa	Kingiodendron novoguineense
SALICACEAE	Kingiodendron platycarpum
Casearia grewiifolia	Macroptilium lathyroides
Flacourtie inermis	Maniltoa lenticellata
Homalium foetidum	Maniltoa psilogyne
Homalium sp.	Maniltoa sp.
Scolopia nitida	Mucuna novoguineensis
VIOLACEAE	Mucuna schlechteri
Viola arcuata	Mucuna sp.
Viola sp.	Mucuna stanleyi
FABACEAE	Pararchidendron pruinatum
Abrus precatorius	Paraserianthes lophantha
Abrus pulchellus	Paraserianthes pullenii
Acacia auriculiformis	Phanera williamsii
Acacia simsii	Phylodium pulchellum
Adenanthera novo-guineensis	Pithecellobium sp.
Albizia carrii	Pterocarpus indicus
Albizia procera	Pueraria lobata
Albizia retusa	Rhynchosia acuminatissima
Alysicarpus ovalifolius	Senna alata
Archidendron glandulosum	Serianthes hooglandii
Archidendron grandiflorum	Sesbania cannabina
Austrosteenisia blackii	Strongylodon lucidus
Bauhinia williamsii	Tephrosia maculata
Caesalpinia bonduc	Tephrosia sp.

FABACEAE (cont.)	
<i>Tephrosia vestita</i>	
<i>Vigna</i> sp.	
POLYGALACEAE	
<i>Polygala chinensis</i>	
<i>Xanthophyllum papuanum</i>	
<i>Xanthophyllum</i> sp.	
CANNABACEAE	
<i>Aphananthe philippinensis</i>	
<i>Celtis latifolia</i>	
<i>Celtis nymanii</i>	
<i>Celtis philippensis</i>	
<i>Celtis rigescens</i>	
<i>Celtis</i> sp.	
<i>Trema cannabina</i>	
<i>Trema</i> sp.	
MORACEAE	
<i>Artocarpus reticulata</i>	
<i>Artocarpus sepianus</i>	
<i>Artocarpus</i> sp.	
<i>Artocarpus vriesianus</i>	
<i>Ficus agapetoides</i>	
<i>Ficus benjamina</i>	
<i>Ficus calodictya</i>	
<i>Ficus complexa</i>	
<i>Ficus congesta</i>	
<i>Ficus conocephalifolia</i>	
<i>Ficus drupacea</i>	
<i>Ficus endochaeete</i>	
<i>Ficus glaberrima</i>	
<i>Ficus heteromeka</i>	
<i>Ficus hispidooides</i>	
<i>Ficus iodotricha</i>	
<i>Ficus itoana</i>	
<i>Ficus lawesii</i>	
<i>Ficus microcarpa</i>	
<i>Ficus microdictya</i>	
<i>Ficus mollior</i>	
<i>Ficus nasuta</i>	
<i>Ficus nodosa</i>	
<i>Ficus ochrochlora</i>	
<i>Ficus odoardi</i>	
<i>Ficus opposita</i>	
<i>Ficus pantoniana</i>	
<i>Ficus pungens</i>	
<i>Ficus scratchleyana</i>	
<i>Ficus septica</i>	
<i>Ficus</i> sp.	
<i>Ficus sterocarpa</i>	
<i>Ficus subulata</i>	
<i>Ficus tinctoria</i>	
<i>Ficus trachypison</i>	
FICACEAE	
<i>Ficus vrieseana</i>	
<i>Ficus wassa</i>	
<i>Ficus xylosycia</i>	
<i>Maclura</i> sp.	
<i>Morus</i> sp.	
<i>Parartocarpus streblus</i>	
<i>Streblus brunonianus</i>	
RHAMNACEAE	
<i>Alphitonia macrocarpa</i>	
<i>Berchemia fournieri</i>	
<i>Berchemia</i> sp.	
<i>Dallachya vitiensis</i>	
<i>Gouania exilis</i>	
<i>Gouania</i> sp.	
<i>Rhamnus napalensis</i>	
<i>Rhamnus</i> sp.	
<i>Ventilago</i> sp.	
<i>Ziziphus oenopolia</i>	
ROSACEAE	
<i>Acaena novae-zelandiae</i>	
<i>Potentilla papuana</i>	
<i>Potentilla parvula</i>	
<i>Prunus costata</i>	
<i>Prunus dolichobotrys</i>	
<i>Prunus gazelle-peninsulæ</i>	
<i>Prunus grisea</i>	
<i>Prunus pullei</i>	
<i>Prunus</i> sp.	
<i>Rubus archboldianus</i>	
<i>Rubus chrysogaeus</i>	
<i>Rubus diclinis</i>	
<i>Rubus ferdinandmuelleri</i>	
<i>Rubus moluccanus</i>	
<i>Rubus novoguineensis</i>	
<i>Rubus rosifolius</i>	
URTICACEAE	
<i>Boehmeria virgata</i>	
<i>Cypholophus decipiens</i>	
<i>Cypholophus</i> sp.	
<i>Dendrocnide coralodesme</i>	
<i>Dendrocnide peltata</i>	
<i>Dendrocnide</i> sp.	
<i>Elatostema sessile</i>	
<i>Elatostema</i> sp.	
<i>Girardinia</i> sp.	
<i>Laportea decumana</i>	
<i>Laportea</i> sp.	
<i>Leucosyke capitellata</i>	
<i>Leucosyke salomonensis</i>	
<i>Oreocnide trinervis</i>	
<i>Pilea cuneata</i>	
<i>Pilea</i> sp.	

URTICACEAE (cont.)	
Pilea venulosa	Melastoma cyanoides
Pipturus argenteus	Melastoma malabathricum
Pipturus sp.	Melastoma sp.
Procris frutescens	Osbeckia chinensis
Procris nigrescens	MYRTACEAE
Procris producta	Corymbia disjuncta
Procris sp.	Corymbia papuana
BEGONIACEAE	Decaspermum exiguum
Symbegonia sp.	Decaspermum neurophyllum
CUCURBITACEAE	Decaspermum paniculatum
Luffa cylindrica	Decaspermum sp.
Melothria sp.	Eucalyptopsis papuana
Momordica charantia	Eucalyptopsis sp.
Neoalsomitra sp.	Eucalyptus alba
Zehneria sp.	Eucalyptus bigalerita
DATISCACEAE	Eucalyptus brassiana
Octomeles sumatrana	Eucalyptus confertiflora
Tetrameles nudiflora	Eucalyptus deglupta
CASUARINACEAE	Eucalyptus polyciada
Gymnostoma rumphianum	Eucalyptus primiglaucia
FAGACEAE	Eucalyptus tereticornis
Lithocarpus brassii	Eugenia buettneriana
Lithocarpus imperialis	Eugenia nutans
Lithocarpus lauterbachii	Eugenia sp.
Lithocarpus megacarpus	Melaleuca cajuputi
Lithocarpus rufovillosum	Melaleuca dealbata
Lithocarpus sp.	Melaleuca sp.
NOTHOFAGACEAE	Rhodamnia lancifolia
Nothofagus pullei	Rhodamnia sp.
COMBRETACEAE	Rhodomyrtus
Combretum goldieanum	Rhodomyrtus elegans
Terminalia archboldiana	Rhodomyrtus trineura
Terminalia catappa	Syzygium acuminatissimum
Terminalia eddowesii	Syzygium acutangulum
Terminalia longespicata	Syzygium amplum
Terminalia megalocarpa	Syzygium aqueum
Terminalia microcarpa	Syzygium branderhorstii
Terminalia solomonensis	Syzygium Brown River
Terminalia steenisiana	Syzygium claviflorum
LYTHRACEAE	Syzygium coalitum
Lagerstroemia archeriana	Syzygium dolichophyllum
Lagerstroemia sp.	Syzygium fibrosum
Rotala mexicana	Syzygium furfuraceum
MELASTOMATACEAE	Syzygium gonanthum
Astronia hollrungii	Syzygium goniocalyx
Astronium glabratum	Syzygium homichlophilum
Astronium sp.	Syzygium hylochare
Medinilla maluensis	Syzygium lagerstroemioides
Medinilla markgrafii	Syzygium lauterbachianum
Medinilla plumosa	Syzygium longipes
Medinilla sp.	Syzygium malaccense
	Syzygium naiadum

MYRTACEAE (cont.)	
<i>Syzygium puberulum</i>	<i>Aphanamixis</i> sp.
<i>Syzygium richardsonianum</i>	<i>Chisocheton</i> sp.
<i>Syzygium sogerense</i>	<i>Dysoxylum bamleri</i>
<i>Syzygium</i> sp.	<i>Dysoxylum parasiticum</i>
<i>Syzygium subalatum</i>	<i>Dysoxylum pettigrewianum</i>
<i>Syzygium thornei</i>	<i>Dysoxylum</i> sp.
<i>Syzygium tierneyanum</i>	<i>Toona ciliata</i>
<i>Syzygium unplaced furfuraceum group</i>	<i>Toona sureni</i>
<i>Syzygium womersleyii</i>	<i>Vavaea amicorum</i>
<i>Syzygium xylopiaceum</i>	RUTACEAE
<i>Xanthomyrtus calytrichoides</i>	<i>Acronychia carrii</i>
<i>Xanthomyrtus papuana</i>	<i>Citrus macroptera</i>
<i>Xanthomyrtus</i> sp.	<i>Citrus wintersii</i>
ONAGRACEAE	<i>Echinocitrus brassii</i>
<i>Epilobium prostratum</i>	<i>Euodia alata</i>
<i>Ludwigia erecta</i>	<i>Euodia bonwickii</i>
<i>Ludwigia octovalvis</i>	<i>Euodia</i> sp.
<i>Ludwigia perenniis</i>	<i>Flindersia amboinensis</i>
<i>Ludwigia</i> sp.	<i>Glycosmis</i> sp.
ANACARDIACEAE	<i>Lunasia</i> sp.
<i>Buchanania amboinensis</i>	<i>Melicope aequata</i>
<i>Buchanania arborescens</i>	<i>Melicope bonwickii</i>
<i>Buchanania macrocarpa</i>	<i>Melicope conjugata</i>
<i>Dracontomelon dao</i>	<i>Melicope denhamii</i>
<i>Euroschinus papuanus</i>	<i>Melicope elleryana</i>
<i>Pleiogynium</i> sp.	<i>Melicope macgregorii</i>
<i>Pleiogynium timorense</i>	<i>Melicope perryae</i>
<i>Rhus taitensis</i>	<i>Melicope petiolaris</i>
<i>Semecarpus australiensis</i>	<i>Melicope rhytidocarpa</i>
<i>Semecarpus brachystachys</i>	<i>Melicope rubra</i>
<i>Semecarpus bracteata</i>	<i>Melicope</i> sp.
<i>Semecarpus forstenii</i>	<i>Melicope stellulata</i>
<i>Semecarpus lamii</i>	<i>Melicope sterophylla</i>
<i>Semecarpus magnifica</i>	<i>Melicope vitiflora</i>
<i>Semecarpus</i> sp.	<i>Melicope xanthoxyloides</i>
<i>Spondias cytherea</i>	<i>Micromelum minutum</i>
BURSERACEAE	<i>Wenzelia tenuifolia</i>
<i>Canarium acutifolium</i>	SAPINDACEAE
<i>Canarium australianum</i>	<i>Alectryon myrmecophilus</i>
<i>Canarium maluense</i>	<i>Allophylus cobbe</i>
<i>Canarium oleosum</i>	<i>Cupaniopsis curvidens</i>
<i>Canarium vitiense</i>	<i>Dictyoneura obtusa</i>
<i>Haplolobus pubescens</i>	<i>Dodonaea viscosa</i>
<i>Protium macgregorii</i>	<i>Elattostachys rubrofructus</i>
MELIACEAE	<i>Elattostachys tetraporanda</i>
<i>Aglaia euryanthera</i>	<i>Ganophyllum falcatum</i>
<i>Aglaia sapindina</i>	<i>Harpullia aeruginosa</i>
<i>Aglaia silvestris</i>	<i>Harpullia arborea</i>
<i>Aglaia subminutiflora</i>	<i>Harpullia cupanioides</i>
<i>Aphanamixis grandifolia</i>	<i>Harpullia longipetala</i>
<i>Aphanamixis polystachya</i>	<i>Harpullia ramiflora</i>
	<i>Harpullia</i> sp.

SAPINDACEAE (cont.)	
<i>Jagera javanica</i>	<i>Sterculia shillinglawii</i>
<i>Lepidopetalum subdichotomum</i>	<i>Sterculia</i> sp.
<i>Lepidopetalum xylocarpum</i>	<i>Thespesia populnea</i>
<i>Mischocarpus lachnocarpus</i>	<i>Thespesia</i> sp.
<i>Mischocarpus</i> sp.	<i>Trichospermum pleiostigma</i>
<i>Mischocarpus sundaicus</i>	<i>Triumfetta pilosa</i>
<i>Pometia pinnata</i>	<i>Triumfetta rhomboidea</i>
<i>Rhysotoechia obtusa</i>	<i>Triumfetta</i> sp.
<i>Sapindus saponaria</i>	<i>Urena lobata</i>
<i>Sarcopteryx holconeura</i>	THYMELAEACEAE
<i>Sarcopteryx</i> sp.	<i>Phaleria sogerensis</i>
<i>Sarcotoechia planitiei</i>	<i>Phaleria</i> sp.
<i>Toechima erythrocarpum</i>	CAPPARACEAE
<i>Toechima</i> sp.	<i>Capparis quiniflora</i>
<i>Tristiropsis acutangula</i>	<i>Capparis</i> sp.
DIPTEROCARPACEAE	<i>Crateva religiosa</i>
<i>Anisoptera thurifera</i>	LORANTHACEAE
<i>Vatica rassak</i>	<i>Amyema seemeniana</i>
MALVACEAE	<i>Cyne papuana</i>
<i>Berrya javanica</i>	<i>Dactyliophora novae-guineae</i>
<i>Berrya papuana</i>	<i>Decaisnina hollrungii</i>
<i>Berrya</i> sp.	<i>Decaisnina triflora</i>
<i>Bombax ceiba</i>	<i>Dendrophthoe curvata</i>
<i>Brachychiton carruthersii</i>	<i>Sogerianthe sessiliflora</i>
<i>Brownlowia</i> sp.	<i>Sogerianthe sogerensis</i>
<i>Colona aequilateralis</i>	SANTALACEAE
<i>Colona discolor</i>	<i>Korthalsella papuana</i>
<i>Colona scabra</i>	<i>Notothixos leiophyllus</i>
<i>Colona</i> sp.	<i>Notothixos subaureus</i>
<i>Commersonia bartramia</i>	<i>Santalum macgregorii</i>
<i>Commersonia reticulata</i>	<i>Santalum</i> sp.
<i>Commersonia</i> sp.	<i>Viscum katikianum</i>
<i>Corchorus</i> sp.	<i>Viscum orientale</i>
<i>Grewia glabra</i>	<i>Viscum ovalifolium</i>
<i>Grewia</i> sp.	<i>Viscum</i> sp.
<i>Kleinholzia hospita</i>	AMARANTHACEAE
<i>Melochia odorata</i>	<i>Alternanthera sessilis</i>
<i>Microcos grandiflora</i>	<i>Deeringia amaranthoides</i>
<i>Microcos</i> sp.	<i>Deeringia polysperma</i>
<i>Microcos tetrasperma</i>	CARYOPHYLLACEAE
<i>Ochroma pyramidale</i>	<i>Cerastium papuanum</i>
<i>Pterocymbium</i> sp.	MOLLUGINACEAE
<i>Pterygota forbesii</i>	<i>Mollugo pentaphylla</i>
<i>Pterygota horsfieldii</i>	NYCTAGINACEAE
<i>Pterygota</i> sp.	<i>Pisonia aculeata</i>
<i>Sida acuta</i>	<i>Pisonia longirostris</i>
<i>Sida cordifolia</i>	<i>Pisonia umbellifera</i>
<i>Sida rhombifolia</i>	POLYGONACEAE
<i>Sterculia conwentzii</i>	<i>Persicaria strigosa</i>
<i>Sterculia edelfeltii</i>	<i>Polygonum minus</i>
<i>Sterculia parkinsonii</i>	<i>Polygonum chinense</i>
	<i>Polygonum nepalense</i>

POLYGONACEAE (cont.)	
<i>Polygonum runcinatum</i>	<i>Maesa haplobotrys</i>
<i>Polygonum sp.</i>	<i>Maesa montis-wilhelmi</i>
<i>Rumex brownii</i>	<i>Maesa sp.</i>
CORNACEAE	<i>Myrsine acrosticta</i>
<i>Alangium sp.</i>	<i>Myrsine cacuminum</i>
<i>Alangium villosum</i>	<i>Rapanea acuminatifolia</i>
ACTINIDIACEAE	<i>Rapanea involucrata</i>
<i>Saurauia trugul</i>	<i>Rapanea leucantha</i>
EBENACEAE	<i>Rapanea sp.</i>
<i>Diospyros cordatooblonga</i>	<i>Tapeinosperma sp.</i>
<i>Diospyros ferrea</i>	SAPOTACEAE
<i>Diospyros littorea</i>	<i>Palaquium galactoxylum</i>
<i>Diospyros papuana</i>	<i>Planchonella linggensis</i>
<i>Diospyros sopheriensis</i>	<i>Planchonella sp.</i>
<i>Diospyros sp.</i>	<i>Pouteria clementis</i>
ERICACEAE	<i>Pouteria firma</i>
<i>Agapetes stenantha</i>	<i>Pouteria myrsinodendron</i>
<i>Dimorphandra amblyornidis</i>	<i>Pouteria obvoidea</i>
<i>Dimorphandra amplifolia</i>	<i>Pouteria sp.</i>
<i>Dimorphandra brevipes</i>	THEACEAE
<i>Dimorphandra kempferiana</i>	<i>Gordonia sp.</i>
<i>Dimorphandra macbainii</i>	ICACINACEAE
<i>Gaultheria mundula</i>	<i>Ryticaryum longifolium</i>
<i>Leucopogon suaveolens</i>	CARDIOPTERIDACEAE
<i>Rhododendron inconspicuum</i>	<i>Gonocaryum litorale</i>
<i>Rhododendron luteosquamatum</i>	<i>Gonocaryum pyriforme</i>
<i>Rhododendron macgregoriae</i>	<i>Gonocaryum sp.</i>
<i>Rhododendron sp.</i>	<i>Pseudobotrys sp.</i>
<i>Rhododendron tuba</i>	STEMONURACEAE
<i>Trochocarpa decockii</i>	<i>Medusanthera laxiflora</i>
<i>Trochocarpa dispersa</i>	APOCYNACEAE
<i>Vaccinium amblyandrum</i>	<i>Alstonia scholaris</i>
<i>Vaccinium brassii</i>	<i>Alstonia spectabilis</i>
<i>Vaccinium finisterrae</i>	<i>Alyxia acuminata</i>
<i>Vaccinium sp.</i>	<i>Asclepias curassavica</i>
<i>Vaccinium summifaucis</i>	<i>Cerbera floribunda</i>
LECYTHIDACEAE	<i>Dischidia major</i>
<i>Barringtonia calyptrocalyx</i>	<i>Hoya archboldiana</i>
<i>Barringtonia niedenzuana</i>	<i>Hoya pottsii</i>
<i>Planchonia sp.</i>	<i>Hoya sp.</i>
PENTAPHYLACACEAE	<i>Ichnocarpus rhombifolius</i>
<i>Archboldiodendron calosericeum</i>	<i>Marsdenia carrii</i>
<i>Archboldiodendron sp.</i>	<i>Melodinus australis</i>
PRIMULACEAE	<i>Melodinus grandiflorus</i>
<i>Ardisia sp.</i>	<i>Melodinus sp.</i>
<i>Conandrium polyanthum</i>	<i>Parsonisia burnensis</i>
<i>Conandrium sp.</i>	<i>Parsonisia curvisepala</i>
<i>Embelia cotinoides</i>	<i>Parsonisia oligantha</i>
<i>Embelia philippinensis</i>	<i>Parsonisia sanguinea</i>
<i>Maesa bismarckiana</i>	<i>Parsonisia schoddei</i>
<i>Maesa edulis</i>	<i>Parsonisia velutina</i>
	<i>Tabernaemontana aurantiaca</i>

APOCYNACEAE (cont.)	
<i>Tabernaemontana orientalis</i>	<i>Mussaenda ferruginea</i>
<i>Tabernaemontana pandacaqui</i>	<i>Mussaenda procera</i>
<i>Urceola javanica</i>	<i>Mussaenda scratchleyi</i>
<i>Voacanga grandifolia</i>	<i>Mussaenda sp.</i>
<i>Wrightia laevis</i>	<i>Myrmecodia albertisii</i>
<i>Wrightia pubescens</i>	<i>Myrmecodia sp.</i>
GENTIANACEAE	<i>Neolamarckia cadamba</i>
<i>Fagraea ceylanica</i>	<i>Neonauclea chalmersii</i>
<i>Fagraea sp.</i>	<i>Neonauclea glabra</i>
LOGANIACEAE	<i>Neonauclea gordoniana</i>

LAMIACEAE	<i>Crassocephalum crepidioides</i>
<i>Callicarpa longifolia</i>	<i>Elephantopus mollis</i>
<i>Clerodendrum floribundum</i>	<i>Ethulia conyzoides</i>
<i>Clerodendrum phyllomega</i>	<i>Euchiton brassii</i>
<i>Clerodendrum porphyrocalyx</i>	<i>Euchiton breviscapus</i>
<i>Clerodendrum</i> sp.	<i>Euchiton involucratus</i>
<i>Faradaya splendida</i>	<i>Euchiton japonicus</i>
<i>Gmelina moluccana</i>	<i>Euchiton</i> sp.
<i>Gmelina sessilis</i>	<i>Lactuca</i> sp.
<i>Hyptis</i> sp.	<i>Lagenophora stipitata</i>
<i>Hyptis suaveolens</i>	<i>Leptinella</i> sp.
<i>Petraeovitex multiflora</i>	<i>Microglossa pyrifolia</i>
<i>Plectranthus scutellarioides</i>	<i>Olearia</i> sp.
<i>Pogostemon stellatus</i>	<i>Sonchus asper</i>
<i>Premna herbacea</i>	<i>Tetramolopium alinae</i>
<i>Premna obtusifolia</i>	<i>Vernonia arborea</i>
<i>Premna serratifolia</i>	CAMPANULACEAE
<i>Scutellaria</i> sp.	<i>Lobelia angulata</i>
<i>Teijsmanniodendron bogoriense</i>	<i>Lobelia</i> sp.
	<i>Lobelia zeylanica</i>

ROUSSEACEAE	<i>Polyscias ledermannii</i>
<i>Carpodetus fuscus</i>	
ESCALLONIACEAE	<i>Schefflera actinophylla</i>
<i>Polyosma sp.</i>	<i>Schefflera sp.</i>
APIACEAE	<i>Schefflera thaumasiantha</i>
<i>Mackinlaya celebica</i>	<i>Trachymene adenodes</i>
<i>Mackinlaya sp.</i>	<i>Trachymene saniculifolia</i>
<i>Oenanthe javanica</i>	
ARALIACEAE	
<i>Harmsiopanax ingens</i>	<i>PITTOSPORACEAE</i>
<i>Osmoxylon micranthum</i>	<i>Pittosporum ferrugineum</i>
	<i>Pittosporum pumilum</i>
	<i>Pittosporum ramiflorum</i>

13.4 Appendix 04 - Vascular Plants From Along the Kokoda Track (1132 spp.)

LYCOPODIACEAE	CYSTODIACEAE
<i>Huperzia macgregorii</i>	<i>Cystodium sorbifolium</i>
<i>Huperzia pinifolia</i>	LINDSAEACEAE
<i>Lycopodiella cernua</i>	<i>Lindsaea repens</i>
<i>Lycopodium angustiramosum</i>	<i>Sphenomeris sp.</i>
<i>Lycopodium clavatum</i>	DENNSTAEDTIACEAE
<i>Lycopodium scariosum</i>	<i>Dennstaedtia penicillifera</i>
<i>Lycopodium sp.</i>	<i>Dennstaedtia scandens</i>
EQUISETACEAE	<i>Histiopteris incisa</i>
<i>Equisetum debile</i>	<i>Histiopteris sp.</i>
OPHIOGLOSSACEAE	<i>Hypolepis sp.</i>
<i>Botrychium sp.</i>	<i>Microlepia pseudohirta</i>
<i>Ophioglossum sp.</i>	<i>Microlepia speluncae</i>
MARATTIACEAE	<i>Paesia sp.</i>
<i>Angiopteris evecta</i>	<i>Pteridium esculentum</i>
<i>Marattia fraxinea</i>	<i>Pteridium revolutum</i>
<i>Marattia salicina</i>	<i>Pteridium x semihastatum</i>
<i>Marattia sp.</i>	PTERIDACEAE
HYMENOPHYLLACEAE	<i>Adiantum philippense</i>
<i>Cephalomanes densinervium</i>	<i>Antrophyum callifolium</i>
<i>Crepidomanes bipunctatum</i>	<i>Antrophyum parvulum</i>
<i>Hymenophyllum bamlerianum</i>	<i>Antrophyum reticulatum</i>
<i>Hymenophyllum ooides</i>	<i>Antrophyum sp.</i>
<i>Hymenophyllum productum</i>	<i>Cheilanthes sp.</i>
<i>Hymenophyllum rubellum</i>	<i>Cheilanthes tenuifolia</i>
GLEICHENIACEAE	<i>Doryopteris concolor</i>
<i>Dicranopteris linearis</i>	<i>Pteris excelsa</i>
<i>Gleichenia bolanica</i>	<i>Pteris grassii</i>
<i>Gleichenia erecta</i>	<i>Syngramma schlechteri</i>
<i>Gleichenia sp.</i>	<i>Taenitis pinnata</i>
<i>Gleichenia truncata</i>	<i>Vaginularia acrocarpa</i>
<i>Gleichenia vulcanica</i>	<i>Vittaria elongata</i>
<i>Sticherus sp.</i>	<i>Vittaria sp.</i>
PLAGIogyriaceae	ASPLENIACEAE
<i>Plagiogyria glauca</i>	<i>Asplenium acrobryum</i>
<i>Plagiogyria tuberculata</i>	<i>Asplenium caudatum</i>
CYATHEACEAE	<i>Asplenium gracilifolium</i>
<i>Cyathea archboldii</i>	<i>Asplenium macrophyllum</i>
<i>Cyathea atrox</i>	<i>Asplenium nidus</i>
<i>Cyathea gleichenioides</i>	<i>Asplenium normale</i>
<i>Cyathea macrophylla</i>	<i>Asplenium nutans</i>
<i>Cyathea mesosora</i>	<i>Asplenium parvum</i>
<i>Cyathea sangirensis</i>	<i>Asplenium sanctichristofori</i>
<i>Cyathea semiamplectens</i>	<i>Asplenium tenerum</i>
<i>Cyathea wernerii</i>	THELYPTERIDACEAE
DICKSONIACEAE	<i>Christella hispidula</i>
<i>Dicksonia lanigera</i>	<i>Pronephrium asperum</i>
SACCOLOMATACEAE	<i>Pronephrium sp.</i>
<i>Saccoloma sp.</i>	<i>Pronephrium triphyllum</i>

THELYPTERIDACEAE (cont.)	
<i>Sphaerostephanos unitus</i>	
<i>Thelypteris</i> sp.	
BLECHNACEAE	
<i>Blechnum fluitatile</i>	
<i>Blechnum hieronymi</i>	
<i>Blechnum vulcanicum</i>	
<i>Stenochlaena palustris</i>	
DRYOPTERIDACEAE	
<i>Dryopteris</i> sp.	
<i>Rumohra adiantiformis</i>	
NEPHROLEPIDACEAE	
<i>Nephrolepis cordifolia</i>	
<i>Nephrolepis lauterbachii</i>	
<i>Scyphularia pentaphylla</i>	
TECTARIACEAE	
<i>Tectaria decurrens</i>	
<i>Tectaria siifolia</i>	
DAVALLIACEAE	
<i>Humata deltoidea</i>	
<i>Humata neoguineensis</i>	
POLYPODIACEAE	
<i>Belvisia mucronata</i>	
<i>Belvisia validinervis</i>	
<i>Crypsinus</i> sp.	
<i>Ctenopteris bipinnatifida</i>	
<i>Ctenopteris denticulata</i>	
<i>Ctenopteris</i> sp.	
<i>Drynaria quercifolia</i>	
<i>Drynaria rigidula</i>	
<i>Drynaria sparsisora</i>	
<i>Goniophlebium percussum</i>	
<i>Goniophlebium subauriculatum</i>	
<i>Grammitis</i> sp.	
<i>Lemmaphyllum accedens</i>	
<i>Loxogramme paltonioides</i>	
<i>Loxogramme scolopendrina</i>	
<i>Microsorum membranifolium</i>	
<i>Microsorum multijugatum</i>	
<i>Microsorum punctatum</i>	
<i>Microsorum</i> sp.	
<i>Prosaptia contigua</i>	
<i>Prosaptia davalliaeae</i>	
<i>Pyrrosia</i> sp.	
<i>Selliguea crassisora</i>	
<i>Selliguea</i> sp.	
CUPRESSACEAE	
<i>Papuacedrus papuana</i>	
PODOCARPACEAE	
<i>Dacrycarpus compactus</i>	
<i>Decussocarpus wallichianus</i>	
<i>Phyllocladus hypophyllus</i>	
Phyllocladus	sp.
Podocarpus	<i>irrictus</i>
Podocarpus	<i>neriifolius</i>
Podocarpus	<i>pilgeri</i>
Podocarpus	<i>rumphii</i>
Podocarpus	sp.
Sundacarpus	<i>amarus</i>
GNETACEAE	
<i>Gnetum gnemon</i>	
<i>Gnetum gnemonoides</i>	
CHLORANTHACEAE	
<i>Chloranthus officinalis</i>	
ANNONACEAE	
<i>Polyalthia</i> sp.	
<i>Popowia</i> sp.	
<i>Pseuduvaria megalopus</i>	
<i>Pseuduvaria nova-guineensis</i>	
<i>Uvaria grandiflora</i>	
HIMANTANDRACEAE	
<i>Galbulimima belgraveana</i>	
<i>Galbulimima</i> sp.	
MAGNOLIACEAE	
<i>Elmerrillia tsiampacca</i>	
MYRISTICACEAE	
<i>Gymnacranthera zippeliana</i>	
<i>Horsfieldia corrugata</i>	
<i>Horsfieldia hellwigii</i>	
<i>Horsfieldia</i> sp.	
<i>Horsfieldia spicata</i>	
<i>Myristica chrysophylla</i>	
<i>Myristica globosa</i>	
<i>Myristica hooglandii</i>	
<i>Myristica insipida</i>	
<i>Myristica lancifolia</i>	
<i>Myristica longipes</i>	
<i>Myristica pumila</i>	
<i>Myristica subalulata</i>	
<i>Myristica tubiflora</i>	
<i>Myristica umbrosa</i>	
LAURACEAE	
<i>Cinnamomum eugenoliferum</i>	
<i>Cinnamomum</i> sp.	
<i>Cryptocarya albida</i>	
<i>Cryptocarya myrcioides</i>	
<i>Cryptocarya parallelinervia</i>	
<i>Cryptocarya</i> sp.	
<i>Dehaasia</i> sp.	
<i>Endiandra</i> sp.	
<i>Litsea</i> sp.	
MONIMIACEAE	
<i>Kibara</i> sp.	
<i>Levieria beccariana</i>	

MONIMIACEAE (cont.)	
Levieria nitens	<i>Bulbophyllum globiceps</i>
Matthaea sp.	<i>Bulbophyllum macranthoides</i>
Palmeria sp.	<i>Bulbophyllum manobulbum</i>
Steganthera sp.	<i>Bulbophyllum muscicola</i>
WINTERACEAE	<i>Bulbophyllum nasica</i>
Bubbia calothyrsa	<i>Bulbophyllum sp.</i>
Tasmannia piperita	<i>Bulbophyllum teysmannii</i>
Zygogynum calothyrsrum	<i>Bulbophyllum wernerii</i>
Zygogynum sp.	<i>Cadetia</i> sp.
PIPERACEAE	<i>Ceratostylis</i> sp.
Peperomia marivelesana	<i>Cheirostylis ovata</i>
Peperomia pupurea	<i>Coelogyne carinata</i>
Peperomia saxatilis	<i>Coelogyne fragrans</i>
Peperomia sp.	<i>Dendrobium aurantiroseum</i>
Peperomia tetraphylla	<i>Dendrobium erectilobum</i> ined.
Piper abbreviatum	<i>Dendrobium sp.</i>
Piper caninum	<i>Diplocaulobium</i> sp.
Piper celtidiforme	<i>Eria imbricata</i>
Piper macropiper	<i>Eria</i> sp.
Piper mestonii	<i>Glomera</i> sp.
Piper sp.	<i>Glossorhyncha</i> sp.
ARACEAE	<i>Habenaria bauerlenii</i>
Homalomena schlechteri	<i>Liparis</i> sp.
Rhaphidophora kokodensis	<i>Mediocalcar crenulatum</i>
PANDANACEAE	<i>Mediocalcar pygmaeum</i>
Freycinetia angustissima	<i>Mediocalcar</i> sp.
Freycinetia sp.	<i>Neuwiedia veratrifolia</i>
Pandanus balenii	<i>Pedilonum lawesii</i>
Pandanus brassii	<i>Pedilonum smilliae</i>
Pandanus papuanus	<i>Peristylus affinis</i>
Pandanus sp.	<i>Phreatia</i> sp.
CORSIACEAE	<i>Phreatia valida</i>
Corsia papuana	<i>Plocoglottis</i> sp.
SMILACACEAE	<i>Pterostylis papuana</i>
Smilax calophylla	<i>Spathoglottis</i> sp.
Smilax corbularia	<i>Spiranthes sinensis</i>
Smilax glyciphylla	<i>Taeniophyllum</i> sp.
ASPARAGACEAE	<i>Tainia</i> sp.
Cordyline fruticosa	<i>Thelymitra papuana</i>
Pleomele angustifolia	<i>Thelymitra</i> sp.
ORCHIDACEAE	<i>Thrixspermum platystarhys</i>
Agrostophyllum carinoides	XANTHORRHOEACEAE
Agrostophyllum elongatum	<i>Dianella ensifolia</i>
Agrostophyllum sp.	<i>Geitonoplesium cymosum</i>
Agrostophyllum ventricosum	ARECACEAE
Bulbophyllum blumei	<i>Calamus essigii</i>
Bulbophyllum chloranthum	<i>Calyptroclyx</i> sp.
Bulbophyllum desmotrichoides	<i>Calyptroclyx stenoschista</i>
Bulbophyllum ebulbe	<i>Caryota</i> sp.
Bulbophyllum emiliorum	<i>Gronophyllum</i> sp.
Bulbophyllum fractiflexum	<i>Heterospathe</i> sp.

CYPERACEAE	
<i>Bulbostylis densa</i>	<i>Brachiaria distachya</i>
<i>Carex euphlebia</i>	<i>Brachiaria reptans</i>
<i>Carex gaudichaudiana</i>	<i>Brachypodium sp.</i>
<i>Carex indica</i>	<i>Capillipedium parviflorum</i>
<i>Carex sp.</i>	<i>Centotheca lappacea</i>
<i>Cyperus brevifolius</i>	<i>Chionachne macrophylla</i>
<i>Cyperus cyperinus</i>	<i>Chionochloa archboldii</i>
<i>Cyperus cyperoides</i>	<i>Chrysopogon aciculatus</i>
<i>Cyperus haspan</i>	<i>Coix lacryma-jobi</i>
<i>Cyperus kernianus</i>	<i>Cymbopogon globosus</i>
<i>Cyperus kyllingia</i>	<i>Cyrtococcum accrescens</i>
<i>Cyperus neoguineensis</i>	<i>Cyrtococcum oxyphyllum</i>
<i>Cyperus pedunculosus</i>	<i>Cyrtococcum patens</i>
<i>Cyperus sanguinolentus</i>	<i>Cyrtococcum trigonum</i>
<i>Cyperus sulcinux</i>	<i>Deschampsia klossii</i>
<i>Cyperus unioloides</i>	<i>Deyeuxia suizanensis</i>
<i>Eleocharis tetraquetra</i>	<i>Dichanthium annulatum</i>
<i>Fimbristylis pycnocephala</i>	<i>Dichelachne sp.</i>
<i>Fimbristylis salbundia</i>	<i>Digitaria setigera</i>
<i>Fimbristylis sp.</i>	<i>Digitaria tararensis</i>
<i>Gahnia sp.</i>	<i>Dimeria dipteros</i>
<i>Hypolytrum sp.</i>	<i>Echinopogon ovatus</i>
<i>Isolepis crassiuscula</i>	<i>Eulalia leptostachys</i>
<i>Lipocarpha chinensis</i>	<i>Eulalia trispicata</i>
<i>Rhynchospora corymbosa</i>	<i>Garnotia stricta</i>
<i>Rhynchospora rugosa</i>	<i>Heteropogon contortus</i>
<i>Schoenus sp.</i>	<i>Imperata cylindrica</i>
<i>Scirpus juncoides</i>	<i>Isachne albomarginata</i>
<i>Scirpus sp.</i>	<i>Isachne globosa</i>
<i>Scleria ciliaris</i>	<i>Isachne myosotis</i>
<i>Scleria rugosa</i>	<i>Isachne villosa</i>
<i>Scleria sp.</i>	<i>Lachnagrostis filiformis</i>
<i>Scleria terrestris</i>	<i>Lophatherum gracile</i>
<i>Uncinia sp.</i>	<i>Melinis minutiflora</i>
ERIOCAULACEAE	<i>Microlaena giulianettii</i>
<i>Eriocaulon papuanum</i>	<i>Microstegium spectabile</i>
JUNCACEAE	<i>Misanthus floridulus</i>
<i>Juncus decipiens</i>	<i>Mnesithea granularis</i>
<i>Juncus effusus</i>	<i>Mnesithea rottboellioides</i>
<i>Juncus prismatocarpus</i>	<i>Nastus obtusus</i>
<i>Juncus wallichianus</i>	<i>Nastus productus</i>
POACEAE	<i>Nastus sp.</i>
<i>Alloteropsis semialata</i>	<i>Oplismenus compositus</i>
<i>Anthoxanthum horsfieldii</i>	<i>Oplismenus hirtellus</i>
<i>Anthoxanthum redolens</i>	<i>Oplismenus undulatifolius</i>
<i>Arthraxon hispidus</i>	<i>Panicum incomtum</i>
<i>Arundinella furva</i>	<i>Panicum sarmentosum</i>
<i>Arundinella setosa</i>	<i>Paspalum scrobiculatum</i>
<i>Austrodanthonia penicillata</i>	<i>Pennisetum purpureum</i>
<i>Bambusa fruticosa</i>	<i>Phragmites karka</i>
<i>Bambusa sp.</i>	<i>Poa languidior</i>
	<i>Poa papuana</i>

POACEAE (cont.)	
<i>Pogonatherum crinitum</i>	DILLENIACEAE
<i>Pseudechinolaena polystachya</i>	<i>Tetracera nordtiana</i>
<i>Pseudopogonatherum irritans</i>	DAPHNIPHYLLACEAE
<i>Rytidosperma oreobolooides</i>	<i>Daphniphyllum papuanum</i>
<i>Sacciolepis indica</i>	HALORAGACEAE
<i>Sacciolepis myosuroides</i>	<i>Haloragis halconensis</i>
<i>Schizachyrium</i>	VITACEAE
<i>Setaria montana</i>	<i>Tetrastigma maluense</i>
<i>Setaria palmifolia</i>	CELASTRACEAE
<i>Setaria pumila</i>	<i>Celastrus monospermoides</i>
<i>Sorghum laxiflorum</i>	<i>Celastrus sp.</i>
<i>Sorghum nitidum</i>	<i>Perrottetia alpestris</i>
<i>Themeda intermedia</i>	CUNONIACEAE
<i>Themeda triandra</i>	<i>Caldcluvia nymanii</i>
<i>Vacoparis laxiflorum</i>	<i>Caldcluvia rufa</i>
XYRIDACEAE	<i>Schizomeria carrii</i>
<i>Xyris oligantha</i>	<i>Schizomeria parvifolia</i>
<i>Xyris sp.</i>	<i>Schizomeria serrata</i>
COMMELINACEAE	<i>Schizomeria sp.</i>
<i>Pollia sp.</i>	ELAEOCARPACEAE
COSTACEAE	<i>Aceratium sphaerocarpum</i>
<i>Costus speciosus</i>	<i>Dubouzetia sp.</i>
HELICONIACEAE	<i>Elaeocarpus angustifolius</i>
<i>Heliconia micholtzii</i>	<i>Elaeocarpus culminicola</i>
MARANTACEAE	<i>Elaeocarpus dasycarpus</i>
<i>Donax canniformis</i>	<i>Elaeocarpus dolichodactylus</i>
<i>Phacelophrynum sp.</i>	<i>Elaeocarpus fuscoides</i>
<i>Phrynum sp.</i>	<i>Elaeocarpus hartleyi</i>
ZINGIBERACEAE	<i>Elaeocarpus ledermannii</i>
<i>Hornstedtia lycostoma</i>	<i>Elaeocarpus michaelii</i>
<i>Pleuranthodium sp.</i>	<i>Elaeocarpus murukkai</i>
RANUNCULACEAE	<i>Elaeocarpus polydactylus</i>
<i>Clematis javana</i>	<i>Elaeocarpus sayeri</i>
<i>Clematis papuasica</i>	<i>Elaeocarpus schoddei</i>
<i>Clematis phanerophlebia</i>	<i>Elaeocarpus sericoloides</i>
<i>Clematis pickeringii</i>	<i>Elaeocarpus sp.</i>
<i>Ranunculus sp.</i>	<i>Elaeocarpus trichophyllus</i>
<i>Ranunculus wahgiensis</i>	<i>Elaeocarpus womersleyi</i>
PROTEACEAE	<i>Sloanea aberrans</i>
<i>Finschia rufa</i>	<i>Sloanea nymanii</i>
<i>Grevillea carrii</i>	<i>Sloanea tieghemii</i>
<i>Grevillea papuana</i>	OXALIDACEAE
<i>Helicia cameronii</i>	<i>Oxalis barrelieri</i>
<i>Helicia commutata</i>	ACHARIACEAE
<i>Helicia finisterreae</i>	<i>Pangium edule</i>
<i>Helicia forbesiana</i>	<i>Ryparosa maculata</i>
<i>Helicia insculpta</i>	<i>Ryparosa sp.</i>
<i>Helicia sp.</i>	<i>Trichadenia philippinensis</i>
<i>Stenocarpus moorei</i>	CALOPHYLLACEAE
SABIACEAE	<i>Calophyllum soulattrie</i>
<i>Sabia sp.</i>	CHRYSOBALANACEAE
	<i>Hunga papuana</i>

CLUSIACEAE	
<i>Garcinia</i> sp.	<i>Phyllanthus cuscutiflorus</i>
DICHAPETALACEAE	<i>Phyllanthus praelongipes</i>
<i>Dichapetalum papuanum</i>	<i>Phyllanthus sp.</i>
EUPHORBIACEAE	<i>Phyllanthus tabularis</i>
<i>Acalypha hellwigii</i>	<i>Phyllanthus urinaria</i>
<i>Aleurites moluccana</i>	PODOSTEMACEAE
<i>Annesjoa novoguineensis</i>	<i>Torrenticola queenslandica</i>
<i>Chamaesyce vachellii</i>	SALICACEAE
<i>Claoxylon ledermannii</i>	<i>Casearia grewiifolia</i>
<i>Claoxylon tenerifolium</i>	<i>Casearia sp.</i>
<i>Croton choristadenius</i>	<i>Homalium foetidum</i>
<i>Croton hirtus</i>	<i>Scolopia novoguineensis</i>
<i>Endospermum myrmecophilum</i>	VIOLACEAE
<i>Euphorbia euonymoclada</i>	<i>Viola arcuata</i>
<i>Homalanthus novoguineensis</i>	<i>Viola sp.</i>
<i>Macaranga albescens</i>	FABACEAE
<i>Macaranga aleuritoides</i>	<i>Abrus precatorius</i>
<i>Macaranga carrii</i>	<i>Archidendron brevipes</i>
<i>Macaranga haplostachya</i>	<i>Archidendron lucyi</i>
<i>Macaranga neobrittannica</i>	<i>Austrosteenisia blackii</i>
<i>Macaranga papuana</i>	<i>Caesalpinia</i> sp.
<i>Macaranga pleiostemon</i>	<i>Cajanus reticulatus</i>
<i>Macaranga punctata</i>	<i>Cassia pachycarpa</i>
<i>Macaranga quadriglandulosa</i>	<i>Chamaecrista mimosoides</i>
<i>Macaranga</i> sp.	<i>Codariocalyx gyroides</i>
<i>Mallotus mollissimus</i>	<i>Crotalaria chinensis</i>
<i>Mallotus philippensis</i>	<i>Crotalaria montana</i>
<i>Neoscortechinia forbesii</i>	<i>Crotalaria pallida</i>
HYPERICACEAE	<i>Derris koolgibberah</i>
<i>Hypericum macgregorii</i>	<i>Desmodium microphyllum</i>
<i>Hypericum</i> sp.	<i>Desmodium rhytidophyllum</i>
OCHNACEAE	<i>Desmodium</i> sp.
<i>Schuurmansia henningsii</i>	<i>Desmodium triflorum</i>
PASSIFLORACEAE	<i>Falcataria moluccana</i>
<i>Passiflora aurantia</i>	<i>Hanslia adhaerens</i>
<i>Passiflora edulis</i>	<i>Hylodesmum repandum</i>
<i>Passiflora</i> sp.	<i>Indigofera trifoliata</i>
PHYLLANTHACEAE	<i>Intsia bijuga</i>
<i>Antidesma excavatum</i>	<i>Macropsychanthus lauterbachii</i>
<i>Antidesma ghaesembilla</i>	<i>Maniltoa browneoides</i>
<i>Antidesma</i> sp.	<i>Maniltoa</i> sp.
<i>Aporusa brassii</i>	<i>Mimosa diplotricha</i>
<i>Breynia cernua</i>	<i>Mucuna novoguineensis</i>
<i>Breynia racemosa</i>	<i>Mucuna schlechteri</i>
<i>Glochidion benthamianum</i>	<i>Mucuna</i> sp.
<i>Glochidion chlamydogyne</i>	<i>Mucuna stanleyi</i>
<i>Glochidion fulvirameum</i>	<i>Pararchidendron pruinatum</i>
<i>Glochidion lobocarpum</i>	<i>Paraserianthes falcataria</i>
<i>Glochidion novoguineense</i>	<i>Paraserianthes lophantha</i>
<i>Glochidion</i> sp.	<i>Phylacium bracteosum</i>
<i>Phyllanthus clambooides</i>	<i>Phyllodium pulchellum</i>
	<i>Pithecellobium hispidum</i>

FABACEAE (cont.)	
<i>Pterocarpus indicus</i>	<i>Ficus sp.</i>
<i>Pueraria phaseoloides</i>	<i>Ficus sterocarpa</i>
<i>Senna obtusifolia</i>	<i>Ficus subcordata</i>
<i>Tadehagi triquetrum</i>	<i>Ficus subcuneata</i>
<i>Tephrosia</i> sp.	<i>Ficus subulata</i>
<i>Uraria lagopodioides</i>	<i>Ficus tinctoria</i>
POLYGALACEAE	<i>Ficus tonsa</i>
<i>Polygala chinensis</i>	<i>Ficus trachypison</i>
<i>Polygala linariifolia</i>	<i>Ficus virgata</i>
<i>Xanthophyllum</i> sp.	<i>Ficus vriesiana</i>
<i>Xanthophyllum suberosum</i>	<i>Ficus wassa</i>
CANNABACEAE	<i>Ficus xanthosyce</i>
<i>Trema orientalis</i>	<i>Ficus xylosycia</i>
MORACEAE	<i>Parartocarpus streblus</i>
<i>Antiaris toxicaria</i>	<i>Prainea papuana</i>
<i>Artocarpus cumingiana</i>	<i>Prainea</i> sp.
<i>Artocarpus frettissii</i>	RHAMNACEAE
<i>Artocarpus vriesianus</i>	<i>Alphitonia incana</i>
<i>Ficus adenosperma</i>	<i>Alphitonia macrocarpa</i>
<i>Ficus agapetoides</i>	<i>Rhamnus napalensis</i>
<i>Ficus albipila</i>	<i>Rhamnus</i> sp.
<i>Ficus archboldiana</i>	ROSACEAE
<i>Ficus arfakensis</i>	<i>Acaena novae-zelandiae</i>
<i>Ficus baeuerleinii</i>	<i>Potentilla papuana</i>
<i>Ficus benjamina</i>	<i>Potentilla parvula</i>
<i>Ficus benjaminoides</i>	<i>Prunus costata</i>
<i>Ficus bernaysii</i>	<i>Prunus dolichobotrys</i>
<i>Ficus botryocarpa</i>	<i>Prunus gazelle-peninsulæ</i>
<i>Ficus calodictya</i>	<i>Prunus grisea</i>
<i>Ficus calopilina</i>	<i>Prunus pullei</i>
<i>Ficus comitis</i>	<i>Prunus schlechteri</i>
<i>Ficus complexa</i>	<i>Prunus</i> sp.
<i>Ficus conocephalifolia</i>	<i>Rubus archboldianus</i>
<i>Ficus distichoidea</i>	<i>Rubus chrysogaeus</i>
<i>Ficus elastica</i>	<i>Rubus diclinis</i>
<i>Ficus endochaete</i>	<i>Rubus ferdinandmuelleri</i>
<i>Ficus erythrosperma</i>	<i>Rubus moluccanus</i>
<i>Ficus glandifera</i>	<i>Rubus novoguineensis</i>
<i>Ficus gul</i>	<i>Rubus rosifolius</i>
<i>Ficus heteromeka</i>	URTICACEAE
<i>Ficus iodotricha</i>	<i>Boehmeria stipularis</i>
<i>Ficus melinocarpa</i>	<i>Boehmeria virgata</i>
<i>Ficus microdictya</i>	<i>Cypholophus</i>
<i>Ficus nasuta</i>	<i>Cypholophus decipiens</i>
<i>Ficus odoardi</i>	<i>Elatostema novoguineense</i>
<i>Ficus pantonianæ</i>	<i>Elatostema rigidum</i>
<i>Ficus pungens</i>	<i>Elatostema sesquifolium</i>
<i>Ficus rhizophoriphylloides</i>	<i>Elatostema sessile</i>
<i>Ficus scratchleyana</i>	<i>Elatostema</i> sp.
<i>Ficus semilanata</i>	<i>Elatostema trichomanes</i>
<i>Ficus septica</i>	<i>Girardinia</i> sp.
	<i>Laportea decumana</i>

URTICACEAE (cont.)	
<i>Laportea</i> sp.	<i>Medinilla</i> sp.
<i>Nothocnide melastomatifolia</i>	<i>Medinilla tenuipedicellata</i>
<i>Nothocnide</i> sp.	<i>Melastoma cyanoides</i>
<i>Pilea cuneata</i>	<i>Melastoma malabathricum</i>
<i>Pilea</i> sp.	<i>Melastoma</i> sp.
<i>Pilea venulosa</i>	<i>Osbeckia chinensis</i>
<i>Pipturus argenteus</i>	<i>Otanthera</i> sp.
<i>Pipturus</i> sp.	<i>Pternandra coerulescens</i>
<i>Poikilospermum inaequale</i>	<i>Pternandra tuberculata</i>
<i>Pouzolzia hirta</i>	
<i>Procris frutescens</i>	MYRTACEAE
<i>Procris producta</i>	<i>Corymbia papuana</i>
<i>Procris</i> sp.	<i>Decaspermum exiguum</i>
BEGONIACEAE	<i>Decaspermum paniculatum</i>
<i>Symbegonia</i> sp.	<i>Decaspermum</i> sp.
CORYNOCARPACEAE	<i>Eucalyptopsis papuana</i>
<i>Corynocarpus similis</i>	<i>Eucalyptus alba</i>
CUCURBITACEAE	<i>Eucalyptus tereticornis</i>
<i>Neoalsomitra</i> sp.	<i>Eugenia geniocalyx</i>
CASUARINACEAE	<i>Eugenia malaccensis</i>
<i>Gymnostoma rumphianum</i>	<i>Eugenia sargentiana</i>
<i>Gymnostoma sumatranum</i>	<i>Eugenia</i> sp.
FAGACEAE	<i>Kania eugenoides</i>
<i>Lithocarpus brassii</i>	<i>Kania</i> sp.
<i>Lithocarpus celebicus</i>	<i>Melaleuca dealbata</i>
<i>Lithocarpus imperialis</i>	<i>Rhodamnia cinerea</i>
<i>Lithocarpus lauterbachii</i>	<i>Rhodamnia glauca</i>
<i>Lithocarpus megacarpus</i>	<i>Rhodamnia lancifolia</i>
<i>Lithocarpus rufovillosum</i>	<i>Rhodamnia latifolia</i>
<i>Lithocarpus</i> sp.	<i>Rhodamnia</i> sp.
<i>Quercus</i> sp.	<i>Rhodomyrtus elegans</i>
JUGLANDACEAE	<i>Rhodomyrtus</i> sp.
<i>Engelhardtia lepidota</i>	<i>Rhodomyrtus trineura</i>
<i>Engelhardtia rigida</i>	<i>Syzygium aqueum</i>
COMBRETACEAE	<i>Syzygium claviflorum</i>
<i>Terminalia eddowesii</i>	<i>Syzygium coalitum</i>
<i>Terminalia longespicata</i>	<i>Syzygium effusum</i>
<i>Terminalia microcarpa</i>	<i>Syzygium fibrosum</i>
LYTHRACEAE	<i>Syzygium furfuraceum</i>
<i>Lagerstroemia archeriana</i>	<i>Syzygium gonanthum</i>
<i>Lagerstroemia cristata</i>	<i>Syzygium homichlophilum</i>
<i>Lagerstroemia</i> sp.	<i>Syzygium lagerstroemioides</i>
MELASTOMATACEAE	<i>Syzygium porphyrocarpum</i>
<i>Astronia hollrungii</i>	<i>Syzygium puberulum</i>
<i>Astroniidium glabratum</i>	<i>Syzygium pyrocarpum</i>
<i>Astroniidium</i> sp.	<i>Syzygium richardsonianum</i>
<i>Medinilla crassinervia</i>	<i>Syzygium schumannianum</i>
<i>Medinilla maluensis</i>	<i>Syzygium sogerense</i>
<i>Medinilla markgrafii</i>	<i>Syzygium</i> sp.
<i>Medinilla plumosa</i>	<i>Syzygium stipulare</i>
<i>Medinilla radicans</i>	<i>Syzygium subalatum</i>
	<i>Syzygium unplaced furfuraceum group</i>
	<i>Syzygium womersleyii</i>

MYRTACEAE (cont.)	
<i>Xanthomyrtus calytrichoides</i>	<i>Melicope macgregorii</i>
<i>Xanthomyrtus papuana</i>	<i>Melicope perryae</i>
<i>Xanthomyrtus</i> sp.	<i>Melicope petiolaris</i>
ONAGRACEAE	<i>Melicope rubra</i>
<i>Epilobium prostratum</i>	<i>Melicope sp.</i>
STAPHYLEACEAE	<i>Melicope stellulata</i>
<i>Turpinia pentandra</i>	<i>Melicope sterophylla</i>
ANACARDIACEAE	<i>Melicope vitiflora</i>
<i>Buchanania macrocarpa</i>	<i>Melicope xanthoxyloides</i>
<i>Dracontomelon dao</i>	<i>Zanthoxylum ovalifolium</i>
<i>Euroschinus papuanus</i>	SAPINDACEAE
<i>Rhus taitensis</i>	<i>Allophylus cobbe</i>
<i>Semecarpus magnifica</i>	<i>Cupaniopsis curvidens</i>
BURSERACEAE	<i>Dodonaea viscosa</i>
<i>Canarium cestacion</i>	<i>Guioa acutifolia</i>
<i>Canarium maluense</i>	<i>Guioa comesperma</i>
<i>Haplolobus floribundus</i>	<i>Harpullia ramiflora</i>
<i>Haplolobus</i> sp.	<i>Harpullia</i> sp.
<i>Protium macgregorii</i>	<i>Jagera javanica</i>
MELIACEAE	<i>Jagera</i> sp.
<i>Aglaia luzoniensis</i>	<i>Lepidopetalum xylocarpum</i>
<i>Aglaia sapindina</i>	<i>Mischocarpus lachnocarpus</i>
<i>Aglaia silvestris</i>	<i>Mischocarpus sundaicus</i>
<i>Aglaia subminutiflora</i>	<i>Pometia coriacea</i>
<i>Amoora</i> sp.	<i>Pometia pinnata</i>
<i>Aphanamixis polystachya</i>	<i>Sarcopteryx</i> sp.
<i>Aphanamixis</i> sp.	<i>Toechima erythrocarpum</i>
<i>Dysoxylum excelsum</i>	<i>Toechima</i> sp.
<i>Dysoxylum gaudichaudianum</i>	BIXACEAE
<i>Dysoxylum parasiticum</i>	<i>Bixa orellana</i>
<i>Dysoxylum pettigrewianum</i>	DIPTEROCARPACEAE
<i>Dysoxylum</i> sp.	<i>Hopea forbesii</i>
<i>Toona ciliata</i>	<i>Hopea</i> sp.
RUTACEAE	<i>Shorea</i> sp.
<i>Acronychia carrii</i>	MALVACEAE
<i>Citrus macroptera</i>	<i>Commersonia bartramia</i>
<i>Euodia</i> sp.	<i>Commersonia reticulata</i>
<i>Flindersia amboinensis</i>	<i>Commersonia</i> sp.
<i>Flindersia laevicarpa</i>	<i>Corchorus</i> sp.
<i>Flindersia pimenteliana</i>	<i>Hibiscus pulvinulifer</i>
<i>Flindersia schottiana</i>	<i>Hibiscus</i> sp.
<i>Flindersia</i> sp.	<i>Melochia corchorifolia</i>
<i>Halfordia kendack</i>	<i>Melochia umbellata</i>
<i>Halfordia</i> sp.	<i>Pterospermum</i> sp.
<i>Harrisonia brownii</i>	<i>Sida cordifolia</i>
<i>Lunasia</i> sp.	<i>Sida rhombifolia</i>
<i>Melicope aequata</i>	<i>Sterculia macrophylla</i>
<i>Melicope bonwickii</i>	<i>Sterculia shillinglawii</i>
<i>Melicope conjugata</i>	<i>Sterculia</i> sp.
<i>Melicope denhamii</i>	<i>Triumfetta annua</i>
<i>Melicope elleryana</i>	<i>Triumfetta pilosa</i>
	<i>Triumfetta</i> sp.

MALVACEAE (cont.)	
<i>Urena lobata</i>	
THYMELAEACEAE	
<i>Phaleria</i> sp.	
<i>Pimelea cornucopiae</i>	
<i>Thecanthes cornucopiae</i>	
LORANTHACEAE	
<i>Amyema artensis</i>	
<i>Amyema seemeniana</i>	
<i>Amyema strongylophyllum</i>	
<i>Cyne papuana</i>	
<i>Dactyliophora verticillata</i>	
<i>Decaisnina hollrungii</i>	
<i>Decaisnina pedicellata</i>	
<i>Decaisnina triflora</i>	
<i>Dendrophthoe gjellerupii</i>	
<i>Dendrophthoe</i> sp.	
<i>Dendrophthoe trichanthera</i>	
<i>Sogerianthe sessiliflora</i>	
<i>Sogerianthe sogerensis</i>	
<i>Sogerianthe</i> sp.	
SANTALACEAE	
<i>Dendromyza reinwardtiana</i>	
<i>Exocarpos latifolius</i>	
<i>Korthalsella papuana</i>	
<i>Notothixos leiophyllus</i>	
<i>Notothixos subaureus</i>	
<i>Santalum macgregorii</i>	
<i>Scleropyrum aurantiacum</i>	
<i>Scleropyrum brevistachyum</i>	
<i>Scleropyrum</i> sp.	
<i>Viscum katikianum</i>	
<i>Viscum ovalifolium</i>	
<i>Viscum</i> sp.	
AMARANTHACEAE	
<i>Cyathula prostrata</i>	
CARYOPHYLLACEAE	
<i>Cerastium papuanum</i>	
<i>Drymaria cordata</i>	
NYCTAGINACEAE	
<i>Pisonia longirostris</i>	
<i>Pisonia umbellifera</i>	
POLYGONACEAE	
<i>Muehlenbeckia monticola</i>	
<i>Persicaria strigosa</i>	
<i>Polygonum chinense</i>	
<i>Polygonum minus</i>	
<i>Polygonum nepalense</i>	
<i>Polygonum runcinatum</i>	
<i>Polygonum</i> sp.	
<i>Rumex brownii</i>	
CORNACEAE	
<i>Alangium villosum</i>	
ACTINIDIACEAE	
<i>Saurauia conferta</i>	
<i>Saurauia dufaurii</i>	
<i>Saurauia trugul</i>	
EBENACEAE	
<i>Diospyros</i> sp.	
ERICACEAE	
<i>Agapetes stenantha</i>	
<i>Dimorphantha amblyornidis</i>	
<i>Dimorphantha amplifolia</i>	
<i>Dimorphantha brevipes</i>	
<i>Dimorphantha kempteriana</i>	
<i>Dimorphantha macbainii</i>	
<i>Gaultheria mundula</i>

<i>Lobelia zeylanica</i>	PITTOSPORACEAE
ROUSSEACEAE	<i>Pittosporum ferrugineum</i>
<i>Carpodetus fuscus</i>	<i>Pittosporum pumilum</i>
	<i>Pittosporum ramiflorum</i>

13.5 Appendix 05 - Checklist of Frogs From Along the Kokoda Track (Buffered to 10 km) (52 spp.)

BUFONIDAE

Rhinella marina (Linnaeus, 1758)

CERATOBatrachidae

Platymantis papuensis Meyer, 1874

HYLIDAE

Litoria angiana (Boulenger, 1915)

Litoria arfakiana (Peters & Doria, 1878)

Litoria chloristoma Menzies, Richards & Tyler, 2008

Litoria congenita (Peters & Doria, 1878)

Litoria genimaculata (Horst, 1883)

Litoria impura (Peters & Doria, 1878)

Litoria infrafrenata (Günther, 1867)

Litoria micromembrana (Tyler, 1968)

Litoria modica (Tyler, 1968)

Litoria nasuta (Gray, 1841)

Litoria nigropunctata (Meyer, 1874)

Litoria prora (Menzies, 1969)

Litoria thesaurensis (Peters, 1878)

Litoria timida Tyler & Parker, 1972

Litoria vocivincens Menzies, 1972

Litoria wollastoni (Boulenger, 1914)

Nyctimystes cheesmani Tyler, 1964

Nyctimystes gularis Parker, 1936

Nyctimystes kubori Zweifel, 1958

Nyctimystes myolae

Nyctimystes papua (Boulenger, 1897)

Nyctimystes pulcher (Wandolleck, 1911)

Nyctimystes semipalmatus Parker, 1936

Nyctimystes trachydermis Zweifel, 1983

MICROHYLIDAE

Albericus valkuriarum Menzies, 1999

Aphantophryne minuta Zweifel & Parker,

1989

Aphantophryne sabini Zweifel & Parker,

1989

Astrochaperina brevipes (Boulenger, 1897)

Hylarana daemeli (Steindachner, 1868)
Hylarana garritor (Menzies, 1987)
Hylarana milneana (Loveridge, 1948)
Hylarana papua (Lesson, 1826)
Hylarana supragrisea (Menzies, 1987)

13.9 Appendix 09 - Checklist of Reptiles From Along the Kokoda Track (Buffered to 10 km) (87 spp.)

CHELIDAE

Emydura subglobosa (Krefft, 1876)
Chelodina pritchardi Rhodin, 1994

AGAMIDAE

Hypsilurus dilophus (Duméril & Bibron, 1837)
Hypsilurus modestus (Meyer, 1874)
Hypsilurus papuensis (Macleay, 1877)

GEKKONIDAE

Cyrtodactylus epiroticus Kraus, 2008
Cyrtodactylus loriae (Boulenger, 1898)
Gehyra insulensis (Girard, 1857)
Gehyra membranacruralis King & Horner, 1989
Hemidactylus frenatus Duméril & Bibron, 1836
Hemidactylus garnotii Duméril & Bibron, 1836
Hemiphyllodactylus typus Bleeker, 1860
Lepidodactylus lugubris (Duméril & Bibron, 1836)
Lepidodactylus orientalis Brown & Parker, 1977

PYGOPODIDAE

Lialis burtonis Gray, 1834
Lialis jicari Boulenger, 1903

SCINCIDAE

Carlia bicarinata (Macleay, 1877)
Carlia luctuosa (Peters & Doria, 1878)
Cryptoblepharus virgatus (Garman, 1901)
Cryptoblepharus yulensis Horner, 2007
Emoia caeruleocauda (de Vis, 1892)
Emoia jakati (Kopstein, 1926)
Emoia kordoana (Meyer, 1874)
Emoia longicauda (Macleay, 1877)
Emoia obscura (de Jong, 1927)
Emoia pallidiceps de Vis, 1890
Emoia physicae (Duméril & Bibron, 1839)
Emoia popei Brown, 1953
Emoia submetallica (Macleay, 1877)
Eugongylus rufescens (Shaw, 1802)
Glaphyromorphus nigricaudis (Macleay, 1877)
Lamprolepis smaragdina (Lesson, 1826)
Lipinia longiceps (Boulenger, 1895)
Lipinia noctua (Lesson, 1826)
Lobulia elegans (Boulenger, 1897)

Lobulia subalpina Greer, Allison & Cogger, 2005

Lygisaurus curtus (Boulenger, 1897)
Papuascincus morokanus (Parker, 1936)
Papuascincus stanleyanus (Boulenger, 1897)

Prasinohaema flavipes (Parker, 1936)
Prasinohaema semoni (Oudemans, 1894)

Prasinohaema virens (Peters, 1881)
Sphenomorphus aignanus (Boulenger, 1898)

Sphenomorphus annectens (Boulenger, 1897)
Sphenomorphus forbesii (Boulenger, 1888)

Sphenomorphus fragilis (Macleay, 1877)
Sphenomorphus fuscolineatus Greer & Shea, 2004

Sphenomorphus granulatus (Boulenger, 1903)
Sphenomorphus jobiensis (Meyer, 1874)
Sphenomorphus loriae (Boulenger, 1897)
Sphenomorphus minutus (Meyer, 1874)

Sphenomorphus nigrolineatus (Boulenger, 1897)
Sphenomorphus papuae (Kinghorn, 1928)
Sphenomorphus pratti (Boulenger, 1903)
Sphenomorphus simus (Sauvage, 1879)
Sphenomorphus solomonis (Boulenger, 1887)

Tiliqua gigas (Schneider, 1801)

VARANIDAE

Varanus jobiensis Ahl, 1932
Varanus prasinus (Schlegel, 1839)
Varanus salvadorii (Peters & Doria, 1878)

PYTHONIDAE

Apodora papuana (Peters & Doria, 1878)
Leiopython hoserae Hoser, 2000
Morelia amethistina (Schneider, 1801)

13.13 Appendix 13 - Checklist of Birds From Along the Kokoda Track (Buffered to 10 km) (434 spp.)

CASUARIIDAE

- Casuarius casuarius* (Linnaeus, 1758)
- Casuarius bennetti* Gould, 1857

ANATIDAE

- Dendrocygna guttata* Schlegel, 1866
- Dendrocygna arcuata* (Horsfield, 1824)
- Tadorna radjah* (Lesson, 1828)
- Salvadorina waigiensis* Rothschild & Hartert, 1894
- Anas superciliosa* Gmelin, JF, 1789
- Anas gracilis* Buller, 1869
- Aythya australis* (Eyton, 1838)

MEGAPODIIDAE

- Aepyptodius arfakianus* (Salvadori, 1877)
- Talegalla fuscirostris* Salvadori, 1877
- Talegalla jobiensis* Meyer, AB, 1874
- Megapodus reinwardt* Dumont, 1823

PHASIANIDAE

- Coturnix ypsiloniphora* Bosc, 1792
- Excalfactoria chinensis* (Linnaeus, 1766)

PODICIPEDIDAE

- Tachybaptus novaehollandiae* (Stephens, 1826)

THRESKIORNITHIDAE

- Threskiornis moluccus* (Cuvier, 1829)
- Threskiornis spinicollis* (Jameson, 1835)
- Platalea regia* Gould, 1838

ARDEIDAE

- Zonerodius heliosylus* (Lesson & Garnot, 1828)
- Ixobrychus flavicollis* (Latham, 1790)
- Ixobrychus sinensis* (Gmelin, JF, 1789)
- Nycticorax caledonicus* (Gmelin, JF, 1789)
- Butorides striata* (Linnaeus, 1758)
- Ardea ibis* Linnaeus, 1758.
- Ardea pacifica* Latham, 1801
- Ardea sumatrana* Raffles, 1822
- Ardea intermedia* Wagler, 1829
- Egretta picata* (Gould, 1845)
- Egretta novaehollandiae* (Latham, 1790)
- Egretta garzetta* (Linnaeus, 1766)
- Egretta sacra* (Gmelin, JF, 1789)

PELECANIDAE

- Pelecanus conspicillatus* Temminck, 1824

FREGATIDAE

- Fregata ariel* (Gray, GR, 1845)

PHALACROCORACIDAE

- Microcarbo melanoleucus* (Vieillot, 1817)
- Phalacrocorax sulcirostris* (von Brandt, JF, 1837)

ANHINGIDAE

- Anhinga novaehollandiae* (Gould, 1847)

PANDIONIDAE

- Pandion cristatus* (Vieillot, 1816)

ACCIPITRIDAE

- Aviceda subcristata* (Gould, 1838)
- Henicopernis longicauda* (Lesson & Garnot, 1828)

- Macheiramphus alcinus* Bonaparte, 1850
- Harpyopsis novaeguineae* Salvadori, 1875
- Hieraetus weiskei* (Reichenow, 1900)
- Aquila gurneyi* Gray, GR, 1861
- Erythrotriorchis buergersi* (Reichenow, 1914)

- Megatriorchis doriae* Salvadori & D'Albertis, 1875

- Accipiter hiogaster* (Müller, S, 1841)
- Accipiter fasciatus* (Vigors & Horsfield, 1827)

- Accipiter melanochlamys* (Salvadori, 1876)

- Accipiter poliocephalus* Gray, GR, 1858
- Accipiter cirrocephalus* (Vieillot, 1817)
- Accipiter meyerianus* (Sharpe, 1878)

- Circus spilogaster* Salvadori & D'Albertis, 1876
- Circus approximans* Peale, 1848
- Milvus migrans* (Boddaert, 1783)
- Haliastur sphenurus* (Vieillot, 1818)
- Haliastur indus* (Boddaert, 1783)
- Haliaeetus leucogaster* (Gmelin, JF, 1788)

RALLIDAE

- Rallicula forbesi* Sharpe, 1887
- Rallina tricolor* Gray, GR, 1858
- Gallirallus philippensis* (Linnaeus, 1766)
- Lewinia pectoralis* (Temminck, 1831)
- Gymnomyza plumbeiventris* (Gray, GR, 1862)
- Amaurornis moluccana* (Wallace, 1865)
- Porzana tabuensis* (Gmelin, JF, 1789)
- Porzana cinerea* (Vieillot, 1819)
- Porphyrio porphyrio* (Linnaeus, 1758)
- Gallinula tenebrosa* Gould, 1846
- Fulica atra* Linnaeus, 1758

- TURNICIDAE**
Turnix maculosus (Temminck, 1815)
- RECURVIROSTRIDAE**
Himantopus leucocephalus Gould, 1837
- CHARADRIIDAE**
Vanellus miles (Boddaert, 1783)
Pluvialis fulva (Gmelin, JF, 1789)
Pluvialis squatarola (Linnaeus, 1758)
Charadrius mongolus Pallas, 1776
Charadrius veredus Gould, 1848
- JACANIDAE**
Irediparra gallinacea (Temminck, 1828)
- SCOLOPACIDAE**
Scolopax rosea Schlegel, 1871
Limosa limosa (Linnaeus, 1758)
Limosa lapponica (Linnaeus, 1758)
Numenius phaeopus (Linnaeus, 1758)
Numenius madagascariensis (Linnaeus, 1766)
Tringa brevipes (Vieillot, 1816)
Actitis hypoleucos (Linnaeus, 1758)
Arenaria interpres (Linnaeus, 1758)
Calidris tenuirostris (Horsfield, 1821)
Calidris alba (Pallas, 1764)
Calidris acuminata (Horsfield, 1821)
Limicola falcinellus (Pontoppidan, 1763)
- GLAREOLIDAE**
Glareola maldivarum Forster, JR, 1795
- LARIDAE**
Gelochelidon nilotica (Gmelin, JF, 1789)
Chlidonias hybrida (Pallas, 1811)
- COLUMBIDAE**
Columba vitiensis Quoy & Gaimard, 1832
Macropygia amboinensis (Linnaeus, 1766)
Macropygia nigrirostris Salvadori, 1876
Reinwardtoena reinwardti (Temminck, 1824)
Chalcophaps indica (Linnaeus, 1758)
Chalcophaps stephani Pucheran, 1853
Henicophaps albifrons Gray, GR, 1862
Trugon terrestris Gray, GR, 1849
Geopelia placida Gould, 1844
Geopelia humeralis (Temminck, 1821)
Gallicolumba rufigula (Pucheran, 1853)
Alopecoenas jobiensis (Meyer, AB, 1875)
Alopecoenas beccarii (Salvadori, 1876)
Otidiphaps nobilis Gould, 1870
Ptilinopus magnificus (Temminck, 1821)
Ptilinopus perlatus (Temminck, 1835)
Ptilinopus ornatus Schlegel, 1871
Ptilinopus aurantiifrons Gray, GR, 1858
- Ptilinopus superbus** (Temminck, 1809)
Ptilinopus coronulatus Gray, GR, 1858
Ptilinopus pulchellus (Temminck, 1835)
Ptilinopus rivoli (Prévost, 1843)
Ptilinopus iozonus Gray, GR, 1858
Ptilinopus nainus (Temminck, 1835)
Ducula rufigaster (Quoy & Gaimard, 1832)
Ducula chalconota (Salvadori, 1874)
Ducula pinon (Gaimard, 1823)
Ducula zoeae (Lesson, 1826)
Gymnophaps albertisi Salvadori, 1874
- CENTROPODIDAE**
Centropus menbeki Lesson & Garnot, 1828
Centropus phasianinus (Latham, 1801)
- CUCULIDAE**
Microdynamis parva (Salvadori, 1876)
Eudynamys orientalis (Linnaeus, 1766)
Scythrops novaehollandiae Latham, 1790
Rhamphomantis megarhynchus (Gray, GR, 1858)
Chalcites ruficollis (Salvadori, 1876)
Chalcites lucidus (Gmelin, JF, 1788)
Chalcites meyerii (Salvadori, 1874)
Chalcites minutillus (Gould, 1859)
Caliechthrus leucolophus (Müller, S, 1840)
Cacomantis castaneiventris (Gould, 1867)
Cacomantis flabelliformis (Latham, 1801)
Cacomantis variolosus (Vigors & Horsfield, 1827)
Cuculus optatus Gould, 1845
- TYTONIDAE**
Tyto tenebricosa (Gould, 1845)
Tyto delicatula (Gould, 1837)
Tyto longimembris (Jerdon, 1839)
- STRIGIDAE**
Ninox rufa (Gould, 1846)
Ninox theomacha (Bonaparte, 1855)
Uroglaux dimorpha (Salvadori, 1874)
- PODARGIDAE**
Podargus ocellatus Quoy & Gaimard, 1832
Podargus papuensis Quoy & Gaimard, 1832
- CAPRIMULGIDAE**
Eurostopodus mystacalis (Temminck, 1826)
Eurostopodus papuensis (Schlegel, 1866)
Eurostopodus archboldi (Mayr & Rand, 1935)

- CAPRIMULGIDAE (cont.)
Caprimulgus macrurus Horsfield, 1821
- AEGOTHELIDAE
Aegotheles insignis Salvadori, 1876
Aegotheles albertisi Sclater, PL, 1874
Aegotheles bennettii Salvadori & D'Albertis, 1875
Aegotheles cristatus (Shaw, 1790)
- HEMIPROCNIDAE
Hemiprocne mystacea (Lesson & Garnot, 1827)
- APODIDAE
Collocalia esculenta (Linnaeus, 1758)
Aerodramus hirundinaceus (Stresemann, 1914)
Aerodramus vanikorensis (Quoy & Gaimard, 1832)
Mearnsia novaeguineae (D'Albertis & Salvadori, 1879)
Hirundapus caudacutus (Latham, 1801)
Apus pacificus (Latham, 1801)
- CORACIIDAE
Eurystomus orientalis (Linnaeus, 1766)
- HALCYONIDAE
Melidora macrorrhina (Lesson, 1827)
Tanysiptera galatea Gray, GR, 1859
Tanysiptera sylvia Gould, 1850
Tanysiptera danae Sharpe, 1880
Clytoceyx rex Sharpe, 1880
Dacelo leachii Vigors & Horsfield, 1827
Dacelo gaudichaud Gaimard, 1823
Todiramphus macleayii (Jardine & Selby, 1830)
Todiramphus sanctus (Vigors & Horsfield, 1827)
Syma torotoro Lesson, 1827
Syma megarhyncha Salvadori, 1896
- ALCEDINIDAE
Ceyx lepidus Temminck, 1836
Ceyx azureus (Latham, 1801)
Ceyx pusillus Temminck, 1836
- MEROPIDAE
Merops philippinus Linnaeus, 1767
Merops ornatus Latham, 1801
- BUCEROTIDAE
Rhyticeros plicatus (Forster, JR, 1781)
- FALCONIDAE
Falco cenchroides Vigors & Horsfield, 1827
Falco severus Horsfield, 1821
Falco longipennis Swainson, 1838
Falco berigora Vigors & Horsfield, 1827
- Falco *peregrinus* Tunstall, 1771
- CACATUIDAE
Probosciger aterrimus (Gmelin, JF, 1788)
Cacatua galerita (Latham, 1790)
- PSITTRICHASIDAE
Psittrichas fulgidus (Lesson, 1830)
- PSITTACULIDAE
Loriculus aurantiifrons Schlegel, 1871
Micropsitta pusio (Sclater, PL, 1866)
Micropsitta bruijnii (Salvadori, 1875)
Chalcopsitta scintillata (Temminck, 1835)
Pseudeos fuscata (Blyth, 1858)
Trichoglossus haematodus (Linnaeus, 1771)
Psitteuteles goldiei (Sharpe, 1882)
Lorius lory (Linnaeus, 1758)
Charmosyna wilhelminae (Meyer, AB, 1874)
Charmosyna placensis (Temminck, 1835)
Charmosyna pulchella Gray, GR, 1859
Charmosyna stellae Meyer AB, 1886
Oreopsittacus arfaki (Meyer, AB, 1874)
Neopsittacus musschenbroekii (Schlegel, 1871)
Neopsittacus pullicauda Hartert, 1896
Psittacula brehmii Schlegel, 1871
Psittacula picta Rothschild, 1896
Psittacula madaraszi Meyer, AB, 1886
Geoffroyus geoffroyi (Bechstein, 1811)
Geoffroyus simplex (Meyer, AB, 1874)
Eclectus roratus (Statius Müller, 1776)
Alisterus chloropterus (Ramsay, EP, 1879)
Cyclopsitta guliemitertii (Schlegel, 1866)
Cyclopsitta diophthalma (Hombron & Jacquinot, 1841)
Psittaculirostris desmarestii (Desmarest, 1826)
- PITTIDAE
Erythropitta erythrogaster (Temminck, 1823)
Pitta sordida (Statius Müller, 1776)
Pitta versicolor Swainson, 1825
- PTILONORHYNCHIDAE
Ailuroedus buccoides (Temminck, 1836)
Ailuroedus melanotis (Gray, GR, 1858)
Amblyornis macgregoriae De Vis, 1890
Amblyornis subalaris Sharpe, 1884
Chlamydera cerviniventris Gould, 1850
- CLIMACTERIDAE
Cormobates placens (Sclater, PL, 1874)

MALURIDAE

- Sipodotus wallacii* (Gray, GR, 1862)
Malurus cyanocephalus (Quoy & Gaimard, 1832)
Malurus alboscopulatus Meyer, AB, 1874
Clytomyias insignis Sharpe, 1879
- MELIPHAGIDAE**
- Myzomela eques* (Lesson & Garnot, 1827)
Myzomela obscura Gould, 1843
Myzomela cruentata Meyer, AB, 1874
Myzomela nigrita Gray, GR, 1858
Myzomela adolphinae Salvadori, 1876
Myzomela rosenbergii Schlegel, 1871
Glycichaera fallax Salvadori, 1878
Ptiloprora plumbea (Salvadori, 1894)
Ptiloprora meekiana (Rothschild & Hartert, 1907)
Ptiloprora guisei (De Vis, 1894)
Ptiloprora perstriata (De Vis, 1898)
Pycnopygius ixoides (Salvadori, 1878)
Pycnopygius cinereus (Sclater, PL, 1874)
Pycnopygius stictocephalus (Salvadori, 1876)
Lichmera alboauricularis (Ramsay, EP, 1878)
Xanthotis polygrammus (Gray, GR, 1862)
Xanthotis flaviventer (Lesson, 1828)
Philemon meyeri Salvadori, 1878
Philemon buceroides (Swainson, 1838)
Melithreptus albogularis Gould, 1848
Melilestes megarhynchus (Gray, GR, 1858)
Melipotes fumigatus Meyer, AB, 1886
Timeliopsis fulvigula (Schlegel, 1871)
Timeliopsis griseigula (Schlegel, 1871)
Conopophila albogularis (Gould, 1843)
Ramsayornis modestus (Gray, GR, 1858)
Caligavis subfrenata (Salvadori, 1876)
Caligavis obscura (De Vis, 1897)
Melionyx fuscus (De Vis, 1897)
Melidectes ochromelas (Meyer, AB, 1874)
Melidectes belfordi (De Vis, 1890)
Melidectes torquatus Sclater, PL, 1874
Ptilotula flavescens (Gould, 1840)
Meliphaga mimikae (Ogilvie-Grant, 1911)
Meliphaga montana (Salvadori, 1880)
Meliphaga orientalis (Meyer, AB, 1894)
Meliphaga albonotata (Salvadori, 1876)
Meliphaga analoga (Reichenbach, 1852)

Meliphaga gracilis (Gould, 1866)

Meliphaga flavorictus (Salvadori, 1880)
Meliphaga aruensis (Sharpe, 1884)

ACANTHIZIDAE

- Pachycare flavogriseum* (Meyer, AB, 1874)
Crateroscelis murina (Sclater, PL, 1858)
Crateroscelis nigrorufa (Salvadori, 1894)
Crateroscelis robusta (De Vis, 1898)
Sericornis spilogdera (Gray, GR, 1859)
Sericornis papuensis (De Vis, 1894)
Sericornis nouhuysi van Oort, 1909
Sericornis perspicillatus Salvadori, 1896
Sericornis arfakianus (Salvadori, 1876)
Gerygone ruficollis Salvadori, 1876
Gerygone magnirostris Gould, 1843
Gerygone chrysogaster Gray, GR, 1858
Acanthiza cinerea (Salvadori, 1876)
Gerygone chloronota Gould, 1843
Gerygone olivacea (Gould, 1838)
Gerygone palpebrosa Wallace, 1865
Acanthiza murina (De Vis, 1897)

POMATOSTOMIDAE

Garritornis isidorei (Lesson, 1827)

ORTHONYCHIDAE

Orthonyx novaeguineae Meyer, AB, 1874

CNEMOPHILIDAE

- Cnemophilus loriae* (Salvadori, 1894)
Cnemophilus macgregorii De Vis, 1890
Loboparadisea sericea Rothschild, 1896

MELANOCHARITIDAE

- Melanocharis arfakiana* (Finsch, 1900)
Melanocharis nigra (Lesson, 1830)
Melanocharis longicauda Salvadori, 1876
Melanocharis versteri (Finsch, 1876)
Melanocharis striativentris Salvadori, 1894
Rhamphocaris crassirostris Salvadori, 1876
Oedistoma iliolophus (Salvadori, 1876)
Oedistoma pygmaeum Salvadori, 1876
Toxorhamphus poliopterus (Sharpe, 1882)

PARAMYTHIIDAE

- Oreocaris arfaki* (Meyer, AB, 1875)
Paramythia montium De Vis, 1892

CINCLOSOMATIDAE

- Ptilorrhoa leucosticta* (Sclater, PL, 1874)
Ptilorrhoa caerulescens (Temminck, 1836)
Ptilorrhoa castanonota (Salvadori, 1876)
Cinclosoma ajax (Temminck, 1836)

- MACHAERIRHYNCHIDAE**
- Machaerirhynchus flaviventer Gould, 1851
 - Machaerirhynchus nigripectus Schlegel, 1871
- ARTAMIDAE**
- Artamus leucorynchus (Linnaeus, 1771)
 - Artamus maximus Meyer, AB, 1874
- CRACTICIDAE**
- Peltops blainvillii (Lesson & Garnot, 1827)
 - Peltops montanus Stresemann, 1921
 - Cracticus quoysi (Lesson & Garnot, 1827)
 - Cracticus mentalis Salvadori & D'Albertis, 1875
 - Cracticus cassicus (Boddaert, 1783)
- RHAGOLOGIDAE**
- Rhagologus leucostigma (Salvadori, 1876)
- CAMPEPHAGIDAE**
- Coracina novaehollandiae (Gmelin, JF, 1789)
 - Coracina caeruleogrisea (Gray, GR, 1858)
 - Coracina lineata (Swainson, 1825)
 - Coracina boyeri (Gray, GR, 1846)
 - Coracina papuensis (Gmelin, JF, 1788)
 - Coracina longicauda (De Vis, 1890)
 - Edolisoma tenuirostre (Jardine, 1831)
 - Edolisoma incertum (Meyer, AB, 1874)
 - Edolisoma schisticeps (Gray, GR, 1846)
 - Edolisoma melas (Lesson, 1828)
 - Campochaera sloetii (Schlegel, 1866)
 - Lalage tricolor (Swainson, 1825)
 - Lalage leucomela (Vigors & Horsfield, 1827)
- NEOSITTIDAE**
- Daphoenositta chrysoptera (Latham, 1801)
 - Daphoenositta miranda De Vis, 1897
- EULACESTOMATIDAE**
- Eulacestoma nigropectus De Vis, 1894
- OREOICIDAE**
- Aleadryas rufinucha (Sclater, PL, 1874)
 - Ornorectes cristatus (Salvadori, 1876)
- PACHYCEPHALIDAE**
- Melanorectes nigrescens (Schlegel, 1871)
 - Pachycephala hyperythra Salvadori, 1876
 - Pachycephala modesta (De Vis, 1894)
 - Pachycephala simplex Gould, 1843
 - Pachycephala soror Sclater, PL, 1874
 - Pachycephala melanura Gould, 1843
 - Pachycephala schlegelii Schlegel, 1871
- Pachycephala aurea Reichenow, 1899**
- Pachycephala monacha Gray, GR, 1858**
- Pachycephala leucogastra Salvadori & D'Albertis, 1875**
- Pseudorectes ferrugineus (Bonaparte, 1850)**
- Colluricincla megarhyncha (Quoy & Gaimard, 1832)**
- Colluricincla harmonica (Latham, 1801)**
- Pitohui kirhocephalus (Lesson & Garnot, 1827)**
- Pitohui dichrous (Bonaparte, 1850)**
- ORIOLIDAE**
- Sphecotheres vieilloti Vigors & Horsfield, 1827
 - Oriolus szalayi (Madarász, 1900)
 - Oriolus flavocinctus (King, PP, 1826)
- DICRURIDAE**
- Dicrurus bracteatus Gould, 1843
- RHIPIDURIDAE**
- Rhipidura leucophrys (Latham, 1801)
 - Rhipidura rufiventris (Vieillot, 1818)
 - Rhipidura threnothorax Müller, S, 1843
 - Rhipidura leucothorax Salvadori, 1874
 - Rhipidura atra Salvadori, 1876
 - Rhipidura hyperythra Gray, GR, 1858
 - Rhipidura albolimbata Salvadori, 1874
 - Rhipidura brachyrhyncha Schlegel, 1871
 - Rhipidura rufidorsa Meyer, AB, 1874
 - Chaetorhynchus papuensis Meyer, AB, 1874
- MONARCHIDAE**
- Sympoecilus axillaris (Salvadori, 1876)
 - Sympoecilus guttula (Lesson & Garnot, 1829)
 - Sympoecilus manadensis (Quoy & Gaimard, 1832)
 - Monarcha melanopsis (Vieillot, 1818)
 - Monarcha frater Sclater, PL, 1874
 - Carterornis chrysomela (Lesson & Garnot, 1827)
 - Arses telescopthalmus (Lesson & Garnot, 1827)
 - Grallina bruijnii Salvadori, 1876
 - Myiagra rubecula (Latham, 1801)
- PETROICIDAE**
- Devioeca papuana (Meyer, AB, 1875)
- CORVIDAE**
- Corvus tristis Lesson & Garnot, 1827
 - Corvus orru Bonaparte, 1850
- MELAMPITTIDAE**
- Melampitta lugubris Schlegel, 1871

- IFRITIDAE**
Ifrita kowaldi (De Vis, 1890)
- PARADISAEIDAE**
Manucodia ater (Lesson, 1830)
Manucodia chalybatus (Forster, JR, 1781)
Phonygammus keraudrenii (Lesson & Garnot, 1826)
Astrapia stephaniae (Finsch & Meyer, AB, 1885)
Parotia lawesii Ramsay, EP, 1885
Parotia heleneae De Vis, 1897
Lophorina superba (Forster, JR, 1781)
Ptiloris magnificus (Vieillot, 1819)
Ptiloris intercedens Sharpe, 1882
Epimachus meyeri Finsch & Meyer, AB, 1885
Drepanornis albertisi (Sclater, PL, 1873)
Diphylloides magnificus (Forster, JR, 1781)
Cicinnurus regius (Linnaeus, 1758)
Paradisaea raggiana Sclater, PL, 1873
Paradisornis rudolphi Finsch & Meyer, AB, 1885
- PETROICIDAE**
Heteromyias albispecularis (Salvadori, 1876)
Poecilodryas hypoleuca (Gray, GR, 1859)
Gennaeodryas placens (Ramsay, EP, 1879)
Plesiodryas albonotata (Salvadori, 1875)
Peneothello sigillata (De Vis, 1890)
Peneothello cyanus (Salvadori, 1874)
Peneothello bimaculata (Salvadori, 1874)
Peneothello pulverulenta (Bonaparte, 1850)
Tregellasia leucops (Salvadori, 1876)
Pachycephalopsis poliosoma Sharpe, 1882
Monachella muelleriana (Schlegel, 1871)
Kempiella griseoceps (De Vis, 1894)
Kempiella flavovirens (Gray, GR, 1858)
Microeca flavigaster Gould, 1843
Microeca fascinans (Latham, 1801)
Eugerygone rubra (Sharpe, 1879)
Drymodes beccarii Salvadori, 1876
- Amalocichla incerta** (Salvadori, 1876)
- HIRUNDINIDAE**
Hirundo rustica Linnaeus, 1758
Hirundo tahitica Gmelin, JF, 1789
Petrochelidon nigricans (Vieillot, 1817)
- PHYLLOSCOPIDAE**
Phylloscopus poliocephalus (Salvadori, 1876)
- ACROCEPHALIDAE**
Acrocephalus australis (Gould, 1838)
- LOCUSTELLIDAE**
Locustella fasciolata (Gray, GR, 1861)
Megalurus macrurus (Salvadori, 1876)
- CISTICOLIDAE**
Cisticola exilis (Vigors & Horsfield, 1827)
- ZOSTEROPIDAE**
Zosterops atrifrons Wallace, 1864
Zosterops novaeguineae Salvadori, 1878
- STURNIDAE**
Aploinis metallica (Temminck, 1824)
Aploinis cantoroides (Gray, GR, 1862)
Mino dumontii Lesson, 1827
Mino anais (Lesson, 1839)
- TURDIDAE**
Zoothera heinei (Cabanis, 1850)
Turdus poliocephalus Latham, 1801
- MUSCICAPIDAE**
Saxicola caprata (Linnaeus, 1766)
- NECTARINIIDAE**
Dicaeum gelvinkianum Meyer, AB, 1874
Cinnyris jugularis (Linnaeus, 1766)
Leptocoma aspasia (Lesson & Garnot, 1828)
- ESTRILDIDAE**
Oreosaurus fuliginosus (De Vis, 1897)
Erythrura trichroa (Kittlitz, 1833)
Erythrura papuana Hartert, 1900
Lonchura caniceps (Salvadori, 1876)
Lonchura tristissima (Wallace, 1865)
Lonchura grandis (Sharpe, 1882)
Lonchura castaneothorax (Gould, 1837)
Lonchura monticola (De Vis, 1897)
- MOTACILLIDAE**
Anthus gutturalis De Vis, 1894

13.14 Appendix 14 - Checklist of Birds From the Interim Protection Zone (434 spp.)

CASUARIIDAE

- Casuarius casuarius* (Linnaeus, 1758)
Casuarius bennetti Gould, 1857

ANATIDAE

- Dendrocygna guttata* Schlegel, 1866
Dendrocygna arcuata (Horsfield, 1824)
Tadorna radjah (Lesson, 1828)
Salvadorina waigiensis Rothschild & Hartert, 1894
Anas superciliosa Gmelin, JF, 1789
Anas gracilis Buller, 1869
Aythya australis (Eyton, 1838)

MEGAPODIIDAE

- Aepyopodium arfakianus* (Salvadori, 1877)
Talegalla fuscirostris Salvadori, 1877
Talegalla jobiensis Meyer, AB, 1874
Megapodius reinwardt Dumont, 1823

PHASIANIDAE

- Coturnix ypsiloniphora* Bosc, 1792
Excalfactoria chinensis (Linnaeus, 1766)

PODICIPEDIDAE

- Tachybaptus novaehollandiae* (Stephens, 1826)

THRESKIORNITHIDAE

- Threskiornis moluccus* (Cuvier, 1829)
Threskiornis spinicollis (Jameson, 1835)
Platalea regia Gould, 1838

ARDEIDAE

- Zonerodius heliosylus* (Lesson & Garnot, 1828)
Ixobrychus flavicollis (Latham, 1790)
Ixobrychus sinensis (Gmelin, JF, 1789)
Nycticorax caledonicus (Gmelin, JF, 1789)
Butorides striata (Linnaeus, 1758)
Ardea ibis Linnaeus, 1758.
Ardea pacifica Latham, 1801
Ardea sumatrana Raffles, 1822
Ardea intermedia Wagler, 1829
Egretta picata (Gould, 1845)
Egretta novaehollandiae (Latham, 1790)
Egretta garzetta (Linnaeus, 1766)
Egretta sacra (Gmelin, JF, 1789)

PELECANIDAE

- Pelecanus conspicillatus* Temminck, 1824

FREGATIDAE

- Fregata ariel* (Gray, GR, 1845)

PHALACROCORACIDAE

- Microcarbo melanoleucus* (Vieillot, 1817)

Phalacrocorax sulcirostris (von Brandt, JF, 1837)

ANHINGIDAE

- Ahinga novaehollandiae* (Gould, 1847)

PANDIONIDAE

- Pandion cristatus* (Vieillot, 1816)

ACCIPITRIDAE

- Aviceda subcristata* (Gould, 1838)
Henicopernis longicauda (Lesson & Garnot, 1828)

Macheiramphus alcinus Bonaparte, 1850

Harpyopsis novaeguineae Salvadori, 1875

Hieraetus weiskei (Reichenow, 1900)

Aquila gurneyi Gray, GR, 1861

Erythrotriorchis buergersi (Reichenow, 1914)

Megatriorchis doriae Salvadori & D'Albertis, 1875

Accipiter hiogaster (Müller, S, 1841)

Accipiter fasciatus (Vigors & Horsfield, 1827)

Accipiter melanochlamys (Salvadori, 1876)

Accipiter poliocephalus Gray, GR, 1858

Accipiter cirrocephalus (Vieillot, 1817)

Accipiter meyerianus (Sharpe, 1878)

Circus spilocephalus Salvadori & D'Albertis, 1876

Circus approximans Peale, 1848

Milvus migrans (Boddaert, 1783)

Haliastur sphenurus (Vieillot, 1818)

Haliastur indus (Boddaert, 1783)

Haliaeetus leucogaster (Gmelin, JF, 1788)

RALLIDAE

Rallicula forbesi Sharpe, 1887

Rallina tricolor Gray, GR, 1858

Gallirallus philippensis (Linnaeus, 1766)

Lewinia pectoralis (Temminck, 1831)

Gymnoderus plumbeiventris (Gray, GR, 1862)

Amaurornis moluccana (Wallace, 1865)

Porzana tabuensis (Gmelin, JF, 1789)

Porzana cinerea (Vieillot, 1819)

Porphyrio porphyrio (Linnaeus, 1758)

Gallinula tenebrosa Gould, 1846

Fulica atra Linnaeus, 1758

TURNICIDAE

Turnix maculosus (Temminck, 1815)

- RECURVIROSTRIDAE**
- Himantopus leucocephalus* Gould, 1837
- CHARADRIIDAE**
- Vanellus miles* (Bobdaert, 1783)
- Pluvialis fulva* (Gmelin, JF, 1789)
- Pluvialis squatarola* (Linnaeus, 1758)
- Charadrius mongolus* Pallas, 1776
- Charadrius veredus* Gould, 1848
- JACANIDAE**
- Irediparra gallinacea* (Temminck, 1828)
- SCOLOPACIDAE**
- Scolopax rosebergii* Schlegel, 1871
- Limosa limosa* (Linnaeus, 1758)
- Limosa lapponica* (Linnaeus, 1758)
- Numenius phaeopus* (Linnaeus, 1758)
- Numenius madagascariensis* (Linnaeus, 1766)
- Tringa brevipes* (Vieillot, 1816)
- Actitis hypoleucos* (Linnaeus, 1758)
- Arenaria interpres* (Linnaeus, 1758)
- Calidris tenuirostris* (Horsfield, 1821)
- Calidris alba* (Pallas, 1764)
- Calidris acuminata* (Horsfield, 1821)
- Limicola falcinellus* (Pontoppidan, 1763)
- GLAREOLIDAE**
- Glaeola maldivarum* Forster, JR, 1795
- LARIDAE**
- Gelochelidon nilotica* (Gmelin, JF, 1789)
- Chlidonias hybrida* (Pallas, 1811)
- COLUMBIDAE**
- Columba vitiensis* Quoy & Gaimard, 1832
- Macropygia amboinensis* (Linnaeus, 1766)
- Macropygia nigrirostris* Salvadori, 1876
- Reinwardtoena reinwardti* (Temminck, 1824)
- Chalcophaps indica* (Linnaeus, 1758)
- Chalcophaps stephani* Pucheran, 1853
- Henicophaps albifrons* Gray, GR, 1862
- Trugon terrestris* Gray, GR, 1849
- Geopelia placida* Gould, 1844
- Geopelia humeralis* (Temminck, 1821)
- Gallicolumba rufigula* (Pucheran, 1853)
- Alopecoenas jobiensis* (Meyer, AB, 1875)
- Alopecoenas beccarii* (Salvadori, 1876)
- Otidiphaps nobilis* Gould, 1870
- Ptilinopus magnificus* (Temminck, 1821)
- Ptilinopus perlatus* (Temminck, 1835)
- Ptilinopus ornatus* Schlegel, 1871
- Ptilinopus aurantiifrons* Gray, GR, 1858
- Ptilinopus superbus* (Temminck, 1809)
- Ptilinopus coronulatus* Gray, GR, 1858
- Ptilinopus**
- pulchellus* (Temminck, 1835)
- rivoli* (Prévost, 1843)
- iozonus* Gray, GR, 1858
- nainus* (Temminck, 1835)
- Ducula rufigaster* (Quoy & Gaimard, 1832)
- chalconota* (Salvadori, 1874)
- pinon* (Gaimard, 1823)
- zoeae* (Lesson, 1826)
- Gymnophaps albertisii* Salvadori, 1874
- CENTROPODIDAE**
- Centropus menbeki* Lesson & Garnot, 1828
- phasianinus* (Latham, 1801)
- CUCULIDAE**
- Microdynamis parva* (Salvadori, 1876)
- Eudynamys orientalis* (Linnaeus, 1766)
- Scythrops novaehollandiae* Latham, 1790
- Rhamphomantis megarhynchus* (Gray, GR, 1858)
- Chalcites ruficollis* (Salvadori, 1876)
- Chalcites lucidus* (Gmelin, JF, 1788)
- Chalcites meyerii* (Salvadori, 1874)
- Chalcites minutillus* (Gould, 1859)
- Caliechthrus leucolophus* (Müller, S, 1840)
- Cacomantis castaneiventris* (Gould, 1867)
- Cacomantis flabelliformis* (Latham, 1801)
- Cacomantis variolosus* (Vigors & Horsfield, 1827)
- Cuculus optatus* Gould, 1845
- TYTONIDAE**
- Tyto tenebricosa* (Gould, 1845)
- Tyto delicatula* (Gould, 1837)
- Tyto longimembris* (Jerdon, 1839)
- STRIGIDAE**
- Ninox rufa* (Gould, 1846)
- Ninox theomacha* (Bonaparte, 1855)
- Uroglaux dimorpha* (Salvadori, 1874)
- PODARGIDAE**
- Podargus ocellatus* Quoy & Gaimard, 1832
- Podargus papuensis* Quoy & Gaimard, 1832
- CAPRIMULGIDAE**
- Eurostopodus mystacalis* (Temminck, 1826)
- Eurostopodus papuensis* (Schlegel, 1866)
- Eurostopodus archboldi* (Mayr & Rand, 1935)
- CAPRIMULGIDAE (cont.)**
- Caprimulgus macrurus* Horsfield, 1821

AEGOTHELIDAE

- Aegotheles insignis* Salvadori, 1876
Aegotheles albertisi Sclater, PL, 1874
Aegotheles bennettii Salvadori &
D'Albertis, 1875
Aegotheles cristatus (Shaw, 1790)

HEMIPROCNIDAE

- Hemiprocne mystacea* (Lesson & Garnot,
1827)

APODIDAE

- Collocalia esculenta* (Linnaeus, 1758)
Aerodramus hirundinaceus (Stresemann,
1914)
Aerodramus vanikorensis (Quoy &
Gaimard, 1832)
Mearnsia novaeguineae (D'Albertis &
Salvadori, 1879)
Hirundapus caudacutus (Latham, 1801)
Apus pacificus (Latham, 1801)

CORACIIDAE

- Eurystomus orientalis* (Linnaeus, 1766)

HALCYONIDAE

- Melidora macrorrhina* (Lesson, 1827)
Tanysiptera galatea Gray, GR, 1859
Tanysiptera sylvia Gould, 1850
Tanysiptera danae Sharpe, 1880
Clytoceyx rex Sharpe, 1880
Dacelo leachii Vigors & Horsfield, 1827
Dacelo gaudichaud Gaimard, 1823
Todiramphus macleayii (Jardine & Selby,
1830)
Todiramphus sanctus (Vigors &
Horsfield, 1827)
Syma torotoro Lesson, 1827
Syma megarhyncha Salvadori, 1896

ALCEDINIDAE

- Ceyx lepidus* Temminck, 1836
Ceyx azureus (Latham, 1801)
Ceyx pusillus Temminck, 1836

MEROPIDAE

- Merops philippinus* Linnaeus, 1767
Merops ornatus Latham, 1801

BUCEROTIDAE

- Rhyticeros plicatus* (Forster, JR, 1781)

FALCONIDAE

- Falco cenchroides* Vigors & Horsfield,
1827
Falco severus Horsfield, 1821
Falco longipennis Swainson, 1838
Falco berigora Vigors & Horsfield, 1827
Falco peregrinus Tunstall, 1771

CACATUIDAE

- Probosciger aterrimus* (Gmelin, JF, 1788)
Cacatua galerita (Latham, 1790)

PSITTRICHASIDAE

- Psittrichas fulgidus* (Lesson, 1830)

PSITTACULIDAE

- Loriculus aurantiifrons* Schlegel, 1871
Micropsitta pusio (Sclater, PL, 1866)
Micropsitta bruijnii (Salvadori, 1875)
Chalcopsitta scintillata (Temminck, 1835)
Pseudeos fuscata (Blyth, 1858)
Trichoglossus haematodus (Linnaeus,
1771)
Psitteuteles goldiei (Sharpe, 1882)
Lorius lory (Linnaeus, 1758)
Charmosyna wilhelmina (Meyer, AB,
1874)
Charmosyna placensis (Temminck, 1835)
Charmosyna pulchella Gray, GR, 1859
Charmosyna stellae Meyer AB, 1886
Oreopsittacus arfaki (Meyer, AB, 1874)
Neopsittacus musschenbroekii (Schlegel,
1871)

- Neopsittacus pullicauda* Hartert, 1896

- Psittacula brehmii* Schlegel, 1871

- Psittacula picta* Rothschild, 1896

- Psittacula madaraszi* Meyer, AB, 1886

- Geoffroyus geoffroyi* (Bechstein, 1811)

- Geoffroyus simplex* (Meyer, AB, 1874)

- Eclectus roratus* (Statius Müller, 1776)

- Alisterus chloropterus* (Ramsay, EP,
1879)

- Cyclopsitta guliemitertii* (Schlegel, 1866)

- Cyclopsitta diophthalma* (Hombron &
Jacquinot, 1841)

- Psittaculirostris desmarestii* (Desmarest,
1826)

PITTIDAE

- Erythropitta erythrogaster* (Temminck,
1823)

- Pitta sordida* (Statius Müller, 1776)

- Pitta versicolor* Swainson, 1825

PTILONORHYNCHIDAE

- Ailuroedus buccoides* (Temminck, 1836)
Ailuroedus melanotis (Gray, GR, 1858)
Amblyornis macgregoriae De Vis, 1890
Amblyornis subalaris Sharpe, 1884
Chlamydera cerviniventris Gould, 1850

CLIMACTERIDAE

- Cormobates placens* (Sclater, PL, 1874)

MALURIDAE

- Sipodotus wallacii* (Gray, GR, 1862)

MALURIDAE (cont.)

- Malurus cyanocephalus* (Quoy & Gaimard, 1832)
Malurus alboscapulatus Meyer, AB, 1874
Clytomyias insignis Sharpe, 1879
- MELIPHAGIDAE
- Myzomela eques* (Lesson & Garnot, 1827)
Myzomela obscura Gould, 1843
Myzomela cruentata Meyer, AB, 1874
Myzomela nigrita Gray, GR, 1858
Myzomela adolphinae Salvadori, 1876
Myzomela rosenbergii Schlegel, 1871
Glycichaera fallax Salvadori, 1878
Ptiloprora plumbea (Salvadori, 1894)
Ptiloprora meekiana (Rothschild & Hartert, 1907)
Ptiloprora guisei (De Vis, 1894)
Ptiloprora perstriata (De Vis, 1898)
Pycnopygius ixoides (Salvadori, 1878)
Pycnopygius cinereus (Sclater, PL, 1874)
Pycnopygius stictocephalus (Salvadori, 1876)
Lichmera alboauricularis (Ramsay, EP, 1878)
Xanthotis polygrammus (Gray, GR, 1862)
Xanthotis flaviventer (Lesson, 1828)
Philemon meyeri Salvadori, 1878
Philemon buceroides (Swainson, 1838)
Melithreptus albogularis Gould, 1848
Melilestes megarhynchus (Gray, GR, 1858)
Melipotes fumigatus Meyer, AB, 1886
Timeliopsis fulvigula (Schlegel, 1871)
Timeliopsis griseigula (Schlegel, 1871)
Conopophila albogularis (Gould, 1843)
Ramsayornis modestus (Gray, GR, 1858)
Caligavis subfrenata (Salvadori, 1876)
Caligavis obscura (De Vis, 1897)
Melionyx fuscus (De Vis, 1897)
Melidectes ochromelas (Meyer, AB, 1874)
Melidectes belfordi (De Vis, 1890)
Melidectes torquatus Sclater, PL, 1874
Ptilotula flavesiensis (Gould, 1840)
Meliphaga mimikae (Ogilvie-Grant, 1911)
Meliphaga montana (Salvadori, 1880)
Meliphaga orientalis (Meyer, AB, 1894)
Meliphaga albonotata (Salvadori, 1876)
Meliphaga analoga (Reichenbach, 1852)
Meliphaga gracilis (Gould, 1866)

Meliphaga flavigaster (Salvadori, 1880)

Meliphaga aruensis (Sharpe, 1884)

ACANTHIZIDAE

- Pachycare flavogriseum* (Meyer, AB, 1874)
Crateroscelis murina (Sclater, PL, 1858)
Crateroscelis nigrorufa (Salvadori, 1894)
Crateroscelis robusta (De Vis, 1898)
Sericornis spilodera (Gray, GR, 1859)
Sericornis papuensis (De Vis, 1894)
Sericornis nouhuysi van Oort, 1909
Sericornis perspicillatus Salvadori, 1896
Sericornis arfakianus (Salvadori, 1876)
Gerygone ruficollis Salvadori, 1876
Gerygone magnirostris Gould, 1843
Gerygone chrysogaster Gray, GR, 1858
Acanthiza cinerea (Salvadori, 1876)
Gerygone chloronota Gould, 1843
Gerygone olivacea (Gould, 1838)
Gerygone palpebrosa Wallace, 1865
Acanthiza murina (De Vis, 1897)

POMATOSTOMIDAE

Garritornis isidorei (Lesson, 1827)

ORTHONYCHIDAE

Orthonyx novaeguineae Meyer, AB, 1874

CNEMOPHILIDAE

- Cnemophilus loriae* (Salvadori, 1894)
Cnemophilus macgregorii De Vis, 1890
Loboparadisea sericea Rothschild, 1896

MELANOCHARITIDAE

- Melanocharis arfakiana* (Finsch, 1900)
Melanocharis nigra (Lesson, 1830)
Melanocharis longicauda Salvadori, 1876
Melanocharis versteri (Finsch, 1876)
Melanocharis striativentris Salvadori, 1894
Rhamphocaris crassirostris Salvadori, 1876
Oedistoma iliolophus (Salvadori, 1876)
Oedistoma pygmaeum Salvadori, 1876
Toxorhamphus poliopterus (Sharpe, 1882)

PARAMYTHIIDAE

- Oreocaris arfaki* (Meyer, AB, 1875)
Paramythia montium De Vis, 1892

CINCLOSOMATIDAE

- Ptilorrhoa leucosticta* (Sclater, PL, 1874)
Ptilorrhoa caerulescens (Temminck, 1836)
Ptilorrhoa castanonota (Salvadori, 1876)
Cinclosoma ajax (Temminck, 1836)

- MACHAERIRHYNCHIDAE**
- Machaerirhynchus flaviventer Gould, 1851
 - Machaerirhynchus nigripectus Schlegel, 1871
- ARTAMIDAE**
- Artamus leucorynchus (Linnaeus, 1771)
 - Artamus maximus Meyer, AB, 1874
- CRACTICIDAE**
- Peltops blainvillii (Lesson & Garnot, 1827)
 - Peltops montanus Stresemann, 1921
 - Cracticus quoysi (Lesson & Garnot, 1827)
 - Cracticus mentalis Salvadori & D'Albertis, 1875
 - Cracticus cassicus (Boddaert, 1783)
- RHAGOLOGIDAE**
- Rhagologus leucostigma (Salvadori, 1876)
- CAMPEPHAGIDAE**
- Coracina novaehollandiae (Gmelin, JF, 1789)
 - Coracina caeruleogrisea (Gray, GR, 1858)
 - Coracina lineata (Swainson, 1825)
 - Coracina boyeri (Gray, GR, 1846)
 - Coracina papuensis (Gmelin, JF, 1788)
 - Coracina longicauda (De Vis, 1890)
 - Edolisoma tenuirostre (Jardine, 1831)
 - Edolisoma incertum (Meyer, AB, 1874)
 - Edolisoma schisticeps (Gray, GR, 1846)
 - Edolisoma melas (Lesson, 1828)
 - Campochaera sloetii (Schlegel, 1866)
 - Lalage tricolor (Swainson, 1825)
 - Lalage leucomela (Vigors & Horsfield, 1827)
- NEOSITTIDAE**
- Daphoenositta chrysoptera (Latham, 1801)
 - Daphoenositta miranda De Vis, 1897
- EULACESTOMATIDAE**
- Eulacestoma nigropectus De Vis, 1894
- OREOICIDAE**
- Aleadryas rufinucha (Sclater, PL, 1874)
 - Ornorectes cristatus (Salvadori, 1876)
- PACHYCEPHALIDAE**
- Melanorectes nigrescens (Schlegel, 1871)
 - Pachycephala hyperythra Salvadori, 1876
 - Pachycephala modesta (De Vis, 1894)
 - Pachycephala simplex Gould, 1843
 - Pachycephala soror Sclater, PL, 1874
 - Pachycephala melanura Gould, 1843
 - Pachycephala schlegelii Schlegel, 1871
- Pachycephala aurea Reichenow, 1899**
- Pachycephala monacha Gray, GR, 1858**
- Pachycephala leucogastra Salvadori & D'Albertis, 1875**
- Pseudorectes ferrugineus (Bonaparte, 1850)**
- Colluricincla megarhyncha (Quoy & Gaimard, 1832)**
- Colluricincla harmonica (Latham, 1801)**
- Pitohui kirhocephalus (Lesson & Garnot, 1827)**
- Pitohui dichrous (Bonaparte, 1850)**
- ORIOLIDAE**
- Sphecotheres vieilloti Vigors & Horsfield, 1827
 - Oriolus szalayi (Madarász, 1900)
 - Oriolus flavocinctus (King, PP, 1826)
- DICRURIDAE**
- Dicrurus bracteatus Gould, 1843
- RHIPIDURIDAE**
- Rhipidura leucophrys (Latham, 1801)
 - Rhipidura rufiventris (Vieillot, 1818)
 - Rhipidura threnothorax Müller, S, 1843
 - Rhipidura leucothorax Salvadori, 1874
 - Rhipidura atra Salvadori, 1876
 - Rhipidura hyperythra Gray, GR, 1858
 - Rhipidura albolimbata Salvadori, 1874
 - Rhipidura brachyrhyncha Schlegel, 1871
 - Rhipidura rufidorsa Meyer, AB, 1874
 - Chaetorhynchus papuensis Meyer, AB, 1874
- MONARCHIDAE**
- Sympoecilus axillaris (Salvadori, 1876)
 - Sympoecilus guttula (Lesson & Garnot, 1829)
 - Sympoecilus manadensis (Quoy & Gaimard, 1832)
 - Monarcha melanopsis (Vieillot, 1818)
 - Monarcha frater Sclater, PL, 1874
 - Carterornis chrysomela (Lesson & Garnot, 1827)
 - Arses telescopthalmus (Lesson & Garnot, 1827)
 - Grallina bruijnii Salvadori, 1876
 - Myiagra rubecula (Latham, 1801)
- PETROICIDAE**
- Devioeca papuana (Meyer, AB, 1875)
- CORVIDAE**
- Corvus tristis Lesson & Garnot, 1827
 - Corvus orru Bonaparte, 1850
- MELAMPITTIDAE**
- Melampitta lugubris Schlegel, 1871

- IFRITIDAE**
Ifrita kowaldi (De Vis, 1890)
- PARADISAEIDAE**
Manucodia ater (Lesson, 1830)
Manucodia chalybatus (Forster, JR, 1781)
Phonygammus keraudrenii (Lesson & Garnot, 1826)
Astrapia stephaniae (Finsch & Meyer, AB, 1885)
Parotia lawesii Ramsay, EP, 1885
Parotia heleneae De Vis, 1897
Lophorina superba (Forster, JR, 1781)
Ptiloris magnificus (Vieillot, 1819)
Ptiloris intercedens Sharpe, 1882
Epimachus meyeri Finsch & Meyer, AB, 1885
Drepanornis albertisi (Sclater, PL, 1873)
Diphylloides magnificus (Forster, JR, 1781)
Cicinnurus regius (Linnaeus, 1758)
Paradisaea raggiana Sclater, PL, 1873
Paradisornis rudolphi Finsch & Meyer, AB, 1885
- PETROICIDAE**
Heteromyias albispecularis (Salvadori, 1876)
Poecilodryas hypoleuca (Gray, GR, 1859)
Gennaeodryas placens (Ramsay, EP, 1879)
Plesiodryas albonotata (Salvadori, 1875)
Peneothello sigillata (De Vis, 1890)
Peneothello cyanus (Salvadori, 1874)
Peneothello bimaculata (Salvadori, 1874)
Peneothello pulverulenta (Bonaparte, 1850)
Tregellasia leucops (Salvadori, 1876)
Pachycephalopsis poliosoma Sharpe, 1882
Monachella muelleriana (Schlegel, 1871)
Kempiella griseoceps (De Vis, 1894)
Kempiella flavovirescens (Gray, GR, 1858)
Microeca flavigaster Gould, 1843
Microeca fascinans (Latham, 1801)
Eugerygone rubra (Sharpe, 1879)
Drymodes beccarii Salvadori, 1876
- Amalocichla incerta** (Salvadori, 1876)
- HIRUNDINIDAE**
Hirundo rustica Linnaeus, 1758
Hirundo tahitica Gmelin, JF, 1789
Petrochelidon nigricans (Vieillot, 1817)
- PHYLLOSCOPIDAE**
Phylloscopus poliocephalus (Salvadori, 1876)
- ACROCEPHALIDAE**
Acrocephalus australis (Gould, 1838)
- LOCUSTELLIDAE**
Locustella fasciolata (Gray, GR, 1861)
Megalurus macrurus (Salvadori, 1876)
- CISTICOLIDAE**
Cisticola exilis (Vigors & Horsfield, 1827)
- ZOSTEROPIDAE**
Zosterops atrifrons Wallace, 1864
Zosterops novaeguineae Salvadori, 1878
- STURNIDAE**
Aploinis metallica (Temminck, 1824)
Aploinis cantoroides (Gray, GR, 1862)
Mino dumontii Lesson, 1827
Mino anais (Lesson, 1839)
- TURDIDAE**
Zoothera heinei (Cabanis, 1850)
Turdus poliocephalus Latham, 1801
- MUSCICAPIDAE**
Saxicola caprata (Linnaeus, 1766)
- NECTARINIIDAE**
Dicaeum gelvinkianum Meyer, AB, 1874
Cinnyris jugularis (Linnaeus, 1766)
Leptocoma aspasia (Lesson & Garnot, 1828)
- ESTRILDIDAE**
Oreosaurus fuliginosus (De Vis, 1897)
Erythrura trichroa (Kittlitz, 1833)
Erythrura papuana Hartert, 1900
Lonchura caniceps (Salvadori, 1876)
Lonchura tristissima (Wallace, 1865)
Lonchura grandis (Sharpe, 1882)
Lonchura castaneothorax (Gould, 1837)
Lonchura monticola (De Vis, 1897)
- MOTACILLIDAE**
Anthus gutturalis De Vis, 1894

13.15 Appendix 15 - Checklist of Birds From the Kokoda Inner Area of Interest (507 spp.)

CASUARIIDAE

- Casuarius casuarius* (Linnaeus, 1758)
Casuarius bennetti Gould, 1857

ANATIDAE

- Dendrocygna guttata* Schlegel, 1866
Dendrocygna arcuata (Horsfield, 1824)
Tadorna radjah (Lesson, 1828)
Salvadorina waigiensis Rothschild & Hartert, 1894
Nettapus pulchellus Gould, 1842
Anas superciliosa Gmelin, JF, 1789
Anas gracilis Buller, 1869
Anas querquedula Linnaeus, 1758
Aythya australis (Eyton, 1838)

MEGAPODIIDAE

- Aepyopodium arfakianus* (Salvadori, 1877)
Talegalla fuscirostris Salvadori, 1877
Talegalla jobiensis Meyer, AB, 1874
Megapodus reinwardt Dumont, 1823

PHASIANIDAE

- Coturnix ypsiloniphora* Bosc, 1792
Excalfactoria chinensis (Linnaeus, 1766)

HYDROBATIDAE

- Oceanites oceanicus* (Kuhl, 1820)

PROCELLARIIDAE

- Calonectris leucomelas* (Temminck, 1836)
Puffinus pacificus (Gmelin, JF, 1789)

PODICIPEDIDAE

- Tachybaptus novaehollandiae* (Stephens, 1826)

PHAETHONTIDAE

- Phaethon rubricauda* Boddaert, 1783

THRESKIORNITHIDAE

- Threskiornis moluccus* (Cuvier, 1829)
Threskiornis spinicollis (Jameson, 1835)
Plegadis falcinellus (Linnaeus, 1766)
Platalea regia Gould, 1838

ARDEIDAE

- Zonerodius heliosylus* (Lesson & Garnot, 1828)
Ixobrychus flavicollis (Latham, 1790)
Ixobrychus sinensis (Gmelin, JF, 1789)
Nycticorax caledonicus (Gmelin, JF, 1789)
Butorides striata (Linnaeus, 1758)
Ardea ibis Linnaeus, 1758.
Ardea pacifica Latham, 1801

Ardea sumatrana Raffles, 1822

Ardea intermedia Wagler, 1829

Egretta picata (Gould, 1845)

Egretta novaehollandiae (Latham, 1790)

Egretta garzetta (Linnaeus, 1766)

Egretta sacra (Gmelin, JF, 1789)

PELECANIDAE

- Pelecanus conspicillatus* Temminck, 1824

FREGATIDAE

- Fregata minor* (Gmelin, JF, 1789)

- Fregata ariel* (Gray, GR, 1845)

SULIDAE

- Sula dactylatra* Lesson, 1831

- Sula sula* (Linnaeus, 1766)

- Sula leucogaster* (Boddaert, 1783)

PHALACROCORACIDAE

- Microcarbo melanoleucus* (Vieillot, 1817)

- Phalacrocorax sulcirostris* (von Brandt, JF, 1837)

- Phalacrocorax carbo* (Linnaeus, 1758)

ANHINGIDAE

- Anhinga novaehollandiae* (Gould, 1847)

PANDIONIDAE

- Pandion cristatus* (Vieillot, 1816)

ACCIPITRIDAE

- Aviceda subcristata* (Gould, 1838)

- Henicopernis longicauda* (Lesson & Garnot, 1828)

- Macheiramphus alcinus* Bonaparte, 1850

- Harpyopsis novaeguineae* Salvadori, 1875

- Hieraetus weiskei* (Reichenow, 1900)

- Aquila gurneyi* Gray, GR, 1861

- Erythrotriorchis buergersi* (Reichenow, 1914)

- Megatriorchis doriae* Salvadori & D'Albertis, 1875

- Accipiter hiogaster* (Müller, S, 1841)

- Accipiter fasciatus* (Vigors & Horsfield, 1827)

- Accipiter melanochlamys* (Salvadori, 1876)

- Accipiter poliocephalus* Gray, GR, 1858

- Accipiter cirrocephalus* (Vieillot, 1817)

- Accipiter meyerianus* (Sharpe, 1878)

- Circus spilogaster* Salvadori & D'Albertis, 1876

- Circus approximans* Peale, 1848

- Milvus migrans* (Boddaert, 1783)

- ACCIPITRIDAE (cont.)
- Haliastur sphenurus* (Vieillot, 1818)
 - Haliastur indus* (Boddaert, 1783)
 - Haliaeetus leucogaster* (Gmelin, JF, 1788)
- RALLIDAE
- Rallicula forbesi* Sharpe, 1887
 - Rallina tricolor* Gray, GR, 1858
 - Gallirallus philippensis* (Linnaeus, 1766)
 - Lewinia pectoralis* (Temminck, 1831)
 - Gymnoderus plumbeiventris* (Gray, GR, 1862)
 - Amaurornis moluccana* (Wallace, 1865)
 - Porzana pusilla* (Pallas, 1776)
 - Porzana tabuensis* (Gmelin, JF, 1789)
 - Porzana cinerea* (Vieillot, 1819)
 - Porphyrio porphyrio* (Linnaeus, 1758)
 - Gallinula tenebrosa* Gould, 1846
 - Fulica atra* Linnaeus, 1758
- TURNICIDAE
- Turnix maculosus* (Temminck, 1815)
- BURHNIDAE
- Esacus magnirostris* (Vieillot, 1818)
- RECURVIROSTRIDAE
- Himantopus leucocephalus* Gould, 1837
- CHARADRIIDAE
- Vanellus miles* (Boddaert, 1783)
 - Erythrogomphus cinctus* Gould, 1838
 - Pluvialis fulva* (Gmelin, JF, 1789)
 - Pluvialis squatarola* (Linnaeus, 1758)
 - Charadrius dubius* Scopoli, 1786
 - Charadrius mongolus* Pallas, 1776
 - Charadrius leschenaultii* Lesson, 1826
 - Charadrius veredus* Gould, 1848
- JACANIDAE
- Irediparra gallinacea* (Temminck, 1828)
- SCOLOPACIDAE
- Scolopax rosenbergii* Schlegel, 1871
 - Gallinago hardwickii* (Gray, JE, 1831)
 - Gallinago megalia* Swinhoe, 1861
 - Limosa limosa* (Linnaeus, 1758)
 - Limosa lapponica* (Linnaeus, 1758)
 - Numenius minutus* Gould, 1841
 - Numenius phaeopus* (Linnaeus, 1758)
 - Numenius madagascariensis* (Linnaeus, 1766)
 - Tringa stagnatilis* (Bechstein, 1803)
 - Tringa nebularia* (Gunnerus, 1767)
 - Tringa glareola* Linnaeus, 1758
 - Tringa brevipes* (Vieillot, 1816)
 - Xenus cinereus* (Güldenstädt, 1775)
 - Actitis hypoleucus* (Linnaeus, 1758)
 - Arenaria interpres* (Linnaeus, 1758)
- Calidris tenuirostris (Horsfield, 1821)
- Calidris alba (Pallas, 1764)
- Calidris ruficollis (Pallas, 1776)
- Calidris subminuta (Middendorff, 1853)
- Calidris acuminata (Horsfield, 1821)
- Calidris ferruginea (Pontoppidan, 1763)
- Limicola falcinellus (Pontoppidan, 1763)
- GLAREOLIDAE
- Stiltia isabella* (Vieillot, 1816)
 - Glareola maldivarum* Forster, JR, 1795
- LARIDAE
- Chroicocephalus novaehollandiae* (Stephens, 1826)
 - Chroicocephalus ridibundus* (Linnaeus, 1766)
 - Gelochelidon nilotica* (Gmelin, JF, 1789)
 - Hydroprogne caspia* (Pallas, 1770)
 - Thalasseus bergii* (Lichtenstein, MHK, 1823)
 - Thalasseus bengalensis* (Lesson, 1831)
 - Sternula albifrons* (Pallas, 1764)
 - Onychoprion anaethetus* (Scopoli, 1786)
 - Onychoprion fuscatus* (Linnaeus, 1766)
 - Sterna dougallii* Montagu, 1813
 - Sterna sumatrana* Raffles, 1822
 - Sterna hirundo* Linnaeus, 1758
 - Chlidonias hybrida* (Pallas, 1811)
 - Chlidonias leucopterus* (Temminck, 1815)
- STERCORARIIDAE
- Stercorarius pomarinus* (Temminck, 1815)
- COLUMBIDAE
- Columba vitiensis* Quoy & Gaimard, 1832
 - Macropygia amboinensis* (Linnaeus, 1766)
 - Macropygia nigrirostris* Salvadori, 1876
 - Reinwardtoena reinwardti* (Temminck, 1824)
 - Chalcophaps indica* (Linnaeus, 1758)
 - Chalcophaps stephani* Pucheran, 1853
 - Henicophaps albifrons* Gray, GR, 1862
 - Trugon terrestris* Gray, GR, 1849
 - Geopelia placida* Gould, 1844
 - Geopelia humeralis* (Temminck, 1821)
 - Gallicolumba rufigula* (Pucheran, 1853)
 - Alopecoenas jobiensis* (Meyer, AB, 1875)
 - Alopecoenas beccarii* (Salvadori, 1876)
 - Otidiphaps nobilis* Gould, 1870
 - Goura scheepmakeri* Finsch, 1876
 - Ptilinopus magnificus* (Temminck, 1821)
 - Ptilinopus perlatus* (Temminck, 1835)
 - Ptilinopus ornatus* Schlegel, 1871

COLUMBIDAE (cont.)

- Ptilinopus aurantiifrons Gray, GR, 1858
Ptilinopus superbus (Temminck, 1809)
Ptilinopus coronulatus Gray, GR, 1858
Ptilinopus pulchellus (Temminck, 1835)
Ptilinopus rivoli (Prévost, 1843)
Ptilinopus iozonus Gray, GR, 1858
Ptilinopus nainus (Temminck, 1835)
Ducula rufigaster (Quoy & Gaimard, 1832)
Ducula chalconota (Salvadori, 1874)
Ducula pinon (Gaimard, 1823)
Ducula mullerii (Temminck, 1835)
Ducula zoeae (Lesson, 1826)
Ducula spilorrhoa (Gray, GR, 1858)
Gymnophaps albertisii Salvadori, 1874

CENTROPODIDAE

- Centropus menbeki Lesson & Garnot, 1828
Centropus phasianinus (Latham, 1801)

CUCULIDAE

- Microdynamis parva (Salvadori, 1876)
Eudynamys orientalis (Linnaeus, 1766)
Scythrops novaehollandiae Latham, 1790
Rhamphomantis megarhynchus (Gray, GR, 1858)
Chalcites basalis (Horsfield, 1821)
Chalcites ruficollis (Salvadori, 1876)
Chalcites lucidus (Gmelin, JF, 1788)
Chalcites meyerii (Salvadori, 1874)
Chalcites minutillus (Gould, 1859)
Caliechthrus leucolophus (Müller, S, 1840)
Cacomantis castaneiventris (Gould, 1867)
Cacomantis flabelliformis (Latham, 1801)
Cacomantis variolosus (Vigors & Horsfield, 1827)
Cuculus optatus Gould, 1845

TYTONIDAE

- Tyto tenebricosa (Gould, 1845)
Tyto delicatula (Gould, 1837)
Tyto longimembris (Jerdon, 1839)

STRIGIDAE

- Ninox rufa (Gould, 1846)
Ninox connivens (Latham, 1801)
Ninox theomacha (Bonaparte, 1855)
Uroglauus dimorpha (Salvadori, 1874)

PODARGIDAE

- Podargus ocellatus Quoy & Gaimard, 1832
Podargus papuensis Quoy & Gaimard, 1832

CAPRIMULGIDAE

- Eurostopodus mystacalis (Temminck, 1826)
Eurostopodus papuensis (Schlegel, 1866)
Eurostopodus archboldi (Mayr & Rand, 1935)
Caprimulgus macrurus Horsfield, 1821

AEGOTHELIDAE

- Aegotheles insignis Salvadori, 1876
Aegotheles alburtisi Sclater, PL, 1874
Aegotheles bennettii Salvadori & D'Albertis, 1875
Aegotheles cristatus (Shaw, 1790)

HEMIPROCNIDAE

- Hemiprocne mystacea (Lesson & Garnot, 1827)

APODIDAE

- Collocalia esculenta (Linnaeus, 1758)
Aerodramus hirundinaceus (Stresemann, 1914)
Aerodramus nuditarsus (Salomonsen, 1962)
Aerodramus vanikorensis (Quoy & Gaimard, 1832)
Mearnsia novaeguineae (D'Albertis & Salvadori, 1879)
Hirundapus caudacutus (Latham, 1801)
Apus pacificus (Latham, 1801)

CORACIIDAE

- Eurystomus orientalis (Linnaeus, 1766)

HALCYONIDAE

- Melidora macrorrhina (Lesson, 1827)
Tanyptera galatea Gray, GR, 1859
Tanyptera sylvia Gould, 1850
Tanyptera danae Sharpe, 1880
Clytoceyx rex Sharpe, 1880
Dacelo leachii Vigors & Horsfield, 1827
Dacelo gaudichaud Gaimard, 1823
Todiramphus nigrocyaneus (Wallace, 1862)
Todiramphus macleayii (Jardine & Selby, 1830)
Todiramphus chloris (Boddaert, 1783)
Todiramphus saurophagus (Gould, 1843)
Todiramphus sanctus (Vigors & Horsfield, 1827)
Syma torotoro Lesson, 1827
Syma megarhyncha Salvadori, 1896

ALCEDINIDAE

- Alcedo atthis (Linnaeus, 1758)
Ceyx lepidus Temminck, 1836
Ceyx azureus (Latham, 1801)

ALCEDINIDAE (cont.)

Ceyx pusillus Temminck, 1836

MEROPIDAE

Merops philippinus Linnaeus, 1767

Merops ornatus Latham, 1801

BUCEROTIDAE

Rhyticeros plicatus (Forster, JR, 1781)

FALCONIDAE

Falco cenchroides Vigors & Horsfield, 1827

Falco severus Horsfield, 1821

Falco longipennis Swainson, 1838

Falco berigora Vigors & Horsfield, 1827

Falco peregrinus Tunstall, 1771

CACATUIDAE

Probosciger aterrimus (Gmelin, JF, 1788)

Cacatua galerita (Latham, 1790)

PSITTRICHASIDAE

Psittrichas fulgidus (Lesson, 1830)

PSITTACULIDAE

Loriculus aurantiifrons Schlegel, 1871

Micropsitta pusio (Sclater, PL, 1866)

Micropsitta bruijnii (Salvadori, 1875)

Chalcopsitta scintillata (Temminck, 1835)

Pseudeos fuscata (Blyth, 1858)

Trichoglossus haematodus (Linnaeus, 1771)

Psitteuteles goldiei (Sharpe, 1882)

Lorius lory (Linnaeus, 1758)

Charmosyna wilhelminae (Meyer, AB, 1874)

Charmosyna placensis (Temminck, 1835)

Charmosyna pulchella Gray, GR, 1859

Charmosyna stellae Meyer AB, 1886

Oreopsittacus arfaki (Meyer, AB, 1874)

Neopsittacus musschenbroekii (Schlegel, 1871)

Neopsittacus pullicauda Hartert, 1896

Psittacula brehmii Schlegel, 1871

Psittacula picta Rothschild, 1896

Psittacula madaraszi Meyer, AB, 1886

Geoffroyus geoffroyi (Bechstein, 1811)

Geoffroyus simplex (Meyer, AB, 1874)

Eclectus roratus (Statius Müller, 1776)

Alisterus chloropterus (Ramsay, EP, 1879)

Cyclopsitta gulielmitertii (Schlegel, 1866)

Cyclopsitta diophthalma (Hombron & Jacquinot, 1841)

Psittaculirostris desmarestii (Desmarest, 1826)

PITTIDAE

Erythropitta erythrogaster (Temminck, 1823)

Pitta sordida (Statius Müller, 1776)

Pitta versicolor Swainson, 1825

PTILONORHYNCHIDAE

Ailuroedus buccoides (Temminck, 1836)

Ailuroedus melanotis (Gray, GR, 1858)

Amblyornis macgregoriae De Vis, 1890

Amblyornis subalaris Sharpe, 1884

Chlamydera cerviniventris Gould, 1850

CLIMACTERIDAE

Cormobates placens (Sclater, PL, 1874)

MALURIDAE

Sipodotus wallacii (Gray, GR, 1862)

Malurus cyanocephalus (Quoy & Gaimard, 1832)

Malurus alboscapulatus Meyer, AB, 1874

Clytomyias insignis Sharpe, 1879

MELIPHAGIDAE

Myzomela eques (Lesson & Garnot, 1827)

Myzomela obscura Gould, 1843

Myzomela cruentata Meyer, AB, 1874

Myzomela nigrita Gray, GR, 1858

Myzomela erythrocephala Gould, 1840

Myzomela adolphinae Salvadori, 1876

Myzomela rosenbergii Schlegel, 1871

Glycichaera fallax Salvadori, 1878

Ptiloprora plumbea (Salvadori, 1894)

Ptiloprora meekiana (Rothschild & Hartert, 1907)

Ptiloprora guisei (De Vis, 1894)

Ptiloprora perstriata (De Vis, 1898)

Pycnopygius ixoides (Salvadori, 1878)

Pycnopygius cinereus (Sclater, PL, 1874)

Pycnopygius stictocephalus (Salvadori, 1876)

Lichmera alboauricularis (Ramsay, EP, 1878)

Xanthotis polygrammus (Gray, GR, 1862)

Xanthotis flaviventer (Lesson, 1828)

Philemon meyeri Salvadori, 1878

Philemon buceroides (Swainson, 1838)

Melithreptus albogularis Gould, 1848

Melilestes megarhynchus (Gray, GR, 1858)

Macgregoria pulchra De Vis, 1897

Melipotes fumigatus Meyer, AB, 1886

Timeliopsis fulvigula (Schlegel, 1871)

Timeliopsis griseigula (Schlegel, 1871)

Conopophila albogularis (Gould, 1843)

- MELIPHAGIDAE (cont.)**
- Ramsayornis modestus (Gray, GR, 1858)
 - Caligavis subfrenata (Salvadori, 1876)
 - Caligavis obscura (De Vis, 1897)
 - Melionyx fuscus (De Vis, 1897)
 - Melidectes ochromelas (Meyer, AB, 1874)
 - Melidectes belfordi (De Vis, 1890)
 - Melidectes torquatus Sclater, PL, 1874
 - Gavicalis versicolor (Gould, 1843)
 - Ptilotula flavesiensis (Gould, 1840)
 - Meliphaga mimikae (Ogilvie-Grant, 1911)

 - Peltops montanus Stresemann, 1921
 - Cracticus quoyi (Lesson & Garnot, 1827)
 - Cracticus mentalis Salvadori & D'Albertis, 1875
 - Cracticus cassicus (Boddaert, 1783)
- RHAGOLOGIDAE**
- Rhagologus leucostigma (Salvadori, 1876)
- CAMPEPHAGIDAE**
- Coracina novaehollandiae (Gmelin, JF, 1789)
 - Coracina caeruleogrisea (Gray, GR, 1858)
 - Coracina lineata (Swainson, 1825)
 - Coracina boyeri (Gray, GR, 1846)
 - Coracina papuensis (Gmelin, JF, 1788)
 - Coracina longicauda (De Vis, 1890)
 - Edolisoma tenuirostre (Jardine, 1831)
 - Edolisoma incertum (Meyer, AB, 1874)
 - Edolisoma schisticeps (Gray, GR, 1846)
 - Edolisoma melas (Lesson, 1828)
 - Campochaera sloetii (Schlegel, 1866)
 - Lalage tricolor (Swainson, 1825)
 - Lalage leucomela (Vigors & Horsfield, 1827)

- NEOSITTIDAE**
Daphoenositta chrysoptera (Latham, 1801)
Daphoenositta miranda De Vis, 1897
- EULACESTOMATIDAE**
Eulacestoma nigropectus De Vis, 1894
- OREOICIDAE**
Aleadryas rufinucha (Sclater, PL, 1874)
Ornorectes cristatus (Salvadori, 1876)
- PACHYCEPHALIDAE**
Melanorectes nigrescens (Schlegel, 1871)
Pachycephala hyperythra Salvadori, 1876
Pachycephala modesta (De Vis, 1894)
Pachycephala simplex Gould, 1843
Pachycephala soror Sclater, PL, 1874
Pachycephala melanura Gould, 1843
Pachycephala schlegelii Schlegel, 1871
Pachycephala aurea Reichenow, 1899
Pachycephala monacha Gray, GR, 1858
Pachycephala leucogastra Salvadori & D'Albertis, 1875
Pseudorectes ferrugineus (Bonaparte, 1850)
Colluricincla megarhyncha (Quoy & Gaimard, 1832)
Colluricincla harmonica (Latham, 1801)
Pitohui kirhocephalus (Lesson & Garnot, 1827)
Pitohui dichrous (Bonaparte, 1850)
- LANIIDAE**
Lanius schach Linnaeus, 1758
- ORIOLIDAE**
Sphecotheres vieilloti Vigors & Horsfield, 1827
Oriolus szalayi (Madarász, 1900)
Oriolus flavocinctus (King, PP, 1826)
- DICRURIDAE**
Dicrurus bracteatus Gould, 1843
- RHIPIDURIDAE**
Rhipidura leucophrys (Latham, 1801)
Rhipidura rufiventris (Vieillot, 1818)
Rhipidura threnothorax Müller, S, 1843
Rhipidura maculipectus Gray, GR, 1858
Rhipidura leucothorax Salvadori, 1874
Rhipidura atra Salvadori, 1876
Rhipidura hyperythra Gray, GR, 1858
Rhipidura albolimbata Salvadori, 1874
Rhipidura phasiana De Vis, 1885
Rhipidura brachyrhyncha Schlegel, 1871
Rhipidura rufidorsa Meyer, AB, 1874
Rhipidura rufifrons (Latham, 1801)
- Chaetorhynchus papuensis** Meyer, AB, 1874
- MONARCHIDAE**
Sympoiachrus axillaris (Salvadori, 1876)
Sympoiachrus guttula (Lesson & Garnot, 1829)
Sympoiachrus manadensis (Quoy & Gaimard, 1832)
Monarcha melanopsis (Vieillot, 1818)
Monarcha frater Sclater, PL, 1874
Carterornis chrysomela (Lesson & Garnot, 1827)
Arses telescopthalmus (Lesson & Garnot, 1827)
Grallina bruijnii Salvadori, 1876
Myiagra rubecula (Latham, 1801)
Myiagra ruficollis (Vieillot, 1818)
Myiagra cyanoleuca (Vieillot, 1818)
Myiagra alecto (Temminck, 1827)
- PETROICIDAE**
Devioeca papuana (Meyer, AB, 1875)
- CORVIDAE**
Corvus tristis Lesson & Garnot, 1827
Corvus orru Bonaparte, 1850
- MELAMPITTIDAE**
Melampitta lugubris Schlegel, 1871
- IFRITIDAE**
Ifrita kowaldi (De Vis, 1890)
- PARADISAEIDAE**
Manucodia ater (Lesson, 1830)
Manucodia chalybatus (Forster, JR, 1781)
Phonygammus keraudrenii (Lesson & Garnot, 1826)
Astrapia stephaniae (Finsch & Meyer, AB, 1885)
Parotia lawesii Ramsay, EP, 1885
Parotia heleneae De Vis, 1897
Lophorina superba (Forster, JR, 1781)
Ptiloris magnificus (Vieillot, 1819)
Ptiloris intercedens Sharpe, 1882
Epimachus meyeri Finsch & Meyer, AB, 1885
Drepanornis albertisi (Sclater, PL, 1873)
Diphyllodes magnificus (Forster, JR, 1781)
Cicinnurus regius (Linnaeus, 1758)
Seleucidis melanoleucus (Daudin, 1800)
Paradisaea raggiana Sclater, PL, 1873
Paradisornis rudolphi Finsch & Meyer, AB, 1885

- PETROICIDAE**
- Heteromyias albispecularis* (Salvadori, 1876)
 - Poecilodryas hypoleuca* (Gray, GR, 1859)
 - Gennaeodryas placens* (Ramsay, EP, 1879)
 - Plesiodryas albonotata* (Salvadori, 1875)
 - Peneothello sigillata* (De Vis, 1890)
 - Peneothello cyanus* (Salvadori, 1874)
 - Peneothello bimaculata* (Salvadori, 1874)
 - Peneothello pulverulenta* (Bonaparte, 1850)
 - Tregellasia leucops* (Salvadori, 1876)
 - Pachycephalopsis poliosoma* Sharpe, 1882
 - Monachella muelleriana* (Schlegel, 1871)
 - Kempiella griseocephala* (De Vis, 1894)
 - Kempiella flavovirens* (Gray, GR, 1858)
 - Microeca flavigaster* Gould, 1843
 - Microeca fascinans* (Latham, 1801)
 - Eugerygone rubra* (Sharpe, 1879)
 - Petroica bivittata* De Vis, 1897
 - Drymodes beccarii* Salvadori, 1876
 - Amalocichla sclateriana* De Vis, 1892
 - Amalocichla incerta* (Salvadori, 1876)
- HIRUNDINIDAE**
- Hirundo rustica* Linnaeus, 1758
 - Hirundo tahitica* Gmelin, JF, 1789
 - Hirundo neoxena* Gould, 1842
 - Cecropis daurica* (Laxmann, 1769)
 - Petrochelidon ariel* (Gould, 1842)
 - Petrochelidon nigricans* (Vieillot, 1817)
- PHYLLOSCOPIDAE**
- Phylloscopus poliocephalus* (Salvadori, 1876)
- ACROCEPHALIDAE**
- Acrocephalus orientalis* (Temminck & Schlegel, 1847)
 - Acrocephalus australis* (Gould, 1838)
- LOCUSTELLIDAE**
- Locustella fasciolata* (Gray, GR, 1861)
 - Megalurus macrurus* (Salvadori, 1876)
- CISTICOLIDAE**
- Cisticola exilis* (Vigors & Horsfield, 1827)
- ZOSTEROPIDAE**
- Zosterops atrifrons* Wallace, 1864
 - Zosterops novaeguineae* Salvadori, 1878
- STURNIDAE**
- Aploinis metallica* (Temminck, 1824)
 - Aploinis cantoroides* (Gray, GR, 1862)
 - Mino dumontii* Lesson, 1827
 - Mino anais* (Lesson, 1839)
 - Sturnus vulgaris* Linnaeus, 1758
- TURDIDAE**
- Zoothera heinei* (Cabanis, 1850)
 - Turdus poliocephalus* Latham, 1801
- MUSCICAPIDAE**
- Monticola solitarius* (Linnaeus, 1758)
 - Saxicola caprata* (Linnaeus, 1766)
- NECTARINIIDAE**
- Dicaeum gelvinkianum* Meyer, AB, 1874
 - Cinnyris jugularis* (Linnaeus, 1766)
 - Leptocoma aspasia* (Lesson & Garnot, 1828)
- PASSERIDAE**
- Passer domesticus* (Linnaeus, 1758)
- ESTRILDIDAE**
- Oreosaurus fuliginosus* (De Vis, 1897)
 - Erythrura trichroa* (Kittlitz, 1833)
 - Erythrura papuana* Hartert, 1900
 - Lonchura caniceps* (Salvadori, 1876)
 - Lonchura tristissima* (Wallace, 1865)
 - Lonchura grandis* (Sharpe, 1882)
 - Lonchura castaneothorax* (Gould, 1837)
 - Lonchura monticola* (De Vis, 1897)
- MOTACILLIDAE**
- Motacilla tschutschensis* Gmelin, JF, 1789
 - Anthus gutturalis* De Vis, 1894

13.16 Appendix 16 - Checklist of Birds From the Kokoda Outer Area of Interest (518 spp.)

CASUARIIDAE

- Casuarius casuarius* (Linnaeus, 1758)
Casuarius bennetti Gould, 1857

ANATIDAE

- Dendrocygna guttata* Schlegel, 1866
Dendrocygna arcuata (Horsfield, 1824)
Tadorna radjah (Lesson, 1828)
Salvadorina waigiensis Rothschild & Hartert, 1894
Nettapus pulchellus Gould, 1842
Anas superciliosa Gmelin, JF, 1789
Anas gracilis Buller, 1869
Anas querquedula Linnaeus, 1758
Aythya australis (Eyton, 1838)

MEGAPODIIDAE

- Aepyopodium arfakianus* (Salvadori, 1877)
Talegalla fuscirostris Salvadori, 1877
Talegalla jobiensis Meyer, AB, 1874
Megapodus reinwardt Dumont, 1823

PHASIANIDAE

- Colurnix ypsiloniphora* Bosc, 1792
Excalfactoria chinensis (Linnaeus, 1766)

HYDROBATIDAE

- Oceanites oceanicus* (Kuhl, 1820)
Oceanodroma matsudairae Kuroda, 1922

PROCELLARIIDAE

- Pterodroma heraldica* (Salvin, 1888)
Pseudobulweria rostrata (Peale, 1848)
Calonectris leucomelas (Temminck, 1836)
Puffinus pacificus (Gmelin, JF, 1789)

PODICIPEDIDAE

- Tachybaptus novaehollandiae* (Stephens, 1826)

PHAETHONTIDAE

- Phaethon rubricauda* Boddaert, 1783

THRESKIORNITHIDAE

- Threskiornis moluccus* (Cuvier, 1829)
Threskiornis spinicollis (Jameson, 1835)
Plegadis falcinellus (Linnaeus, 1766)
Platalea regia Gould, 1838

ARDEIDAE

- Zonerodius heliosylus* (Lesson & Garnot, 1828)
Ixobrychus flavicollis (Latham, 1790)
Ixobrychus sinensis (Gmelin, JF, 1789)
Nycticorax caledonicus (Gmelin, JF, 1789)

Butorides striata

- (Linnaeus, 1758)
Ardea ibis Linnaeus, 1758.
Ardea pacifica Latham, 1801
Ardea sumatrana Raffles, 1822
Ardea intermedia Wagler, 1829
Egretta picata (Gould, 1845)
Egretta novaehollandiae (Latham, 1790)
Egretta garzetta (Linnaeus, 1766)
Egretta sacra (Gmelin, JF, 1789)

PELECANIDAE

- Pelecanus conspicillatus* Temminck, 1824

FREGATIDAE

- Fregata minor* (Gmelin, JF, 1789)
Fregata ariel (Gray, GR, 1845)

SULIDAE

- Sula dactylatra* Lesson, 1831
Sula sula (Linnaeus, 1766)
Sula leucogaster (Boddaert, 1783)

PHALACROCORACIDAE

- Microcarbo melanoleucus* (Vieillot, 1817)
Phalacrocorax sulcirostris (von Brandt, JF, 1837)
Phalacrocorax carbo (Linnaeus, 1758)

ANHINGIDAE

- Anhinga novaehollandiae* (Gould, 1847)

PANDIONIDAE

- Pandion cristatus* (Vieillot, 1816)

ACCIPITRIDAE

- Aviceda subcristata* (Gould, 1838)
Henicopernis longicauda (Lesson & Garnot, 1828)
Macheiramphus alcinus Bonaparte, 1850
Harpyopsis novaeguineae Salvadori, 1875
Hieraetus weiskei (Reichenow, 1900)
Aquila gurneyi Gray, GR, 1861
Erythrotriorchis buergersi (Reichenow, 1914)
Megatriorchis doriae Salvadori & D'Albertis, 1875
Accipiter hiogaster (Müller, S, 1841)
Accipiter fasciatus (Vigors & Horsfield, 1827)
Accipiter melanochlamys (Salvadori, 1876)
Accipiter poliocephalus Gray, GR, 1858
Accipiter cirrocephalus (Vieillot, 1817)
Accipiter meyerianus (Sharpe, 1878)

- ACCIPITRIDAE (cont.)
- Circus spilothorax* Salvadori & D'Albertis, 1876
 - Circus approximans* Peale, 1848
 - Milvus migrans* (Boddaert, 1783)
 - Haliastur sphenurus* (Vieillot, 1818)
 - Haliastur indus* (Boddaert, 1783)
 - Haliaeetus leucogaster* (Gmelin, JF, 1788)

Gerygone ruficollis Salvadori, 1876
Gerygone levigaster Gould, 1843
Gerygone magnirostris Gould, 1843
Gerygone chrysogaster Gray, GR, 1858
Acanthiza cinerea (Salvadori, 1876)
Gerygone chloronota Gould, 1843
Gerygone olivacea (Gould, 1838)
Gerygone palpebrosa Wallace, 1865
Acanthiza murina (De Vis, 1897)

POMATOSTOMIDAE

- Garritornis isidorei* (Lesson, 1827)

ORTHONYCHIDAE

- Orthonyx novaeguineae* Meyer, AB, 1874

CNEMOPHILIDAE

- Cnemophilus loriae* (Salvadori, 1894)
Cnemophilus macgregorii De Vis, 1890
Loboparadisea sericea Rothschild, 1896

MELANOCHARITIDAE

- Melanocharis arfakiana* (Finsch, 1900)
Melanocharis nigra (Lesson, 1830)
Melanocharis longicauda Salvadori, 1876
Melanocharis versteri (Finsch, 1876)
Melanocharis striativentris Salvadori,
1894
Rhamphocaris crassirostris Salvadori,
1876
Oedistoma iliolophus (Salvadori, 1876)
Oedistoma pygmaeum Salvadori, 1876
Toxorhamphus novaeguineae (Lesson,
1827)
Toxorhamphus poliopterus (Sharpe, 1882)

PARAMYTHIIDAE

- Oreocharis arfaki* (Meyer, AB, 1875)
Paramythia montium De Vis, 1892

CINCLOSOMATIDAE

- Ptilorrhhoa leucosticta* (Sclater, PL, 1874)
Ptilorrhhoa caerulescens (Temminck,
1836)
Ptilorrhhoa castanonota (Salvadori, 1876)
Cinclosoma ajax (Temminck, 1836)

MACHAERIRHYNCHIDAE

- Machaerirhynchus flaviventer* Gould,
1851
Machaerirhynchus nigripectus Schlegel,
1871

ARTAMIDAE

- Artamus leucorynchus* (Linnaeus, 1771)
Artamus maximus Meyer, AB, 1874

CRACTICIDAE

- Peltops blainvillii* (Lesson & Garnot,
1827)
Peltops montanus Stresemann, 1921
Cracticus quoyi (Lesson & Garnot, 1827)
Cracticus mentalis Salvadori &
D'Albertis, 1875
Cracticus cassicus (Boddaert, 1783)

RHAGOLOGIDAE

- Rhagologus leucostigma* (Salvadori,
1876)

CAMPEPHAGIDAE

- Coracina novaehollandiae* (Gmelin, JF,
1789)
Coracina caeruleolegrisea (Gray, GR, 1858)
Coracina lineata (Swainson, 1825)
Coracina boyeri (Gray, GR, 1846)

13.17 Appendix 17 - Checklist of Mammals From Along the Kokoda Track (Buffered to 10 km) (121 spp.)

TACHYGLOSSIDAE

- Tachyglossus aculeatus* (Shaw, 1792)
Zaglossus bartoni (Thomas, 1907)

DASYURIDAE

- Dasyurus albopunctatus* Schlegel, 1880
Murexia melanurus (Thomas, 1899)
Murexia longicaudata (Schlegel, 1866)
Murexia rothschildi (Tate, 1938)
Sminthopsis virginiae (de Tarragon, 1847)
Planigale novaeguineae Tate & Archbold, 1941

PERAMELIDAE

- Isoodon macrourus* (Gould, 1842)
Peroryctes broadbenti (Ramsay, 1879)
Peroryctes raffrayana (Milne-Edwards, 1878)
Echymipera kalubu (Fischer, 1829)
Echymipera rufescens (Peters & Doria, 1875)
Microperoryctes longicauda (Peters & Doria, 1876)
Microperoryctes papuensis (Laurie, 1952)

BURRAMYIDAE

- Cercartetus caudatus* (Milne-Edwards, 1877)

PHALANGERIDAE

- Phalanger carmelitae* Thomas, 1898
Phalanger gymnotis Peters & Doria, 1875
Phalanger intercastellanus Thomas, 1895
Phalanger sericeus Thomas, 1907
Spilocuscus maculatus (E. Geoffroy, 1803)

PSEUDOCHIRIDAE

- Pseudochirulus canescens* (Waterhouse, 1846)
Pseudochirulus forbesi (Thomas, 1887)
Pseudochirops corinnae (Thomas, 1897)
Pseudochirops cupreus (Thomas, 1897)

PETAURIDAE

- Dactylnax palpator* (Milne-Edwards, 1888)
Dactylopsila trivirgata Gray, 1858
Petaurus breviceps Waterhouse, 1838

ACROBATIDAE

- Distoechurus pennatus* (Peters, 1874)

MACROPODIDAE

- Dendrolagus dorianus* Ramsay, 1883

Dendrolagus goodfellowi Thomas, 1908

Dorcopsis luctuosa (D'Albertis, 1874)

Dorcopsulus macleayi (Miklouho-Maclay, 1885)

Dorcopsulus vanheurni (Thomas, 1922)

Macropus agilis (Gould, 1841)

Thylogale brunii (Schreber, 1778)

MURIDAE

- Anisomys imitator* Thomas, 1903
Chiruromys forbesi Thomas, 1888
Chiruromys lamia (Thomas, 1897)
Coccymys ruemmeli (Tate & Archbold, 1941)
Crossomys moncktoni Thomas, 1907
Hydromys chrysogaster E. Geoffroy, 1804
Hyomys goliath (Milne-Edwards, 1900)
Leptomys elegans Thomas, 1897
Leptomys ernstmayri Rummel, 1932
Lorentzimys nouhuysi Jentink, 1911
Macruromys major Rümmel, 1935
Mallomys aroaensis (De Vis, 1907)
Mallomys istapantap Flannery, Aplin & Groves, 1989

Mallomys rothschildi Thomas, 1898

Melomys leucogaster (Jentink, 1908)

Melomys littillus (Thomas, 1913)

Melomys rufescens (Alston, 1877)

Microhydromys richardsoni Tate & Archbold, 1941

Mus musculus Linnaeus, 1758

Parahydromys asper (Thomas, 1906)

Paramelomys levipes (Thomas, 1897)

Paramelomys mollis (Thomas, 1913)

Paramelomys moncktoni (Thomas, 1904)

Paramelomys platyops (Thomas, 1906)

Paramelomys rubex (Thomas, 1922)

Pogonomys loriae Thomas, 1897

Pogonomys macrourus (Milne-Edwards, 1877)

Pogonomys sylvestris Thomas, 1920

13.18 Appendix 18 - Checklist of Mammals From the Interim Protection Zone (121 spp.)

TACHYGLOSSIDAE

Tachyglossus aculeatus (Shaw, 1792)
Zaglossus bartoni (Thomas, 1907)

DASYURIDAE

Dasyurus albopunctatus Schlegel, 1880
Murexia melanurus (Thomas, 1899)
Murexia longicaudata (Schlegel, 1866)
Murexia rothschildi (Tate, 1938)
Sminthopsis virginiae (de Tarragon, 1847)
Planigale novaeguineae Tate & Archbold, 1941

PERAMELIDAE

Isoodon macrourus (Gould, 1842)
Peroryctes broadbenti (Ramsay, 1879)
Peroryctes raffrayana (Milne-Edwards, 1878)
Echymipera kalubu (Fischer, 1829)
Echymipera rufescens (Peters & Doria, 1875)
Microperoryctes longicauda (Peters & Doria, 1876)
Microperoryctes papuensis (Laurie, 1952)

BURRAMYIDAE

Cercartetus caudatus (Milne-Edwards, 1877)

PHALANGERIDAE

Phalanger carmelitae Thomas, 1898
Phalanger gymnotis Peters & Doria, 1875
Phalanger intercastellanus Thomas, 1895
Phalanger sericeus Thomas, 1907
Spilocucus maculatus (E. Geoffroy, 1803)

PSEUDOCHIRIDAE

Pseudochirulus canescens (Waterhouse, 1846)
Pseudochirulus forbesi (Thomas, 1887)
Pseudochirops corinnae (Thomas, 1897)
Pseudochirops cupreus (Thomas, 1897)

PETAURIDAE

Dactylyonax palpator (Milne-Edwards, 1888)
Dactylopsila trivirgata Gray, 1858
Petaurus breviceps Waterhouse, 1838

ACROBATIDAE

Distoechurus pennatus (Peters, 1874)

MACROPODIDAE

Dendrolagus dorianus Ramsay, 1883
Dendrolagus goodfellowi Thomas, 1908

Dorcopsis luctuosa (D'Albertis, 1874)

Dorcopsulus macleayi (Miklouho-Maclay, 1885)

Dorcopsulus vanheurni (Thomas, 1922)

Macropus agilis (Gould, 1841)

Thylogale brunii (Schreber, 1778)

MURIDAE

Anisomys imitator Thomas, 1903
Chiruromys forbesi Thomas, 1888
Chiruromys lamia (Thomas, 1897)
Coccymys ruemmleri (Tate & Archbold, 1941)
Crossomys moncktoni Thomas, 1907
Hydromys chrysogaster E. Geoffroy, 1804
Hyomys goliath (Milne-Edwards, 1900)
Leptomys elegans Thomas, 1897
Leptomys ernstmayri Rummel, 1932
Lorentzimys nouhuysi Jentink, 1911
Macruromys major Rümmel, 1935
Mallomys aroensis (De Vis, 1907)
Mallomys istapantap Flannery, Aplin & Groves, 1989

Mallomys rothschildi Thomas, 1898

Melomys leucogaster (Jentink, 1908)

Melomys lutillus (Thomas, 1913)

Melomys rufescens (Alston, 1877)

Microhydromys richardsoni Tate & Archbold, 1941

Mus musculus Linnaeus, 1758

Parahydromys asper (Thomas, 1906)

Paramelomys levipes (Thomas, 1897)

Paramelomys mollis (Thomas, 1913)

Paramelomys moncktoni (Thomas, 1904)

Paramelomys platyops (Thomas, 1906)

Paramelomys rubex (Thomas, 1922)

Pogonomys loriae Thomas, 1897

Pogonomys macrourus (Milne-Edwards, 1877)

Pogonomys sylvestris Thomas, 1920

Rattus exulans (Peale, 1848)

Rattus leucopus (Gray, 1867)

Rattus mordax (Thomas, 1904)

Rattus niobe (Thomas, 1906)

Rattus norvegicus (Berkenhout, 1769)

Rattus rattus (Linnaeus, 1758)

Rattus sordidus (Gould, 1857)

Rattus verecundus (Thomas, 1904)

Uromys anak Thomas, 1907

13.22 Appendix 22 - Amphibians of the Brown River Catchment (46 spp.)

<i>Albericus valkuriarum</i>	<i>Litoria impura</i>
<i>Aphantophryne minuta</i>	<i>Litoria infrafrenata</i>
<i>Aphantophryne sabini</i>	<i>Litoria micromembrana</i>
<i>Austrochaperina brevipes</i>	<i>Litoria modica</i>
<i>Austrochaperina palmipes</i>	<i>Litoria nasuta</i>
<i>Callulops doriae</i>	<i>Litoria prora</i>
<i>Callulops undiagnosed</i>	<i>Litoria pygmaea</i>
<i>Cophixalus variabilis</i>	<i>Litoria thesaurensis</i>
<i>Cophixalus verecundus</i>	<i>Litoria timida</i>
<i>Cophixalus verrucosus</i>	<i>Litoria vocivincens</i>
<i>Hylarana arfaki</i>	<i>Litoria wollastoni</i>
<i>Hylarana daemeli</i>	<i>Mantophryne lateralis</i>
<i>Hylarana garritor</i>	<i>Nyctimystes cheesmani</i>
<i>Hylarana milneana</i>	<i>Nyctimystes gularis</i>
<i>Hylarana supragrisea</i>	<i>Nyctimystes kubori</i>
<i>Hylophorus rufescens</i>	<i>Nyctimystes papua</i>
<i>Lechriodus aganoposis</i>	<i>Nyctimystes pulcher</i>
<i>Lechriodus melanopyga</i>	<i>Nyctimystes semipalmatus</i>
<i>Liophryne similis</i>	<i>Nyctimystes trachydermis</i>
<i>Litoria angiana</i>	<i>Oreophryne anthonyi</i>
<i>Litoria arfakiana</i>	<i>Oreophryne loriae</i>
<i>Litoria chloristona</i>	<i>Rhinella marina</i>
<i>Litoria congenita</i>	
<i>Litoria genimaculata</i>	

13.23 Appendix 23 - Reptiles of the Brown River Catchment (92 spp.)

<i>Acanthophis laevis</i>	<i>Lialis burtonis</i>
<i>Aspidomorphus muelleri</i>	<i>Lialis jicari</i>
<i>Boiga irregularis</i>	<i>Liasis fuscus</i>
<i>Bothrochilus meridionalis</i>	<i>Liasis papuana</i>
<i>Candoia aspera</i>	<i>Lobulia elegans</i>
<i>Candoia paulsoni</i>	<i>Lobulia subalpina</i>
<i>Carlia bicarinata</i>	<i>Lygisaurus macfarlani</i>
<i>Carlia luctuosa</i>	<i>Micropechis ikaheka</i>
<i>Chelodina pritchardi</i>	<i>Morelia viridis</i>
<i>Crocodylus novaeguineae</i>	<i>Myron richardsoni</i>
<i>Crocodylus porosus</i>	<i>Oxyuranus scutellatus</i>
<i>Cryptoblepharus novaeguineae</i>	<i>Papuascincus morokanus</i>
<i>Cryptoblepharus virgatus</i>	<i>Papuascincus stanleyanus</i>
<i>Cryptoblepharus yulensis</i>	<i>Pelochelys bibroni</i>
<i>Cyrtodactylus loriae</i>	<i>Prasinohaema flavipes</i>
<i>Demansia vestigiata</i>	<i>Pseudechis papuanus</i>
<i>Dendrelaphis calligaster</i>	<i>Pseudonaja textilis</i>
<i>Dendrelaphis gastrostictus</i>	<i>Simalia amethystina</i>
<i>Dendrelaphis lineolatus</i>	<i>Simalia boeleni</i>
<i>Dendrelaphis macrops</i>	<i>Sphenomorphus forbesii</i>
<i>Emoia atrocostata</i>	<i>Sphenomorphus fragilis</i>
<i>Emoia caeruleocauda</i>	<i>Sphenomorphus fuscolineatus</i>
<i>Emoia kordoana</i>	<i>Sphenomorphus jobiensis</i>
<i>Emoia longicauda</i>	<i>Sphenomorphus loriae</i>
<i>Emoia obscura</i>	<i>Sphenomorphus minutus</i>
<i>Emoia pallidiceps</i>	<i>Sphenomorphus nigrolineatus</i>
<i>Emoia physicae</i>	<i>Sphenomorphus papuae</i>
<i>Emoia submetallica</i>	<i>Sphenomorphus pratti</i>
<i>Emydura subglobosa</i>	<i>Sphenomorphus simus</i>
<i>Eugongylus rufescens</i>	<i>Sphenomorphus solomonis</i>
<i>Fordonia leucobalia</i>	<i>Stegonotus cucullatus</i>
<i>Furina tristis</i>	<i>Stegonotus diehli</i>
<i>Gehyra insulensis</i>	<i>Stegonotus modestus</i>
<i>Gehyra membranacruralis</i>	<i>Tiliqua gigas</i>
<i>Gekko vittatus</i>	<i>Toxicocalamus loriae</i>
<i>Gerrhopilus fredparkeri</i>	<i>Tropidonophis doriae</i>
<i>Gerrhopilus mcdowelli</i>	<i>Tropidonophis mairii</i>
<i>Glaphyromorphus nigricaudis</i>	<i>Tropidonophis multiscutellatus</i>
<i>Hemidactylus frenatus</i>	<i>Tropidonophis picturatus</i>
<i>Hemidactylus garnotii</i>	<i>Tropidonophis statisticus</i>
<i>Hemiphyllodactylus typus</i>	<i>Varanus indicus</i>
<i>Hypsilurus dilophus</i>	<i>Varanus jobiensis</i>
<i>Hypsilurus modestus</i>	<i>Varanus panoptes</i>
<i>Hypsilurus papuensis</i>	<i>Varanus prasinus</i>
<i>Indotyphlops braminus</i>	<i>Varanus salvadorii</i>
<i>Lepidodactylus lugubris</i>	
<i>Lepidodactylus orientalis</i>	

13.24 Appendix 24 - Birds of the Brown River Catchment (455 spp.)

<i>Acanthiza murina</i>	<i>Cacatua galerita</i>
<i>Accipiter cirrocephalus</i>	<i>Cacomantis castaneiventris</i>
<i>Accipiter fasciatus</i>	<i>Cacomantis flabelliformis</i>
<i>Accipiter hiogaster</i>	<i>Cacomantis variolosus</i>
<i>Accipiter melanochlamys</i>	<i>Calidris alba</i>
<i>Accipiter meyerianus</i>	<i>Calidris falcinellus</i>
<i>Accipiter poliocephalus</i>	<i>Calidris ruficollis</i>
<i>Acrocephalus arundinaceus</i>	<i>Calidris tenuirostris</i>
<i>Acrocephalus stentoreus</i>	<i>Caliechthrus leucolophus</i>
<i>Actitis hypoleucos</i>	<i>Campochera sloetii</i>
<i>Aegotheles albertisi</i>	<i>Caprimulgus macrurus</i>
<i>Aegotheles bennettii</i>	<i>Casuarius bennetti</i>
<i>Aegotheles cristatus</i>	<i>Casuarius casuarius</i>
<i>Aegotheles insignis</i>	<i>Centropus menbeki</i>
<i>Aepyornis afrikianus</i>	<i>Centropus phasianinus</i>
<i>Aerodramus hirundinaceus</i>	<i>Ceyx azureus</i>
<i>Aerodramus vanikorensis</i>	<i>Ceyx pusillus</i>
<i>Ailuroedus buccoides</i>	<i>Ceyx solitarius</i>
<i>Ailuroedus melanotis</i>	<i>Chaetorhynchus papuensis</i>
<i>Aleadryas rufinucha</i>	<i>Chalcites basalis</i>
<i>Alisterus chloropterus</i>	<i>Chalcites lucidus</i>
<i>Alopecoenas beccarii</i>	<i>Chalcites megarhynchus</i>
<i>Alopecoenas jobiensis</i>	<i>Chalcites meyeri</i>
<i>Amalocichla incerta</i>	<i>Chalcites minutillus</i>
<i>Amalocichla sclateriana</i>	<i>Chalcites ruficollis</i>
<i>Amaurornis cinerea</i>	<i>Chalcophaps longirostris</i>
<i>Amaurornis moluccana</i>	<i>Chalcophaps stephani</i>
<i>Amblyornis macgregoriae</i>	<i>Chalcopsitta scintillata</i>
<i>Amblyornis subalaris</i>	<i>Charadrius mongolus</i>
<i>Anas gracilis</i>	<i>Charadrius veredus</i>
<i>Anas superciliosa</i>	<i>Charmosyna placensis</i>
<i>Anhinga novaehollandiae</i>	<i>Charmosyna pulchella</i>
<i>Anthus gutturalis</i>	<i>Charmosyna stellae</i>
<i>Aplonis cantoroides</i>	<i>Charmosyna wilhelminae</i>
<i>Aplonis metallica</i>	<i>Chlamydera cerviniventris</i>
<i>Apus pacificus</i>	<i>Chlidonias hybrida</i>
<i>Aquila gurneyi</i>	<i>Chlidonias leucopterus</i>
<i>Ardea alba</i>	<i>Cicinnurus magnificus</i>
<i>Ardea pacifica</i>	<i>Cicinnurus regius</i>
<i>Ardea plumifera</i>	<i>Cinclosoma ajax</i>
<i>Ardea sumatrana</i>	<i>Circus approximans</i>
<i>Arenaria interpres</i>	<i>Circus spilocephalus</i>
<i>Arses telescopthalmus</i>	<i>Cisticola exilis</i>
<i>Artamus leucorynchus</i>	<i>Clytoceyx rex</i>
<i>Artamus maximus</i>	<i>Clytomyias insignis</i>
<i>Astrapia stephaniae</i>	<i>Cnemophilus loriae</i>
<i>Aviceda subcristata</i>	<i>Cnemophilus macgregorii</i>
<i>Aythya australis</i>	<i>Collocalia esculenta</i>
<i>Butorides striata</i>	<i>Colluricincla harmonica</i>

<i>Colluricincla megarhyncha</i>	<i>Eugerygone rubra</i>
<i>Columba vitiensis</i>	<i>Eulacestoma nigropectus</i>
<i>Conopophila albogularis</i>	<i>Eurostopodus archboldi</i>
<i>Coracina boyeri</i>	<i>Eurostopodus mystacalis</i>
<i>Coracina caeruleogrisea</i>	<i>Eurostopodus papuensis</i>
<i>Coracina incerta</i>	<i>Eurystomus orientalis</i>
<i>Coracina lineata</i>	<i>Falco berigora</i>
<i>Coracina longicauda</i>	<i>Falco cenchroides</i>
<i>Coracina melas</i>	<i>Falco longipennis</i>
<i>Coracina novaehollandiae</i>	<i>Falco peregrinus</i>
<i>Coracina papuensis</i>	<i>Falco severus</i>
<i>Coracina schisticeps</i>	<i>Fulica atra</i>
<i>Coracina tenuirostris</i>	<i>Gallicolumba rufigula</i>
<i>Cormobates placens</i>	<i>Gallinula tenebrosa</i>
<i>Corvus orru</i>	<i>Gelochelidon macrotarsa</i>
<i>Corvus tristis</i>	<i>Gelochelidon nilotica</i>
<i>Cracticus cassicus</i>	<i>Geoffroyus geoffroyi</i>
<i>Cracticus mentalis</i>	<i>Geoffroyus simplex</i>
<i>Cracticus quoyi</i>	<i>Geopelia humeralis</i>
<i>Crateroscelis murina</i>	<i>Geopelia placida</i>
<i>Crateroscelis nigrorufa</i>	<i>Gerygone chloronota</i>
<i>Crateroscelis robusta</i>	<i>Gerygone chrysogaster</i>
<i>Cuculus saturatus</i>	<i>Gerygone cinerea</i>
<i>Cyclopsitta melanogenia</i>	<i>Gerygone magnirostris</i>
<i>Dacelo gaudichaud</i>	<i>Gerygone olivacea</i>
<i>Dacelo leachii</i>	<i>Gerygone palpebrosa</i>
<i>Daphoenositta chrysoptera</i>	<i>Gerygone ruficollis</i>
<i>Daphoenositta miranda</i>	<i>Glareola maldivarum</i>
<i>Dendrocygna arcuata</i>	<i>Glycichaera fallax</i>
<i>Dendrocygna guttata</i>	<i>Goura scheepmakeri</i>
<i>Dicaeum geelvinkianum</i>	<i>Grallina bruijni</i>
<i>Dicrurus bracteatus</i>	<i>Gymnocrex plumbeiventris</i>
<i>Drymodes superciliaris</i>	<i>Gymnophaps albertisii</i>
<i>Ducula chalconota</i>	<i>Haliaeetus leucogaster</i>
<i>Ducula mullerii</i>	<i>Haliastur indus</i>
<i>Ducula pinon</i>	<i>Haliastur sphenurus</i>
<i>Ducula ruficaster</i>	<i>Harpyopsis novaeguineae</i>
<i>Ducula spilorrhoea</i>	<i>Hemiprocne mystacea</i>
<i>Ducula zoeae</i>	<i>Henicopernis longicauda</i>
<i>Eclectus roratus</i>	<i>Henicophaps albifrons</i>
<i>Egretta garzetta</i>	<i>Heteromyias albispecularis</i>
<i>Egretta novaehollandiae</i>	<i>Hieraetus weiskei</i>
<i>Egretta picata</i>	<i>Himantopus himantopus</i>
<i>Egretta sacra</i>	<i>Hirundapus caudacutus</i>
<i>Eopsaltria pulverulenta</i>	<i>Hirundo daurica</i>
<i>Epimachus albertisi</i>	<i>Hirundo nigricans</i>
<i>Epimachus meyeri</i>	<i>Hirundo rustica</i>
<i>Erythrogonyx cinctus</i>	<i>Hirundo tahitica</i>
<i>Erythrotriorchis buergersi</i>	<i>Hypotaenidia philippensis</i>
<i>Erythrura papuana</i>	<i>Ifrita kowaldi</i>
<i>Erythrura trichroa</i>	<i>Irediparra gallinacea</i>
<i>Eudynamys orientalis</i>	<i>Ixobrychus flavicollis</i>

<i>Ixobrychus sinensis</i>	<i>Meliphaga flavigaster</i>
<i>Lalage leucomela</i>	<i>Meliphaga gracilis</i>
<i>Lalage tricolor</i>	<i>Meliphaga mimikae</i>
<i>Larus ridibundus</i>	<i>Meliphaga orientalis</i>
<i>Lewinia pectoralis</i>	<i>Melipotes fumigatus</i>
<i>Lichenostomus flavescens</i>	<i>Melithreptus albogularis</i>
<i>Lichenostomus obscurus</i>	<i>Merops ornatus</i>
<i>Lichenostomus subfrenatus</i>	<i>Merops philippinus</i>
<i>Lichmera alboauricularis</i>	<i>Microcarbo melanoleucos</i>
<i>Limosa lapponica</i>	<i>Microdynamis parva</i>
<i>Limosa limosa</i>	<i>Microeca fascinans</i>
<i>Loboparadisea sericea</i>	<i>Microeca flavigaster</i>
<i>Locustella fasciolata</i>	<i>Microeca flavovirescens</i>

<i>Macheiramphus alcinus</i>	<i>Monarcha guttula</i>
<i>Macropygia amboinensis</i>	<i>Monarcha manadensis</i>
<i>Macropygia nigrostris</i>	<i>Monarcha melanopsis</i>
<i>Malurus alboscapulatus</i>	<i>Motacilla tschutschensis</i>
<i>Malurus cyanocephalus</i>	<i>Myiagra alecto</i>
<i>Manucodia ater</i>	<i>Myiagra rubecula</i>
<i>Manucodia chalybatus</i>	<i>Myiagra ruficollis</i>
<i>Manucodia kerawrenii</i>	<i>Myzomela adolphinae</i>
<i>Mearnsia novaeguineae</i>	<i>Myzomela cruentata</i>
<i>Megaloprepia magnifica</i>	<i>Myzomela eques</i>
<i>Megalurus macrurus</i>	<i>Myzomela erythrocephala</i>
<i>Megapodius reinwardt</i>	<i>Myzomela nigrita</i>
<i>Megatriorchis doriae</i>	<i>Myzomela obscura</i>
<i>Melampitta lugubris</i>	<i>Myzomela rosenbergii</i>
<i>Melanocharis arfakiana</i>	<i>Nectarinia aspasia</i>
<i>Melanocharis longicauda</i>	<i>Nectarinia jugularis</i>
<i>Melanocharis nigra</i>	<i>Neopsittacus musschenbroekii</i>
<i>Melanocharis striativentris</i>	<i>Neopsittacus pullicauda</i>
<i>Melanocharis versteri</i>	<i>Nettapus pulchellus</i>
<i>Melidectes belfordi</i>	<i>Ninox connivens</i>
<i>Melidectes fuscus</i>	<i>Ninox rufa</i>
<i>Melidectes ochromelas</i>	<i>Ninox theomacha</i>
<i>Melidectes torquatus</i>	<i>Numenius madagascariensis</i>
<i>Melidora macrorrhina</i>	<i>Numenius phaeopus</i>
<i>Melilestes megarhynchus</i>	<i>Nycticorax caledonicus</i>
<i>Meliphaga albonotata</i>	<i>Oedistoma pygmaeum</i>
<i>Meliphaga analoga</i>	<i>Oreocaris arfaki</i>
<i>Meliphaga aruensis</i>	<i>Oreopsittacus arfaki</i>

<i>Oreostrethus fuliginosus</i>	<i>Psittacella brehmii</i>
<i>Oriolus flavocinctus</i>	<i>Psittacella madaraszi</i>
<i>Oriolus szalayi</i>	<i>Psittacella picta</i>
<i>Orthonyx novaeguineae</i>	<i>Psittaculirostris cervicalis</i>
<i>Otidiphaps cervicalis</i>	<i>Psitteuteles goldiei</i>
<i>Pachycare flavogriseum</i>	<i>Psittrichas fulgidus</i>
<i>Pachycephala aurea</i>	<i>Ptilinopus aurantiifrons</i>
<i>Pachycephala hyperythra</i>	<i>Ptilinopus coronulatus</i>
<i>Pachycephala leucogastra</i>	<i>Ptilinopus gestroi</i>
<i>Pachycephala melanura</i>	<i>Ptilinopus iozonus</i>
<i>Pachycephala modesta</i>	<i>Ptilinopus nainus</i>
<i>Pachycephala schlegelii</i>	<i>Ptilinopus perlatus</i>
<i>Pachycephala simplex</i>	<i>Ptilinopus pulchellus</i>
<i>Pachycephala soror</i>	<i>Ptilinopus rivoli</i>
<i>Pachycephalopsis poliosoma</i>	<i>Ptilinopus superbus</i>
<i>Pandion haliaetus</i>	<i>Ptiloprora guisei</i>
<i>Paradisaea raggiana</i>	<i>Ptiloprora meekiana</i>
<i>Paradisaea rudolphi</i>	<i>Ptiloprora perstriata</i>
<i>Paramythia montium</i>	<i>Ptiloprora plumbea</i>
<i>Parotia lawesii</i>	<i>Ptiloris intercedens</i>
<i>Pelecanus conspicillatus</i>	<i>Ptiloris magnificus</i>
<i>Peltops blainvillii</i>	<i>Ptilorrhina caerulescens</i>
<i>Peltops montanus</i>	<i>Ptilorrhina castanonota</i>
<i>Peneothello bimaculata</i>	<i>Ptilorrhina leucosticta</i>
<i>Peneothello cyanus</i>	<i>Pycnopygius cinereus</i>
<i>Peneothello signatus</i>	<i>Pycnopygius ixoides</i>
<i>Petroica bivittata</i>	<i>Pycnopygius stictocephalus</i>
<i>Phalacrocorax carbo</i>	<i>Radjah radjah</i>
<i>Phalacrocorax sulcirostris</i>	<i>Rallicula forbesi</i>
<i>Philemon meyeri</i>	<i>Rallina tricolor</i>
<i>Philemon novaeguineae</i>	<i>Ramsayornis modestus</i>
<i>Phylloscopus poliocephalus</i>	<i>Reinwardtoena reinwardti</i>
<i>Pitohui cristatus</i>	<i>Rhagologus leucostigma</i>
<i>Pitohui dichrous</i>	<i>Rhamphocharis crassirostris</i>
<i>Pitohui ferrugineus</i>	<i>Rhipidura albolimbata</i>
<i>Pitohui kirhocephalus</i>	<i>Rhipidura atra</i>
<i>Pitohui nigrescens</i>	<i>Rhipidura brachyrhyncha</i>
<i>Pitta erythrogaster</i>	<i>Rhipidura hyperythra</i>
<i>Pitta sordida</i>	<i>Rhipidura leucophrys</i>
<i>Pitta versicolor</i>	<i>Rhipidura leucothorax</i>
<i>Platalea regia</i>	<i>Rhipidura maculipectus</i>
<i>Pluvialis fulva</i>	<i>Rhipidura rufidorsa</i>
<i>Pluvialis squatarola</i>	<i>Rhipidura rufifrons</i>
<i>Podargus ocellatus</i>	<i>Rhipidura rufiventris</i>
<i>Podargus papuensis</i>	<i>Rhipidura threnothorax</i>
<i>Poecilodryas albonotata</i>	<i>Rhyticeros plicatus</i>
<i>Poecilodryas hypoleuca</i>	<i>Salvadorina waigiuensis</i>
<i>Poecilodryas placens</i>	<i>Saxicola caprata</i>
<i>Pomatostomus isidorei</i>	<i>Scolopax rosebergii</i>
<i>Porphyrio porphyrio</i>	<i>Scythrops novaehollandiae</i>
<i>Probosciger aterrimus</i>	<i>Seleucidis melanoleucus</i>
<i>Pseudeos fuscata</i>	<i>Sericornis arfakianus</i>

<i>Sericornis nouhuysi</i>	<i>Toxorhamphus poliopterus</i>
<i>Sericornis papuensis</i>	<i>Tregellasia leucops</i>
<i>Sericornis perspicillatus</i>	<i>Trichoglossus haematodus</i>
<i>Sericornis spilodera</i>	<i>Tringa brevipes</i>
<i>Sipodotus wallacii</i>	<i>Tringa glareola</i>
<i>Spatula querquedula</i>	<i>Trugon terrestris</i>
<i>Sphecotheres vieilloti</i>	<i>Turdus poliocephalus</i>
<i>Syma megarhyncha</i>	<i>Turnix maculosus</i>
<i>Syma torotoro</i>	<i>Tyto alba</i>
<i>Synoicus chinensis</i>	<i>Tyto longimembris</i>
<i>Synoicus ypsilophorus</i>	<i>Tyto tenebricosa</i>
<i>Tachybaptus novaehollandiae</i>	<i>Uroglaux dimorpha</i>
<i>Talegalla fuscirostris</i>	<i>Vanellus miles</i>
<i>Tanysiptera danae</i>	<i>Xanthotis flaviventer</i>
<i>Tanysiptera galatea</i>	<i>Xanthotis polygrammus</i>
<i>Tanysiptera sylvia</i>	<i>Zapornia pusilla</i>
<i>Threskiornis moluccus</i>	<i>Zapornia tabuensis</i>
<i>Threskiornis spinicollis</i>	<i>Zonerodius heliosylus</i>
<i>Timeliopsis fulvigula</i>	<i>Zoothera heinei</i>
<i>Timeliopsis griseigula</i>	<i>Zosterops atrifrons</i>
<i>Todiramphus chloris</i>	<i>Zosterops novaeguineae</i>
<i>Todiramphus macleayii</i>	
<i>Todiramphus sanctus</i>	
<i>Toxorhamphus iliolophus</i>	

13.25 Appendix 25 - Mammals of the Brown River Catchment (120 spp.)

<i>Anisomys imitator</i>	<i>Miniopterus australis</i>
<i>Cercartetus caudatus</i>	<i>Miniopterus macrocneme</i>
<i>Chaerephon jobensis</i>	<i>Miniopterus medius</i>
<i>Chalinolobus nigrogriseus</i>	<i>Miniopterus oceanensis</i>
<i>Chiruromys forbesi</i>	<i>Miniopterus tristis</i>
<i>Chiruromys lamia</i>	<i>Mormopterus loriae</i>
<i>Coccymys kirrhos</i>	<i>Mosia nigrescens</i>
<i>Crossomys moncktoni</i>	<i>Murexia longicaudata</i>
<i>Dactylonax palpator</i>	<i>Murexia melanurus</i>
<i>Dactylopsila trivirgata</i>	<i>Murexia rothschildi</i>
<i>Dasyurus albopunctatus</i>	<i>Murina florium</i>
<i>Dendrolagus dorianus</i>	<i>Mus musculus</i>
<i>Dendrolagus goodfellowi</i>	<i>Myotis moluccarum</i>
<i>Distroechurus pennatus</i>	<i>Nyctimene aello</i>
<i>Dobsonia minor</i>	<i>Nyctimene albiventer</i>
<i>Dobsonia moluccensis</i>	<i>Nyctimene certans</i>
<i>Dorcopsis luctuosa</i>	<i>Nyctimene robinsoni</i>
<i>Dorcopsulus macleayi</i>	<i>Nyctophilus microtis</i>
<i>Dorcopsulus vanheurni</i>	<i>Parahydromys asper</i>
<i>Echymipera kalubu</i>	<i>Paramelomys levipes</i>
<i>Echymipera rufescens</i>	<i>Paramelomys mollis</i>
<i>Emballonura beccarii</i>	<i>Paramelomys moncktoni</i>
<i>Emballonura raffrayana</i>	<i>Paramelomys platyops</i>
<i>Hipposideros ater</i>	<i>Paramelomys rubex</i>
<i>Hipposideros calcaratus</i>	<i>Paranyctimene raptor</i>
<i>Hipposideros cervinus</i>	<i>Paranyctimene tenax</i>
<i>Hipposideros diadema</i>	<i>Peroryctes broadbenti</i>
<i>Hipposideros maggietaaylorae</i>	<i>Peroryctes raffrayana</i>
<i>Hipposideros muscinus</i>	<i>Petaurus breviceps</i>
<i>Hipposideros semoni</i>	<i>Phalanger carmelitae</i>
<i>Hydromys chrysogaster</i>	<i>Phalanger gymnotis</i>
<i>Hyomys goliath</i>	<i>Phalanger intercastellanus</i>
<i>Isoodon macrourus</i>	<i>Phalanger sericeus</i>
<i>Kerivoula muscina</i>	<i>Philetor brachypterus</i>
<i>Leptomys elegans</i>	<i>Phoniscus papuensis</i>
<i>Leptomys ernstmayri</i>	<i>Pipistrellus angulatus</i>
<i>Leptomys paulus</i>	<i>Pipistrellus collinus</i>
<i>Lorentzimys nouhuysi</i>	<i>Pipistrellus papuanus</i>
<i>Macroglossus minimus</i>	<i>Pipistrellus wattsi</i>
<i>Macropus agilis</i>	<i>Planigale novaeguineae</i>
<i>Macruromys major</i>	<i>Pogonomys loriae</i>
<i>Mallomys aroaensis</i>	<i>Pogonomys macrourus</i>
<i>Mallomys rothschildi</i>	<i>Pogonomys sylvestris</i>
<i>Melomys leucogaster</i>	<i>Pseudochirops corinnae</i>
<i>Melomys lutillus</i>	<i>Pseudochirops cupreus</i>
<i>Melomys rufescens</i>	<i>Pseudochirulus canescens</i>
<i>Microhydromys argenteus</i>	<i>Pseudochirulus forbesi</i>
<i>Microperoryctes longicauda</i>	<i>Pteropus conspicillatus</i>
<i>Microperoryctes papuensis</i>	<i>Pteropus macrotis</i>

<i>Pteropus neohibernicus</i>	<i>Sminthopsis virginiae</i>
<i>Rattus exulans</i>	<i>Spilocuscus maculatus</i>
<i>Rattus leucopus</i>	<i>Syconycteris australis</i>
<i>Rattus mordax</i>	<i>Tadarida kuboriensis</i>
<i>Rattus niobe</i>	<i>Thylogale brunii</i>
<i>Rattus norvegicus</i>	<i>Uromys anak</i>
<i>Rattus rattus</i>	<i>Uromys caudimaculatus</i>
<i>Rattus sordidus</i>	<i>Xenuromys barbatus</i>
<i>Rattus verecundus</i>	<i>Zaglossus bartoni</i>
<i>Rhinolophus euryotis</i>	
<i>Rhinolophus megaphyllus</i>	
<i>Rousettus amplexicaudatus</i>	
<i>Scotorepens sanborni</i>	

13.26 Appendix 26 - Vascular Plants of the Owen Stanley Range (> 300 m elevation)
 (3803 spp.)

<i>Abroma augustum</i>	<i>Aeginetia indica</i>
<i>Abrus precatorius</i>	<i>Aerobryidium crispifolium</i>
<i>Acacia auriculiformis</i>	<i>Aerobryopsis longissima</i>
<i>Acacia leptocarpa</i>	<i>Aerobryopsis sp.</i>
<i>Acaena anserinifolia</i>	<i>Aeschynanthus discorensis</i>
<i>Acaena novae-zelandiae</i>	<i>Aeschynanthus hartleyi</i>
<i>Acalypha hellwigii</i>	<i>Aeschynanthus leptocladus</i>
<i>Acalypha phyllonomifolia</i>	<i>Aeschynanthus nummularius</i>
<i>Acalypha sp.</i>	<i>Aeschynanthus sp.</i>
<i>Aceratium archboldianum</i>	<i>Agalmyla chalmersii</i>
<i>Aceratium brassii</i>	<i>Agalmyla pauciflora</i>
<i>Aceratium ledermannii</i>	<i>Agapetes albertieduardi</i>
<i>Aceratium muellerianum</i>	<i>Agapetes brassii</i>
<i>Aceratium oppositifolium</i>	<i>Agapetes carrii</i>
<i>Aceratium parvifolium</i>	<i>Agapetes costata</i>
<i>Aceratium sp.</i>	<i>Agapetes filicicola</i>
<i>Aceratium sphaerocarpum</i>	<i>Agapetes helenae</i>
<i>Achyranthes bidentata</i>	<i>Agapetes kudukii</i>
<i>Acmella grandiflora</i>	<i>Agapetes sclerophylla</i>
<i>Acmena acuminatissima</i>	<i>Agapetes sleumeriana</i>
<i>Acmena sp.</i>	<i>Agapetes sp.</i>
<i>Acothamnus suaveolens</i>	<i>Agapetes stenantha</i>
<i>Acriopsis nelsoniana</i>	<i>Agathis alba</i>
<i>Acronychia carrii</i>	<i>Agathis robusta</i>
<i>Acronychia emarginata</i>	<i>Agathis sp.</i>
<i>Acronychia intermedia</i>	<i>Agathis spathulata</i>
<i>Acronychia laurina</i>	<i>Ageratum conyzoides</i>
<i>Acronychia murina</i>	<i>Aglaia argentea</i>
<i>Acronychia pullei</i>	<i>Aglaia brassii</i>
<i>Acronychia sp.</i>	<i>Aglaia carrii</i>
<i>Acronychia trifoliolata</i>	<i>Aglaia cucullata</i>
<i>Acrophorus stipellatus</i>	<i>Aglaia cuspidata</i>
<i>Acroporium sp.</i>	<i>Aglaia euryanthera</i>
<i>Acrostichum aureum</i>	<i>Aglaia flavescens</i>
<i>Acrothamnus suaveolens</i>	<i>Aglaia gibbsiae</i>
<i>Acsmithia parvifolia</i>	<i>Aglaia lepidopetala</i>
<i>Acsmithia pulleana</i>	<i>Aglaia lepiorrhachis</i>
<i>Acsmithia reticulata</i>	<i>Aglaia leucoclada</i>
<i>Actinodaphne nitida</i>	<i>Aglaia luzoniensis</i>
<i>Actinodaphne sp.</i>	<i>Aglaia parviflora</i>
<i>Actinostachys digitata</i>	<i>Aglaia sapindina</i>
<i>Adenanthera novo-guineensis</i>	<i>Aglaia silvestris</i>
<i>Adiantum aculeolatum</i>	<i>Aglaia sp.</i>
<i>Adiantum christii</i>	<i>Aglaia subcuprea</i>
<i>Adiantum diaphanum</i>	<i>Aglaia subminutiflora</i>
<i>Adiantum philippense</i>	<i>Aglaia tomentosa</i>
<i>Adinandira forbesii</i>	<i>Aglaia vitiensis</i>
<i>Adinandra sp.</i>	<i>Aglaomorpha drynarioides</i>

<i>Aglaomorpha heraclea</i>	<i>Amomum</i> sp.
<i>Aglaomorpha hieronymi</i>	<i>Amoora</i> sp.
<i>Aglaomorpha novoguineensis</i>	<i>Ampelopteris</i> <i>prolifera</i>
<i>Agrostis infirma</i>	<i>Amphineuron</i> <i>logavensis</i>
<i>Agrostis</i> sp.	<i>Amphineuron</i> <i>terminans</i>
<i>Agrostophyllum agathodaemonis</i>	<i>Amydrium</i> <i>magnificum</i>
<i>Agrostophyllum carinoides</i>	<i>Amydrium</i> <i>zippelianum</i>
<i>Agrostophyllum crassicaule</i>	<i>Amyema</i> <i>artensis</i>
<i>Agrostophyllum decoratum</i>	<i>Amyema</i> <i>caudiciflora</i>
<i>Agrostophyllum elongatum</i>	<i>Amyema</i> <i>clavipes</i>
<i>Agrostophyllum leucocephalum</i>	<i>Amyema</i> <i>corniculatum</i>
<i>Agrostophyllum</i> sp.	<i>Amyema</i> <i>finisterrae</i>
<i>Agrostophyllum superpositum</i>	<i>Amyema</i> <i>friesianum</i>
<i>Agrostophyllum ventricosum</i>	<i>Amyema</i> <i>pachypus</i>
<i>Aistopetalum multiflorum</i>	<i>Amyema</i> <i>queenslandica</i>
<i>Alangium</i> sp.	<i>Amyema</i> <i>seemeniana</i>
<i>Alangium villosum</i>	<i>Amyema</i> sp.
<i>Albizia procera</i>	<i>Amyema</i> <i>strongylophyllum</i>
<i>Alectryon ferrugineus</i>	<i>Anacolia</i> sp.
<i>Alectryon</i> sp.	<i>Anaphalioides</i> <i>mariae</i>
<i>Aleurites moluccana</i>	<i>Anaphalis</i> <i>hellwigii</i>
<i>Aleurites rockinghamensis</i>	<i>Anaphalis</i> <i>lorentzii</i>
<i>Allophylus cobbe</i>	<i>Anaphalis</i> <i>mariae</i>
<i>Alloteropsis semialata</i>	<i>Ancistragrostis</i> <i>uncinoides</i>
<i>Alocasia monticola</i>	<i>Angiopteris</i> <i>evanidostrata</i>
<i>Alphitonia ferruginea</i>	<i>Angiopteris</i> <i>evecta</i>
<i>Alphitonia incana</i>	<i>Angiopteris</i> sp.
<i>Alphitonia macrocarpa</i>	<i>Anisoptera</i> <i>kostermansiana</i>
<i>Alphitonia</i> sp.	<i>Anisoptera</i> <i>polyandra</i>
<i>Alpinia</i> sp.	<i>Anisoptera</i> sp.
<i>Alstonia brassii</i>	<i>Anisoptera</i> <i>thurifera</i>
<i>Alstonia scholaris</i>	<i>Annesjoa</i> <i>novoguineensis</i>
<i>Alstonia spectabilis</i>	<i>Anodendron</i> <i>oblongifolium</i>
<i>Althoffia</i> sp.	<i>Anodendron</i> <i>paniculatum</i>
<i>Althoffia tripyxis</i>	<i>Anoectangium</i> sp.
<i>Alysicarpus aurantiacus</i>	<i>Anthoceros</i> sp.
<i>Alyxia acuminata</i>	<i>Anthorrhiza</i> <i>mitis</i>
<i>Alyxia longiloba</i>	<i>Anthoxanthum</i> <i>horsfieldii</i>
<i>Alyxia markgrafii</i>	<i>Anthoxanthum</i> <i>redolens</i>
<i>Alyxia oblongata</i>	<i>Anthracothecium</i> <i>columellatum</i>
<i>Alyxia papuana</i>	<i>Antiaris</i> <i>toxicaria</i>
<i>Alyxia</i> sp.	<i>Antidesma</i> <i>excavatum</i>
<i>Alyxia subalpina</i>	<i>Antidesma</i> <i>ghaesembilla</i>
<i>Alyxia tetraquetra</i>	<i>Antidesma</i> <i>jucundum</i>
<i>Amaracarpus brassii</i>	<i>Antidesma</i> <i>petiolatum</i>
<i>Amaracarpus caeruleus</i>	<i>Antidesma</i> sp.
<i>Amaracarpus compactus</i>	<i>Antrophyum</i> <i>callifolium</i>
<i>Amaracarpus nymanii</i>	<i>Antrophyum</i> <i>ledermannii</i>
<i>Amaracarpus</i> sp.	<i>Antrophyum</i> <i>parvulum</i>
<i>Amaracarpus urophyllus</i>	<i>Antrophyum</i> <i>reticulatum</i>
<i>Amischotolype mollissima</i>	<i>Antrophyum</i> sp.
<i>Amischotolype</i> sp.	<i>Aphanamixis</i> <i>grandifolia</i>

<i>Aphanamixis myrmecophila</i>	<i>Asplenium acrobryum</i>
<i>Aphanamixis polystachya</i>	<i>Asplenium affine</i>
<i>Aphanamixis sp.</i>	<i>Asplenium amboinense</i>
<i>Apluda mutica</i>	<i>Asplenium baileyanum</i>
<i>Aporum pseuodcalceolum</i>	<i>Asplenium bipinnatifidum</i>
<i>Aporusa brassii</i>	<i>Asplenium brassii</i>
<i>Aporusa carrii</i>	<i>Asplenium caudatum</i>
<i>Aporusa laxiflora</i>	<i>Asplenium cromwellianum</i>
<i>Aporusa papuana</i>	<i>Asplenium gracilifolium</i>
<i>Aporusa petiolaris</i>	<i>Asplenium hapalophyllum</i>
<i>Aporusa sp.</i>	<i>Asplenium incisodentatum</i>
<i>Aporusa vagans</i>	<i>Asplenium keysserianum</i>
<i>Apostasia papuana</i>	<i>Asplenium laserpitifolium</i>
<i>Appendicula sp.</i>	<i>Asplenium ledermannii</i>
<i>Arachniodes sp.</i>	<i>Asplenium macrophyllum</i>
<i>Araucaria cunninghamii</i>	<i>Asplenium nidus</i>
<i>Araucaria hunsteinii</i>	<i>Asplenium normale</i>
<i>Archboldiodendron calosericeum</i>	<i>Asplenium novoguineense</i>
<i>Archboldiodendron merrillianum</i>	<i>Asplenium nutans</i>
<i>Archboldiodendron sp.</i>	<i>Asplenium parvum</i>
<i>Archidendron brevipes</i>	<i>Asplenium polyodon</i>
<i>Archidendron forbesii</i>	<i>Asplenium regis</i>
<i>Archidendron lucyi</i>	<i>Asplenium sanctichristofori</i>
<i>Archidendron sp.</i>	<i>Asplenium setisectum</i>
<i>Ardisia forbesii</i>	<i>Asplenium sp.</i>
<i>Ardisia sp.</i>	<i>Asplenium subpinnatifidum</i>
<i>Ardisia sp.</i>	<i>Asplenium tafanum</i>
<i>Ardisia squarrosa</i>	<i>Asplenium tenerum</i>
<i>Ardisia tristanioides</i>	<i>Asplenium trichomanes</i>
<i>Argostemma bryophilum</i>	<i>Astelia papuana</i>
<i>Argostemma colletrichum</i>	<i>Astelia sp.</i>
<i>Argostemma sp.</i>	<i>Astronia atroviridis</i>
<i>Aristolochia acuminata</i>	<i>Astronia hollrunghii</i>
<i>Arrhenechthites dolichophylla</i>	<i>Astronia ledermannii</i>
<i>Arrhenechthites haplogyna</i>	<i>Astronia sp.</i>
<i>Arthonia trilocularis</i>	<i>Astronia triangularis</i>
<i>Arthraxon hispidus</i>	<i>Astronidium glabratum</i>
<i>Arthrocormus schimperi</i>	<i>Astronidium sp.</i>
<i>Arthrophyllum macranthum</i>	<i>Asystasia sp.</i>
<i>Arthrophyllum sp.</i>	<i>Athyrium acrocarpum</i>
<i>Artocarpus cumingiana</i>	<i>Athyrium setiferum</i>
<i>Artocarpus fretissii</i>	<i>Athyrium sp.</i>
<i>Artocarpus sp.</i>	<i>Atractocarpus macarthuri</i>
<i>Artocarpus vriesianus</i>	<i>Aulaxina minuta</i>
<i>Arundinella furva</i>	<i>Aulaxina opegraphina</i>
<i>Arundinella nepalensis</i>	<i>Aulaxina sp.</i>
<i>Arundinella setosa</i>	<i>Austrodanthonia penicillata</i>
<i>Arytera sp.</i>	<i>Austrosteenisia blackii</i>
<i>Ascarina philippinensis</i>	<i>Averrhoa carambola</i>
<i>Ascarina sp.</i>	<i>Azolla pinnata</i>
<i>Asclepias curassavica</i>	<i>Baccaurea papuana</i>
<i>Aspidothelium fugiens</i>	<i>Bambusa forbesii</i>

<i>Bambusa fruticosa</i>	<i>Blechnum vulcanicum</i>
<i>Bambusa</i> sp.	<i>Blumea arnakidophora</i>
<i>Bamlera tenuifolia</i>	<i>Blumea lacera</i>
<i>Banksia dentata</i>	<i>Blumea papuana</i>
<i>Barbella trichophora</i>	<i>Blumea riparia</i>
<i>Barringtonia apiculata</i>	<i>Blumea</i> sp.
<i>Barringtonia bоридensis</i>	<i>Blumeodendron tokbrai</i>
<i>Barringtonia calyprata</i>	<i>Blyxa</i> sp.
<i>Barringtonia calyptrocalyx</i>	<i>Boea</i> sp.
<i>Barringtonia edulis</i>	<i>Boehmeria depauperata</i>
<i>Barringtonia niedenzuana</i>	<i>Boehmeria heterophylla</i>
<i>Barringtonia papuana</i>	<i>Boehmeria</i> sp.
<i>Barringtonia samoensis</i>	<i>Boehmeria stipularis</i>
<i>Barringtonia</i> sp.	<i>Boehmeria subintegra</i>
<i>Bartonia</i> sp.	<i>Boehmeria virgata</i>
<i>Baumea glomerata</i>	<i>Bolbitis</i> sp.
<i>Baumea gunnii</i>	<i>Borreria laevis</i>
<i>Baumea rubiginosa</i>	<i>Borreria lanceolata</i>
<i>Baumea</i> sp.	<i>Borreria linearis</i>
<i>Bazzania</i> sp.	<i>Borreria</i> sp.
<i>Begonia brachybotrys</i>	<i>Botrychium</i> sp.
<i>Begonia calliantha</i>	<i>Brachiaria distachya</i>
<i>Begonia fulvovillosa</i>	<i>Brachiaria reptans</i>
<i>Begonia media</i>	<i>Brachiaria villosa</i>
<i>Begonia pediophylla</i>	<i>Brachyachne ambigua</i>
<i>Begonia pinnatifida</i>	<i>Brachychiton Carruthersii</i>
<i>Begonia randiana</i>	<i>Brachypodium</i> sp.
<i>Begonia richardsoniana</i>	<i>Brachypodium sylvaticum</i>
<i>Begonia serratipetala</i>	<i>Brachyscome elegans</i>
<i>Begonia</i> sp.	<i>Brackenridgea forbesii</i>
<i>Begonia stilandra</i>	<i>Brassica rapa</i>
<i>Begonia tafaensis</i>	<i>Braunfelsia dicranoides</i>
<i>Belvisia mucronata</i>	<i>Breynia cernua</i>
<i>Belvisia</i> sp.	<i>Breynia racemosa</i>
<i>Belvisia validinervis</i>	<i>Breynia</i> sp.
<i>Bescherellia elegantissima</i>	<i>Bruguiera gymnorhiza</i>
<i>Biatora</i> sp.	<i>Bruguiera sexangula</i>
<i>Bidens pilosa</i>	<i>Bruinsmia styracoides</i>
<i>Bierhorstia chinensis</i>	<i>Bryum apiculatum</i>
<i>Biophytum petersianum</i>	<i>Bryum argenteum</i>
<i>Bixa orellana</i>	<i>Bryum</i> sp.
<i>Bixa</i> sp.	<i>Bubbia argentea</i>
<i>Blechnum dilatatum</i>	<i>Bubbia calothysa</i>
<i>Blechnum egregium</i>	<i>Bubbia clemensis</i>
<i>Blechnum fluviatile</i>	<i>Bubbia haplopus</i>
<i>Blechnum hieronymi</i>	<i>Bubbia sororia</i>
<i>Blechnum keysseri</i>	<i>Bubbia</i> sp.
<i>Blechnum orientale</i>	<i>Buchanania amboinensis</i>
<i>Blechnum patersonii</i>	<i>Buchanania arborescens</i>
<i>Blechnum revolutum</i>	<i>Buchanania macrocarpa</i>
<i>Blechnum</i> sp.	<i>Buchnera linearis</i>
<i>Blechnum vittatum</i>	<i>Buchnera urticifolia</i>

<i>Buddleja asiatica</i>	<i>Calanthe finisterrae</i>
<i>Buergeriochloa bambusoides</i>	<i>Calanthe flabelliformis</i>
<i>Buergeriochloa macrophylla</i>	<i>Calanthe flava</i>
<i>Bulbophyllum arfakianum</i>	<i>Calanthe latissimifolia</i>
<i>Bulbophyllum aroides</i>	<i>Calanthe orthocentron</i>
<i>Bulbophyllum blumei</i>	<i>Calanthe sp.</i>
<i>Bulbophyllum chloranthum</i>	<i>Calathaspis sp.</i>
<i>Bulbophyllum desmotrichoides</i>	<i>Calciphilopteris papuana</i>
<i>Bulbophyllum ebulbe</i>	<i>Caldcluvia brassii</i>
<i>Bulbophyllum emiliorum</i>	<i>Caldcluvia celebica</i>
<i>Bulbophyllum fractiflexum</i>	<i>Caldcluvia fulva</i>
<i>Bulbophyllum globiceps</i>	<i>Caldcluvia multiflorum</i>
<i>Bulbophyllum gracillimum</i>	<i>Caldcluvia nymanii</i>
<i>Bulbophyllum grandifolium</i>	<i>Caldcluvia papuana</i>
<i>Bulbophyllum hymenobracteum</i>	<i>Caldcluvia rufa</i>
<i>Bulbophyllum imitator</i>	<i>Calenia conspersa</i>
<i>Bulbophyllum ligua</i>	<i>Calenia depressa</i>
<i>Bulbophyllum longiflorum</i>	<i>Calenia microcarpa</i>
<i>Bulbophyllum macranthoides</i>	<i>Calenia sp.</i>
<i>Bulbophyllum manobilum</i>	<i>Calenia thelotremella</i>
<i>Bulbophyllum melanoxanthum</i>	<i>Callicarpa arborea</i>
<i>Bulbophyllum muscicola</i>	<i>Callicarpa caudata</i>
<i>Bulbophyllum nasica</i>	<i>Callicarpa cumingiana</i>
<i>Bulbophyllum odontoglossum</i>	<i>Callicarpa farinosa</i>
<i>Bulbophyllum orbiculare</i>	<i>Callicarpa longifolia</i>
<i>Bulbophyllum posticum</i>	<i>Callicarpa pedunculata</i>
<i>Bulbophyllum rhopalophorum</i>	<i>Callicarpa pentandra</i>
<i>Bulbophyllum savaiense</i>	<i>Callicarpa sp.</i>
<i>Bulbophyllum sp.</i>	<i>Callicostella papillata</i>
<i>Bulbophyllum streptosepalum</i>	<i>Callitriche papuana</i>
<i>Bulbophyllum teysmannii</i>	<i>Callitriche sp.</i>
<i>Bulbophyllum trirhopalon</i>	<i>Callitriche versua</i>
<i>Bulbophyllum warianum</i>	<i>Callitris rhomboidea</i>
<i>Bulbophyllum werneri</i>	<i>Callitris sp.</i>
<i>Bulbostylis barbata</i>	<i>Calochlaena sp.</i>
<i>Bulbostylis densa</i>	<i>Calochlaena straminea</i>
<i>Bulbostylis sp.</i>	<i>Calochlaena villosa</i>
<i>Burmannia longifolia</i>	<i>Calopadia fusca</i>
<i>Byssoloma leucoblepharum</i>	<i>Calopadia sp.</i>
<i>Cadetia sp.</i>	<i>Calophanoides angustata</i>
<i>Caesalpinia bonduc</i>	<i>Calophanoides zollingeriana</i>
<i>Caesalpinia sp.</i>	<i>Calophyllum collinum</i>
<i>Cajanus cajan</i>	<i>Calophyllum laticostatum</i>
<i>Cajanus reticulatus</i>	<i>Calophyllum leachii</i>
<i>Calamus anomalus</i>	<i>Calophyllum morobensis</i>
<i>Calamus brassii</i>	<i>Calophyllum papuanum</i>
<i>Calamus essigii</i>	<i>Calophyllum pauciflorum</i>
<i>Calamus humboldtianus</i>	<i>Calophyllum soulattrie</i>
<i>Calamus sp.</i>	<i>Calophyllum sp.</i>
<i>Calamus zebrinus</i>	<i>Calophyllum streimannii</i>
<i>Calanthe aceras</i>	<i>Calycacanthus magnusianus</i>
<i>Calanthe engleriana</i>	<i>Calymmodon atrichus</i>

<i>Calymmodon cucullatus</i>	<i>Carex neoguineensis</i>
<i>Calymmodon pergracillimus</i>	<i>Carex perciliata</i>
<i>Calymmodon</i> sp.	<i>Carex</i> sp.
<i>Calymperes dozyanum</i>	<i>Carex subtransversa</i>
<i>Calymperes lonchophyllum</i>	<i>Carex tricholoma</i>
<i>Calymperes palisotii</i>	<i>Carpha alpina</i>
<i>Calymperes tahitense</i>	<i>Carpodetus arboreus</i>
<i>Calymperes tenerum</i>	<i>Carpodetus fuscus</i>
<i>Calyptothecium recurvulum</i>	<i>Carpodetus major</i>
<i>Calyptothecium</i> sp.	<i>Carpodetus montanus</i>
<i>Calyptrocalyx julianettii</i>	<i>Carpodetus</i> sp.
<i>Calyptrocalyx pusillus</i>	<i>Caryota</i> sp.
<i>Calyptrocalyx</i> sp.	<i>Casearia grewiifolia</i>
<i>Calyptrocalyx stenoschista</i>	<i>Casearia pachyphylla</i>
<i>Camellia sinensis</i>	<i>Casearia ripicola</i>
<i>Camptacra gracilis</i>	<i>Casearia</i> sp.
<i>Camptochaete subporotrichoides</i>	<i>Cassia bartoni</i>
<i>Campylopus clemensiae</i>	<i>Cassia pachycarpa</i>
<i>Campylopus introflexus</i>	<i>Cassia renigera</i>
<i>Campylopus involutus</i>	<i>Cassia</i> sp.
<i>Campylopus polytrichoides</i>	<i>Cassytha filiformis</i>
<i>Campylopus</i> sp.	<i>Castanopsis acuminatissima</i>
<i>Cananga odorata</i>	<i>Casuarina equisetifolia</i>
<i>Canarium acutifolium</i>	<i>Casuarina grandis</i>
<i>Canarium asperum</i>	<i>Catillaria</i> sp.
<i>Canarium cestracion</i>	<i>Cayratia</i> sp.
<i>Canarium lamii</i>	<i>Celastrus monospermoides</i>
<i>Canarium maluense</i>	<i>Celastrus novoguineensis</i>
<i>Canarium salomonense</i>	<i>Celastrus</i> sp.
<i>Canarium</i> sp.	<i>Celosia argentea</i>
<i>Canthium korrense</i>	<i>Celtis latifolia</i>
<i>Canthium megistocarpum</i>	<i>Celtis nymanii</i>
<i>Canthium</i> sp.	<i>Celtis philippensis</i>
<i>Canthium suborbiculare</i>	<i>Celtis rigescens</i>
<i>Capillipedium parviflorum</i>	<i>Celtis</i> sp.
<i>Capparis lanceolaris</i>	<i>Cenchrus brownii</i>
<i>Capparis</i> sp.	<i>Centotheca lappacea</i>
<i>Capparis zippeliana</i>	<i>Centotheca latifolia</i>
<i>Carallia brachiata</i>	<i>Centrolepis fascicularis</i>
<i>Cardamine africana</i>	<i>Centrolepis philippinensis</i>
<i>Cardamine altigena</i>	<i>Ceodes</i> sp.
<i>Cardamine papuana</i>	<i>Ceodes umbellifera</i>
<i>Cardamine</i> sp.	<i>Cephalomanes acrosorum</i>
<i>Carex acrophila</i>	<i>Cephalomanes atrovirens</i>
<i>Carex breviculmis</i>	<i>Cephalomanes densinervium</i>
<i>Carex brevis</i>	<i>Cephalomanes javanicum</i>
<i>Carex continua</i>	<i>Cephalomanes obscurum</i>
<i>Carex dioica</i>	<i>Cerastium papuanum</i>
<i>Carex euphlebia</i>	<i>Cerastium</i> sp.
<i>Carex gaudichaudiana</i>	<i>Ceratostylis acutifolia</i>
<i>Carex indica</i>	<i>Ceratostylis calciformis</i>
<i>Carex lacerans</i>	<i>Ceratostylis dischonensis</i>

<i>Ceratostylis flavesiensis</i>	<i>Cinnamomum eugenoliferum</i>
<i>Ceratostylis maboroensis</i>	<i>Cinnamomum frondinii</i>
<i>Ceratostylis sp.</i>	<i>Cinnamomum longepedicellatum</i>
<i>Ceratostylis zaranensis</i>	<i>Cinnamomum massoia</i>
<i>Cerbera floribunda</i>	<i>Cinnamomum sp.</i>
<i>Cerbera inflata</i>	<i>Cissus aristata</i>
<i>Cerbera manghas</i>	<i>Cissus javana</i>
<i>Cetrariopsis sp.</i>	<i>Cissus sp.</i>
<i>Chaerophyllum buwaldianum</i>	<i>Citronella sp.</i>
<i>Chaerophyllum lineare</i>	<i>Citrus macroptera</i>
<i>Chaetomitrium longisetulum</i>	<i>Citrus sp.</i>
<i>Chaetomitrium roemeri</i>	<i>Citrus warburgiana</i>

Palaquium lobbianum	Parmotrema robustum
Palaquium pseudocalophyllum	Parmotrema tinctorum
Palaquium sp.	Parmotrema verrucatum
Palmeria arfakiana	Parsonia burnensis
Palmeria montana	Parsonia curvisepala
Palmeria sp.	Parsonia oligantha
Pandanus adinobotrys	Parsonia sanguinea
Pandanus balenii	Parsonia velutina
Pandanus brassii	Parthenocissus sp.
Pandanus castaneus	Paspalum conjugatum
Pandanus danckelmannianus	Paspalum dilatatum
Pandanus julianettii	Paspalum longifolium
Pandanus krauelianus	Paspalum paniculatum
Pandanus papuanus	Paspalum scrobiculatum
Pandanus sp.	Passiflora aurantia
Pandanus tectorius	Passiflora edulis
Pandorea pandorana	Passiflora foetida
Pandorea sp.	Passiflora sp.
Pangium edule	Patersonia novoguineensis
Panicum incomtum	Pavetta platyclada
Panicum mindanaense	Pavetta sp.
Panicum sarmentosum	Pedilochilus alpinum
Paphiopedilum violascens	Pedilochilus sp.
Papuacedrus papuana	Pedilonum auroroseum
Papuacedrus sp.	Pedilonum caliculi-mentum
Papuechites aambe	Pedilonum lawesii
Paraderris montana	Pedilonum macrogenion
Parahebe diosmoides	Pedilonum roseipes
Parahebe ledenfeldii	Pedilonum smilliae
Parahebe rubra	Pedilonum uncinatum
Parahebe sp.	Pedilonum verruculosum
Parahebe tenuis	Pennisetum macrostachys
Paramapania parvibractea	Pennisetum purpureum
Pararchidendron pruinosa	Pentaphalangium sp.
Parartocarpus sp.	Pentaphragma sp.
Parartocarpus streblus	Peperomia brassii
Parartocarpus venenosa	Peperomia elmeri
Paraserianthes falcataria	Peperomia gemella
Paraserianthes lophantha	Peperomia gurakorana
Parasponia rugosa	Peperomia laevifolia
Parathelypteris beddomei	Peperomia marivelesana
Parathelypteris sp.	Peperomia microstachya
Parietaria debilis	Peperomia muscicola
Parietaria sp.	Peperomia pupurea
Parmelia gloriosa	Peperomia saxatilis
Parmeliella brisbanensis	Peperomia sp.

<i>Sphenostemon papuanum</i>	<i>Stylosanthes sp.</i>
<i>Sphenostemon sp.</i>	<i>Styphelia brassii</i>
<i>Spiranthes sinensis</i>	<i>Styphelia sp.</i>
<i>Spiridens perichaetialis</i>	<i>Sundacarpus amarus</i>
<i>Spiridens reinwardtii</i>	<i>Swertia papuana</i>
<i>Spiridens sp.</i>	<i>Sycopsis dunnii</i>
<i>Spondias cytherea</i>	<i>Symbegonia sp.</i>
<i>Sporobolus natalensis</i>	<i>Symplocos cochinchinensis</i>

Symplocos sp.	Syzygium pyriforme
Symplocos thwaitesii	Syzygium pyrocarpum
Synedrella nodiflora	Syzygium Raba Raba
Syngamma quinata	Syzygium racemoides
Syngamma schlechteri	Syzygium richardsonianum
Syrrhopodon albo-vaginatus	Syzygium robbinsii
Syrrhopodon confertus	Syzygium roemerii
Syrrhopodon croceus	Syzygium Saru River
Syrrhopodon hispidissimus	Syzygium schumannianum
Syrrhopodon involutus	Syzygium sessiliflorum
Syrrhopodon loreus	Syzygium sogerense
Syrrhopodon muelleri	Syzygium sp.
Syrrhopodon tristichus	Syzygium stipulare
Syzygium acuminatissimum	Syzygium subalatum
Syzygium adelphicum	Syzygium sylvicola
Syzygium alatum	Syzygium taeniatum
Syzygium Ana Village	Syzygium Timne
Syzygium aqueum	Syzygium trivene
Syzygium Biniguni	Syzygium Tuamina Hill
Syzygium Bordi	Syzygium Tufi
Syzygium branderhorstii	Syzygium unplaced furfuraceum group
Syzygium buettnerianum	Syzygium vaccinioides
Syzygium busuense	Syzygium verniciflorum
Syzygium Cameron Plateau	Syzygium Wakaia
Syzygium claviflorum	Syzygium womersleyii
Syzygium coalitum	Syzygium zhenghei
Syzygium effusum	Tabernaemontana aurantiaca
Syzygium fibrosum	Tabernaemontana montana
Syzygium furfuraceum	Tabernaemontana orientalis
Syzygium gonathanthum	Tabernaemontana pandacaqui
Syzygium grandifolium	Tabernaemontana sp.
Syzygium homichlophilum	Tadehagi triquetrum
Syzygium hylochare	Taeniophyllum malianum
Syzygium hylophilum	Taeniophyllum sp.
Syzygium Keglsugl	Taenitis blechnoides
Syzygium kipidamasii	Taenitis hookeri
Syzygium Kokoda	Taenitis pinnata
Syzygium lagerstroemioides	Tagetes minuta
Syzygium laqueatum	Tainia sp.
Syzygium longipes	Tapeinidium novoguineense
Syzygium malaccense	Tapeinidium sp.
Syzygium Mo River	Tapeinochilos acaulis
Syzygium Mt. Suckling	Tapeinochilos pubescens
Syzygium naiadum	Tapeinochilos takeuchii
Syzygium normanbiense	Tapeinosperma sp.
Syzygium nutans	Tarenna buruensis
Syzygium pallens	Tarenna sp.
Syzygium pergamaceum	Tarenna sp.
Syzygium plumeum	Tasmannia buxifolia
Syzygium porphyrocarpum	Tasmannia cyclopum
Syzygium puberulum	Tasmannia hatamensis
Syzygium pullenii	Tasmannia macrantha

Tasmannia piperita	Themedia intermedia
Tasmannia sp.	Themedia novoguineensis
Taxithelium sp.	Themedia triandra
Tecomanthe dendrophila	Themelium tenuisectum
Tectaria decurrens	Thespesia populnea
Tectaria pubescens	Thespesia robusta
Tectaria siifolia	Thrixspermum amplexicaule
Tectaria sp.	Thrixspermum platystarhys
Tectaria subtriphylla	Thrixspermum sp.
Teijsmanniodendron ahenianum	Thuidium bifarium
Teijsmanniodendron sp.	Thuidium synoicum
Telaranea sp.	Thysananthus fruticosus
Tephrosia candida	Thysanolaena maxima
Tephrosia purpurea	Timonius amungwiwanensis
Tephrosia sp.	Timonius belensis
Terminalia archboldiana	Timonius carrii
Terminalia catappoides	Timonius koikokoensis
Terminalia complanata	Timonius meridionalis
Terminalia copelandii	Timonius merokensis
Terminalia eddowesii	Timonius pubistipulus
Terminalia kaernbachii	Timonius pullenii
Terminalia longespicata	Timonius sp.
Terminalia microcarpa	Timonius sylvestris
Terminalia papuana	Timonius timon
Terminalia rubiginosa	Tithonia diversifolia
Terminalia sepicana	Todea papuana
Terminalia sogerensis	Toechima erythrocarpum
Ternstroemia carinata	Toechima livescens
Ternstroemia cherryi	Toechima sp.
Ternstroemia megacarpa	Toona ciliata
Ternstroemia merrilliana	Toona sureni
Ternstroemia rehderiana	Torrenticola queenslandica
Ternstroemia sp.	Toxocarpus sp.
Tetracera nordtiana	Trachoma stellata
Tetramolopium alinae	Trachyloma indicum
Tetramolopium cinereum	Trachyloma sp.
Tetramolopium flaccidum	Trachymene adenodes
Tetramolopium macrum	Trachymene rosulans
Tetramolopium pumilum	Trachymene saniculifolia
Tetramolopium spathulatum	Trachymene sp.
Tetrastigma dichotomum	Trachymene tripartita
Tetrastigma maluense	Trachyrhizum sp.
Tetrastigma pergamaceum	Trachythecium verrucosum
Tetrastigma sp.	Trema cannabina
Thaleropia hypargyrea	Trema orientalis
Thecanthes cornucopiae	Trema sp.
Thelasis carinata	Trema vieillardii
Thelotrema sp.	Trema virgata
Thelymitra papuana	Trianthema portulacastrum
Thelymitra sp.	Trichadenia philippinensis
Thelypteris beddornei	Trichaptum biforme
Thelypteris sp.	Tricharia helminthospora

<i>Tricharia</i> sp.	<i>Uncinia riparia</i>
<i>Trichocolea</i> sp.	<i>Uncinia</i> sp.
<i>Trichomanes maximum</i>	<i>Uraria lagopodioides</i>
<i>Trichomanes meifolium</i>	<i>Urceola javanica</i>
<i>Trichomanes obscurum</i>	<i>Urena lobata</i>
<i>Trichomanes wernerii</i>	<i>Uromyrtus brassii</i>
<i>Trichosanthes edulis</i>	<i>Urophylleum brittanicum</i>
<i>Trichosanthes ovigera</i>	<i>Urophylleum</i> sp.
<i>Trichosanthes pulleana</i>	<i>Urostachys brassii</i>
<i>Trichosanthes schlechteri</i>	<i>Utricularia aurea</i>
<i>Trichospermum pleiostigma</i>	<i>Utricularia caerulea</i>
<i>Trichospermum</i> sp.	<i>Uvaria grandiflora</i>
<i>Trichosporum</i> sp.	<i>Vaccinium acrobracteatum</i>
<i>Trichothelium</i> sp.	<i>Vaccinium acutissimum</i>
<i>Trichotosia bracteata</i>	<i>Vaccinium albicans</i>
<i>Trichotosia</i> sp.	<i>Vaccinium amblyandrum</i>
<i>Tridax procumbens</i>	<i>Vaccinium amphoterum</i>
<i>Trigonotis haackei</i>	<i>Vaccinium apiculatum</i>
<i>Trigonotis inoblitia</i>	<i>Vaccinium brassii</i>
<i>Trigonotis papuana</i>	<i>Vaccinium carneolum</i>
<i>Trigonotis procumbens</i>	<i>Vaccinium cornigerum</i>
<i>Trigonotis robusta</i>	<i>Vaccinium cruentum</i>
<i>Trigonotis</i> sp.	<i>Vaccinium finisterrae</i>
<i>Trimenia papuana</i>	<i>Vaccinium hellwigianum</i>
<i>Trimenia</i> sp.	<i>Vaccinium horizontale</i> .
<i>Triplostegia glandulifera</i>	<i>Vaccinium ingens</i>
<i>Tripogon loliiformis</i>	<i>Vaccinium macbainii</i>
<i>Trismegistia rigida</i>	<i>Vaccinium minusculum</i>
<i>Trismegistia</i> sp.	<i>Vaccinium molissimum</i>
<i>Triumfetta annua</i>	<i>Vaccinium molle</i>
<i>Triumfetta pilosa</i>	<i>Vaccinium parvulifolium</i>
<i>Triumfetta rhomboidea</i>	<i>Vaccinium prostratum</i>
<i>Triumfetta semitriloba</i>	<i>Vaccinium</i> sp.
<i>Triumfetta</i> sp.	<i>Vaccinium sparsum</i>
<i>Trochocarpa decockii</i>	<i>Vaccinium stabilipes</i>
<i>Trochocarpa dispersa</i>	<i>Vaccinium striicaule</i>
<i>Trochocarpa nubicola</i>	<i>Vaccinium summifaucis</i>
<i>Trochocarpa papuana</i>	<i>Vacoparis laxiflorum</i>
<i>Trochocarpa</i> sp.	<i>Vaginularia acrocarpa</i>
<i>Trypethelium epileucus</i>	<i>Vaginularia emarginata</i>
<i>Trypethelium</i> sp.	<i>Vaginularia trichoidea</i>
<i>Turpinia brachypetala</i>	<i>Vallisneria</i> sp.
<i>Turpinia pentandra</i>	<i>Vandenboschia maxima</i>
<i>Turpinia</i> sp.	<i>Vandopsis wariana</i>
<i>Tylimanthus saccatus</i>	<i>Vavaea amicorum</i>
<i>Tylimanthus</i> sp.	<i>Vavaea</i> sp.
<i>Tylophora cissoides</i>	<i>Ventilago microcarpa</i>
<i>Uncaria cordata</i>	<i>Vernonia arborea</i>
<i>Uncaria lanosa</i>	<i>Vernonia cuneata</i>
<i>Uncaria sclerophylla</i>	<i>Vernonia lanceolata</i>
<i>Uncaria</i> sp.	<i>Vernonia</i> sp.
<i>Uncinia compacta</i>	<i>Veronica archboldii</i>

<i>Veronica diosmoides</i>	<i>Wikstroemia</i> sp.
<i>Versteegia cauliflora</i>	<i>Wilkiea foremanii</i>
<i>Vigna</i> sp.	<i>Wilsoniella decipiens</i>
<i>Villebrunea</i> sp.	<i>Wollastonina biflora</i>
<i>Viola arcuata</i>	<i>Xanthomyrtus calytrichoides</i>
<i>Viola betonicifolia</i>	<i>Xanthomyrtus fasciculata</i>
<i>Viola kjellbergii</i>	<i>Xanthomyrtus flava</i>
<i>Viola papuana</i>	<i>Xanthomyrtus klossii</i>
<i>Viola</i> sp.	<i>Xanthomyrtus montis-sucklingii</i>
<i>Viscum katikianum</i>	<i>Xanthomyrtus papuana</i>
<i>Viscum ovalifolium</i>	<i>Xanthomyrtus polyclada</i>
<i>Viscum</i> sp.	<i>Xanthomyrtus schlechteri</i>
<i>Vitex cofassus</i>	<i>Xanthomyrtus</i> sp.
<i>Vitex</i> sp.	<i>Xanthophyllum amoenum</i>
<i>Vittaria angustifolia</i>	<i>Xanthophyllum papuanum</i>
<i>Vittaria elongata</i>	<i>Xanthophyllum</i> sp.
<i>Vittaria latissima</i>	<i>Xanthophyllum suberosum</i>
<i>Vittaria nymani</i>	<i>Xanthophytum nitens</i>
<i>Vittaria</i> sp.	<i>Xanthophytum papuanum</i>
<i>Vittaria squamosipes</i>	<i>Xiphopteris glandulosopilosa</i>
<i>Voacanga grandifolia</i>	<i>Xiphopteris</i> sp.
<i>Voacanga</i> sp.	<i>Xylaria</i> sp.
<i>Wahlenbergia confusa</i>	<i>Xylopia</i> sp.
<i>Wahlenbergia marginata</i>	<i>Xyris oligantha</i>
<i>Wahlenbergia papuana</i>	<i>Xyris</i> sp.
<i>Wedelia spilanthoides</i>	<i>Youngia japonica</i>
<i>Weinmannia blumei</i>	<i>Zanthoxylum conspersipunctatum</i>
<i>Welchiodendron longivalve</i>	<i>Zanthoxylum novoguineense</i>
<i>Wendlandia buddleacea</i>	<i>Zanthoxylum ovalifolium</i>
<i>Wendlandia paniculata</i>	<i>Zanthoxylum pluviatile</i>
<i>Wendlandia</i> sp.	<i>Zehneria cissymbium</i>
<i>Wenzelia tenuifolia</i>	<i>Zygogynum calothyrsum</i>
<i>Wijkia</i> sp.	<i>Zygogynum</i> sp.
<i>Wikstroemia androsaemifolia</i>	
<i>Wikstroemia indica</i>	

13.27 Appendix 27 - Amphibians of the Owen Stanley Range (98 spp.)

<i>Albericus gunnari</i>	<i>Litoria chloristoma</i>
<i>Albericus sanguinopictus</i>	<i>Litoria congenita</i>
<i>Albericus valkuriarum</i>	<i>Litoria genimaculata</i>
<i>Aphantophryne minuta</i>	<i>Litoria graminea</i>
<i>Aphantophryne pansa</i>	<i>Litoria impura</i>
<i>Aphantophryne sabini</i>	<i>Litoria infrafrenata</i>
<i>Austrochaperina brevipes</i>	<i>Litoria lodesdema</i>
<i>Austrochaperina palmipes</i>	<i>Litoria michaeltyleri</i>
<i>Barygenys atra</i>	<i>Litoria micromembrana</i>
<i>Barygenys cheesmanna</i>	<i>Litoria modica</i>
<i>Barygenys maculata</i>	<i>Litoria nasuta</i>
<i>Barygenys resima</i>	<i>Litoria nigropunctata</i>
<i>Callulops doriae</i>	<i>Litoria ollauro</i>
<i>Callulops undiagnosed</i>	<i>Litoria prora</i>
<i>Cophixalus ateles</i>	<i>Litoria pygmaea</i>
<i>Cophixalus cheesmanna</i>	<i>Litoria robinsonae</i>
<i>Cophixalus cryptotympanum</i>	<i>Litoria thesaurensis</i>
<i>Cophixalus daymani</i>	<i>Litoria timida</i>
<i>Cophixalus desticans</i>	<i>Litoria vocivincens</i>
<i>Cophixalus iovaorum</i>	<i>Litoria wollastoni</i>
<i>Cophixalus nexipus</i>	<i>Mantophryne lateralis</i>
<i>Cophixalus sisyphus</i>	<i>Nyctimystes calcaratus</i>
<i>Cophixalus sphagnicola</i>	<i>Nyctimystes cheesmani</i>
<i>Cophixalus timidus</i>	<i>Nyctimystes daymani</i>
<i>Cophixalus variabilis</i>	<i>Nyctimystes forcula</i>
<i>Cophixalus verecundus</i>	<i>Nyctimystes gularis</i>
<i>Cophixalus verrucosus</i>	<i>Nyctimystes humeralis</i>
<i>Copiula fistulans</i>	<i>Nyctimystes kubori</i>
<i>Copiula minor</i>	<i>Nyctimystes latratus</i>
<i>Copiula oxyrhina</i>	<i>Nyctimystes myolae</i>
<i>Genyophryne thomsoni</i>	<i>Nyctimystes ocreptus</i>
<i>Hylarana arfaki</i>	<i>Nyctimystes papua</i>
<i>Hylarana daemeli</i>	<i>Nyctimystes persimilis</i>
<i>Hylarana garritor</i>	<i>Nyctimystes pulcher</i>
<i>Hylarana grisea</i>	<i>Nyctimystes semipalmatus</i>
<i>Hylarana milneana</i>	<i>Nyctimystes trachydermis</i>
<i>Hylarana papua</i>	<i>Oreophryne anthonyi</i>
<i>Hylarana supragrisea</i>	<i>Oreophryne geislerorum</i>
<i>Hylarana waliesa</i>	<i>Oreophryne kampeni</i>
<i>Hylophorus rufescens</i>	<i>Oreophryne loriae</i>
<i>Lechriodus aganoposis</i>	<i>Oxydactyla crassa</i>
<i>Lechriodus melanopyga</i>	<i>Paedophryne amauensis</i>
<i>Liophryne dentata</i>	<i>Paedophryne dekot</i>
<i>Liophryne magnitypanum</i>	<i>Paedophryne kathismaphlox</i>
<i>Liophryne rhododactyla</i>	<i>Paedophryne verrucosa</i>
<i>Liophryne similis</i>	<i>Pherohapsis menziesi</i>
<i>Litoria angiana</i>	<i>Platymantis papuensis</i>
<i>Litoria arfakiana</i>	<i>Rhinella marina</i>
<i>Litoria cf. bicolor</i>	<i>Sphenophryne cornuta</i>

13.28 Appendix 28 - Reptiles of the Owen Stanley Range (126 spp.)

<i>Acanthophis laevis</i>	<i>Glaphyromorphus nigricaudis</i>
<i>Acutotyphlops solomonis</i>	<i>Hemidactylus frenatus</i>
<i>Aspidomorphus lineaticollis</i>	<i>Hemidactylus garnotii</i>
<i>Aspidomorphus muelleri</i>	<i>Hemiphyllodactylus typus</i>
<i>Boiga irregularis</i>	<i>Hypsilurus dilophus</i>
<i>Bothrocophias meridionalis</i>	<i>Hypsilurus modestus</i>
<i>Candoia aspera</i>	<i>Hypsilurus papuensis</i>
<i>Candoia paulsoni</i>	<i>Indotyphlops braminus</i>
<i>Carlia bicarinata</i>	<i>Lamprolepis smaragdina</i>
<i>Carlia eothen</i>	<i>Lepidodactylus lugubris</i>
<i>Carlia luctuosa</i>	<i>Lepidodactylus novaeguineae</i>
<i>Carlia mysi</i>	<i>Lepidodactylus orientalis</i>
<i>Chelodina pritchardi</i>	<i>Lialis burtonis</i>
<i>Crocodylus novaeguineae</i>	<i>Lialis jicari</i>
<i>Crocodylus porosus</i>	<i>Liasis papuana</i>
<i>Cryptoblepharus virgatus</i>	<i>Lipinia longiceps</i>
<i>Cryptoblepharus yulensis</i>	<i>Lipinia noctua</i>
<i>Cyrtodactylus epiroticus</i>	<i>Lipinia pulchra</i>
<i>Cyrtodactylus loriae</i>	<i>Lobulia alpina</i>
<i>Demansia vestigiata</i>	<i>Lobulia elegans</i>
<i>Dendrelaphis calligaster</i>	<i>Lobulia subalpina</i>
<i>Dendrelaphis gastrostictus</i>	<i>Lophognathus temporalis</i>
<i>Dendrelaphis lineolatus</i>	<i>Lygisaurus curtus</i>
<i>Dendrelaphis macrops</i>	<i>Lygisaurus macfarlani</i>
<i>Elseya schultzei</i>	<i>Micropechis ikaheka</i>
<i>Emoia atrocostata</i>	<i>Morelia viridis</i>
<i>Emoia caeruleocauda</i>	<i>Oxyuranus scutellatus</i>
<i>Emoia jakati</i>	<i>Papuascincus morokanus</i>
<i>Emoia kordoana</i>	<i>Papuascincus stanleyanus</i>
<i>Emoia longicauda</i>	<i>Pelochelys bibroni</i>
<i>Emoia obscura</i>	<i>Prasinohaema flavipes</i>
<i>Emoia pallidiceps</i>	<i>Prasinohaema prehensicauda</i>
<i>Emoia physicae</i>	<i>Prasinohaema semoni</i>
<i>Emoia physicina</i>	<i>Prasinohaema virens</i>
<i>Emoia popei</i>	<i>Pseudechis papuanus</i>
<i>Emoia submetallica</i>	<i>Pseudonaja textilis</i>
<i>Emydura subglobosa</i>	<i>Simalia amethystina</i>
<i>Eugongylus rufescens</i>	<i>Simalia boeleni</i>
<i>Foja bumui</i>	<i>Sphenomorphus aignanus</i>
<i>Fordonia leucobalia</i>	<i>Sphenomorphus annectens</i>
<i>Furina tristis</i>	<i>Sphenomorphus anotus</i>
<i>Gehyra insulensis</i>	<i>Sphenomorphus aruensis</i>
<i>Gehyra membranacruralis</i>	<i>Sphenomorphus darlingtoni</i>
<i>Gehyra papuana complex</i>	<i>Sphenomorphus derooyae</i>
<i>Gekko vittatus</i>	<i>Sphenomorphus forbesii</i>
<i>Gerrhopilus depressiceps</i>	<i>Sphenomorphus fragilis</i>
<i>Gerrhopilus fredparkeri</i>	<i>Sphenomorphus fuscolineatus</i>
<i>Gerrhopilus inornatus</i>	<i>Sphenomorphus granulatus</i>
<i>Gerrhopilus mcdowelli</i>	<i>Sphenomorphus jobiensis</i>

<i>Sphenomorphus loriae</i>	<i>Toxicocalamus stanleyanus</i>
<i>Sphenomorphus microtympanus</i>	<i>Tropidonophis aenigmaticus</i>
<i>Sphenomorphus minutus</i>	<i>Tropidonophis doriae</i>
<i>Sphenomorphus nigrolineatus</i>	<i>Tropidonophis mairii</i>
<i>Sphenomorphus oligolepis</i>	<i>Tropidonophis multiscutellatus</i>
<i>Sphenomorphus papuae</i>	<i>Tropidonophis novaeguineae</i>
<i>Sphenomorphus pratti</i>	<i>Tropidonophis picturatus</i>
<i>Sphenomorphus simus</i>	<i>Tropidonophis statisticus</i>
<i>Sphenomorphus solomonis</i>	<i>Varanus finschi</i>
<i>Stegonotus cucullatus</i>	<i>Varanus indicus</i>
<i>Stegonotus diehli</i>	<i>Varanus jobiensis</i>
<i>Stegonotus modestus</i>	<i>Varanus prasinus</i>
<i>Stegonotus parvus</i>	<i>Varanus salvadorii</i>
<i>Tiliqua gigas</i>	
<i>Toxicocalamus loriae</i>	

13.29 Appendix 29 - Birds of the Owen Stanley Range (485 spp.)

<i>Acanthiza murina</i>	<i>Aviceda subcristata</i>
<i>Accipiter cirrocephalus</i>	<i>Aythya australis</i>
<i>Accipiter fasciatus</i>	<i>Butorides striata</i>
<i>Accipiter hiogaster</i>	<i>Cacatua galerita</i>
<i>Accipiter melanochlamys</i>	<i>Cacomantis castaneiventris</i>
<i>Accipiter meyerianus</i>	<i>Cacomantis flabelliformis</i>
<i>Accipiter poliocephalus</i>	<i>Cacomantis variolosus</i>
<i>Acrocephalus stentoreus</i>	<i>Calidris alba</i>
<i>Actitis hypoleucos</i>	<i>Calidris falcinellus</i>
<i>Aegotheles albieri</i>	<i>Calidris ruficollis</i>
<i>Aegotheles bennettii</i>	<i>Calidris tenuirostris</i>
<i>Aegotheles cristatus</i>	<i>Caliechthrus leucolophus</i>
<i>Aegotheles insignis</i>	<i>Campochera sloetii</i>
<i>Aegotheles tatei</i>	<i>Caprimulgus macrurus</i>
<i>Aepyornis arfakianus</i>	<i>Casuarius bennetti</i>
<i>Aerodramus hirundinaceus</i>	<i>Casuarius casuarius</i>
<i>Aerodramus nuditarsus</i>	<i>Centropus menbeki</i>
<i>Aerodramus vanikorensis</i>	<i>Centropus phasianinus</i>
<i>Ailuroedus buccoides</i>	<i>Ceyx azureus</i>
<i>Ailuroedus melanotis</i>	<i>Ceyx pusillus</i>
<i>Alcedo atthis</i>	<i>Ceyx solitarius</i>
<i>Aleadryas rufinucha</i>	<i>Chaetorhynchus papuensis</i>
<i>Alisterus chloropterus</i>	<i>Chalcites basalis</i>
<i>Alopecoenas beccarii</i>	<i>Chalcites lucidus</i>
<i>Alopecoenas jobiensis</i>	<i>Chalcites megarhynchus</i>
<i>Amalocichla incerta</i>	<i>Chalcites meyerii</i>
<i>Amalocichla sclateriana</i>	<i>Chalcites minutillus</i>
<i>Amaurornis cinerea</i>	<i>Chalcites ruficollis</i>
<i>Amaurornis moluccana</i>	<i>Chalcophaps longirostris</i>
<i>Amblyornis macgregoriae</i>	<i>Chalcophaps stephani</i>
<i>Amblyornis subalaris</i>	<i>Chalcositta scintillata</i>
<i>Anas gracilis</i>	<i>Charadrius leschenaultii</i>
<i>Anas superciliosa</i>	<i>Charadrius mongolus</i>
<i>Anhinga novaehollandiae</i>	<i>Charadrius veredus</i>
<i>Anthus gutturalis</i>	<i>Charmosyna placensis</i>
<i>Anthus novaeseelandiae</i>	<i>Charmosyna pulchella</i>
<i>Aplonis cantoroides</i>	<i>Charmosyna stellae</i>
<i>Aplonis metallica</i>	<i>Charmosyna wilhelminae</i>
<i>Apus pacificus</i>	<i>Chlamydera cerviniventris</i>
<i>Aquila gurneyi</i>	<i>Chlidonias hybrida</i>
<i>Ardea alba</i>	<i>Cicinnurus magnificus</i>
<i>Ardea pacifica</i>	<i>Cicinnurus regius</i>
<i>Ardea plumifera</i>	<i>Cinclosoma ajax</i>
<i>Ardea sumatrana</i>	<i>Circus approximans</i>
<i>Arenaria interpres</i>	<i>Circus spilocephalus</i>
<i>Arses telescopthalmus</i>	<i>Cisticola exilis</i>
<i>Artamus leucorynchus</i>	<i>Clytoceyx rex</i>
<i>Artamus maximus</i>	<i>Clytomyias insignis</i>
<i>Astrapia stephaniae</i>	<i>Cnemophilus loriae</i>

<i>Cnemophilus macgregorii</i>	<i>Erythrogonyx cinctus</i>
<i>Collocalia esculenta</i>	<i>Erythrorchis buergersi</i>
<i>Colluricincla harmonica</i>	<i>Erythrura papuana</i>
<i>Colluricincla megarhyncha</i>	<i>Erythrura trichroa</i>
<i>Columba vitiensis</i>	<i>Eudynamys orientalis</i>
<i>Conopophila albogularis</i>	<i>Eugerygone rubra</i>
<i>Coracina boyeri</i>	<i>Eulacestoma nigropectus</i>
<i>Coracina caeruleogrisea</i>	<i>Eurostopodus archboldi</i>
<i>Coracina incerta</i>	<i>Eurostopodus mystacalis</i>
<i>Coracina lineata</i>	<i>Eurostopodus papuensis</i>
<i>Coracina longicauda</i>	<i>Eurystomus orientalis</i>
<i>Coracina melas</i>	<i>Falco berigora</i>
<i>Coracina novaehollandiae</i>	<i>Falco cenchroides</i>
<i>Coracina papuensis</i>	<i>Falco longipennis</i>
<i>Coracina schisticeps</i>	<i>Falco peregrinus</i>
<i>Coracina tenuirostris</i>	<i>Falco severus</i>
<i>Cormobates placens</i>	<i>Fulica atra</i>
<i>Corvus orru</i>	<i>Gallicolumba rufigula</i>
<i>Corvus tristis</i>	<i>Gallinago megala</i>
<i>Cracticus cassicus</i>	<i>Gallinula tenebrosa</i>
<i>Cracticus mentalis</i>	<i>Gelochelidon macrotarsa</i>
<i>Cracticus quoyi</i>	<i>Gelochelidon nilotica</i>
<i>Crateroscelis murina</i>	<i>Geoffroyus geoffroyi</i>
<i>Crateroscelis nigrorufa</i>	<i>Geoffroyus simplex</i>
<i>Crateroscelis robusta</i>	<i>Geopelia humeralis</i>
<i>Cuculus saturatus</i>	<i>Geopelia placida</i>
<i>Cyclopsitta amabilis</i>	<i>Gerygone chloronota</i>
<i>Cyclopsitta diophthalma</i>	<i>Gerygone chrysogaster</i>
<i>Cyclopsitta melanogenia</i>	<i>Gerygone cinerea</i>
<i>Dacelo gaudichaud</i>	<i>Gerygone levigaster</i>
<i>Dacelo leachii</i>	<i>Gerygone magnirostris</i>
<i>Daphoenositta chrysoptera</i>	<i>Gerygone olivacea</i>
<i>Daphoenositta miranda</i>	<i>Gerygone palpebrosa</i>
<i>Dendrocygna arcuata</i>	<i>Gerygone ruficollis</i>
<i>Dendrocygna guttata</i>	<i>Glareola maldivarum</i>
<i>Dicaeum gelvinkianum</i>	<i>Glycichaera fallax</i>
<i>Dicrurus bracteatus</i>	<i>Goura scheepmakeri</i>
<i>Drymodes superciliaris</i>	<i>Goura victoria</i>
<i>Ducula chalconota</i>	<i>Grallina bruijni</i>
<i>Ducula pinon</i>	<i>Gymnocrex plumbeiventris</i>
<i>Ducula rufigaster</i>	<i>Gymnophaps albertisii</i>
<i>Ducula spilorrhoea</i>	<i>Haematopus longirostris</i>
<i>Ducula zoeae</i>	<i>Haliaeetus leucogaster</i>
<i>Eclectus roratus</i>	<i>Haliastur indus</i>
<i>Egretta garzetta</i>	<i>Haliastur sphenurus</i>
<i>Egretta novaehollandiae</i>	<i>Harpyopsis novaeguineae</i>
<i>Egretta picata</i>	<i>Hemiprocne mystacea</i>
<i>Egretta sacra</i>	<i>Henicopernis longicauda</i>
<i>Elanus caeruleus</i>	<i>Henicophaps albifrons</i>
<i>Eopsaltria pulverulenta</i>	<i>Heteromyias albispecularis</i>
<i>Epimachus albertisi</i>	<i>Hieraetus weiskei</i>
<i>Epimachus meyeri</i>	<i>Himantopus himantopus</i>

<i>Hirundapus caudacutus</i>	<i>Melampitta gigantea</i>
<i>Hirundo ariel</i>	<i>Melampitta lugubris</i>
<i>Hirundo daurica</i>	<i>Melanocharis arfakiana</i>
<i>Hirundo nigricans</i>	<i>Melanocharis longicauda</i>
<i>Hirundo rustica</i>	<i>Melanocharis nigra</i>
<i>Hirundo tahitica</i>	<i>Melanocharis striativentris</i>
<i>Hydroprogne caspia</i>	<i>Melanocharis versteri</i>
<i>Hypotaenidia philippensis</i>	<i>Melidectes belfordi</i>
<i>Ifrita kowaldi</i>	<i>Melidectes fuscus</i>
<i>Irediparra gallinacea</i>	<i>Melidectes ochromelas</i>
<i>Ixobrychus flavicollis</i>	<i>Melidectes rufocrissalis</i>
<i>Ixobrychus sinensis</i>	<i>Melidectes torquatus</i>
<i>Lalage leucomela</i>	<i>Melidora macrorrhina</i>
<i>Lalage tricolor</i>	<i>Melilestes megarhynchus</i>
<i>Lanius schach</i>	<i>Meliphaga albonotata</i>
<i>Lewinia pectoralis</i>	<i>Meliphaga analoga</i>
<i>Lichenostomus flavescens</i>	<i>Meliphaga aruensis</i>
<i>Lichenostomus obscurus</i>	<i>Meliphaga flavigrictus</i>
<i>Lichenostomus subfrenatus</i>	<i>Meliphaga gracilis</i>
<i>Lichenostomus versicolor</i>	<i>Meliphaga mimikae</i>
<i>Lichmera alboauricularis</i>	<i>Meliphaga montana</i>
<i>Limosa lapponica</i>	<i>Meliphaga orientalis</i>
<i>Limosa limosa</i>	<i>Melipotes fumigatus</i>
<i>Loboparadisea sericea</i>	<i>Melithreptus albogularis</i>
<i>Locustella fasciolata</i>	<i>Merops ornatus</i>
<i>Lonchura caniceps</i>	<i>Merops philippinus</i>
<i>Lonchura castaneothorax</i>	<i>Microcarbo melanoleucos</i>
<i>Lonchura grandis</i>	<i>Microdynamis parva</i>
<i>Lonchura monticola</i>	<i>Microeca fascinans</i>
<i>Lonchura spectabilis</i>	<i>Microeca flavigaster</i>
<i>Lonchura tristissima</i>	<i>Microeca flavovirescens</i>
<i>Lophorina superba</i>	<i>Microeca griseoceps</i>
<i>Loriculus aurantiifrons</i>	<i>Microeca papuana</i>
<i>Lorius hypoinochrous</i>	<i>Micropsitta bruijnii</i>
<i>Lorius lory</i>	<i>Micropsitta pusio</i>
<i>Macgregoria pulchra</i>	<i>Milvus migrans</i>
<i>Machaerirhynchus flaviventer</i>	<i>Mino anais</i>
<i>Machaerirhynchus nigripectus</i>	<i>Mino dumontii</i>
<i>Macheiramphus alcinus</i>	<i>Monachella muelleriana</i>
<i>Macropygia amboinensis</i>	<i>Monarcha axillaris</i>
<i>Macropygia nigrirostris</i>	<i>Monarcha chrysomela</i>
<i>Malurus alboscipulatus</i>	<i>Monarcha frater</i>
<i>Malurus cyanocephalus</i>	<i>Monarcha guttula</i>
<i>Manucodia ater</i>	<i>Monarcha manadensis</i>
<i>Manucodia chalybatus</i>	<i>Monarcha melanopsis</i>
<i>Manucodia keraudrenii</i>	<i>Motacilla tschutschensis</i>
<i>Mearnsia novaeguineae</i>	<i>Myiagra alecto</i>
<i>Megaloprepia magnifica</i>	<i>Myiagra cyanoleuca</i>
<i>Megalurus macrurus</i>	<i>Myiagra rubecula</i>
<i>Megapodius decollatus</i>	<i>Myiagra ruficollis</i>
<i>Megapodius reinwardt</i>	<i>Myzomela adolphinae</i>
<i>Megatriorchis doriae</i>	<i>Myzomela cruentata</i>

<i>Myzomela eques</i>	<i>Philemon novaeguineae</i>
<i>Myzomela erythrocephala</i>	<i>Phylloscopus poliocephalus</i>
<i>Myzomela nigrita</i>	<i>Pitohui cristatus</i>
<i>Myzomela obscura</i>	<i>Pitohui dichrous</i>
<i>Myzomela rosenbergii</i>	<i>Pitohui ferrugineus</i>
<i>Nectarinia aspasia</i>	<i>Pitohui kirhocephalus</i>

<i>Otidiphaps cervicalis</i>	<i>Psittacula madaraszi</i>
<i>Pachycare flavogriseum</i>	<i>Psittacula picta</i>
<i>Pachycephala aurea</i>	<i>Psittaculirostris cervicalis</i>
<i>Pachycephala hyperythra</i>	<i>Psitteuteles goldiei</i>
<i>Pachycephala leucogastra</i>	<i>Psittrichas fulgidus</i>
<i>Pachycephala melanura</i>	<i>Ptilinopus aurantiifrons</i>
<i>Pachycephala modesta</i>	<i>Ptilinopus coronulatus</i>
<i>Pachycephala monacha</i>	<i>Ptilinopus gestroi</i>
<i>Pachycephala schlegelii</i>	<i>Ptilinopus iozonus</i>
<i>Pachycephala simplex</i>	<i>Ptilinopus nainus</i>
<i>Pachycephala soror</i>	<i>Ptilinopus perlatus</i>
<i>Pachycephalopsis poliosoma</i>	<i>Ptilinopus pulchellus</i>
<i>Pandion haliaetus</i>	<i>Ptilinopus rivoli</i>
<i>Paradisaea raggiana</i>	<i>Ptilinopus superbus</i>
<i>Paradisaea rudolphi</i>	<i>Ptiloprora guisei</i>
<i>Paramythia montium</i>	<i>Ptiloprora meekiana</i>
<i>Parotia helenae</i>	<i>Ptiloprora perstriata</i>
<i>Parotia lawesii</i>	<i>Ptiloprora plumbea</i>
<i>Pelecanus conspicillatus</i>	<i>Ptiloris intercedens</i>
<i>Peltops blainvillii</i>	<i>Ptiloris magnificus</i>
<i>Peltops montanus</i>	<i>Ptilorrhoa caerulescens</i>
<i>Peneothello bimaculata</i>	<i>Ptilorrhoa castanonota</i>
<i>Peneothello cyanus</i>	<i>Ptilorrhoa leucosticta</i>
<i>Peneothello sigillatus</i>	<i>Pycnopygius cinereus</i>
<i>Petroica bivittata</i>	<i>Pycnopygius ixoides</i>
<i>Phalacrocorax sulcirostris</i>	<i>Pycnopygius stictocephalus</i>
<i>Philemon buceroides</i>	<i>Radjah radjah</i>
<i>Philemon meyeri</i>	<i>Rallicula forbesi</i>

<i>Rallina tricolor</i>	<i>Tanysiptera danae</i>
<i>Ramsayornis modestus</i>	<i>Tanysiptera galatea</i>
<i>Reinwardtoena reinwardti</i>	<i>Tanysiptera sylvia</i>
<i>Rhagologus leucostigma</i>	<i>Threskiornis moluccus</i>
<i>Rhamphocharis crassirostris</i>	<i>Threskiornis spinicollis</i>
<i>Rhipidura albolimbata</i>	<i>Timeliopsis fulvigula</i>
<i>Rhipidura atra</i>	<i>Timeliopsis griseigula</i>
<i>Rhipidura brachyrhyncha</i>	<i>Todiramphus chloris</i>
<i>Rhipidura hyperythra</i>	<i>Todiramphus macleayii</i>
<i>Rhipidura leucophrys</i>	<i>Todiramphus nigrocyaneus</i>
<i>Rhipidura leucothorax</i>	<i>Todiramphus sanctus</i>
<i>Rhipidura maculipectus</i>	<i>Todiramphus saurophagus</i>
<i>Rhipidura rufidorsa</i>	<i>Toxorhamphus iliophorus</i>
<i>Rhipidura rufifrons</i>	<i>Toxorhamphus novaeguineae</i>
<i>Rhipidura rufiventris</i>	<i>Toxorhamphus poliopterus</i>
<i>Rhipidura threnothorax</i>	<i>Tregellasia leucops</i>
<i>Rhyticeros plicatus</i>	<i>Trichoglossus haematodus</i>
<i>Salvadorina waigiensis</i>	<i>Tringa brevipes</i>
<i>Saxicola caprata</i>	<i>Tringa glareola</i>
<i>Scolopax rosenbergii</i>	<i>Tringa incana</i>
<i>Scythrops novaehollandiae</i>	<i>Trugon terrestris</i>
<i>Seleucidis melanoleucus</i>	<i>Turdus poliocephalus</i>
<i>Sericornis arfakianus</i>	<i>Turnix maculosus</i>
<i>Sericornis nouhuysi</i>	<i>Tyto alba</i>
<i>Sericornis papuensis</i>	<i>Tyto longimembris</i>
<i>Sericornis perspicillatus</i>	<i>Tyto tenebricosa</i>
<i>Sericornis spilodera</i>	<i>Uroglaux dimorpha</i>
<i>Sipodotus wallacii</i>	<i>Vanellus miles</i>
<i>Sphecotheres vieilloti</i>	<i>Xanthotis flaviventer</i>
<i>Sterna sumatrana</i>	<i>Xanthotis polygrammus</i>
<i>Stiltia isabella</i>	<i>Zapornia pusilla</i>
<i>Sturnus vulgaris</i>	<i>Zapornia tabuensis</i>
<i>Syma megarhyncha</i>	<i>Zonerodius heliosylus</i>
<i>Syma torotoro</i>	<i>Zoothera heinei</i>
<i>Synoicus chinensis</i>	<i>Zosterops atrifrons</i>
<i>Synoicus ypsilophorus</i>	<i>Zosterops novaeguineae</i>
<i>Tachybaptus novaehollandiae</i>	
<i>Talegalla fuscirostris</i>	
<i>Talegalla jobiensis</i>	

13.30 Appendix 30 - Mammals of the Owen Stanley Range (149 spp.)

<i>Anisomys imitator</i>	<i>Melomys leucogaster</i>
<i>Aselliscus tricuspidatus</i>	<i>Melomys lutillus</i>
<i>Cercartetus caudatus</i>	<i>Melomys rufescens</i>
<i>Chaerephon jobensis</i>	<i>Microhydromys argenteus</i>
<i>Chalinolobus nigrogriseus</i>	<i>Microperoryctes longicauda</i>
<i>Chiruromys forbesi</i>	<i>Microperoryctes papuensis</i>
<i>Chiruromys lamia</i>	<i>Miniopterus australis</i>
<i>Chiruromys vates</i>	<i>Miniopterus macrocneme</i>
<i>Coccymys kirrhos</i>	<i>Miniopterus magnater</i>
<i>Coccymys shawmayeri</i>	<i>Miniopterus medius</i>
<i>Crossomys moncktoni</i>	<i>Miniopterus oceanensis</i>
<i>Dactylyonax palpator</i>	<i>Miniopterus tristis</i>
<i>Dactylopsila trivirgata</i>	<i>Mormopterus loriae</i>
<i>Dasyurus albopunctatus</i>	<i>Mosia nigrescens</i>
<i>Dendrolagus dorianus</i>	<i>Murexia habbema</i>
<i>Dendrolagus goodfellowi</i>	<i>Murexia longicaudata</i>
<i>Distroechurus pennatus</i>	<i>Murexia melanurus</i>
<i>Dobsonia minor</i>	<i>Murexia naso</i>
<i>Dobsonia moluccensis</i>	<i>Murexia rothschildi</i>
<i>Dorcopsis luctuosa</i>	<i>Murina florium</i>
<i>Dorcopsulus macleayi</i>	<i>Mus musculus</i>
<i>Dorcopsulus vanheurni</i>	<i>Myoictis leucura</i>
<i>Echymipera kalubu</i>	<i>Myoictus wallacii</i>
<i>Echymipera rufescens</i>	<i>Myotis moluccarum</i>
<i>Emballonura beccarii</i>	<i>Nyctimene aello</i>
<i>Emballonura raffrayana</i>	<i>Nyctimene albiventer</i>
<i>Hipposideros ater</i>	<i>Nyctimene certans</i>
<i>Hipposideros calcaratus</i>	<i>Nyctimene robinsoni</i>
<i>Hipposideros cervinus</i>	<i>Nyctophilus bifax</i>
<i>Hipposideros diadema</i>	<i>Nyctophilus microtis</i>
<i>Hipposideros maggietaaylorae</i>	<i>Otomops papuensis</i>
<i>Hipposideros muscinus</i>	<i>Parahydromys asper</i>
<i>Hipposideros semoni</i>	<i>Paramelomys gressitti</i>
<i>Hydromys chrysogaster</i>	<i>Paramelomys levipes</i>
<i>Hyomys goliath</i>	<i>Paramelomys mollis</i>
<i>Isoodon macrourus</i>	<i>Paramelomys moncktoni</i>
<i>Kerivoula muscina</i>	<i>Paramelomys platyops</i>
<i>Leptomys elegans</i>	<i>Paramelomys rubex</i>
<i>Leptomys ernstmayri</i>	<i>Paranyctimene raptor</i>
<i>Leptomys Paulus</i>	<i>Paranyctimene tenax</i>
<i>Lorentzimys nouhuysi</i>	<i>Peroryctes broadbenti</i>
<i>Macroglossus minimus</i>	<i>Peroryctes raffrayana</i>
<i>Macropus agilis</i>	<i>Petaurus breviceps</i>
<i>Macruromys major</i>	<i>Phalanger carmelitae</i>
<i>Mallomys aroaensis</i>	<i>Phalanger gymnotis</i>
<i>Mallomys istapantap</i>	<i>Phalanger intercastellanus</i>
<i>Mallomys rothschildi</i>	<i>Phalanger sericeus</i>
<i>Mammelomys lanosus</i>	<i>Phalanger vestitus</i>
<i>Melomys dollmani</i>	<i>Phascolosorex dorsalis</i>

<i>Philetor brachypterus</i>	<i>Rattus novaeguineae</i>
<i>Phoniscus papuensis</i>	<i>Rattus rattus</i>
<i>Pipistrellus angulatus</i>	<i>Rattus sordidus</i>
<i>Pipistrellus collinus</i>	<i>Rattus steini</i>
<i>Pipistrellus papuanus</i>	<i>Rattus vandeuseni</i>
<i>Pipistrellus wattsi</i>	<i>Rattus verecundus</i>
<i>Planigale novaeguineae</i>	<i>Rhinolophus euryotis</i>
<i>Pogonomelomys mayeri</i>	<i>Rhinolophus megaphyllus</i>
<i>Pogonomys loriae</i>	<i>Rousettus amplexicaudatus</i>
<i>Pogonomys macrourus</i>	<i>Saccoaimus flaviventris</i>
<i>Pogonomys sylvestris</i>	<i>Scotorepens sanborni</i>
<i>Pseudochirops corinnae</i>	<i>Sminthopsis virginiae</i>
<i>Pseudochirops cupreus</i>	<i>Spilocuscus maculatus</i>
<i>Pseudochirulus canescens</i>	<i>Syconycteris australis</i>
<i>Pseudochirulus forbesi</i>	<i>Syconycteris hobbit</i>
<i>Pseudohydromys berniceae</i>	<i>Tachyglossus aculeatus</i>
<i>Pseudohydromys ellermani</i>	<i>Tadarida kuboriensis</i>
<i>Pseudohydromys germani</i>	<i>Thylogale browni</i>
<i>Pseudohydromys murinus</i>	<i>Thylogale brunii</i>
<i>Pteropus conspicillatus</i>	<i>Thylogale calabyi</i>
<i>Pteropus macrotis</i>	<i>Uromys anak</i>
<i>Pteropus neohibernicus</i>	<i>Uromys caudimaculatus</i>
<i>Rattus exulans</i>	<i>Xenuromys barbatus</i>
<i>Rattus leucopus</i>	<i>Zaglossus bartoni</i>
<i>Rattus mordax</i>	
<i>Rattus niobe</i>	
<i>Rattus norvegicus</i>	

13.31 Appendix 31 – Species Gained When Additional Areas are Added to the Southern Versant of the IPZ:

Species Gained by Adding the North Versant of the IPZ to the South Versant

AMPHIBIANS:

Genyophryne thomsoni
Platymantis papuensis

Prasinohaema semoni

Prasinohaema virens
Sphenomorphus aignanus
Sphenomorphus granulatus

REPTILES:

Cyrtodactylus epiroticus
Emoia jakati
Emoia popei
Gerrhopilus inornatus
Lamprolepis smaragdina
Lipinia longiceps
Lipinia noctua
Lygisaurus curtus

BIRDS:

Cyclopsitta diophthalma
Meliphaga montana
Parotia heleneae

MAMMALS:

Rattus steini

Species Gained by Adding the Albert Edward - Victoria Massif to the IPZ:

AMPHIBIANS:

Aphantophryne pansa
Barygenys atra
Barygenys cheesmanna
Liophryne rhododactyla
Litoria graminea
Nyctimystes ocreptus

BIRDS:

Gallinago megala
Lanius schach

MAMMALS:

Coccymys shawmayeri
Mallomys istapantap
Murexia naso
Myoictis leucura
Myoictus wallacii
Phascolosorex dorsalis
Rattus steini
Thylogale calabyi

Species Gained by Adding the Kenivi Massif to the Albert Edward - Victoria Massif and IPZ

AMPHIBIANS:

Albericus gunnari
Cophixalus sisyphus
Liophryne magnitympanum

MAMMALS:

Pseudohydromys berniceae

13.32 Appendix 32 – Bird Species Observed Along the Kokoda Track by Thane K. Pratt During March–April 2014 (216 spp.)

Casuarius bennetti - Dwarf Cassowary	Ptilinopus bellus - Mountain Fruit-Dove
Aeypodium arfakianus - Wattled Brushturkey	Ptilinopus nainus - Dwarf Fruit-Dove
Talegalla jobiensis - Red-legged Brushturkey	Ducula chalconota - Rufescent Imperial Pigeon
Megapodius decollatus - New Guinea Scrubfowl	Ducula zoeae - Zoe's Imperial Pigeon
Excalfactoria chinensis - King Quail	Gymnophaps albertisii - Papuan Mountain- Pigeon
Salvadorina waigiensis - Salvadori's Teal	Cacatua galerita - Sulphur-crested Cockatoo
Anas superciliosa - Pacific Black Duck	Psittrichas fulgidus - New Guinea Vulturine Parrot
Ardea ibis - Cattle Egret	Psittacula brehmii - Brehm's Tiger-Parrot
Ardea modesta - Eastern Great Egret	Charmosyna pulchella - Fairy Lorikeet
Henicopernis longicauda - Long-tailed Buzzard	Charmosyna stellae - Stella's Lorikeet
Milvus migrans - Black Kite	Neopsittacus musschenbroekii - Yellow- billed Lorikeet
Haliastur indus - Brahminy Kite	Lorius lory - Black-capped Lory
Accipiter hiogaster - Variable Goshawk	Pseudeos fuscata - Dusky Lory
Accipiter cirrocephalus - Collared Sparrowhawk	Trichoglossus haematodus - Rainbow Lorikeet
Erythrotriorchis buergersi - Chestnut- shouldered Goshawk	Alisterus chloropterus - Papuan King-Parrot
Harpyopsis novaeguineae - New Guinea Harpy-Eagle	Eclectus roratus - Eclectus Parrot
Aquila gurneyi - Gurney's Eagle	Geoffroyus geoffroyi - Red-cheeked Parrot
Hieraetus weiskei - Pygmy Eagle	Geoffroyus simplex - Blue-collared Parrot
Falco berigora - Brown Falcon	Micropsitta pusio - Buff-faced Pygmy Parrot
Rallicula forbesi - Forbes's Forest-Rail	Micropsitta bruijnii - Red-breasted Pygmy Parrot
Vanellus miles - Masked Lapwing	Centropus menbeki - Greater Black Coucal
Charadrius dubius - Little Ringed Plover	Centropus phasianinus - Pheasant Coucal
Columba vitiensis - White-throated Pigeon	Eudynamys orientalis - Eastern Koel
Reinwardtoena reinwardti - Great Cuckoo- Dove	Scythrops novaehollandiae - Channel-billed Cuckoo
Macropygia amboinensis - Brown Cuckoo- Dove	Chalcites ruficollis - Rufous-throated Bronze Cuckoo
Macropygia nigrirostris - Black-billed Cuckoo-Dove	Chalcites meyerii - White-eared Bronze Cuckoo
Gallicolumba rufigula - Cinnamon Ground- Dove	Caliechthrus leucolophus - White-crowned Cuckoo
Alopecoenas beccarii - Bronze Ground- Dove	Cacomantis castaneiventris - Chestnut- breasted Cuckoo
Geopelia placida - Peaceful Dove	Cacomantis flabelliformis - Fan-tailed Cuckoo
Trugon terrestris - Thick-billed Ground- Pigeon	Cacomantis variolosus - Brush Cuckoo
Otidiphaps nobilis - Pheasant Pigeon	Tyo tenebricosa - Sooty Owl
Ptilinopus magnificus - Wompoo Fruit-Dove	Ninox theomacha - Papuan Boobook
Ptilinopus ornatus - Ornate Fruit-Dove	Podargus papuensis - Papuan Frogmouth
Ptilinopus superbus - Superb Fruit-Dove	Caprimulgus macrurus - Large-tailed Nightjar
Ptilinopus pulchellus - Beautiful Fruit-Dove	Aegotheles insignis - Feline Owlet-nightjar

Aegotheles albertisi - Mountain Owlet-nightjar	Melidectes ochromelas - Cinnamon-browed Melidectes
Hemiprocne mystacea - Moustached Treeswift	Melidectes belfordi - Belford's Melidectes
Collocalia esculenta - Glossy Swiftlet	Ptilotula flavescens - Yellow-tinted Honeyeater
Aerodramus hirundinaceus - Mountain Swiftlet	Meliphaga orientalis - Mountain Meliphaga
Aerodramus vanikorensis - Uniform Swiftlet	Meliphaga analoga - Mimic Meliphaga
Mearnsia novaeguineae - Papuan Spinetailed Swift	Meliphaga albonotata - Scrub Meliphaga
Eurystomus orientalis - Oriental Dollarbird	Meliphaga vicina - Tagula Meliphaga
Melidora macrorrhina - Hook-billed Kingfisher	Pachycare flavogriseum - Goldenface
Todiramphus sanctus - Sacred Kingfisher	Crateroscelis murina - Rusty Mouse-Warbler
Syma torotoro - Yellow-billed Kingfisher	Crateroscelis robusta - Mountain Mouse-Warbler
Syma megarhyncha - Mountain Kingfisher	Sericornis spilodera - Pale-billed Scrubwren
Merops ornatus - Rainbow Bee-eater	Sericornis nouhuysi - Large Scrubwren
Rhyticeros plicatus - Blyth's Hornbill	Sericornis perspicillatus - Buff-faced Scrubwren
Erythropitta erythrogaster - Red-bellied Pitta	Sericornis papuensis - Papuan Scrubwren
Ailuroedus buccoides - White-eared Catbird	Sericornis arfakianus - Grey-green Scrubwren
Ailuroedus melanotis - Black-eared Catbird	Acanthiza cinerea - Grey Thornbill
Amblyornis subalaris - Streaked Bowerbird	Gerygone chloronota - Green-backed Gerygone
Amblyornis macgregoriae - Macgregor's Bowerbird	Gerygone palpebrosa - Fairy Gerygone
Chlamydera cerviniventris - Fawn-breasted Bowerbird	Gerygone magnirostris - Large-billed Gerygone
Cormobates placens - Papuan Treecreeper	Gerygone ruficollis - Brown-breasted Gerygone
Malurus alboscapulatus - White-shouldered Fairywren	Melanocharis nigra - Black Berryecker
Myzomela rosenbergii - Red-collared Myzomela	Melanocharis versteri - Fan-tailed Berryecker
Myzomela cruentata - Red Myzomela	Toxorhamphus poliopterus - Slaty-headed Longbill
Myzomela adolphinae - Elfin Myzomela	Ptilorrhoa leucosticta - Spotted Jewel-babbler
Ptiloprora guisei - Rufous-backed Honeyeater	Ptilorrhoa caerulescens - Blue Jewel-babbler
Pycnopygius cinereus - Marbled Honeyeater	Ptilorrhoa castanonota - Chestnut-backed Jewel-babbler
Xanthotis flaviventer - Tawny-breasted Honeyeater	Machaerirhynchus nigripectus - Black-breasted Boatbill
Xanthotis polygrammus - Spotted Honeyeater	Peltops montanus - Mountain Peltops
Philemon buceroides - Helmeted Friarbird	Cracticus quoyi - Black Butcherbird
Melipotes fumigatus - Common Smoky Honeyeater	Cracticus mentalis - Black-backed Butcherbird
Melilestes megarhynchus - Long-billed Honeyeater	Cracticus cassicus - Hooded Butcherbird
Timeliopsis fulvigula - Olive Straightbill	Artamus leucorynchus - White-breasted Woodswallow
Conopophila albogularis - Rufous-banded Honeyeater	Artamus maximus - Great Woodswallow
Caligavis subfrenata - Black-throated Honeyeater	
Melidectes torquatus - Ornate Melidectes	

Coracina caeruleogrisea - Stout-billed Cuckooshrike	Phonygammus keraudrenii - Trumpet Manucode
Coracina longicauda - Hooded Cuckooshrike	Manucodia chalybatus - Crinkle-collared Manucode
Coracina papuensis - White-bellied Cuckooshrike	Parotia lawesii - Lawes's Parotia
Lalage leucomela - Varied Triller	Parotia heleneae - Eastern Parotia
Edolisoma montanum - Black-bellied Cicadabird	Ptiloris intercedens - Growling Riflebird
Edolisoma incertum - Papuan Cicadabird	Lophorina superba - Superb Bird of Paradise
Edolisoma schisticeps - Grey-headed Cicadabird	Drepanornis albertisi - Black-billed Sicklebill
Edolisoma melas - Black Cicadabird	Epimachus meyeri - Brown Sicklebill
Rhagologus leucostigma - Mottled Berryhunter	Astrapia stephaniae - Stephanie's Astrapia
Aleadryas rufinucha - Rufous-naped Bellbird	Cicinnurus regius - King Bird of Paradise
Ornorectes cristatus - Piping Bellbird	Diphylloides magnificus - Magnificent Bird of Paradise
Colluricincla megarhyncha - Little Shrikethrush	Paradisaea raggiana - Raggiana Bird of Paradise
Pseudorectes ferrugineus - Rusty Pitohui	Amalocichla incerta - Lesser Ground-Robin
Melanorectes nigrescens - Black Pitohui	Pachycephalopsis poliosoma - White-eyed Robin
Pachycephala schlegelii - Regent Whistler	Eugerygone rubra - Garnet Robin
Pachycephala soror - Sclater's Whistler	Kempiella griseocephala - Yellow-legged Flycatcher
Pachycephala modesta - Brown-backed Whistler	Devioeca papuana - Papuan Flycatcher
Pachycephala simplex - Grey Whistler	Monachella muelleriana - Torrent Flycatcher
Pitohui dichrous	Heteromyias armiti - Black-capped Robin
Hooded Pitohui	Plesiodryas albonotata - Black-throated Robin
Oriolus szalayi - Brown Oriole	Peneothello cyanus - Blue-grey Robin
Myiagra alecto - Shining Flycatcher	Tregellasia leucops - White-faced Robin
Arses telescopthalmus - Frilled Monarch	Hirundo tahitica - Pacific Swallow
Grallina bruijnii - Torrentlark	Phylloscopus poliocephalus - Island Leaf-Warbler
Sympasiachrus axillaris - Fantailed Monarch	Zosterops atrifrons - Black-fronted White-eye
Sympasiachrus guttula - Spot-winged Monarch	Zosterops novaeguineae - New Guinea White-eye
Monarcha frater - Black-winged Monarch	Megalurus macrurus - Papuan Grassbird
Ifrita kowaldi - Blue-capped Ifrit	Cisticola exilis - Golden-headed Cisticola
Dicrurus bracteatus - Spangled Drongo	Aplonis cantoroides - Singing Starling
Chaetorhynchus papuensis - Pygmy Drongo	Saxicola caprata - Pied Bushchat
Rhipidura leucophrys - Willie Wagtail	Dicaeum gelvinkianum - Red-capped Flowerpecker
Rhipidura leucothorax - White-bellied Thicket-Fantail	Leptocoma aspasia - Black Sunbird
Rhipidura brachyrhyncha - Dimorphic Fantail	Cinnyris jugularis - Olive-backed Sunbird
Rhipidura atra - Black Fantail	Passer domesticus - House Sparrow
Rhipidura albolimbata - Friendly Fantail	Passer montanus - Eurasian Tree Sparrow
Rhipidura hyperythra - Chestnut-bellied Fantail	Erythrura trichroa - Blue-faced Parrotfinch
Rhipidura rufiventris - Northern Fantail	Lonchura caniceps - Grey-headed Mannikin
Corvus tristis - Grey Crow	Lonchura castaneothorax - Chestnut-breasted Mannikin
Corvus orru - Torresian Crow	
Melampitta lugubris - Lesser Melampitta
